Dear Miss...,

It was agreed that I should write and let the General know the subject formed Sunday as early as possible and that he should inform me if they were approval or if any alteration should take place — having on Monday last, and at what time, I am surprised exceedingly. I have never yet heard a word from him — the particular situation in which I am resides it impossible for me (this week) to call on the General — be so kind as to see him, and write immediately to me — I will mention the subject, but the letter may have miscarried —

My dear Friend,

I have at various times called at your Lecture Room but without seeing you. I have heard your Lectures which I hope you will find remunerative. You must not be dispirited when I inform you that I am become a student under Dr. Addison of Midlothian making rapid progress in the Vulgaris, in which I hope I shall be more successful than your humble servant.

I beg you will give me a call, it is a pleasant manner and enquire for the Green House - I believe you will find a little in it that will be of some use to me when I am 9 that I shall be glad to see him, and I am at your disposal to convey what to you.

Hope you will favour me with a sight of you as soon as you can for I want to consult with you.

Your humble servant,
