John Sturgeson Esq
Captain

There is a chance this may yet find you
unsettled —

I observe there is a Mr. Mill & Daughter
machinery on a ship to be disposed of containing 300
spindles on the Breckerton's plan — Tho the
Machinery are not tried to be good yet possibly they
may be improved and a bargain might be had
— possibly at suit new undertakers — That you
may be able to give a Report of it to Mr God
I would wish you to survey it — which would
also afford you an opportunity of surveying
Cotton working machinery at your leisure
— You could come over on Friday and by hearing
from you by the posts which arrives here

on Friday first I should meet you &
Aughtermighty Saturday forenoon
Mr. Mee belongs to a Mr. Marsh
there — I would also go with
you immediately after to London as
I find my presence is necessary there
as soon as possible

You come to Aughtermighty by Ruyton
or perhaps by the Queen's ferry rather

Yours &c &c
W. Wilson

I'll expect your answer in course
