## EDITORIAL

The first football match played on the improved campus demonstrated much more clearly than words what Dalhousie has gained through the activity of some gentlemen who take an interest in our welfare. Two, in particular, are worthy of the sincere gratitude of the students for their splendid efforts on our behalf; we refer to Messrs. H. C. Theakston and E. P. Wainwright, who spared neither time nor energy in order that the whole undertaking should be a success. The receipts of the game were most satisfactory, so much so that some financial student minds are predicting that before many years the credit balance from athletics will assume large proportions. That, however, is a minor consideration, the sport is the thing; and, though the monetary phase must not be overlooked, Dalhousie always plays for the sake of the game.

While it is true that Dalhousie has no "Rooters' Club", yet this term has seen no inconsiderable change in the attitude of the student body when they are in attendance at an athletic event of importance. The appointment of cheer leaders, left to the D.A.A.C. executive, was well done, and those appointed can do wonders if they get the support of the students as a whole. Remember that our team needs encouragement at the games, that it is your duty to sup-

port the team, and that you have an opportunity to share the honors of the victory.

Annually the Gazette staff has to deal with some knotty problems and not the least important of these is the financial one. This year is no exception. Preparations are being made to publish twenty issues during the session, which means a heavy financial strain, and in consequence we have been compelled to increase not only the advertising but also the rates. Now is the time for the readers of the Gazette—the students and their friends—to show their appreciation of the efforts of the people who have made the paper possible. Patronize Them. Look through the columns and see the names of the firms who support your paper; a visit to their establishments will convince you that they are in a position to supply all your wants, and will be very pleased to do so. Their work is of good quality and their prices reasonable. Give them a trial and you won't regret it. Help yourself and *help the Gazette* by giving them your trade.

We are always pleased to get new subscriptions. The subscription price for people who are not in attendance at the University is one dollar per year. *Every dollar counts.* Do you know anyone who would like to subscribe, or have you a friend to whom you would like to send a copy? If so, send in the name, or send us the dollar and the address.

### POPULAR PHYSICS

Advanced work in Physics is more popular than ever this year. Good use is being made of the new equipment in the Science Department by both graduates and undergrads specializing in this subject. Those taking this work are: W. J. Jackson, M. A., Wilf. Marshall, H. Lardner, Carl Kenty, K. H. Butler, W. R. Elliott, and Misses Margaret McCurdy and Margaret Buttenshaw.

### HOW IT HAPPENED

Mr. Douglas Reid, the Domino Champion of Shubenacadie is secretary of Med. '24. This is how it happened.

"I nominate Doug Reid."

"Go to blazes!"

"I move that nominations cease."

Congratulations Douglas.

## Council of the Students

The semi-annual meeting of the Council was held on the evening of October the seventeenth.

Student finances were responsible for much argument and very considerable action. Budgets of the several college societies under Council control were read. In spite of this year's seven dollar student fee it appeared that the total of the amounts requested was so far in excess of the credit available that only sixty per cent of the amounts called for by each budget could be granted this year, with the exception of the various women's organizations.

Grants were made as follows:

D. A. A. C.....	\$2280
Gazette .....	1020
Sodales .....	210
Glee Club .....	240
U. S. C. ....	125
Skating Club .....	420

Total ..... \$4295

Further grants will be made if receipts warrant, but heavy emphasis was laid upon the necessity for economy in student expenditure.

Prof. M. McNeill and Mr. Pyke, representing the Advisory Committee at the allocation, withdrew from the meeting at the conclusion of the financial discussion.

Several matters of minor importance were dealt with and at 10.30 p. m. the meeting adjourned.

### ARTS AND SCIENCE.

A meeting of Arts and Science was held on Oct. 17th. Although the attendance was not large, some interesting matters were considered. Mr. Thompson, the President, stressed the need of having the long-forgotten constitution of the society once more brought to light, and a committee was formed to go over it and submit alterations, if necessary.

The need of an Arts and Science song was felt to be great, and it was resolved to offer a prize of \$2.00 for the best song submitted. A prize of \$1.00 will also be given for the best "yell."

In view of the fact that all the larger colleges have a Year Book, the society expressed itself as favoring the publication of such a book by Dalhousie. The plans are indefinite at present, but the idea should be given careful consideration.

(Continued on Page 6)

## Making "Dry Bones Live"

New Work on Anatomy by Professor Cameron of This University.

Professor Cameron, of the Campbell Memorial Chair of Anatomy at Dalhousie University, has just published "A Students' Manual of Osteology and Arthrology," which, being interpreted, means a book on bones and joints.

It is in reality volume two of an anatomical text-book, for, some years ago, Dr. Cameron published a hand book of descriptive anatomy which his students found most valuable. The fact is the standard text-books of anatomy have attained to such a size that serious demands are made on the pocket to procure one and on the brain to retain what is in one. Certain systematic anatomists have written in such detail that their descriptions go far beyond the needs of the ordinary medical student. Prof. Cameron has taken the trouble to compile a text-book on bones and joints which contains no unimportant details and is splendidly illustrated by drawings of his own making. These are clearness itself, such as a diagram as that of the nasal chambers on p. 131 is a model of what a diagram should be. The diagrams have been very well reproduced by the Art Engraving Company of Halifax who are duly thanked in the preface.

The book includes an account of the structure of the teeth. The description of the mechanisms of the joints is one of the best the reviewer has seen anywhere. To the uninitiated, no topic would appear drier or more repellent than the systematic description of bones, and yet it is no exaggeration to say that in this work Prof. Cameron has made "these dry bones live."

### IN ENGLISH LANES

Whene'er at Fancy's whim I stray  
Back thro' the years on Memory's way,  
In English lanes I tarry long,  
Enraptured by the Spring-bird's song  
That comes with April's azure skies  
When dew-kissed violets ope their eyes  
At Pan's low call.

I pluck a snowdrop from the hedge  
By leaping brook, or meadow's edge  
Where golden daffodils delight—  
As do the moonbeams in the night—  
The fairy bands that sing and dance  
To steal away, or else entrance,  
A maiden's heart.

Nor can the scent of other flowers,  
In fairest dream or waking hours,  
Be half so sweet or strangely rare  
As that rich fragrance in the air  
When lilac trees in purple cloaks  
Entice both big and little folks  
From cottage door.

—"Quill."

## PERSONALS

Mr. Donald G. MacGregor, B. A. (Dal.), B. Sc. (Oxon.), Dalhousie Rhodes Scholar for 1917, who took high honors in Natural Science both at his Alma Mater and at Oxford, has received the appointment as Professor of Physics at Mount Allison University.

Mr. Norman MacLeod Rogers, B. A. (Acad.), B. A., B. Litt., B. C. L. (Oxon.) who was a student at Dalhousie Law School during the year 1917-18, is the newly appointed Professor of History at Acadia. Mr. Rogers, who was a Rhodes Scholar from Acadia, is a brother of Arthur Rogers, Law '21, and served in the C. E. F. until severely wounded.

Dalhousians are glad to hear that Mr. Arthur W. Rogers, B. A., LL. B., has been admitted to the Bar of Ontario. "Art" was a popular member of the 1921 class in Law and is now on the staff of the Attorney General for Ontario. He was admitted to the Nova Scotia Bar one afternoon in June 1921, and married a charming Halifax young lady the same evening. He is a graduate in Arts from Acadia, and had a distinguished record in the Great War, winning the Military Cross.

Rod. M. Richardson, B. A., former editor of the Gazette is continuing his career at McGill University. In a letter received from him recently "Rod" mentions the numerous ex-Dalhousians who are in engineering at that university, he has around him many of his classmates of former years in Halifax. Among those mentioned are E. G. Maxwell, B. Sc., E. M. O'Brien, J. Wickwire, G. G. Burris, Lloyd Munro, M. A., J. R. Kaye, A. D. Kent, E. Parker Duchemin, B. A.

Percy L. Parlee, B. A. (King's) who attended classes in Law at Dal last term has been appointed assistant professor of philosophy at King's.

One of the graduates of 1922, L. D. Currie, B. A. (St. F. X.) LL. D. (Dal.) figured prominently in the industrial turmoil in Cape Breton during the past summer. Mr. Currie was the representative of the miners on the Osborne conciliation board appointed to arbitrate the dispute between the Inverness colliers and their employers. This board which returned an unanimous decision acceptable to both miners and company was considered one of the most successful ever appointed under the Act. Mr. Currie is now a full-fledged barrister and is practising in Glace Bay as junior partner of the firm of McArthur and Currie.

### The Very Idea

Felix—They tell me your complexion is all made up.

Felice—That's false.

Felix—That's what they meant.

## THE New Green Lantern

## Pine Hill Post

"Bid me discourse; I will enchant thine ear."

Another week has passed at Pine Hill and George Smith has not been in a night yet. Murray Britton is still a Bolshevik, and Dalgleish hasn't given up trying to get a glass of milk for nothing.

Of course it is not our place to sit in judgment on our friends but we feel that a note of warning should be sounded to some in this residence, like Morris Kim, who has violated Dr. Kent's seventh point, been called twice to the telephone and spent Sunday in jail. Also Kenny Beaton, who was third down to breakfast one day last week. If this happens again he will have to be referred to the House-Doctor.

Preparations for the game and burlesque went on briskly all week. Almost any hour one or two of the Highlanders could have been found in the park or the Marlborough woods tuning their pipes and combing their sporans. We understand that the band, under the leadership of Howard Hamilton, is to become a permanent institution at Pine Hill, to be called out on all auspicious occasions, including the coronation of the Pope.

On Tuesday evening the veteran promoters, Tass. Langwith and Guy McGregor, presented their gigantic tournament. The ringside seats, which were offered for sale two weeks ago, were snapped up immediately. Long before the scheduled time the Arena was crowded. While waiting for the gong, J. D. N., respondent with a new haircut entertained the spectators in true Cape Breton style.

The preliminary bout, between Kid McCuish and Balaam Huckvale, was fought to a no-decision although McCuish claimed a knockout. Then the main bout between Slugger Grant and Battling McCurdy was called. The first round was won by Grant on points, the second by McCurdy and the last by Grant. Left hooks and haymakers kept the crowd in wild excitement. Once McCurdy forced Grant to the ropes with his superior weight, but soon the skill of the South Shore scrapper, together with his terrific punches, turned the tables on the husky upper province man. The bout was clean and well managed throughout and much credit is due the promoters who have done so much for sport in the residence. Although McCurdy packs a wicked left he lacks a little of the scientific side of the game, but we are sure this will be rectified in time.

Joe Pringle and Bob Ross were both out with girls last week. Mothers, lock up the debutantes, here come the bachelors. We all sympathize with Don Clouston, who hurt his knee in the game Saturday, and hope to see him out again

soon. Perry Knox, who was also injured, went to the hospital Tuesday night to get his head dressed and found life over there so congenial that he decided to stay.

## Dal. Musical Review

Record Attendance at First Session of Glee Club.

The first meeting of the Dalhousie Glee Club for the session 1922-23 established a record for attendance and enthusiasm. Not only was the Munro Room filled to the doors, but many stood in the corridors during the meeting. If this is any indication of the requirements of this club, the suggestion that future meetings be held in the new gymnasium is not out of order. The president, Mr. Carl Bethune, who occupied the chair, introduced the chief business of the meeting, making a short address in which he outlined the plans for a Dalhousie musical revue to be staged at the Majestic Theatre under the direction of Mr. J. F. O'Connell. A request was made that any students with previous experience in this line, or those having histrionic ability though inexperienced, hand their names to the secretary of the club. This, it was decided, was the only way in which players could be satisfactorily obtained. The students are very enthusiastic about the idea. At the completion of the business meeting, all joined in a hearty sing-song which made the Forrest building tremble; then, a few minutes dancing, and the meeting was over. During the evening Miss Carol Hawkins was elected vice-president of the club.

Action will propel you far; with idle words you need a car.

## UNIVERSITY HALL MEN'S RESIDENCE

There are still a few good rooms available for students. Rate \$8.75 per week. Application should be made immediately to the Manager, Mr. W. Nisbet, or to any of the following members of the Residence Committees:

### House Committee

H. G. DeWolf  
F. L. Moore  
G. R. Forbes  
L. Macpherson  
E. Jerrett

### Residence Committee

J. E. Read, Chairman.  
John Cameron, M.D., D.Sc.  
J. A. Dawson, Ph. D.  
D. A. MacRae, Ph. D.  
H. L. Bronson, Ph. D.  
H. P. Bell, Ph. D.

## University Hall

The chief excitement at University Hall during the past two weeks was caused by the first football game of the season. The boys at the Hall are particularly interested in the team, as the captain, the two managers and several of the team live here.

And then, of course, the idea of the burlesque game originated here. Messrs. Cameron, Barnhill and Gushue are to be congratulated on their fine work. Strange to say, there was a casualty in the burlesque game. Like many an accident, it was not known about until after the game. The gentleman of the hard hat, who was handling the heavy artillery, was the victim. It was discovered late in the evening that he was still half shot, one barrel being loaded.

When Monday's Echo appeared, Eddie (the one who shakes a wicked cue), was greatly upset. He is very desirous of knowing the identity of "The Girl on the Bleachers." Eddie has a hunch that she comes from home, or she wouldn't have known how to spell his name.

Turning to a more serious phase of life, it is necessary to note the departure of "Spud" Ellis and Carl Dexter from the residence. "Spud" has gone to Washington, intending to carry on at the American capital. "Deck" will be greatly missed.

About a week ago, Messrs. A. S. Barnstead and P. Moriarity visited the residence with a view of obtaining members for the "Y". Several of the boys have taken advantage of the special student's offer. This offer carries with it full privileges during the college term, and is well worth the five dollars.

One of the greatest attractions in the nature of exercise that the residence offers, is the shell. Dr. Cameron and various crews have made several cruises this term. Anyone who desires to go out should mention it to Dr. Cameron.

Play has now commenced on the first billiard tournament, and the names of many newcomers are seen on the list. It is rumored that Henry has brought up several dark horses from Yarmouth. Now Henry, you be careful.

Now that the dancing fever is in the air, it seems the proper time to broach the subject of Hall dances. Last year, as everyone knows, they were a huge success. But there were only two. There is a general feeling that three is about the right number, one before Christmas and two after. Of the college dances held last season, the second dance at the Birchdale was the gayest and most enjoyable of all. How about it? Some of you fellows who shove a slipping shoe should think it over.

The office boy asked today: If H20 is water, what is H 20 C. H. (Hooch).

**DELTA GAMMA INITIATION**

The freshettes may be compared to March—they came in like lions—but thanks to the Sophs, they went out like lambs.

Delta Gamma, in the time-honored customs of Dalhousie's girls met the freshettes on Saturday night, October 14th, the president, Miss Alice Hunter, in the chair. She greeted the newcomers and in a business-like way, informed them of the rules of the college, concerning doors, mirrors, powder and puffs—whether or not her words had their effect, the future only will tell. Woe betide those who have not taken the rules to heart.

The Freshettes, assured by those remarks of the President that they had not come to the meeting on a fool's errand, but that they had been expected, took a suggestion and left the room in a body—only to enter it again under very different conditions. The Sophs saw and conquered.

After the ceremonies of entering Delta Gamma had been carried thru and all the Freshettes had had their orders regarding Monday's classes, the proper class girls served ice cream and cake and then all enjoyed a jolly dance together.

Initiation had come and gone, leaving, it is hoped, no hard hearts nor yet impertinent spirits.

**CORRESPONDENCE**

*(The Gazette accepts no responsibility for views expressed in this column.)*

*Correspondents are requested not to exceed three hundred words.)*

To the Editor Dalhousie Gazette:

Sir,—I understand that one Roe McKenna is to be a candidate at the forthcoming election of members for the new Mock Parliament of Dalhousie University and deem it advisable that the electorate should be informed as to the type of candidate McKenna represents.

It is well known that at the 1921-22 session of the House, McKenna deserted his party on condition that he should receive the portfolio of Minister of Justice in the then newly formed Progressive party, and in addition the sum of \$10,000 cash, which he accepted at the beginning of the session referred to.

He will no doubt receive the support of all the bootleggers of his constituency, as it is common knowledge that during his term of office as Magistrate there were no convictions under the Liquor Laws of the Province.

Surely the electorate of this county are not going to permit such a type of candidate to be elected by the class to whom he caters. While McKenna is still at large the Devil is minus his ablest lieutenant.

In times like the present, Mr. Editor, it is meet that the people should consider carefully who are to represent them in the Parliaments of the country and not rush madly to the polls to elect candidates of this type.

Trusting that this will meet with the approval of the electorate and in order that they may be warned before it is too late, I would ask you to give this letter a prominent position in the columns of your worthy paper.

Yours for clean Elections.  
X RAY.

**FRESHIE-SOPH DEBATE**

In the Munro room on last Thursday evening the Sophomore Class proved too strong for the verdant Freshmen representatives and were decisively victorious in a debate on the question: "Resolved that a dirty, good-natured wife is better than a clean bad-natured wife." Though the question was one which would have been fraught with difficulties to more experienced students of the university, it is but fair to state that the debate was a very creditable one and augurs well for a good year in debating.

President Leonard Fraser was in the chair and called upon Mr. Mowat, leader of the Sophomores, to open the debate for the affirmative. Mr. Mowat

was in good voice and, quoting freely from Addison and other authorities, presented a strong case for the dirty but sweet-tempered wife. Gordon Graham, possessed of a good stage appearance and a rich round voice, impressed his auditors more favourably, it would appear, than the judges. He is a coming speaker. Miss Lindon, in the best speech of the evening, supported Mr. Mowat and did exceptionally well. Her arguments were good and had a very favourable effect. Miss McNeil followed for the Freshmen and was tendered a feeling ovation by her classmates. She was a trifle nervous, but soon became master of the situation. The rebuttals were good.

An interesting and valuable critique was given by J. R. Nicholson of Law. An unanimous decision for the Affirmative was given by the judges, Miss Olive Atlee, Miss Amy MacKeen, inter-collegiate debaters for Dalhousie, and Claude S. Richardson, of the Law School.

**Your Future?**

Some day, perhaps to-morrow, you will need money.

If you have not saved what will you do?

If you have been wise and have saved the future will not worry you.

The easiest, quickest and most satisfactory way to obtain money is to save it.

Save from your allowance now, make regular deposits in the Bank and financing your needs will be the least of your worries later on in life.

Deposits Exceed \$470,000,000.

Over 100 Branches in the Maritime Provinces

**Medical Notes**

**Remarks to the New Men.**

To the first year men, to the uninitiated, in short to those who have not yet made the acquaintance of Clyde Holland's building, Mark Twain's steam boat or Joe McInnis' horse, I address these few remarks:

The Senior Medical students have not turned out in a body to man handle you, to clip your hair or to roll you down the terrace and nevertheless you are welcome.

By this time you have made the acquaintance of the professors but perhaps you have not yet recognized the celebrities of the Medical school. A brief "who's who" may help you. Dinty Moore, captain of the football team and president of the Medical Society first attracts your attention. His exploits are so famous that I will not insult your intelligence by going into details. Murray Britton, president of the D. A. A. C., can not be passed lightly by. He holds the distinction of having introduced a high order of comedy into D. A. A. C. meetings besides having performed prodigies of valor on the football field. You must not overlook Bob Kenney, our famous moose hunter, or Charlie Baxter the football manager. His specialty seems to be the doing of jobs with plenty of work and no thanks. Perhaps he is looking forward to a future life. While speaking of work let me mention Ted Coster, secretary of the D. A. A. C. In that position he has become indispensable. You already know of his athletic standing. Henry DeWolfe, the well known anarchist, should claim some of your attention, likewise Bill Colwell, our young Lochinvar, and last of all our oldest living inhabitant should command your reverence and respect. In the dim past before the war Clyde Wallace Holland won an enviable reputation as a decorator, and justly so for the story of his artistic efforts on behalf of the 1917, then freshman, class will go down to posterity. In recent years the Glee Club and Student's Council have been benefitted as a result of his efforts. His academic standing is nothing to be ashamed of either but you can get things like that from the calendar.

You will notice that I have not mentioned our friends, the ladies. We have not many in the Medical faculty, but let me say here that they are alright.—H.

Several Pine Hill Freshmen were "at home" recently to three of their Sophomore friends. Finding the inside air rather stuffy they took a short walk down to, around, and back from the Auditorium.

The brave hunter is a bashful storyteller.

**Blueprints**

The first meeting of the Engineering Society was held in the Drafting Room, on Friday afternoon, October 6th. The genial "Doug" presided, ably assisted by "Hezzie," who reached the city somewhat breathlessly. The latter refuses to tell what delayed him, but we draw our own conclusions, knowing, as we do, his proclivities among the female of the species.

From the first it was evident that the meeting would be a success—everybody but Williams was there. The Freshmen attended to a man. There are about two dozen of them, bringing up the membership of the Society to somewhere around fifty-five. In former years the Freshmen usually joined one of the Arts classes, in addition to the Engineering Society, with the result that the second and third year boys, now, are inextricably mixed with Classes '24 and '25. This year, however, the new boys gave a unanimous decision to stick strictly to their own Society, and boost it for all it's worth. In the language of the day—Watch our smoke.

The second and third years boys are full of stories about their experiences during the summer. Williams, Crease, Morrison and Ray landed jobs with a long-suffering Provincial Government—on the highways. "Hezzie" was actually entrusted with the position of time-keeper and paymaster, in some wild part of Cumberland County. Mason MacDonald, Henderson and Cassidy helped to operate coal mines in Cape Breton, Sutherland was back to the soil, and Chris. Campbell exercised himself in Newfoundland—incidentally cultivating, upon his upper lip, a fawn-colored appendage that is a thing of beauty. Bayer chased around Sydney doing his best to appear busy, which the worthy president, the aforementioned, genial "Doug" landed an easy job in the city.

Thurber is welcome to our midst again. He belonged to the Freshman Class two years ago. Likewise the glad hand is extended to J. R. Mitchell and Jack Lawrence, who are entering third year work.

Harold McCurdy, M. A. '22, who won the 1851 Exhibition Scholarship last year is doing research work in Princeton.

Professor Copp was seen in the lee of the Science Building, the other day, accompanied by an umbrella, four levels, chains, rods, and about fourteen engineers. Oh, well! We all have our troubles.

**Sorta Artificial**

"Helen's cheeks are like roses."  
"Aren't you laying it on pretty thick?"  
"No; but Helen is."

**Law Notes**

The first meeting of the Law Students' Society was held in the Moot Court room in the Forrest Building on Tuesday, October 10th.

The President of the Society, R. A. MacLeod occupied the chair while J. R. Nicholson acted as secretary pro tem in the absence of A. M. Matheson who was out shooting (bull) moose. The meeting was well attended and considerable business was transacted.

After the reading of divers communications the meeting proceeded to nominate the Executive of the Society for the term 1922-3. J. R. Nicholson, B. A., of the 3rd year, J. G. Fogo, of the second year, and A. L. Slipp, of the first year, were unanimously chosen.

The following were appointed a committee to guide the destinies of the Moot Court during the term: Claude Richardson, C. W. Townshend and A. G. MacKinnon. Various other committees were appointed, probably the most important being the Dance Committee with Edgar Lougheed as convenor and "Ike" Ferguson and Bill Morrison as members. W. H. Morrison will also receive the cup presented to the winning team in the Interfaculty Football League at the end of the season.

There appeared to be some friction in the meeting, but this was dispelled before the meeting adjourned.

A committee was appointed to look into the matter of a Faculty pin and will report back to the Society at an early date.

The Society listened with pleasure and otherwise to the eloquent appeal made by the Rev. James K. Hackett. It is hoped that the Society will be able to procure the services of members of the Bench of this Province and that the members of the Society may enjoy the privilege of listening to their instructive addresses.

**AT THE MAJESTIC**

"Savageland," a musical comedy produced by Pictou County amateur talent under the direction of Mr. Harry Murray, was the bill at the Majestic during the first two days of this week. Mr. Murray and his company delighted the Halifax audiences with their clever piece.

Beginning today, a comedy drama entitled "Putting It Over" is on the boards for the rest of the week, with two matinees, today and Saturday. This is the first time this play has been shown here. Those who attend are assured of a first class entertainment.

"The Crimson Alibi," a sensational mystery drama, will be staged by the Players next week.

## S. C. A. RECEPTION

## Freshmen Meet Guests of Honor and College Leaders.

The Students Christian Association reception for the new students was held in the Munro Room on Monday evening, October 16. Over one hundred guests were entertained at supper, and their introduction to this worthy branch of college life was a very pleasant one. During the evening the guests of honor P. F. Moriarity, general secretary of the local Y. M. C. A., C. J. Burchell, K. C., Dean MacRae of the Law School, Dr. Bronson, Dr. Woodbury, Professors Smith and Wilson, were introduced to the students. Leaders in practically all student activities at Dalhousie were in attendance and were presented by "Larry" McKenzie, president of the Student's Council, who acted as chairman. The official welcome was made by M. M. McOdrum, president of the S.C.A., who in a few well chosen words described the important place occupied by the association at the University. A number of other prominent members gave short talks emphasizing the value of the S. C. A., its aims and accomplishments.

Thanks is due the ladies for the efficient manner in which they controlled the commissariat department, and this was no small contribution to the success of the reception.

## PERSONAL

Students learn with genuine regret of the illness of Dr. H. L. Stewart. It is hoped that his recovery will be rapid and that before long he will again be conducting his classes in Philosophy.

William Campbell Dunlop, LL.B. ('22), was admitted to the Bar of Nova Scotia on Tuesday, October 17. His Lordship Chief Justice Harris presided in Chambers, motion for admission being made by R. H. Murray, K. C. "Bill" is opening an office in Windsor, and with his wife will soon be moving to his new home. Entering this University after a long and meritorious service at the Front, Dalhousie will always remember him as an excellent student and an all-round good fellow. His many friends congratulate him and wish him success.

ARTS AND SCIENCE  
(Continued from Page 1)

tion by every student. Cannot Dalhousie keep pace with McGill and Toronto in this respect?

Inter-faculty sport and debating were also considered. The need of supporting the various games and debates was expressed as being necessary for the development of a healthy college life. The society elected Mr. Wm. MacOdrum as manager of the basketball team.

## Commerce Clearings

The Commerce Society held its first meeting Friday, October 13, with Mr. M. D. Macaulay presiding.

Owing to the fact that Mr. A. W. Shaw, the secretary-treasurer-elect, had not returned to Dalhousie, Mr. Piercey was chosen to fill that office.

It was decided to raise the Society's membership fee to one dollar because that of last year had been found insufficient.

The Society, with characteristic foresight, elected to that very necessary body known as the Social Committee the following persons:

Miss Ruth Fulton, Mr. Gordon Beazley, Mr. Snow. To this committee were left all arrangements for a social function to be held about the first week in November. The kind of function it will be was left to the judgment of the committee.

The Business Men's Lecture will be continued this year if speakers can be obtained. Commerce students are greatly indebted to those who addressed them last year. These lectures are both interesting and instructive and it is to be hoped even more can be given this year than last.

Two lines were added to the Commerce yell, so that it now reads: "Hit 'er up, hit 'er up, hit 'er up again, Merchants, bankers, shipping men,

Rah, rah, rah,  
Sis, boom, bah,  
Commerce, Commerce,  
Rah, rah, rah,  
Yah, yah, yah,  
Commerce."

J. O'C.

## Junior Jottings

On Friday evening, Oct. 13, Class '24 attended the Orpheus, where they sat in judgment of a picture sure to cause interest, viz., "Is Matrimony a Failure?" The opinion of the class as a whole has not yet been received, but one girl remarked, "Seemingly, they can't live with us or without us."

After leaving the theatre we repaired to the Tarry Inn, and the inevitable dance. Mr. Theakston—not Harold—at the piano, performed in a manner that created a very favorable impression. That genial couple, Prof. and Mrs. Murray MacNeill, were the chaperones.

There were, in all, about fifty present—a few more boys than girls. However, that didn't dampen the ardour of those members who were not accompanied by one of the fair sex. They brought up the rear of the procession, making known the presence of Class '24 to all and sundry.

About midnight all went their various ways rejoicing. "Doug" and his Social Committee are to be congratulated on the successful culmination of an other "event."

## ALPHA, BETA

You know the rest of this Alphabet, but won't you learn the Alphabet from a music dealer's text book. It starts like this:—

Amherst Pianos, Accordeons,  
Auto Harps, Banjos, Bugles,  
Cremonaphones, Cornets, Cellos,  
Celestaphones, Clarionets, Drums.

## EVERYTHING IN SHEET MUSIC.

We also carry a nice line of Pictures—  
Harrison Fisher's Maxfield Parrish's, etc.

We Invite You to Join Our Fiction  
Lending Society, 2c per day.

## WANDERERS 11 - DALHOUSIE 10

Score Indicates Play  
In City Rugby Game

That the game is not won until the final whistle was emphasized with a vengeance on a wet and slippery field at the Wanderers' grounds, when, coming from behind in the last stages of the contest, the Red and black fifteen overcame Dalhousie's 10-3 lead to win Saturday's game by a one point margin.

The "Red Shirts" scored first, about three minutes after commencement of play, due to their good half line combination coupled with momentary failure of the Tiger half line to mark their men. Four minutes later, Ted Coster, working the "fake pass" to perfection, made a spectacular run worth travelling many miles to see, and scored for Dal. Haslam converted.

Dal's second try by Bates, came half way thru the second period, and Haslam converted again nicely.

With but ten minutes left, rapid following-up of a penalty kick added three points to the Wanderers' score column. Five minutes later, after being carried from the field with an injured arm, Ritchie MacCoy returned to win his own game by a superb run resulting in a try which Lilly converted. Dalhousie then rallied to a fierce attack, but were unable to get thru for a score in the few minutes that remained.

Fluck, veteran fullback, and 1920. Dal. Captain, returned to the game to fill the breach occasioned by injuries to Varsity players. He was a great asset to the defence, with his kicking and tackling, in spite of lack of practice.

Dalhousie halves were all good individually, but lost many an opportunity for gains thru insufficient team work. Mont. Haslam and Porter were in good form. Bates scored by one of his brilliant runs but on other occasions might have helped a lot had he passed sooner. The same may be said of Coster.

Beaton was as aggressive as ever at quarter, while Phinney, the recent arrival from Acadia, showed promise, and with a little more experience should prove a valuable acquisition. Wanderers' quarters persisted in offside tactics so evident in the last game.

Dal. forwards, Logan, Sutherland, McKenzie, Baird, Orr, McLean, Bruce and Cecil Jones, followed up well as usual, and their tacking was good. However, they did not work as smoothly in the scrims as heretofore.

If Langwith recovers from his injuries sufficiently to be back on the half

## CHEER ON, DALHOUSIE!

Everybody out at Studley early Saturday afternoon to cheer Dalhousie to victory. Bring your Gold and Black ribbon, and plenty of lung power. The Rooters' Club and "Burlesquers" will be there with something new.

The Tigers are going to win! Let's back our boys to the limit!

line, the next game should see better team work. Leadership on the field will also make itself felt when Capt. "Dinty" Moore's injured ankle permits him to get into the game once more.

The Rooters' Club was again in fine fettle, outclassing the Wanderers in every respect in their phase of the day's program. Charlie Beazley, Eric Jerret, Len. Fraser, and Edgar Henderson were certainly right on the job when it came to starting a big noise.

The Intermediate game went to the Wanderers, 5-3.

## Intercollegiate League

## WESTERN SECTION

U. N. B. 5; Mt. A. 0—at Sackville, October 19th.

Mt. A. plays Acadia at Wolfville tomorrow.

## EASTERN SECTION

At time of going to press the schedule for the Eastern Section was not definitely decided upon. However it is expected that Dal will play Kings at Windsor on Nov. 1. Kings plays at Antigonish, and St. F. X. plays here this year.

## UPPER CANADIAN FOOTBALL.

Toronto, 20; McGill, 2—at Toronto, October 7.

Queens, 12; McGill 1—at Montreal, October 14.

Toronto, 51; McGill, 5—At Montreal, October 21.

## NOTICE!

During the term, 1922-23, all debts incurred by societies receiving financial support from the Students' Council will be, on an order signed by the Secretary of the Society incurring the expenditure and countersigned by the Secretary of the Students' Council. The Council will not be responsible for any accounts contracted in other than this way.

(Sgd.) L. W. FRASER,

Secretary-Treasurer,  
Council of the Students.

## D. A. A. C. EXECUTIVE

At a meeting on Thursday evening last, the D. A. A. C. Executive arranged for immediate opening of the Inter-faculty Football League.

Regulations were adopted to be posted on the various University notice boards. "D" men were absolutely barred from participation, and but two men who have played two games on the Varsity, or the second, team will be allowed to play on each Faculty team.

The League is to be of the "sudden death" variety, one defeat compelling withdrawal. Four teams, Arts and Science, Medical, Pharma.-Dent. and Law, will take the field. The first game was scheduled for this week, date to be arranged, when Arts and Science, the present champions, were set down to meet Law.

V. C. Clifford was appointed track manager to succeed "Spud" Ellis, and plans were completed for elimination races to choose a Dal. Relay Team to take part in the indoor meet at the Halifax Arena next month. This meet is being conducted by the Crescents A. A. C., under sanction of the M. P. B. A. A. U. C. "M. M."

## Engineers' Banquet

The Engineers held their Annual Banquet in the Green Lantern, on the evening of Saturday, the 21st. The affair was of course strictly stag, the only person who bespoke of the weaker sex being "Pansy". There were about thirty present—a fair representation of the society. The object of the function is to bring the freshmen into more intimate contact with the second and third year men, and for those who attended it can safely be said that this object was attained.

The speakers of the evening were: Prof. Copp, Prof. MacNeil, Dr. Bronson, Asst. Prof. Theakston and Mr. K. L. Dawson, the latter the Chief Analyst at the Tram Company's Gas Works.

The talks were brief and interesting, Prof. Copp appealing, particularly, by his concise article on the possibilities and fields of the Engineering profession. Prof. MacNeil and Dr. Bronson each struck a responsive chord in the assembly, the former on account of his intimate contact with students generally, and the latter because of the fact that he had studied electrical engineering. Prof. Theakston explained that he would rather play the piano than make a speech, so was allowed to do so—later. Mr. Dawson followed with an interesting few minutes. Mr. C. W. Currie, of the Freshman Class, spoke on behalf of the first year men and was well received.

This concluded the second part of the program and accompanied by the piano, an hour was spent in justifying the publication of the Dalhousie Song Book. At eleven the party broke up—and all walked home.

## Acknowledgments

The Gazette wishes to acknowledge receipt of subscriptions from the following: Miss Grace Knox, Messrs. Jack Corbett, L. Sterns, G. P. Murray, R. M. Fielding, Voorheis Ditmars.

## THE ONION SKIN

"Read It and Weep"

Here's the latest news from Delta Gamma, boys:

"Dinty" Moore is the handsomest man in the College.

Prof. Jones, to French II class: "Just stand for the first two weeks until we get acquainted."

Freshman, after hearing the "degeneration" speech of the president of the Glee Club: "Is that fellow a Methodist?"

Wee Art McD.: "No, he's a first year law student."

Night watchman at Studley: "Hey! Who goes there?"

Reply from the night: "A professor with two friends."

N. W.: "What! A professor with two friends!"

Sir Conan Doyle declares that there are no divorce cases in Heaven. Well, of course, you can't get a divorce without a lawyer.

A visit to some of the city book stores shows that a lot of students have taken Buyology this year.

A young gentleman who was plucked in Philosophy I last session is said to have explained the fact by saying that owing to his absence from three lectures he missed some of the most important jokes in the course.

Professor to Geology I class: "You'll find this quiz very easy, it's mostly chemistry."

First Co-ed: "You look like Helen White."

Second Ditto: "I know it, but I look better in brown."

—McGill Daily.

"I shall settle my bill immediately," said the mosquito, as he alighted upon the sleeping man's bald head.—Erm.

HAZING—1922.

The Fresh stood on the field alone,  
Whence all but he had fled.

"I wonder if I hurt those Sophs,"  
Was what the youngster said.

—"Ack Emma."

Professor (in Surgery one), after laboring through a roll call of seventy names.

"That's an awful job. Henceforth I think we will simplify matters by asking all absent to hold up their hands."
