Went to Mr. Buckner's. The
specimen on page of the Syllabus
received an answer immediately
- packed up all the articles
belonging to the Acad. Socy
+ with Mr Taylor -

Round of calls - Printer
Mitschell - Postic - Fairlie
Crouse - Left the experi-
mental globe with Mr. B.

Mr. C. showed me plan of
the new College which L.

Mr. D. seemed to make out
- Capt. Cook describes a
series of clayey blue shales
in the south

sun and in the hottest weather
It kept well and was good.
+ This Day as formerly advertised
begins the first Term in the
College -

- The English Commodore of the
Mediterranean was requested by the
French to suspend hostilities on
the Day of St. Malo. General
The request from the Colonel upon
was not only readily acquiesced
in, but early in the morning the
Arm of war stood in as close as
it was prudent to be, hoisted their
main top sails to the mast,
lowered their colours and pendons
and hoisted half Staff, and fired
Minute Guns, with the Garrison.
This unexpected compliment from
an enemy, represented the Officers of
all parties in those, that on the next
Day an abundant supply of wine
refreshment was sent of to the ships
with a suitable acknowledgement
- News paper

+ wrote to Dr. Dick an answer
to his letter of yesterday —
I regret much that I am not able a
Physician, so warm a friend, and of
a family where I have spent so
many pleasant hours — They go
down to the ship on Wednesday —
Parting with real friends is painful
I have had my share of this kind
of pain —

— Saw very short Mr L. p.
made a grand circular salutation
as at last seen, and left the
company after a few minutes
conversation with some few
gentlemen —

+ Mr. Edie — Duppey — Dr. Ford
Mr. W. & called

+ A report forwards that the
Court of Directors have set their
face against the Lottery —

— A Chart from Mr. W. wanting
an English Guinea, says that I had
been so kind as to give Mr. C. a few

a letter from Pulo Perang
for a Gentleman in the Navy who
was ordered to repair to Trincom
male on the Expedition to Egypt
— The expedition in the Mediter-
ranean is in all probability
to join them — This I now
think the ^{most} probable prospect
of our Expedition —

+ The Hindu Astronomers in their
writings use strange instead
