

Is Your WILL ? Up-to-date

Conditions affecting your Will are subject to change, for sometimes unsuspected reasons. It is essential therefore to review your Will periodically to ensure proper protection for your heirs and other beneficiaries.

We shall be glad to assist you in bringing your Will up-to-date, and we invite you to consult one of our officers in confidence. He will also explain to you the advantages of appointing a Trust Company as your executor, to ensure that the provisions of your Will be carried out in a competent, successful manner.

Trust Company executorship does not suffer from the incapacities, illnesses, absences and other hindrances with which the individual executor is often beset. It is always available.

THE NATION'S NEED

Canada needs **TRAINED** men, now as never before.

The **NATIONAL EMERGENCY** makes the need imperative.

The demand far exceeds the supply.

Departments of Government have found a shortage of Engineers, Dentists, Doctors, Physicists, Chemists, well qualified instructors in mathematics (for aerial navigation, etc.) and High School Teachers with special knowledge of languages, mathematics, and science.

The shortage of trained men and women will become still greater in the future. We shall lose our future unless this need be met.

High School students thinking of university would be well advised to seek special training and to enquire seriously about Special or Honour courses.

For many years past DALHOUSIE UNIVERSITY has built up unusual facilities for advanced and special courses in mathematics, chemistry, physics, biology, classics, modern languages and history. In Eastern Canada Dalhousie's laboratories, libraries and teaching staff are unexcelled, and it is the only University with the professional schools of Medicine and Dentistry.

The needs of the nation make it imperative that an increasing number of women enter university special and professional courses.

Dates of autumn opening of the various faculties, and further information may be had from the REGISTRAR.

Free Men *and a* Free Press

IN Canada, you do practically as you please—live your own life bounded only by the laws of the country. You are a *free* man—not under the strict rule of a dictator or Gestapo. Knowing how to govern yourself, you therefore take interest in the affairs of your community, Province and Dominion. You know how to safeguard what you have earned. You know good values for your money—for no man is free who is without money enough to buy the necessities of life.

Reading the newspaper, of course, is where a man learns about what is going on. The news, good and bad, is brought to you daily because this is a free country. Your newspaper is your "barometer of the times". Your newspaper protects you against misleading news, against false advertising. The newspaper saves you time, saves you dollars and cents through the values represented in the advertisements.

Enjoy your newspaper. Read it daily. Keep posted on the latest developments . . . the privilege of FREE people.

The Halifax Chronicle has been closely linked with the history of Nova Scotia for 113 years. It is one of the most quoted newspapers in Canada, and is the only paper of the Maritimes of which that impartial authority, the Encyclopedia Britannica, says it is "of national reputation and wide political influence."

Adhering always to a sound, sane editorial policy it has won and enjoys the confidence of all sections of the people to a marked degree.

The Halifax Daily Star, established in 1873, is associated with the Chronicle as an afternoon paper. These two, in combination, provide an excellent coverage of the entire province.
