The Calendar

OF

KING'S COLLEGE,

WINDSOR, NOVA SCOTIA,

FOR THE YEAR OF OUR LORD

1856.

Published under the direction of the Board of Governors.

HALIFAX :

PRINTED BY JAMES BOWES AND SONS,

1856.

KING'S COLLEGE,

WINDSOR, N. S.

At the close of another year, the Governors of King's College desire to present the following brief statement of the affairs of that Institution, for the information of its friends:—

1.—They have the satisfaction of being able to say, that, during the year, the Professors and Students have been diligently engaged in their respective duties. Never did the moral character of the Institution stand higher than at present; and in no year have there been fewer cases demanding the exercise of discipline. The proficiency of the Students, in the various departments, has been satisfactorily attested by the results of the terminal and other examinations, which have shewn a large amount of work, well performed. For further information on this head, reference is made to the Reports of the President, as given in the Appendix, which cannot fail to afford the highest gratification to the parents and friends of the young men now receiving a sound education within the walls of the College. Some, having finished their course, have gone forth to enter upon the sacred and other professions, in which, it is confidently believed, that, like the honored Alumni who have preceded them in years gone by, they will acquit themselves with credit, and maintain the honor of the Institution they have left. There is but one subject of regret to be noticed under this head, namely, that the expectations of a large accession to the number of Students, expressed in last year's Calendar, have not been realised, as the Governors could have desired. They are, indeed, surprised, that out of upwards

of 80 persons, who are entitled to send Students free of tuition fees, (now amounting to more than £20 per annum,) so few have availed themselves of so great a boon. They would again call the attention of all who have sons to educate, to the full staff of Professors now ready to impart instruction in the various branches of a liberal education—all the advantages of which may be secured at the mere cost of moderate board, if the party has a nomination.

It should also be remembered, that if so desired, Students may reside in private Families, in the vicinity of the College; and also, that they are not now required to go through the whole course of studies, but may pursue such special branches as may suit their intended callings in life. Moreover, the fact, that no religious restrictions whatever exist, is sufficient to shew, that parents of all Denominations may send their sons to the Institution without fear of interference with their particular modes of belief.

The Governors being desirous to extend as widely as possible, the superior advantages now attainable, under the talented Professors of King's College, respectfully request the friends of Education throughout the Provinces, to diffuse, in their respective localities, the information now submitted, and if more is desired, the Secretary will, at all times, be ready to impart it.

2.—Monthly Meetings of the Board have been held for the transaction of such business as came before them, to which the most careful and patient attention is always given. Committees, on the subject of the lands belonging to the Corporation, and also for the management and investment of its funds, have been in continued operation. On these matters the Governors are ready to afford the fullest information to those interested in the affairs of the College.

3.—Much inconvenience having been experienced by the Professors for want of suitable residences in the neighborhood of the College, the Governors, after mature deliberation, came to the decision that it would be greatly for the benefit of the Institution to secure their constant supervision, by erecting three houses for their accommodation. These are now in a state of considerable forwardness, and it is expected that they will be ready for occupation in the month of November next.

They will form a valuable and ornamental, as well as highly useful,

addition to the Establishment, while it is satisfactory to be able to state, that the cost will be defrayed from the sale of lands hitherto unproductive, and not from any portion of the Endowment Fund. The income, also, of the College will be assisted by the annual rent to be paid for these houses by the Professors.

4.—The Governors have much pleasure in recording a fresh instance of attachment, and of zeal for the benefit of the Institution, on the part of Dr. Charles Cogswell, a distinguished alumnus of the College, whose literary and scientific attainments have been acknowledged by men of high repute in the great metropolis of the British Empire, where he has resided for the last few years.

The Doctor has now presented £100 as the foundation of two prizes—one for the encouragement of Elocution, and the other for proficiency in the athletic game of Cricket; besides having testified, on former occasions, in different ways, his regard for the place of his collegiate education. It is to be hoped, that those whose early training there has led to their attainment of wealth and honors in the various pursuits of life, may, in like manner, evince their attachment by doing something substantial for the elevation and advancement of the Institution. Much might be accomplished if each Graduate were annually to present even a small token of his remembrance.

5.—The valuable Library of the College has been carefully arranged and classified by the Librarian and other Professors, and an accurate Catalogue is now in course of preparation for the press. The Rev. E. Maturin, M.A., late of Trinity College, Dublin, has kindly afforded his aid, having had practical experience in a similar work, while at that University. Professor How has also been engaged in the somewhat arduous task of arranging, systematically, the valuable minerals, presented by the late Sir Rupert George, Bart., Dr. Almon, and others, which have hitherto been in much confusion. The valuable Philosophical Apparatus has also been put in complete order, and necessary additions, to the amount of £70, have been made to this Department during the year.

The Right Rev. the Visitor has appropriated some accumulations of interest on the Wharneford donation, to the purchase of Theological Works, to the amount of £50. Besides which, the Governors have the

pleasure to announce a recent donation of seventeen volumes from the Rev. Mr. Greswell, of Worcester College, Oxford. The Incorporated Alumni have shewn a lively interest in the Library, and have announced their readiness to appropriate a portion of their Funds to its enlargement, which praiseworthy design will be met by corresponding aid on the part of the Governors, so soon as the state of their Funds will permit. In this connexion it may be well to state that all Students have free access to the Library, as will be seen by reference to the Statutes, P. 15, cap. VI, sec. 3.

6.—The Governors have much pleasure in referring to the revived and flourishing condition of the Collegiate Academy, under the management of the Rev. D. W. Pickett, as Principal.

It is believed that both in the educational department, and in the domestic arrangements, very general satisfaction has been afforded to the parents of the boys; and the Governors strongly recommend, to all Parents and Guardians of youth, the continued and enlarged patronage of this School, wherein sound and practical education, based upon the only sure foundation—the principles of genuine religion—and combined with parental treatment, may be confidently expected.

The Governors are happy to add, that the grant of £50 from the Incorporated Alumni, which was about to expire, has been continued for another year.

7.—In conclusion, the Governors would earnestly invite the attention of the public, in these Lower Provinces, to the increased advantages, for acquiring a liberal education, which are now attainable at the Collegiate Establishments under their management and control, and which may fairly challenge a comparison with those of any other Seminary of Learning in British North America. Situated, too, as these Institutions are, in a most healthful and beautiful locality, surrounded with natural scenery of the most lovely description—already easy of access by Steamboat or Stage to the neighboring Provinces—and about to be brought, by Railroad, before another year shall pass, within two hours travel of Halifax, which is the centre of rapid communication with the more distant points of Newfoundland, Bermuda, and the West Indies, (from all which quarters, Students have come in former years, under far less favorable circumstances,)—considering

all this,—the Governors cannot but indulge the hope that King's College only requires to be generally known, to attract to its Halls a much larger number of the youth of those Colonies in which similar establishments do not already exist.

By order of the Governors,

JAMES C. COCHRAN, M. A.

Secretary.

HALIFAX, July, 1856.

APPENDIX.

KING'S COLLEGE, WINDSOR, N. S.

FOUNDED A. D. 1789. CHARTERED BY H. M. GEORGE III., A. D. 1802.

Board of Governors for the year 1856.

The Right Rev. HIBBERT BINNEY, D.D. Lord Bishop of Nova Scotia,
Ex-Officio President of the Board, and Visitor of the College.

The Hon. BRENTON HALLIBURTON, Chief Justice.

Rev. GEORGE McCAWLEY, D. D.

Hon. JAMES BOYLE UNIACKE, M. A.

Hon. LEWIS MORRIS WILKINS, B. A.

Rev. GEORGE W. HILL, M. A.

Rev. WILLIAM BULLOCK.

JAMES C. COGSWELL Esq, B. A.

JOHN W. RITCHIE, Esq.

Rev. J. W. D. GRAY, D. D., St. John, N. B.

ANDREW M. UNIACKE, Esq., D. C. L.

Hon. M. B. ALMON.

SAMUEL P. FAIRBANKS, Esq., Q. C.

J. C. HALLIBURTON, Esq., *Treasurer.*

Rev. JAMES C. COCHRAN, M. A., *Secretary.*

President of the College.

The Rev. GEORGE McCAWLEY, D. D.

Professor of Divinity, including Pastoral Theology.

Rev. GEORGE W. HILL, M. A.

Professor of Mathematics, Natural Philosophy and Astronomy.

The Rev. JOHN MANUEL HENSLEY, M. A.

Professor of Natural History and Chemistry.

HENRY HOW, Esq.

Professor of Modern Languages, viz.: French, German, Spanish and Italian,
(also qualified to instruct in Drawing.)

HENRY STIEPLEHAGEN, Esq.

Librarian and Bursar.

Professor HENSLEY, M. A.

Expenses: BOARD—Twelve shillings and six pence per week,—including three meals, which are taken in the College Hall. Students must provide lights and fuel in their own apartments, as also beds and bedding, and room furniture.

TABLE OF FEES AND DUES

FROM WHICH NOMINEES ARE EXEMPT.

All materials and apparatus provided by the College.
All damage, breakage, &c. to be paid for by the Student at cost prices.

Additional charges for increased time.

SCHOLARSHIPS.

THE WILLIAM COGSWELL SCHOLARSHIP,

£30 per annum, open to Candidates for Holy Orders. Under the direction of the Trustees.

Scholar of 1856, OCTAVIUS M. GRINDON.

DIVINITY SCHOLARSHIPS,

Paid by the Society for the propagation of the Gospel in Foreign parts—open to Students for Holy Orders, actually requiring assistance—and subject to the control of the Bishop of the Diocese.

Ten in number.....£30 Currency per annum each.

PRIZES.

THE McCAWLEY HEBREW PRIZE of £9 Sterling, open to all members of the University who are below the standing for M. A. and who have not already gained the first premium in Hebrew. The subjects for the Prize in *Hebrew and Bible Greek* for 1856, will be *the Life of David in Hebrew Bible and Septuagint, The Gospel of St. Luke* and the *Epistle to the Galatians*.

THE BISHOP'S PRIZE of £5 in Books.

Successful Candidate this year.....REV. THOS. CRISP, B.A.

ALUMNI PRIZES.

£5 to the best Classical Scholar, awarded in 1856 to HENRY STERNS, of Liverpool, N. S.

£5 to the best in Mathematics, awarded in 1856 to ROBERT BRAINE, of Halifax.

£5 for the best general conduct, awarded in 1856 to JAMES J. HILL, of Halifax.

£5 for the greatest proficient in Modern Languages, awarded in 1856 to HENRY STERNS, of Liverpool, N. S.

COLLEGIATE SCHOOL, AT WINDSOR,

UNDER THE CONTROL OF THE GOVERNORS OF KING'S COLLEGE.

Principal.

REV. D. W. PICKETT, B. A.

Terms.

BOARDERS—£35 per annum, everything included.

DAY SCHOLARS—£8 per annum.

Instruction in one or all of the four Modern Languages, by Professor STIEFELHAGEN, £3 per annum.

Vacations.

From July 1 to August 15.

From December 15 to January 15.

There are two scholarships of £8 and £4 each to be competed for annually. The first is open to the senior form, and the successful candidate must be qualified, though not required, to enter College. The second is open to the whole school. In both cases the competitors must be of one year's standing.

EXTRACTS FROM THE STATUTES.

No Undergraduate shall resort to any inn, tavern, or public house, except for some special cause, to be approved by the President, or shall spend his time in the streets of the town.

All bills of Undergraduates are to be sent by the tradesmen with whom the debts are incurred, to the Bursar, at the end of every term; and parents are particularly requested to refuse payment of any bills not thus sent in.

The introduction of spirituous liquors into the College is absolutely prohibited. [p. 16 and 17.]

The Academical year begins in September, and contains three terms, in which all scholastic exercises shall be performed and all degrees conferred. Michaelmas term commences on the first Monday in September and ends on the 15th December;—Lent term commences the first Monday after January 15th and ends the Saturday before Palm Sunday;—Easter term commences the Monday after Easter-Monday and ends June 30.

KING'S COLLEGE, WINDSOR,
CHRISTMAS, 1855.

UNIVERSITY EXAMINATIONS.

1. The *B. A. examination* has been held as usual, and Mr. Rupert J. Uniacke received his Certificate, *satisfecit*.

2. The first *Responsions* under the new Statute have taken place, and the names of the following gentlemen have been recorded as having passed them with credit:

BLISS, | HILL, | GRINDON.

3. The Prize in Hebrew and Biblical Greek has been adjudged to Mr. T. Crisp, Scholar. No *proxime accessit*, as on former occasions, has been awarded.

THEOLOGY.

1. The subjects in this department have been copious, including portions of the Old Testament in Hebrew compared with the Septuagint and Vulgate, the Acts of the Apostles and the Epistles to the Ephesians and to Titus in the Greek Testament, Ecclesiastical History, Liturgies, Evidences, with Butler's Analogy, and composition of Sermons. At the examination Mr. Gray distinguished himself by the promptitude and precision of his answers on the three first centuries, from Moshiem. The Professor reports of the majority of his pupils that their attendance has been punctual and their preparation satisfactory, while some have evinced a very marked interest in their work.

CLASSICS.

2. Some of the dramas of Sophocles and Euripides have been studied, as also the Cyropædia and Anabasis of Xenophon and the Iliad of Homer,—the Annals of Tacitus, the Satires of Juvenal and Horace,—Cicero de Officiis and Virgil. Themes, Essays, and other exercises in composition have been written. In this department the general comparative merit of the second class ranks highest.

MATHEMATICS AND NATURAL PHILOSOPHY.

3. Here the Studies have been in Euclid, Arithmetic, Algebra, Plane and Spherical Trigonometry, Hydrostatics, Optics and Astronomy. The Professor after expressing his pleasure in testifying to the diligence and attention of his pupils, adds, "with some few exceptions the general behaviour of the Students is exactly what we desire."

NATURAL SCIENCE.

4. Instruction has been given in the Chemistry of the non-metallic Elements, their nature and modes of occurrence, their uses to man in the simple state, the character of the compounds they form, and the laws which regulate their union among themselves, and the manner of the distribution of such substances in the organic and inorganic kingdoms, together with the numerous and important applications they admit of. The Professor submitted a series of Essays written weekly

by his class, which, together with the actual examination papers, indicate their knowledge of such general topics as ozone of the air, bleaching and disinfecting powers of chlorine and charcoal, sanative effects of Iodine, of Sulphur, the extended use of Phosphorus, the wonderful relations of the atmosphere, &c. the manufacture of gas, sulphuric and nitric acids, of glass, &c. The report in this branch is commendatory, with very rare exception, of the whole class for extreme regularity, interested attention and desire to profit by their opportunities.

MODERN LANGUAGES.

5. In the French Class there has been a general repetition of the regular and irregular verbs, translation from dictation including the niceties of the language and verbal exercises on the principal points of Syntax. In German, in three divisions, the Grammar has been thoroughly studied in the difficulties connected with the separable, passive, reflective and irregular verbs and the construction of sentences. The senior class read with intelligence portions of the *Paramythen* of Herder and the *Parabeln* of Krummacher. The Proficiency had been on the whole satisfactory to the Professor and to the Examiners.

6. In closing the examinations the President took occasion in his address to advert to some points in which the College Board confidently look for a decided improvement in the ensuing term, while he felt happy in finding so large a proportion of the Students enjoying the full commendation of all the Professors.

7. Mr. Albert Mitchell from the Chester Grammar School, under the Rev. R. Payne, was examined and matriculated.

8. A satisfactory examination of the Collegiate School under the Rev. D. W. Pickett, B. A., completed the Academical business of Michaelmas Term.

GEORGE McCRAWLEY,

President.

KING'S COLLEGE,

WINDSOR, EASTER, 1856.

The Terminal examinations, which occupied the whole of the last week of Term, have resulted in the following tabular arrangement deduced from the *oral and written* answers of the Students in the respective departments:—

Mr. Andrew James Cowie from the Collegiate School, was examined and matriculated at the close of Term.

The subjects for the Prize in *Hebrew and Biblical Greek* for 1856, will be *The Life of David in Hebrew Bible and Septuagint. The Gospel of St. Luke* and the *Epistle to the Galatians.*

Easter Term will commence on 31st March and end on 1st July.

GEORGE McCRAWLEY,

President.

KING'S COLLEGE,

WINDSOR, JULY 1, 1856.

ANOTHER Academical Year has ended with the customary solemnities of commemoration. *The B. A. Examination* was conducted in the College Hall by Jas. C. Cogswell, Esq., B.A. (Opt. 1837) Classics, June 19. Rev. J. Robertson, L. L. D. Mathematics, June 20. Rev. A. V. G. Wiggins, D. C. L., Divinity, June 21.

The following Students received Certificates :

Almon,	<i>satisfecit.</i>
Braine,	"
Gray,	"

On the same days the *Terminal Examinations* in the several departments were held in the Library by the Professors, who have reported favourably of all the Classes.

The Candidates for the *Alumni Prizes* were examined by the Rev. T. C. Leaver, M.A., assisted by J. C. Cogswell, Esq. and the other examiners for B. A., who declared

Braine,	prizeman in <i>Mathematics,</i>
Sterns,	" <i>Classics and Modern Languages,</i>

And to J. J. Hill the testimonial for *good conduct* has been awarded.

The Examination for the *Cogswell Scholarship* took place on Wednesday 25th, and GRINDON has been elected Scholar.

The Collegiate School was examined on the 25th, and the results appear to have been creditable to the exertions of the Head Master, Rev. D. W. Pickett, B. A., and his colleague Professor Stiefelhagen, as well as to the diligence and attention of the pupils.

Fraser	gained <i>Matriculation exhibition,</i>
Payne	" second prize.

On Thursday, June 26, at 10 A. M., the Right Rev. the Visitor, and the Honorable the Governors of King's College, with the President, the Professors and Fellows, the Graduates, and other Members of the

University, attended Divine Service in Christ Church. Prayers were said by Rev. Prof. Hill, M. A., the Lessons were read by Rev. H. L. Owen, M. A., and the Rev. J. M. Hensley, B. A., Prof. and Fellow ; and an instructive Sermon on the occasion was preached before the University by the Rev. T. C. Leaver, M. A.

On returning to the College, the Governors met in consultation and decided unanimously on conferring the Degree of D. C. L. *honoris causa*, on their illustrious countryman, General SIR WILLIAM FENWICK WILLIAMS, Baronet, K. C. B., of *Kars*.

Precisely at noon the Governors entered the Hall, and the usual commemoration required by the Statute was observed. At the close of his Oration, the President read a poetical epistle which had been recently addressed to him by the Rev. JOSEPH H. CLINCH, M.A., who, regretting his inability to attend the Encænia in person, took this happy mode of expressing his continued attachment to his College. It was received with loud plaudits by the whole assemblage amid many friends and classmates, who fully appreciate the genius of its amiable and imaginative author.

The Rev. Prof. Hensley, B. A. delivered in a clear and forcible tone an admirable discourse on *The Connexion of Natural Philosophy with Religion*, and the Rev. J. Ambrose, B. A. performed his exercise for M. A.

The Rev. T. Crisp then recited his *Prize Essay on the advantages of the Study of Classical Literature*, when the Right Rev. the Lord Bishop presented his prize, with well chosen expressions of very deserved commendation of the Essayist, whose course through College has been most diligent and praiseworthy.

The following Degrees were then conferred :

Masters.

Rev. J. M. Hensley,	B. A.
Rev. J. Ambrose,	B. A.

Bachelors.

Rev. T. Crisp,
H. Jarvis,
A. Moren,
R. J. Uniacke.

A. M. Uniacke, Esq., D. C. L., habited in the full robes of his degree, in a few but very emphatic words, expressed the thanks of the University to the Rev. T. C. Leaver, M. A., for his instructive Sermon. The Right Rev. Visitor then proposed the vote to Convocation, and to the assemblage generally, and it was carried by acclaim. A similar vote was kindly accorded to the President, and the Convocation was dissolved.

The Governors subsequently met in the College Library, and passed a Resolution conveying their thanks to the learned Examiners for their attentive and satisfactory discharge of their laborious duties.

The Right Rev. the Visitor gave much kind attention to the whole of the important business of *commemoration week*, interesting himself in the examinations both in the College and School, and inspecting the examination prize papers.

The following matriculations have been registered :

- Henry Martyn Gray,
- James Fraser,
- James Barss VanBuskirk.

The next *Responsions* will be held immediately before the Terminal examinations at the close of Michaelmas term. Students are referred to pages 20 and 21 of the Calendar for 1855.

GEORGE McCAWLEY,
President.
