What it means to be a hundred

As we Canadians reach our hundredth birthday we pause for a moment, to look back.

What does it mean to be a hundred?

It means that many hardships and disappointments have been endured and overcome. It means hard work and growth and achievement. It means a hundred years of human effort and experience on which to build our future.

The Bank of Nova Scotia, established 135 years ago, has shared in this experience and contributed to our growth as a nation.

Today we pause to give thanks to those who have gone before us. They have made an incalculable contribution to what we are today and what we can be.

We have reached our first century as a nation, and now, let us move forward together to the next milestone.
