EDITORIAL

THE college year at Dalhousie has commenced with the largest attendance in the record of the University. The total number of students this term will be well up to the 700 mark. At present, 645 are registered and with the additional Pharmacy students, the number is about 670. At the same time last year, we had 600 registered; and last year's total was 622. Thus, we have an advance of nearly 75 over last year.

This means a greater number of students to take part in all the College activities,—study, athletics, societies, etc. In the division of the activities of the student body, the "Dalhousie Gazette", the first issue of which, for this year, is now in your hands, looks for support. The aim of the editors and reporters is to make the Gazette a true exponent of the feeling of the student body. It is your paper. Make it worthy of yourself and the University.

In the next issue, we propose to give a more detailed account of the system and working of the Gazette. Every individual student will be asked personally to contribute something throughout the college term.

* * *

Last year's editor, S. M. Zinck, is deserving of the thanks of all students for the manner in which he conducted our paper. He merits great credit for getting the paper out on time every week, and for the excellent memorial number that was issued to commemorate the passing of our greatly beloved Chemistry Professor, the late Ebenezer MacKay. Mr. Zinck was painstaking and most careful in his editing and gave practically all his time to the improvement of the Gazette. He was ably assisted by last year's Business Manager, J. W. Godfrey, who greatly improved the financial position of the paper.

The summer just ended has been an important one in the history of the University. The Million Dollar campaign was put on with a swing that brought results despite hard times and "tight money." The College is now financially millions better, although the campaign is still in progress and the latest results are given in a separate article in this issue. Not only did the campaign bring many munificent gifts to the College, but everywhere the University is now well known. In every shire and town in Canada and in many parts of the United States, the fame of Dalhousie has gone forth.

Summer brought us great material gain, but Summer brought the College also a severe personal loss that cannot be replaced. The death of Dr. John Forrest came as a sad blow to the many hundreds of Dalhousians who have known and loved the wonderful personality of that wonderful man. "Lord John" as he was popularly known to all the students, was more than a mere President—more than a College Professor—he was a big whole-hearted friend of every student. In spirit, he was a student of the students. His interest in every activity of the University life never waned from one year to another. His appearance anywhere about the College was always an occasion for the most spontaneous ovation. He loved the students; the students loved him,—and our loss is indeed great!

* * *

Reference should certainly be made to the splendid work carried on by the Y.M.C.A. this year. Every effort possible was put forth to assist new students in getting settled in the city and introduced at College. The distribution of hand books has been more efficient this year. The railway booth at the station was a useful innovation. The members of the Y.M.C.A. Cabinet worked hard to make a success and they have accomplished more than ever before.

* * *

The Students' Council at its very first meeting decided to give greater publicity to the heretofore silent workings of that body. The Gazette has been allowed to send a reporter to all meetings and Mr. K. H. Gray of Law has been appointed reporter. He is *not* a member of the Council and we can expect full reports from him. Each issue of the Gazette will carry an exact account of the latest activities of our Council.

* * *

This is the first issue of the Gazette for the year 1920-21. Receive it, read it, criticize it and help it, and remember in writing for the Gazette—"Sous la forme imprimerie, la pensée est plus impérissable que jamais; elle est volatile, insaisissable." indestructible." (Victor Hugo, "Notre Dame de Paris")—which translated is: "In the form of print, thought becomes more imperishable than ever; it is winged, intangible, indestructible."

SONNET ON REGISTRATION DAY.

The year rolls 'round on its unchanging course,
And brings again the great awak'ning day,
When we must leave our summer's work
and play,
Ofttimes with sadness but without remorse;
For howso'er vacation days were spent,
In useful work or e'en much needed rest,
Full well we know to nought but to the best
Dalhousie's sons and daughters would be
lent.

So now once more upon the green we meet,
And talk of what the coming year may bring,
Old friendships are renewed in clasp of hands,
We laugh, we cheer, old favorite songs we
sing,
As once again with eager yearning feet
We forward press o'er Wisdom's golden
sands.

J. H. T.

* * *

MILLION DOLLAR CAMPAIGN.

"Results Tell—Money Talks."

The campaign for increased endowment has resulted already in the receipt of subscriptions aggregating more than two million two hundred thousand (\$2,200,000) Dollars. While the objective of the campaign was fixed at one million (\$1,000,000) no item was included for the Medical Faculty because at that time the University expected to receive a substantial gift from the Carnegie Corporation. The fondest expectations of the Board of Governors were exceeded when it was announced that in addition to the magnificent gift of the Carnegie Corporation the Rockefeller Foundation would also contribute Five Hundred Thousand (\$500,000) Dollars. Of this Million, Four Hundred Thousand Dollars has been ear-marked for building purposes to include laboratories and an Out Patient Department for all the Hospitals, and Six Hundred Thousand Dollars is for permanent endowment. These gifts will enable the University to greatly improve the facilities for teaching Medicine in Halifax.

In addition to the gifts mentioned above, Mrs. E. B. Eddy contributed Three Hundred Thousand Dollars for a Women's Residence to be called "Sherriff Hall" as a memorial to her parents. The British Empire Steel Corporation subscribed Two Hundred and Fifty Thousand (\$250,000) Dollars to establish a department of Industrial Research. Mr. W. A. Black subscribed Sixty Thousand (\$60,000) Dollars to found a Chair of Commerce. Senator Dennis gave Forty Thousand (\$40,000) Dollars and Messrs. G. S. Campbell, S. M. Brookfield and Cavicchi & Pagano contributed Twenty-five Thousand (\$25,000) Dollars each. In addition to the above generous gifts over Four Hundred Thousand (\$400,000) Dollars has been received in smaller gifts from friends of the University the world over.

The campaign committee proposes to continue the work until an opportunity has been given every friend of the University, wherever he or she may be, to contribute.

OUR NEW PROFESSORS

John E. Read.

THE Board of Governors have established a new chair in the Law School and have selected as its first incumbent, Mr. John E. Read, B. A., B. C. L., (Oxon). Mr. Read was educated at Morris Street School and Halifax County Academy, and graduated from Dalhousie in 1909 with the degree of Bachelor of Arts with "Great Distinction." He received a scholarship at Columbia University and spent the year 1909-1910 at that institution. In 1910 he was selected as Dalhousie Rhodes Scholar and took up residence at University College, Oxford. He received the Oxford B. A. in 1912 and in 1913, the degree of B. C. L. with first class honours. He was admitted to the Bar of Nova Scotia in 1913 and became associated with the firm of Henry, Rogers, Harris and Stewart with which firm he practised until his recent appointment.

Professor Read served overseas with the Canadian Field Artillery from February 1915 until January, 1917 when he was wounded. After recovery from his wounds, was appointed Senior Gunnery Inspector at the Canadian School of Gunnery in France, where he continued until March 1918, being invalided out of the service in July 1918. He attained the rank of Acting Major and was mentioned in despatches for distinguished service.

Professor Read was married in December 1915, to Diana, daughter of Sir Thomas Willis Chitty, Senior Master and King's Remembrancer, and editor of numerous legal text books including "Halsbury's Law of England," "The British Empire Digest," "Yearly Practice," and other important works.

Besides a distinguished career—both scholastic and military, Professor Read is a loyal alumnus and at the annual meeting of the Alumni Society in May last, he was elected President of the Society.

B. C. Hunt.

Another new chair established in the University this year, is the W. A. Black chair of Commerce. This chair—one of the most needed in the College—has been endowed by the generous gift of \$60,000 from W. A. Black.

Professor Hunt has the distinction of being the first Professor of Commerce that Dalhousie has ever had.

He is an Honour Graduate of West Roxbury High School, Massachusetts. During the war, he trained at Plattsburg Barracks; became a 2nd Lieutenant, Infantry, United States Army and through his highly efficient ability as an instructor was selected from many hundreds and detailed for Instructional Work at George Washington University, Washington.

He received the degree of Bachelor of Business Administration from the Boston University. His practical business career has been varied and he has occupied several important positions, as Assistant to the Treasurer of the Paine Furniture Company, Boston and Manager of the Rochester office of the Babson Statistical Organization,—an organization which draws up the business predictions of the United States. Professor

Hunt has also contributed several articles to the "Rochester Commerce."

Professor Hunt comes to Dalhousie, highly recommended by Professor Roy Davis—a Dalhousie graduate of '99 who is now Dean of the College of Business Administration in Boston University—who says of Professor Hunt, that he is one of the most brilliant graduates of the last few years from Boston University.

Walter P. Copp.

The Engineering Department has been fortunate in securing a new professor in the person of Mr. Walter P. Copp, who comes to Dalhousie from Ottawa.

Mr. Copp takes the place of Major R. A. Spencer, who accepted the position last spring as engineer with the Company constructing the St. Margaret's Bay Power Plant.

Professor Copp is a B. A., of Acadia University and a B. Sc., in Civil Engineering of McGill University, 1908. He has been a practising engineer for twelve years. For a time, he was engaged in Dominion Land Survey work and for four years was in the office of the Dominion Bridge Company reaching the position of chief of the drawing office. He has had the very important experience gained from being Chief Inspector on the erection of the Quebec Bridge. Up to the time he came to Dalhousie, he was Assistant Designing Engineer in the office of the consulting engineer for the Dominion Government.

The University is very fortunate in being able to command the services of a man who has had this unusually valuable experience for a teacher of engineering which will give added prestige to its engineering course.

Hugh P. Bell.

Hugh Philip Bell has been appointed one of the Assistant Professors in Biology.

Mr. Bell is well known to Dalhousians, having received the degree B. Sc., from Dalhousie in 1912 and the degree of M. Sc., in 1914. Last year, he studied at Toronto University where he secured his M. A.

He has had considerable experience as a teacher, having attended the Provincial Normal College in 1912 from which institution he holds a Headmasters License. As Vice-Principal of Lunenburg Academy 1912-13 and Vice-Principal of Morris Street School, Halifax, 1914—he filled both positions with great credit.

His military career began in 1914 when he was called out on Militia Duty with the 63rd Regiment at Halifax. In April 1915 he joined the 40th Battalion as Captain and went to England with that battalion. In April, 1916, he transferred to the R.C.R., then in France. Was wounded October 8th, 1916, and returned to France in February 1917—being finally invalided to England the latter part of 1917, where he became Musketry officer to the 17th Reserve Battalion, and later, Area Musketry Officer at Seaford. He returned to Canada after the Armistice and had charge of the War Savings Headquarters for Nova Scotia.

J. Arthur Dawson.

The other Assistant Professor in Biology, appointed this year, is Dr. J. Arthur Dawson.

Arthur Dawson graduated from Dalhousie in the year 1915 receiving the degree, B. A., with Great Distinction. He then proceeded to Yale upon a scholarship he was successful in winning and studied for the degree of Ph. D. which was conferred on him in 1917. While at Yale, he was for a time assistant instructor in Biology. After leaving Yale, he enlisted in Chemical Warfare Service and served with credit in that branch of the U. S. Army until after the Armistice. Then taught at Goucher College, Baltimore, and later at Woodhole Marine Laboratories. At present, the Department of Biology has no Head Professor and Dr. Dawson has charge of the work.

"Art," as he was called while at Dalhousie was well known around the college and one of the most popular members of the Arts Class of 1915. Art took part in all college activities and his enthusiasm was the moving spirit in many of the University Societies' activities. He played on the First Football Team and was one of the speediest players on the Team at that time.

R. C. Easson.

The staff of the Department of Chemistry has been increased by the addition of Mr. R. C. Easson as Assistant Professor.

Mr. Easson is an Honor Graduate of Queen's University in Chemistry and Botany, and is a Gold Medallist in Botany. In 1908 he took his M. A. at Queen's, and for three years was a graduate student in Mineralogy and Geology and served also as Demonstrator in Qualitative Analysis. He taught school for several years in the province of Alberta, and has been chemist with the British Chemical Company, Trenton, Ont., and with the Union Milk Company, Calgary, Alberta. Later, he was Chemist in the Institute of Public Health, London, Ontario, during the holding of which position, he was a member of the Chemical Staff of the Western Universities.

The "Gazette" congratulates Dalhousie on its good fortune in securing professors—all with excellent records—who, no matter what work they have taken up, have always proved successful. These men bring a great wealth of learning and practical experience to Dalhousie and the students of the University are assured of the maintenance of that high standard of training which has always been the pride of the University and which has brought credit to every graduate from our college. We welcome these professors to Dalhousie and trust their work may be as pleasant to them as it will be profitable to us.

RESIDENCE NEWS

RAMBLINGS FROM PINE HILL.

(By our special correspondent).

RICHARDSON'S air line route to Pine Hill has not yet materialized and "the boys" tell us the road is as long and as rocky as ever—which statement my personal experience bears out—particularly after a late retirement the night before—reveille at eight—breakfast eight-thirty and fifteen minutes to make Studley in time for that omnipresent nine o'clock class. "Wick" tells me he has scarcely time to draw his breath in the 2nd year Engineering—that the faculty must have made a mistake as they left a spare hour on Fridays. But then Wick has night classes at the "Masonic" with a side issue now and again at the Green Lantern which reminds me that if Dancing I and II were on the curriculum there would be a lot more "High Firsts" made at Dalhousie.

Many of the faces of last year's residents are missing—a number 'tis true are not coming back, but the absence of most of them can be explained by the fact that they did not change their religion in time and as a consequence the doors were closed to them. Particularly do we miss the smiling countenance of "Larry" Wilson, but we have heard that he has formed a peach of a combination and is daily chasing the tangent to infinity. Rathbun, another of last year's "old timers" is not with us this year. And Langwith is gone! The popular "Tass" has not returned. Rumor has it that he has gone to Acadia in search of a Latin root, but Rumor always was a "lying jade" and not to be trusted. Gone also is "Tweedie" Townsend whose historic three round bout with the "Midnight Man" will not soon be forgotten by the habitants of Pine Hill. We sincerely trust the time-honored custom of the ten o'clock fistic encounter will soon again be revived in the building—it served as a safety-valve after two hours pursuing the cosine or looking up the parts of "amo".

There are several other old customs we would like to see revived both at Pine Hill and at Dalhousie, i.e., The Dramatic Club and The Glee Club. But more of this later!

Sport has taken a great hold on the inmates of this saintly institution. Most of our "huskies" are turning out for football

and so far we have not had many casualties altho as reported in the local press a prominent young athlete and society man suffered a slight setback by the loss of several of his best teeth—and this only five minutes after he started playing; tailing up in the scrim is a bad place to begin on. He is figuring it out now just what direction the force was acting at the time of the accident. No doubt time and the Dental Lab. will repair the injury to his physiognomy.

The first meeting of the Student Body was held on Sept. 30th and Colin MacNevin was elected temporary Bishop pending the arrival of the Theologues proper. Messrs. J. S. Bagnall, W. M. Jones, W. C. Dunlop and Harold McCurdy were appointed Deacons. Several committees were also appointed for specific duties.

THE WEEK AT "BIRCHDALE"

AFTER numerous scraps about "plucks", "specials" and the other worries of a student's life, during the first week of a session, the Birchdalites have settled down to get acquainted. Every one is pleased with the rooms, the service, the other fellows and, especially, with the happy thought that led the Board of Governors to purchase the place. A live House Committee was appointed by the "Council" early in the week and, with every one assisting the Committee, the Residence should take a large place in college life this winter.

Friday night, Oct. 8th, the Y.M.C.A. "At Home" for the Freshmen was held in the Dining Room at "Birchdale."

The talk all week ran to football. Many wondered if we could possibly win over the boasted Wanderers' team with all their training. Nevertheless, by Saturday, the older students had the newcomers bubbling over with Dr. Cameron's "nectar" and Birchdale was deserted while the battle was on.

When the second team did so well, being only organized on the field—the atmosphere cleared and you could see the "spirit" beginning to work. "Dinty" deserves our everlasting gratitude, not only for making the touch but for making the night-shirt parade a success.

DEPARTMENT OF THE NAVAL SERVICE

ROYAL NAVAL COLLEGE CANADA.

The Royal Naval College is established for the purpose of imparting a complete education in Naval Science.

Graduates are qualified to enter the Imperial or Canadian Services as midshipmen. A Naval career is not compulsory, however. For those who do not wish to enter the Navy the course provides a thorough grounding in Applied Science and is accepted as qualifying for entry as second year students in Canadian Universities.

The scheme of education aims at developing discipline with ability to obey and take charge, a high sense of honour, both physical and mental, a good grounding in Science, Engineering, Mathematics, Navigation, History and Modern Languages, as a basis for general development of further specialization.

Particulars of entry may be obtained on application to the Department of the Naval Service, Ottawa.

Pending erection of buildings to replace those destroyed at the time of the Halifax disaster the Royal Naval College is located at Esquimalt, near Victoria, B. C.

G. J. DESBARATS,
Deputy Minister of the Naval Service.

Unauthorized Publication of this advertisement will not be paid for.
Ottawa, February 3, 1919.

COUNCIL COLUMN

COUNCIL STATEMENT.

In the Graduation Number of the Gazette, I published a financial statement showing the standing of the Council on the thirty-first day of May. I beg now to submit the final standing of the Council on the fourteenth day of September, 1920.

	Receipts	Expenditures.
Council.....	\$4,344.25	\$3,852.48
D.A.A.C.....	807.16	1,691.69
D.G.A.C.....	84.60	207.84
D.G.C.....	103.25	196.54
Skating Club.....		265.00
Sodales.....	1.75	197.76
Y.W.C.A.....	3.35	125.00
Gazette.....	1,387.56	1,387.59

Of the amount of receipts set opposite the Gazette, the sum of \$706.07 was received from the Council. The remainder of the receipts (\$681.49) of the Gazette came from advertising and subscriptions.

J. W. GODFREY,
Secretary Treasurer of the Council of Students, Dalhousie University 1919-20.

* * *

FIRST MEETING OF STUDENT'S COUNCIL.

The first meeting of the Council of the Students' was held in Room 13 on the evening of Oct. 1st.

The matter of a House Committee for the Birchdale was brought up and a committee consisting of six resident students was selected. A list of House Rules was also drawn up and presented to the Senate for their approval.

The question of limiting the number of official college dances for the coming term was also brought under consideration and a motion was passed to the effect that the number of dances be limited to ten and that the consent of the Council must be obtained before said dances can be held. This resolution also awaits the approval of the Senate.

It was also decided to allow a reporter for the Gazette to be present at each meeting of the Council.

A committee of three members of the Council namely Messrs. E. M. MacDonald, N. A. McKenzie and A. P. Frame, was appointed to look after the Murray Homestead.

On motion the meeting adjourned.

A. P. FRAME,
(Sec'y-Treas. Students' Council).

* * *

STUDENTS' COUNCIL.

(By Our Special Reporter to the Council).

A special meeting of the Students' Council was held in the Munro Room, October 7th to consider the question of Dalhousie students' participating in the parade to take place as a Grand Finale to Carnival Week. A resolution was passed, sanctioning the parade and appointing a committee consisting of the presidents of the various Arts Classes and of the different societies in the other faculties to look after the matter.

(Continued on page 6)

Social Events and Class Meetings

RECEPTION FOR MRS. EDDY.

On Saturday Oct. 9th, President Mackenzie entertained at what was without doubt one of the largest and jolliest teas of the season. All the members of Delta Gamma appeared in full force, eager to meet Mrs. Eddy, their friend and benefactress, and her sister Mrs. Richardson.

The reception rooms were tastefully decorated with sweet peas and dahlias, which added color charm to the already beautiful rooms.

Miss Smith welcomed the guests in her usual cordial manner and tea was served by a group of Marlborough girls. Assisting Miss. Smith were Mrs. G. S. Campbell, Mrs. G. Fred. Pearson and Dr. Eliza Ritchie.

* * *

DELTA GAMMA.

Delta Gamma held its first meeting in the Munro Room on Monday evening the 11th inst.

After the business of the society was completed the programme was left in the hands of the Sophomores, who provided amusing entertainment. More than sixty new girls were admitted to the society, and proved that they were, upon the whole, "good sports." Many of these displayed unique qualities, showing that they were thoroughly proficient in arts not prescribed for matriculation.

Mrs. Eddy, her sister Mrs. Richardson and Mrs. F. Pearson were the distinguished guests of the evening. In a few well chosen words, the President, Miss Isabell MacLellan, thanked Mrs. Eddy for her magnificent gift to Dalhousie.

Dainty refreshments served by the Seniors brought to an end a very successful evening.

* * *

CLASS '22 CORN BOIL.

On Monday evening Oct., 4th, the seven o'clock Dartmouth Ferry carried a merry crowd of about fifty-five Dalhousians, easily recognized as the Jolly Juniors. Arrived at Dartmouth, they proceeded to Mr. Carl Isnor's camp, kindly loaned for the occasion.

After much strenuous labour on the part of the social committee, the water was coaxed to boil, and finally it was announced that the corn was ready. All gathered about the fire, and corn disappeared as if by magic, as did, also, the ice cream and cake.

To the accompaniment of Mr. Isnor's autoharp, more songs were sung. Then with cheers for the host and for Dr. and Mrs. MacIntosh, our chaperons, one of the most enjoyed festivities of Class '22 came to an end.

* * *

THE FIRST CLASS FUNCTION.

Football—punctuated Saturday, October 2nd meant a great day for the Seniors. It was the Social Saturday for the Seniors; the rendez-vous was the summer cottage on the Dartmouth Lakes, which Mr. Arthur Harrison loaned his class as the scene for a jolly Corn party.

About twenty-five were present and had a thoroughly good time. Mrs. Copp, who was

accompanied by Professor Copp, very kindly consented to act as chaperon, and her way of making everybody at home was greatly enjoyed.

Mr. Harrison has the thanks of his class, not only for the cottages, but for his efficient services in escorting the party up and down the Lakes in his motor boat.

* * *

STUDENT VOLUNTEER BAND.

The Band consists of all the students at the University who are members of the Student Volunteer Movement for Foreign Missions. Its aim is to awaken and stimulate interest in the great neglected mass of humanity in foreign lands, and to provide mutual assistance in preparation for work in the foreign field.

Meetings are held in the Forrest Building every Tuesday evening at half past eight o'clock. All students who are interested in the great missionary problems of the day, whether or not they contemplate foreign missions as a life work, are invited to attend.

* * *

CLASS 1923 MEETING.

Class '23 in one of the most efficient and enthusiastic meetings which your correspondent in the capacity of reporter has ever had the fortune to attend opened her activities for the year 1920-1921.

The meeting opened promptly at 7.30 o'clock with the President Mr. Fraser, in the chair.

The first business of the meeting was the election of a Secretary and a Treasurer. Two very able men in the persons of Mr. Ives and Mr. Callan were elected to the positions.

The all important event of the Freshie-Soph. Dance was then discussed. After much discussion, it was decided to hold the dance at the Auditorium and to allow all students to attend. The final arrangements were left in the hands of Miss H. Sanford, Mr. Jones and Mr. McOdrum.

It was then decided to adopt Dr. MacMechan's suggestion of starting an 'amateur theatrical club.

Miss Gilroy was appointed reporter to the Gazette for Class '23.

After some business pertaining only to class '23, the meeting broke up.

OLD TIMER.

Dalhousie Stationery

We now have a good supply of Dalhousie stationery, die-stamped in yellow and black.

For Gentlemen—We have Copps Kid Finish Club size, a very high grade paper with envelopes to match.

For Ladies—We have Copps Fine Linen "Regina" size, a very popular size and shape with the fair sex.

Paper per quire (24 sheets).....50c.

Envelopes per package (25 envelopes)....50c.

FAULKNER'S 16 Spring Garden Rd. HALIFAX, N. S.

NOTES FROM LAW, DENTISTRY AND ENGINEERING

LAW NOTES.

The Law School opened this year with the largest attendance in its history. Eighty eight students, representative of five provinces, of Newfoundland and of B.W.I. are in attendance. The highest previous enrolment was seventy-eight in 1914-15, but that number was greatly reduced before the end of the year by enlistments. The Graduating Class this year numbers nineteen.

* * *

A new full-time professor has been added to the Law staff. Professor John E. Read is welcomed to the Law school as a most valuable addition, and we congratulate the Board of Governors on the appointment of one who, besides a career distinguished as a scholar and a soldier, has the interests of the Law school at heart.

Professor Read lectured on Real Property before going overseas and also after his return from the war. Now that he is devoting his whole time to professional work, he will lecture on Procedure I, Dominion Statutes, Constitutional History and Conflict of Laws in addition to his old subject, Real Property which henceforth will be taken in both the first and second years as Property I and Property II.

* * *

Mr. R. F. Yeoman, B.A., LL.B. is lecturing on Wills and Administration in succession to Mr. Justice Mellish who has found it impossible to continue this year his brilliant lectures on the subject. Mr. Yeoman graduated from Dalhousie in 1913 with the degree of B.A. with Great Distinction. In 1915 he received the degree of LL.B. from Dalhousie. In the same year he was admitted to the Bar of Nova Scotia and practiced with the firm of McInnes, Mellish, Fulton and Kenny until 1916, when he joined the firm of Robertson and Meagher. In 1918 he was appointed General Solicitor for the Halifax Relief Commission. He is now head of the firm of Yeoman, Daley and Rutledge, Halifax.

* * *

The first meeting of the Law Society was held on Oct. 1st. President A. W. Rogers announced that the object of the meeting was to appoint a Committee to direct the football activities of the Law students during the season. The following committee was selected: Darrell Laing, R. McInnis, A. L. McDonald, J. White and F. Jones. A football game was scheduled between Law and Dentistry for Oct. 2nd but the Dentals failed to get a team together.

* * *

Another meeting of the Law Society was held on Oct. 7th. Mr. A. L. Chipman was elected Secretary of the Society in place of J. D. Jones who has not returned to the Law School. Committees were appointed as follows:

Executive: Messrs. Gray, McIntyre, Lougheed.

Moot Court: Messrs. Power, W. M. Rogers, Fielding.

Mock Parliament: Messrs. A. L. MacDonald, Connolly, Mahoney.

Dance: Messrs. MacKeen, Green, Laing.

Sessions of the Moot Court will be held during the first part of the term. Later on, the meetings of the Moot Court will be discontinued and the Mock Parliament will take its place. All students of the University are invited to attend either Mock Parliament or Moot Court.

* * *

TO THE LADY DENTALS.

We've read of "Painless Dentistry,"
And call it all a fake;
They put you to sleep with N₂O,
And your teeth are gone when you awake.

I've been to lots of dentists,
And suffered untold pain;
Travelled over the whole wide world
For a painless dentist, in vain.

But now I've got a new theory,
And am waiting to try it out;
When the lady dentals get in the infirmary,
We'll have painless dentists, no doubt.

NOTE:—At least, we'll pretend it doesn't hurt.

* * *

DENTAL NOTES.

The Faculty of Dentistry should become more prominent in college affairs this year than ever before. Although the freshman class is not as large as last year, the total number of students in all four years is about fifty. There are fifteen students operating in the infirmary.

* * *

Seven new chairs with fittings have been installed this year, and quite a lot of work done in the laboratories. An X-ray equipment was installed last year, and is under the supervision of Miss Littler. Dalhousie can now boast of a Dental School second to none in regard to curriculum, staff and equipment, which is proved by the high standing of the graduates wherever they go.

* * *

In the Y. M. C. A. Hand-book this year, there is a very appropriate suggestion. "Have your Dental work done in the Infirmary." One or more of the best dentists in the city is present daily and under this expert supervision, the work done is absolutely first class.

* * *

Two young ladies have entered the first year to prove that the fair sex is capable of making a success of this profession, and incidentally to keep the freshmen in order—when they burn their fingers or break something. In this case they will have to think what they might otherwise say.

* * *

The session began for the final year students on September 8th this year. This is a departure from the old schedule, but one which shows that Dalhousie is taking a leading place in the field of Dentistry. This makes the final term perhaps the longest in Canada, and consequently more training is accomplished.

The students highly appreciate the successful efforts of the Dentists of Halifax, on the Staff, who do everything in their power to

make the course a success, and also to make it pleasant for the students themselves. This friendly association creates greater interest in the work and follows the graduates as they take up practices.

* * *

Dr. B. R. Coysh is practising in the St. Paul Building and Dr. "Hoopey" Milne in New Glasgow. These were the graduates last Spring.

* * *

Dr. Karl F. Woodbury has joined the Staff this year, and is teaching Materia Medica to the Juniors.

* * *

Dean Woodbury (In Infirmary):—"You shouldn't sit in your dental chair, as it helps to wear it out."

V. D. Crowe:—"Is it alright to sit in someone else's, Sir?"

"ENGINEERING NOTES."

The resumption of college life and activities has found the abilities of the Engineering Society unimpaired by the summer vacation. The old leaders have departed to various Engineering Universities but they have been worthily replaced, and we all hope that the next efflux from the engineering class of Dalhousie will leave behind them as good a record as the last.

We greatly regret the loss of Prof. Spencer, but consider ourselves fortunate in obtaining so competent a successor as Prof. Copp whom we hope to retain indefinitely.

The first meeting of the Society for this term was held on Tuesday Oct. 5th, at which the chief subject for discussion was the social activities which are to be begun on Wednesday Oct. 13th by a theatre party at the Majestic, followed by refreshments at the Tarry Inn, to which all are looking forward with anticipation as last year proved that surveying parties were not the only ones that the Engineers can manage successfully.

The most important item on our schedule for this term is our Saturday morning excursions to the different manufacturing plants of the city the first of which was made to Imperoyal on Saturday Oct. 9th.

We were very kindly received by Mr. Allen, and conducted through that wonderful and interesting plant by Mr. MacDonald a former Dalhousie student, after which we enjoyed a sumptuous dinner in the Company's mess room.

The return trip was made somewhat eventful by a temporary break-down of our engine off George's Island, (which, however, was soon repaired), and also by the considerable difficulty experienced in landing our Vice-president owing to the height of the wharf at which we disembarked, but as the members of the Engineering Society always look on the bright side of things we will forget such minor discomfitures and all join in voting the excursion a howling success.

Plans are being made to have several prominent Engineers lecture to the Society before Christmas. A cordial invitation is extended to any interested student to attend any such meetings, which will be advertised several days in advance.

The "Y" Entertainers

Y.W.C.A. "AT HOME."

Owing to the large number of students enrolled this year, the usual joint Y. W. and Y. M. "At Home" was considered to be impracticable. On Tuesday evening Oct. 6, therefore, the Y.W.C.A. made a very successful attempt to atone for this unavoidable catastrophe, by entertaining the new girls.

Topic cards were soon filled and in spite of, (or perhaps because of) the temporary embarrassment of some of the Juniors and Seniors, the fun proceeded merrily. Solos, games and recitations were the order of the evening.

After refreshments, the President gave a short address on The Purpose of the Y.W.C.A. and outlined the programme for the year. Miss Jean Moriarty, ex-President, also spoke wishing the Association every success.

The evening closed with college songs and "Auld Lang Syne."

I. M. S.

"THAT BEAN SUPPER."

The first function of the college term was held in the Birchdale on Friday evening the 8th inst. It was the college Y.M.C.A. reception to new students and this year it took the form of a "Bean Supper." It has long been the custom for the "Y" to give an "At Home" each year to all the students of the University. It was one of the big affairs of the term and the purpose of it was chiefly social; that is, that the students should meet one another renew old friendships and make new ones.

With this aim then, in mind, the executive of the college Y.M.C.A. invited the Board of Governors, the Senate, the Presidents of Student Societies and all new students to a bean supper in the Birchdale. There were about one hundred and twenty-five present and from all reports the evening was thoroughly enjoyed. Mr. Guthro presided at the piano to the delight of all. Mr. Norman MacKenzie, president of the Y.M.C.A. was in the chair and after the "Fruit Punch" was served he called upon Mr. G. S. Campbell, chairman of Board of Governors. Mr. Campbell explained the functions of the Board of Governors and assured the students that its members had a personal interest in every student at Dalhousie and were determined to give Dalhousie students the best equipment and instruction possible.

President McKenzie, speaking next was glad to see that Dalhousie's raw material was as good as ever. Each year brought in just as fine a type of men as it sent out. He endeavoured from his long association with the college to give to those present a little conception of the "spirit of Dalhousie," a spirit of absolute justice and equal rights to all that has been handed down to us from those illustrious men of the past.

Interesting and instructive addresses were also given by Drs. MacRae, MacMechan, Fraser-Harris and Cameron. Besides these addresses which told of Dalhousie's past, present and of the responsibilities which lie upon those who are going to carry on the life of the university for the next four years; the students were welcomed and made

acquainted with the work of each society in the University by a few words from the respective presidents of each society.

BUZZ.

THE WEEK AT BIRCHDALE.

(Continued from page 3)

The parade was the only logical way to celebrate such a victory and Col. P-r-er paraded his contingent from the Residence to the Armouries. There a fiery charger was secured and P-r-er proudly led the procession through the streets. Surely the parade officials received enough noise, for the breakfast table Sunday was a whispering room in reality and many voices are still very weak. As a result several of the city choirs were without their star basses Sunday evening. L-h-es and D-x-er received the prizes for the best make-ups from the Residence. It is even rumoured that L-h-es sported his at the "Green Lantern" for several hours afterwards.

(To be continued week by week.)

STUDENT'S COUNCIL.

(Continued from page 4)

A request by the Y.W.C.A. for the use of the Munro Room every Tuesday evening from 7.30 to 8.30 was granted.

There was some discussion concerning the supplying of newspapers and magazines to the various faculties, but the matter was left over until the next meeting of the Council when they would know definitely how much money they had on hand.

The final business to come before the meeting was a resolution that a telephone should be installed in the Forrest Building and in the Murray Homestead. This was passed and the Secretary was authorized to enquire into the matter and secure quotations and other information.

F-r-es (to Freshman Engineer)—"You chaps will have to be pretty careful this session."

Freshman—"Why are there to be more plucked this year than last?"

Fo-b-s—"No, but you have a 'Copp' looking after your welfare."

Prof. Wilson (after relating a few historical jokes)—"Well, I better hurry on, or I will be falling into my anecdote."

"Ask Your Well Dressed Friends."

In Memoriam

As time rolls on one is compelled to believe that when death comes it summons unexpectedly whom it desires whether that person has lived the allotted span of life or whether he has just blossomed into a useful career. Yet death never ceases to be a shock and to leave behind hearts made sad by the separation of friends.

Such was the case last Summer when Dalhousians learned with deep regret of the death of Dr. Forrest, President Emeritus of our College. This regret was not confined to the graduates alone who were assisted thru their college course by the ever-helping hand of Dr. Forrest, but we, who never have known him in the class-room have been taught by tradition to look with reverence and with awe upon the stately figure of 'Lord John.'

Another death which saddened the hearts of all who knew him was the tragic death by drowning of Gordon Henry, a member of Class '21. To superficial observers Gordon appeared as a wholesome young man who was always cheerful and who was always ready to do his best to make others happy; but beneath the exterior those of us who were privileged to know him intimately could discern a depth of feeling and a steadfastness of purpose far above the ordinary. He was never content to acknowledge defeat and either in studies or in athletics would pursue his aim with a firmness which spoke well for his success in years to come.

As a student Gordon was in a class above the average. He grasped a subject easily and when he had grasped it he knew how and when to apply it. Likewise as an athlete Gordon Henry was among the best. At basket-ball his was a familiar figure until an accident to his knee debarred him from violent exercise. In tennis, also, he shone and was counted no mean opponent by those with whom he played.

Yet it is not his ability as a student nor as an athlete that makes his absence felt among his class-mates so much as his dependable nature, which made him a valuable member of any society. When a social activity was undertaken by the class he was quite willing to give up some of his own pleasure for the sake of making others enjoy themselves.

To his sorrowing relatives Class '21 extends its sincerest sympathy and gives them the assurance that although his familiar face is no longer seen in our halls and classrooms yet his memory is ever with us and will force us on to greater exertions and greater patience worthy of the associates of one whose life, though cut short before he had reached his prime, has had and will continue to have a lasting and imperishable effect for good in all with whom he came in contact.

ATHLETICS

D. A. A. C.

The first meeting of the D. A. A. C. was held on Oct. 1st. President N. A. McKenzie in the chair. Among the matters discussed were the organization of a track team to compete in the Carnival meet; the formation of an Inter-Faculty Football League; the appointment of a Football Coach; and the building of a Rink. Of the above, the track team materialized and an account of its performances is given below. The Inter-Faculty Football League was organized, and games were scheduled for Saturday Oct. 2nd. Arts even, defeated Wanderers odd 12-0. Pharmacy defaulted to Medicine and Dentistry defaulted to Law. The League is being re-organized as some of the Faculties intend to combine in order to form a team of sufficient strength. Mr. J. McG. Stewart, the Honorary President of the Association, has donated a handsome trophy to the League. The Rink question is somewhat in the air, but it is evident that Dal. cannot have a rink of its own, this Winter at least.

Mr. Doty (Law) addressed the meeting on the question of the "Night Shirt Parade" proposed to be held during Carnival Week. The meeting was favorable to the suggestion that Dal. be represented in the parade. Dal. was well represented, the Sophomores and Freshmen turning out in particularly large numbers.

N. A. McKenzie and R. McInnis were selected by the Executive to attend a meeting of representatives of the Maritime Colleges to be held at Truro on Oct. 5th. At this meeting it was decided to continue the two sections—Eastern and Western of the Football League. The only definite date decided on as a playing date for Dal. is Oct. 27th, when St. F. X. will arrive in Halifax for a game with the Tigers. The question of Intercollegiate Hockey was held over until a later meeting.

Track.

Though there was little time for practice or organization, Dalhousie entered competitors in all the events of the Track Meet on the Wanderers Grounds, Oct. 6th. The fact that the day came within Carnival Week drew a large number of entrants and one of the best fields that ever assembled in the Maritime Provinces made an afternoon's sport that was always interesting and at times thrilling. Ellis (Dalhousie), won first place in the hundred, in 10 3-5 secs.; Coster (Dalhousie) won the 220 dash in 23 3-5 secs.; Jones (Dalhousie) was second in the quarter and McNevin (Dalhousie) second in the mile run.

Football.

Twenty-nine years ago, the Halifax City Football League was formed, and since that time the Wanderers and Dalhousie have originated most of the interest and enthusiasm that the people of Halifax have displayed in Football. A glance over the records of the League shows that Dalhousie has been victorious in Fourteen seasons, Wanderers in five, United Services in one, Cornwall in one, while there were two seasons when the trophy was not awarded and five (during the War) when there was no league.

Dalhousie vs. Wanderers.

On Saturday the 9th, Wanderers and Dal. again clashed in Junior and Senior games. The spectators numbered well over two thousand. The Wanderers management have built two new bleacher stands, and these give a closer view of the field than either of the old stands. The Wanderer's supporters occupied the Southern stand and the Dal. rooters filled the Northern stand.

The Junior game began at 2.45. The Dal. scrim had the edge on their opponents, getting the ball most of the time. Wanderers put up a strong defence and the Dal. back line could not get going. In the second half Wanderers did better and five minutes before time Arthur's scored for them on a kick across field. The try was converted and the game ended with the score 5-0 in favor of Wanderers. The Dal. team has not had many practices and when they get working together, will give a much better account of themselves.

The Senior Game was of course the event that most of the spectators had come to see and they were given a good return for their money. The game was open and fairly fast. There were few long runs, but there was plenty of plunging, hard tackling and good kicking. The Dal. back line was practically the same as last year's,—only one face being missing—that of Baxendale the great receiving quarter of last year. The Dal. Scrim had four old veterans, MacKenzie, Campbell, Moore and MacNeil, and they played the game as they always play it—hard, heady and clean. It does not detract from the excellent work of the rest of the team to say that Fluck, the Dal. Captain was the mainstay of the Dal. attack Saturday. His plunging, kicking and generalship were in evidence often and he made many gains for his team. Jones at quarter played a good game, and the Haslam brothers also did well. Ross and Lilly were as reliable as ever and Crease, the new man on the back division, made a favorable impression. White, when he got a chance, showed his old time speed.

Wanderers kicked off and within a few minutes were awarded a free kick forty yards from the Dalhousie Goal. The attempt for a penalty goal failed. Wanderers were pressing hard and the Dal. scrim did not steady down for some time. Play went to the Wanderers end where Fluck made a good try for a penalty goal but failed, to get the ball over. The ball was worked back to Dal. territory and the Wanderers were dangerous on several occasions but Dal. defended hard and beat off the enemy every time. Fluck was gaining ground by his line plunges and Sutherland and Bruce were also doing well.

In the second half Dal. carried the play well into Wanderer territory, right from the kick off. McLeod intercepted a pass and made a pretty run but was brought down by Haslam. The play surged back to Wanderer territory and from a scrim on the twenty-five yard line, Fluck broke through and carried the ball over, but the touch judge said he had gone in touch and another scrim was called. Fluck repeated his performance but again was in touch. McCoy and Hunter were working hard for Wander-

ers. Finally from a scrim in Wanderers territory a Wanderer fumbled and Moore, following up dribbled over and fell on the ball for a try. The try was not converted. There was no further scoring and the game ended 3-0 in favor of Dalhousie.

Mr. Allan referred both games. He was impartial, and while perhaps not so sharp as some referees whom we have seen, gave general satisfaction.

The line up was as follows:—

Dal.	Wanderers.	Wanderers	Dal.
		Seconds	Seconds
	Full.		Full.
Lilly	Edwards	Lawrence	Yeomans
	Halves.		Halves.
Crease	Barnstead	Arthurs	Jerret
Haslam	Campbell	Sutcliffee	Pentz
Haslam	Holmes	Wood	Marshall
White	McLeod	Murphy	Coster
	Quarters.		Quarters.
Fluck	Holmes	Lordly	Laing
Ross	McCoy	DeYoung	O'Brien
Jones	Hunter	Schwartz	McInnis
	Forwards.		Forwards.
McKenzie	Studd	Atkins	Taylor
McLean	Young	Pacey	McOdum
Campbell	Ryden	Schwartz	McDonald
Bruce	Briggs	Cooke	Richardson
Sutherland	Simpson	Liddell	Jones
McNeil	Fultz	Marshall	McNeil
Moore	Power	Monaghan	Sterne

ARTS EVEN vs. ARTS ODD.

On Saturday Oct. 2nd the first football game of the season was played at Studley between Capt. Pentz "Evens" and Capt. O'Brien's "Odds." This was the first of the series for the Inter-faculty Football Trophy. Both Arts teams showed the need of more practice but the Evens surpassed their opponents both in head and foot work. Their scrim which was lighter than that of the Odds's repeatedly succeeded in getting the ball out and this with their few spurts of combination play gave them a decided advantage enabling them to run up a score of 12-0.
