

The Proceedings and Transactions of the Nova Scotian Institute of Science
Volume 17 Part 1

<u>Proceedings</u>	I-IX
<u>Observations on the seasonal disappearance of certain marine algae in the tide pools near the biological station, St. Andrew's, New Brunswick</u> – <i>Hugh P. Bell</i>	1-5
<u>The effect of environmental factors on the development and growth of Littorina Littorea</u> – <i>F. R. Hayes</i>	6-13
<u>An installation for the preparation of radium emanation for therapeutic use</u> - <i>G. H. Henderson</i>	14-19
<u>Digestion in fundulus heteroclitus L.</u> - <i>B. P. Babkin</i>	20
<u>The measurement of renal secretion (demonstration)</u> – <i>Owen S. Gibbs</i>	21-22
<u>Compounds of the halogens with each other, and with the halogen hydrides</u> - <i>K. H. Butler</i>	23-25
<u>Acetone bodies in urine on carbohydrate and fat diets</u> - <i>N. B. Dreyer</i>	26
<u>The measurement of the renal blood-flow in the fowl</u> - <i>Owen S. Gibbs</i>	27
<u>Attempts to separate the isotopes of mercury by chemical means</u> – <i>Harold S. King</i>	28-45
<u>A study of early development in Cumingia with special reference to cytology</u> - <i>Margaret Elizabeth MacKay</i>	46-60
<u>The technique of fractional fermentation</u> – <i>E. Gordon Young</i>	61-62
<u>A pancreatic bladder in the cat, structurally analogous to gall-bladder</u> – <i>R. J. Bean</i>	63-69
<u>Chemical manipulation. Apparatus: gas generators, manometers, etc.</u> – <i>M. A. McIntosh</i>	71-78
<u>The autolytic power of Bacillus coli communis</u> – <i>E. Gordon Young</i>	79
<u>The heat capacities of acetaldehyde and paraldehyde, and the heat of transformation of acetaldehyde into paraldehyde</u> – <i>D. LeB. Cooper</i>	82-90

<u>Studies on the pancreatic gland – Harry S. Morton</u>	91-102
<u>A new determination of the range of the alpha particles of uranium I and II</u> – George C. Laurence	103-106
<u>The vascular reaction of the pilocarpinized submaxillary gland to histamine (abstract)</u> – Margaret E. MacKay	107
<u>Appendix</u>	I-III
