

THE SMOKE OF THE BRITISH EMPIRE

LUDGATE HILL

Ludgate Hill is well known to all visitors to London—extending from Ludgate Circus, it is a continuation of Fleet Street and The Strand, ending at historic ST. PAUL'S at the hilltop.

THIS famous Empire Cigarette embodies all the sweetness, mildness, coolness and flavour which lovers of good cigarettes in every land associate with English cigarettes.

Canadian smokers have shown a marked preference for W. D. & H. O. Wills' Gold Flake Cigarettes—the Cream of the Crop—mellow and fragrant as a quality cigarette always is.

The Pilot Doesn't Worry

Fifty below in the Arctic night—and a plane down, with a defective spark plug and an empty tank.

The spark plug can be replaced, but that won't help without gasoline to turn the motor—and the nearest "town" is a few Eskimos and a trading post across the lake at Blackfish Point.

But the pilot doesn't worry. He knows there is a cache of Imperial Gasoline at Blackfish, and someone there to help him.

The great wealth of Canada's north is being found from the air many years before it could be reached afoot, because men are willing to adventure and supplies are there when they are needed.

These supplies come from the Imperial Oil Refineries. By ship up through Hudson Strait into the Bay, by rail beyond the Pas, by paddle wheeler down the Peace and MacKenzie Rivers they go to distributing points. In winter, dog teams and sleds drag them further into the wilderness.

For fifty years Imperial Oil has been meeting the new needs of transportation and industry. Because it has met each need with enterprise and energy, Imperial has become a great company—serving every corner of Canada—its ships on the Atlantic and Pacific—its pipe-lines in the tropics.

Fifty years of constant enterprise are in the products Imperial Oil sells to-day.

Imperial Three Star and Imperial Ethyl are its best gasolines.

Which means that nothing finer can be put in your car.

Maritime Hotels

for

MARITIME FOLK

Maritime folk can point with pride to the fine hotels which now adorn their countryside... and can combine practical patriotism with hospitality in inviting their friends to visit them.

At Digby is THE PINES, with open air swimming pool, golf, tennis. Kentville in Evangeline Land boasts the CORNWALLIS INN. In old English Halifax there is the hospitable LORD NELSON (operated by Associated Canadian Hotels) and at Yarmouth, once the port of "wooden ships and iron men," the LAKESIDE INN. All hotels are served by the Dominion Atlantic Railway.

... And don't miss St. Andrews across the Bay of Fundy with its fashionable ALGONQUIN HOTEL. All rates in keeping with present day economies.

Why not invite your friends

Your Boy or Girl at College

What parents are free from occasional misgivings about their children at College? These young folks are so prone to thoughtlessness—sometimes weeks go by without word from them.

Why not take the simplest, most pleasant way of keeping in touch with them—by Long Distance Telephone? They are always within easy call by Long Distance—you can always find out just how they are getting along at a moment's notice.

Rates are low, especially in the evening and night. Why not make Long Distance calls a regular thing? The small cost is far outweighed by the satisfaction it brings.

LIFE INSURANCE TRUSTS

WHY?

The funded insurance trust prevents lapse of the insurance policy for non-payment of premiums during the life of the insured.

The insurance trust permits a single uniform plan for handling the proceeds of policies in several different companies.

The insurance trust properly drawn gives to the trustee discretion and latitude permitting the expenditure of part or all of the principal of the trust fund if the necessities of the family of the insured require it.

The prime duty and effort of Life Insurance Companies is to create estates.

The prime duty and effort of Trust Companies acting in a fiduciary capacity, is to conserve and increase estates.

How Much or How Good?

Before any purchase is decided upon, the buyer usually wants to know what the cost will be. This is natural, and businesslike as well.

As applied to printing, what is the essential thing—how much it costs, or how it reflects on your firm?

You usually get what you pay for, and no more. Who has not been persuaded, against his better judgment, to buy something apparently cheap in price—only to find later on that cheapness and shoddiness go hand in hand.

We do not try to beat the world on price, but we do propose to give our clients printing that they'll be glad to point out as theirs. All we ask is a trial.

LIFE'S ESSENTIAL

 Sugar is human energy in its purest form—a single pound contains 1800 energy calories, and if these could be transmuted into mechanical energy, a pound of sugar could lift itself a thousand miles in the air—it could raise a one ton steel girder half a mile straight up—it could keep a 110 watt electric lamp burning continuously for almost twenty hours.
