

## CONTRIBUTORS

### **Emily Blackmore**

The first of three children, Emily was born in the springtime and has ever since felt a kinship with greenery. A student of Dalhousie's School of Information Management, Emily did her undergraduate degree in English and History. She likes to organize her books by colour and height, and drinks entirely too much coffee.

### **Regan Gunningham**

Regan is a middle child, and the only girl, something her mum says made her special. Regan does not like tea or cats, but there are a lot of things that she likes as well, so she doesn't want anyone to think she's being picky. Regan aspires to work in a public or academic library one day, and by gosh she's going to make it!

### **Rodney Howland**

Rodney is the youngest of three. Rodney is an avid runner and participates in marathons. He is extremely good at chasing those with large late fees. Rodney enjoys public libraries and hopes to one day rule the Eastern Seaboard with an iron fist.

### **Jennifer Lambert**

Jennifer is the second-born child in her family. She likes her coffee organic and dark, and only takes sugar in her first one of the day. She enjoys sweaters and sunshine and a well-thumbed book.

### **Tasya Tymczyszyn**

Tasya is the elder of two children and was born under a new moon (this may or may not be true). When she grows up, she wants to work in a public library. Tasya's favourite colours are blue and grey, and, as such, she really likes rainy days and the ocean.
