CALENDAR IN REVIEW

The past intramural sport season again proved very successful for Dentistry. The faculty swept the men's Division by at least 100 points, however, losing the overall supremacy by a mere 15 points. Highlights of the year included championships in Men's Hockey, Co-ed Broom Ball, Women's Bowling, Co-ed Bowling, and Volleyball skills, leaving the faculty to finish second in most sports. Recreation included losing the Soccer

Championship for technical reasons after winning the game short-handed! That's for the third consecutive year. Dentistry student was voted the outstanding male participant in the Dalhousie Intramural Program, with this year's recipient being Ron Buckley.
