# Radio Pastor Saves Jurists

a forum.

By Kathy MacKenzie

It is very sad that in these serious days, people know so little about the bible, said Perry F. Rockwood to the Law School Thursday. Rockwood, a Nova Scotia

"Radio Pastor", said the bible "is the greatest piece of English literature ever produced". He spoke to the lawyers on

the relationship between the bible and the law. Rockwood cited the taking of oaths and the institution of marriage as some of the many "precepts of our law which originated in the Bible",

The Pastor described his rescue from the Christ-less life he used to lead. He explained he saw "the light", one day after being taken to church by a friend. "Beloved, salvation is the new light", he cried. The law students laughed.

The students grilled the evanpassage in the bible which des- realm of morality. cribed Christ's turning of water

Pine Hill Residents on the reasons for their atempted coup d'etat during the annual Dalhousie Model Parliament. We are heartened by the quite obvious feelings of conscience which provoked this somewhat unusual demonstration. We are encouraged by the statement which reflects accurately, so we believe, the feelings of thousands of Canadians about the Parliament of Canada. We are delighted by the open attack on Model Parlia ment because we have witnessed it degenerate into a badly acted farce over the years.

It is not usual for Canadians to be morally indignant about the state of their country or their politics. We are a pragmatic people who tend to treat all issues as necessitating some form of compromise. Our regionalism and biculturalism have taught us the futility of attempting to impose a particular dogma on the whole nation. The unfortunate thing is that our principles become lost. or never develop, from this compromising method. We are a people without the Word, and in our quest for the Flesh, we are akin to Stephen Leacock's famous horseman who "jumped on his horse and rod off in all directions."

In other words, we don't know where the hell we are going or what we will do if we get there. We need some constant signals to establish our direction; signals which will point the right road to take. That is, it is high time that politicians in this country began to believe in some goals in order that they might work for something a little more uplifting than patronage.

At this moment Parliament is a squalid mess. Last fall the Canadian people sat in agony watching an insane debate about a piece of cloth. Certainly it is important that Canada have a new flag, and we will salute that flag with enthusiasm when raised, but it is more important that this country begin to deal realistically with the social and economic problems which are part of our technological society. Surely the government might have waited until the forces of senility were expelled from Parliament before it opened the rupturous debate. It would have been more to the point if the House of Commons had spent some energy on place for all citizens. The Canada Pension Plan is one example of this type of legislation; integration of the armed forces is another.

But can the stench from Ottawa be simply explained by our tradition of compromise rather than ideology. We think not. We think that there is something else basically wrong with the body politic of this nation when we witness the rash of resignations from the Liberal cabinet. When politicians commonly resort to dealings which are not in any respect proper, one can be sure that the people in the country have a low opinion of

politics. One can be sure that many decent men have at this time committed the sin of non-par-

When politics is considered to be a petty occupation then democracy cannot long survive that thought. All the good-intentioned non-partisians in the world cannot save the democratic structure. For democracy depends on a dialectic between two opposing ideologies. The possibility of a different

group taking over the reins of government only remains a reality to the electorate if the groups have some substantial argument. This is the essence of democracy and this is why citizens must plunge themselves into the hurly-burly of the political arena. It may seem paradoxical but it is true nonetheless that only those who are fiercely partisan for a particular viewpoint can ever be non-partisan for the good of the whole. If one believes that he does not have a philosophy, a viewpoint, he is mistaken. His philosophy becomes by necessity one of "ego" and if enough individuals succumb they will tear apart the fabric of democracy and permit a dictator to destroy individual

Perhaps this gives rise to the greates criticism of the Pine Hill action. They attacked the heart of democracy itself when they stormed its citadel, the representative assembly. Parliament is quite obviously an institution central to Canadian democracy. Once one coup d'etat succeeds there is nothing to prevent other groups from attempting their own revolutions. If their manifesto is correct, presumably these gentlemen would have dissolved the Canadian rather than the Dalhousie Parliament if they had the means to do so. In other words they would have destroyed those good things about Parliament as well as the bad things. A clear case of throwing the baby out with the bath

While we recognize that the present political situation both in Ottawa and at Dalhousie renders the action very understandable nonetheless we really cannot condone it. Certainly the Gazette feels that Model Parliament on this campus has lost its usefulness and should be replaced by some other form of political activity. For example a Model United Nations. However, this is not the way to go about abolishing Model Parliament or about reforming that body. These things can only be done through the political clubs.

Politics is not a nasty business; it is the lifeblood of freedom. These gentlemen should have been willing to make the sacrifices demanded of politicians if they wish to influence public affairs. They should all join a political club, or the several political clubs and work within them for the acceptance of their ideas. In short, they should work within the system in order to reform it; they should commit themselves to a political party on the basis of their personal principles, and they should do this now. After all, there are aspects of democracy worth saving. Nonetheless we are glad that these students took part in this demonstration. We are glad because it indicates that there are still some people willing to take action for what they believe. We trust that these students will realize however that the action they took was self-defeating and the only solution, unpleasant as it might seem from within the ivory tower, is partisianship for a cause.

Let this demonstration serve as a warning to the present crop of politicians that they had better mend their ways before some groups on a national level take the same type of action. It is always the politician who must provide the first line of defence for democracy. Let us hope that some Canadian political leaders will soon emerge, ready and willing to do this.

Now hear this; now hear this; Now hear this, and hear it well. We want to make it clear at the outset that the disruption taking place in this parliament has been, and is intended to be non-violent and peaceful. We want no immature or thoughtless displays of emotion, and we hope that the parliament and the public will respect our

This is a non-partisan coup-d'etat executed by deeply concerned citizens of this nation, to declare our dissatisfaction, regret, indeed our sorrow over the ugly political posture of the nation, and hereby make the following declaration.

WE DECLARE that as we lift our eyes toward the national political scene we are disgusted with what we see. We have seen our national government and our opposition waste an inexcusable amount of time and an enormous amount of money over issues which came to be trivial in comparison to the needs of this country and in relation to the needs of the world.

WE HAVE SEEN a grave absence of political philosophy which can be executed practically and can inspire respect from the Canadian people. We have seen the government trying to solve a sincere problem with what became anartificial issue. We have heard the opposition argue falsely against this artificial issue until the real problem was obscured under a mass of partisah politics.

WE INTERPRET this ugly exhibition as a general disrespect for the Canadian people and an unmitigated example of government irresponsibility in view of the burden laid upon their shoulders.

THE RESULTS of this deplorable condition can be observed in the disunity of the Canadian people, the apparent breaking up of a major political party, in the severe loss of integrity and responsible character of our political leaders, in the loss of confidence of the Canadian people. We look ugly to ourselves; we must look contemptible in the eyes of other nations.

WE DECLARE THAT this parliament is a model of parliament indeed. Just as the national parliament has concerned itself with trifling party politics so this parliament reflects the same lack of sincere political interests on campuses generally and at Dalhousie in

WE RECOGNIZE that less than one third of the campus voted for this model parliament and maintain that this absence of concern for the welfare of Canada and for the well-being of her people is a reflection of the national temper.

WE RECOGNIZE as well the sincere concern and sacrificial contribution of many of the individual members gathered here, and regret the necessity of this drastic action. We hope that these members will look upon our action not as a denial of their efforts but as a positive step in assisting to recognize the local apathy and the national incompetence.

FINALLY we declare that universities are not, as this one is not, determinative in Canadian politics. Even though this Center of learning can be and ought to be, a lively contributive element in our government, it remains a docile beast hardly willing to admit it has reason for existence.

WE DECLARE that to continue this parliament would be to conone the infamous political situation nationally and here at Dalhousie and that our action here is a voice raised in protest against it. We are all responsible for the future and this is a step to make that responsibility known.

#### Letters to the Ed.

In reply to your editorial entitled "King's and Peasants" it might be noted that this ancient (and hence, a priori, backward) institution, beat the Gazette to the gun on this occasion at least. Before the issue appeared a new student's union constitution for King's passed the committe stage. It wipes out the anachronisms surrounding the offices of Senior Student and Senior Co-ed and amalgamates the Male and Female Student Bodies.

The officers of the Student Union will be elected by secret ballot. A Student Assembly and a Student's Council will share all powers concerning the business of the union. Discipline will be in the hands of Residence Councils chosen for this

These changes have been made necessary because of the contemporary readjustment of the structure of the university. While the university was a real "communitas" a true collegium or "bound together" group, it was possible for the leader of the students to also be an appointee of the administration, without necessitating

conflict within the office itself. Today however, following the pattern of non-academic life, the university has tended to break up into conflicting interest groups. The students, faculty and administration now constitute parts, in dynamic tension, of no clearly unified whole. It is obvious then that the true leader of the students cannot also be an officer

of the administration. As to the charges of anti-intellectualism, not only does the as a joke. criticism of the offices of Senior Student and Senior Co-ed merely because of ther names smack of an anti-intellectualism which judges the appearance rather than the essence of things, but it reveals an inability to examine its own beams in its own eve. For example, one can hardly imagine a more ridiculous institution than the Student Forum provided for in the new Dalhousie constitution which must pass on all proposed changes in that constitution.

Again having watched the petty, mercenary Dalhousie Student Council in action vis a vis Mr. Guite, I can feel a certain pride in the greater gentility of King's life. At this meeting Mr. Guite the way that you have handled dain it deserved. Led by Mr. Buntain, the Council took this opportunity to show that it had means of gaining personal satisfaction for an criticisms published about it in the newspaper. The Council believes that culture is fine when talked about across a dinner table with the executive of the Board of Governors, but balks when culture requires money or freedom for the artist.

Wayne Hankey IV, Honours Philosophy

Who do you think you are anyway. That editorial on "King's and Peasants" was disgraceful. You make fun of the long tradition which King's enjoys without considering for a moment that it is tradition which is the back- sorry for what they did. bone of this country. If it hadn't been for the British Army and her fine traditions this country

would have been handed over to the Yankees long ago.

Your snide comments that King's is "anti-intellectual" and like a "Boys PrepSchool" shows a complete lack of knowledge of the facts since in the last four years King's has had two Rhodes Scholars, precisely the same number as Dalhousie with a much larger student population.

If we were to join Dal we would become lost in that apathetic mess you have up the hill. Don't forget who wins-whenever some Dal students get up enough nerve to come down to King's on a raid. We haven't lost one for years so they tell me, in fact we've never lost one.

Also when we find out who P. H. is we will make sure that nothing as bad as that is ever written again by him. No matter who he is, he isn't too big to be beaten. Remember our motto, "Deo, Legi, Regi, Gregi" or in translation, For God, For the Law, Daily For King, For Country.

Because of this we demand a

#### SOUNDS OF BATTLE

Of course, there is going to be n Canada. Already the theolonto line ( a counterblast to the book is in course of preparation). inability to grapple with modern Soon the religious trumpets shall sound, and the faithful will gird up their lions. All will be ready for the assault of the philistines, and soon we shall hear the sounds of battle as the religious and antireligious clash in personal and public debate.

The book will be damned and

And yet, there seems to be something rather odd about the book -- the combined work of a crusading journalist, a religious sect, and a commercial publishing house. In his book, Mr. arguments will be widely used. Berton accuses the Church of failing to make use of the modern games of semantic chess, with arts of communication. And yet, the Anglican Church sought out it -- surely an indication of their demolishes the others. mastery of the media.

The book has a singular advantage. It does not have to be read in full: the chapter headings tell the tale. Three parts, headed "The Abdication of Leadership", "The Tyranny of the Religious Establishment", and "The Failure of Communication" are each subdivided into five chapters with titles like "What Color was Caste System", and"The Pre- ago.

THE RELIGIOUS TRUMPETS SHALL SOUND, THE FAITHFUL, GIRD UP THEIR LOINS, ALL IN READINESS FOR THE PHILISTINES' ASSAULT . . .

Fifteen minutes of casual throughout the land, and should war, sex, automation, business, race problems, his famous article in MacLean's magazine and among other things.

He claims that the modern Century, and that it is apathetic when not downright reactionary. He cites many examples of the

The writing in the book occasionally rises to great heights. Without a doubt Mr. Berton is one of Canada's ablest writers. He has a real talent for communicating his ideas, his enthusiasm, his opinions and his prejudices to the reader.

#### MINOR HERETIC

And yet the book left me strangone hell of a row over this book ely unsatisfied and unmoved after reading it. Mr. Berton had done an rical artillery is being pushed excellent job of flailing the church, and has demonstrated its problems. In another age he would doubtless have been burnt as a heretic and later canonized as a saint. But he would have been a very minor heretic and saint.

One reason is that too many of praised, reviled and hailed. It here we have an advanced clergymay even be burnt in some of the man who says that sex is a good remoter parts of the Bible Belt. thing! Have the southern clergymen supported racial segregation, even in the churches? Then look at the work of the Reverend Martin Luther King!

In the months to come, such They soon degenerate into vast each side trying to checkmate the other with some "fact" that problem. No century has seen as Mr. Berton and asked him to write proves its case, and effectively

> The Church, as an organiza- and of modern society. tion, is Man's work, not God's. And the horrors of the 20th forms them into instruments of duty. great and unbelievable destruction and evil.

It is when Mr. Berton puts forward his ideas on how to reform the system, and bring the Church

into the New Age, that he reveals his weakness.

Many of his ideas are sound worker priests, clergymen freed from routine parish duties, a greater sense of commitment to those causes of the day which involve moral issues. But on the last page he calls for a new Messiah -- "one man, of some spiritual genius, who will take the incredible laws, postures, and myths of today's Church and turn them inside out so they will have some relevance in the New Age." Mr. Berton's Messiah sounds suspiciously like a charismatic political leader, a new Hitler, convinced of the absolute rightness of his ideas.

It is not to the actions or to the promise of a single man that mankind must look; men must look to themselves. There are no more easy answers, no more facile solutions, no more magic words, no more problem-solving rituals that will overcome the great difficulties and dangers that lie around us. It is worth quoting here the words of Homer W. Smith in "Man and His Gods":

"A man can lose his god but he cannot lose himself. His fate was not decreed in the temple of Osiris, or written on the tablets of Marduk, or settled by Olympian conclave or predestined by righteous Yahweh. He has always had it clinched in his own hands he need but open his fingers to read his lifeline, he need but close them resolutely upon the task to turn his dreams into reality. Then he will pronounce life good and cease to worry about that which at present lies beyond his ken, nor look back at the phantasmagoria that marks his past."

If the Church has made Robinson, author of "Honest to the problem of individual sal- mistake in the past it has been in vation, but to the fear of universal placing too much faith in God

### The love of Jeanne Nev

As not infrequently happens at the movies, the short subject proved to be more entertaining than the main attraction at last week's screening by the Dal. Film Society. THE EXPERIMENTAL FILM, made by the NFB in 1962, is a very interesting examination of this type of film from the point of view of both film-makers and critics, whose comments are interspersed with a generous selection of the type of picture they're talking about. This sort of letting-the-audience-see-ioritself is very helpful in educating critical sensibility, and the NFB deserves commendation. When exposed to NFB material as a child, I used to think it was perfectly terrible; it's amazing how the product has improved with age.

From the point of view of its story, THE LOVE OF JEANNE NEY seems to me repellent. The film is vintage Communist propaganda, of the same type as MIRACLE IN MILAN twenty years later, and purports to prove the same point; that money is the root of all evil. No one since the time of Chaucer's Pardoner has been able to convince an audience of the truth of this proposition; at- any rate, THE LOVE OF JEANNE NEY falls far short of being convincing. The novel upon which the film was based was written in 1924 by Ilya Ehrenburg, a Soviet writer who later in life was twice awarded the Stalin Prize. The film was made in 1927 and the novel was translated into English two years later, so we may assume that the story was something of a best seller at the time. The plot, in terms of the film, is basic corn: Jeanne, whose father is investigating the political life of Russia during the Revolutionary period, falls in love with Andreas, a young Bolshevik. Duty forces him to become involved in the murder of Jeanne's father.

She returns to Paris, but a jolly commissar makes possible Andreas' assignment to Paris on a subversive mission. Meanwhile, the sinister villain appears in Paris to thwart the lovers' hopes by implicating Andreas in another murder, this time of Jeanne's greedy uncle. Like Nancy Drew, Jeanne sets out to solve the mystery, and by cracky! she does, too. We may assume that they lived happily ever after.

If this plot were done without ideological decoration, it might make (indeed, it has made) a good B rade Hollywood melodrama. But when we see the ommunist element portrayed as spotless in virwhile the capitalist class and their hirelings ssess all the vices (they smoke, drink, and inlge in sexual aberrations -- Jeanne's uncle tries commit incest with her), all credibility vanes. Jeanne's uncle, for example, is not a charer but a caricature. He is portrayed as the vpical" fat, fish-eyed capitalist too stingy to electricity (candles are cheaper), who has no mpathy for the working class (he abruptly fires elderly female typist to make room for Jeanne his detective agency) and who indulges in luxes (he enjoys his ESCARGOTS). At one point, goes into a positive frenzy counting in panto-

mine the money he expects to receive as a reward for recovering a diamond (another evil luxury). That this sort of thing could be offered as serious social commentary seems incredible, yet there is every evidence in the film that it was intended to be taken seriously. The only character who lavs claim to believability is Jeanne herself. Her mobile and expressive face almost hypnotizes the viewer into sympathy with her, in spite of one ridiculously out-of-place smirk she makes at the audience on the prospect of spending a night at a hotel with her lover.

If the film has little to offer a modern audience

in terms of plot, it does present several interesting technical aspects. The year in which it was made marks the beginning of the sound era, and this film illustrates the silent in just about its most developed stage. At several points the film appears to be on the very verge of breaking into sound. Effective use is made of a moving camera, both for panoramic shots (rotating the camera about a fixed axis) and for tracking shots (following the action with a camera mounted on a moving vehicle). These developments (which had come about some years previously) were essential if the cinema was to become a medium for telling stories visually, in terms of action and reaction. This THE LOVE OF JEANNE NEY does; titlecards are kept to a minimum, and the director might even have done with one or two less. When the scene of the action shifts to Paris, the location photography is done tastefully and well, without the obviousness of "What landmark shall we photograph next?" which mars almost every Hollywood movie with a foreign locale. The two technical innovations which contribue most to the picture's visual effect, however, are the use of close-ups and the skillful cross-cutting throughout. "Cross-cutting" is a technical term for the splicing of lengths of film together in the process of film editing, which illustrate an action sequence from two or more points of view. An excellent example occurs when Andreas and Jeanne are about to reunited in Paris: the camera follows the running Andreas, then shifts to Jeanne in a taxi, then back to Andreas. By making successive "cuts" shorter and shorter, the illusion of impending climax can be achieved. We see this in the sequence in which Jeanne's uncle is counting his imaginary wealth. The camera shifts from his fingers to his eyes to his gasping mouth in a seies of fast cuts which seem to catch the man's frenzy.

The idea of "zeroing - in" on the action was quite new; it was also an extremely happy innovation because it made possible the exposure of psychological nuances which before had remained hidden. With regard to the film's psychology, an interesting use is made of mirrors and reflections to punctuate the movie's more turgid emotional passages. Recently we have been learning a good deal about mirror-images, from Bergman and others. Apparently, there's nothing new under the sun.

# Bring Philosophy out of the Classroom

By the Fifth Year Class of the Department of Philosophy, Futan University, Shanghai

In April last year, our class went to the Shanghai Bicycle Factory to do a stint of productive work at the grass-roots level. During our two and a half months' stay there, we studied Chairman Mao's works with a view to solving the practical problems we came across; at the same time, we helped the workers organize their study of Mao Tse-tung's works and served as their instructors. We felt we gained a great deal both ideologically and in rectifying our attitude towards study, learning quite a few things which we could not have learned in the classroom.

DO AS CHAIRMAN MAO TEACHES

# Varsity Raiders Meet in Crucia 14-Point Match

The big event on the sports calendar this weekend is tomorrow evening's hockey tilt between the UNB Red Raiders and the varsity The game, a key four point contest, is a must for both squads-for the Raiders who are trying to get back into competition for conference honours and for the Tigers who are attempting to better their records of 3 wins and 7 losses.

UNB started strong this season posting impressive wins over St Thomas, Moncton; Mount Allison, and downing the Bengals 4 - 1 in the Dal Invitational Tourney early in January. Since mid-January however, the Raiders have been on the skids as a number of injuries most notably a broken wrist to high-scoring Dave Petersen have led to poorer performances. The Raiders have subsequently been downed 5-3 by conference leading St. Dunstan's (Dal was defeated by the same margin), they managed a narrow 5 - 4 win over St. Thomas and were held to a 4 - 4 tie by Mount Allison. Earlier in the season the latter two squads were pounded 6 - 1 and 8 - 3 by the then healthy and highly regarded Raiders. Their performances in the earlier part of the season won recognition nationally as they were ranked 2nd nationally. After their recent less impressive performances they have dropped down to tenth spot.

The Tigers season performance has been going in exactly the opposite direction. After a number of shaky early season outings the Bengals have jelled into a well drilled hard-skating squad. In their last three games Dal has played good hockey and showed some of the scoring punch that they lacked in previous games. The Benwent on to down St. Thomas 6 - 4 and most recently they defeated the Bridgewater Alpines 8 - 3 in an exhibition tilt.

scoring rundown. The Tigers have depended heavily, too heavily percentage of 89%.

of other combinations to take the weight off the high scoring forward.

After tomorrow evenings contest with UNB Dal has two games more in league play. On February 27 and March 6 the Bengals will face off with Acadia in a pair of afternoon contests in the Dal rink.

Jamie Kichardson

(GAZETTE SPORTS EDITOR)

Last weekend Al Yarr's Varsity Basketballers played three outgals gave St. Dunstan's a scare before being subdued 5 - 3 then standing halves of basketball to post two more impressive wins. On Friday night the play of Norm Vickery would have to be the highpoint of the game. After a fantastic game against Ricker College earlier In scoring 8 goals the Tigers amassed their highest point total in the week Vickery repeated his performance against St. Dunstan's since preseason exhibition game with Shearwater. Perhaps the by scoring 19 points and taking 16 rebounds. On top of battling the most notable point of last weekend's scoring outburst was the fact flu and a pre-game temperature of 103 Norm made his 19 points that other names especially that of Ron Smythe appeared on the on taking just 9 shots from the floor and making 8 for a shooting

as he canned 14 points on long jump shots.

LATE CORRECTION TO STORY ... "Shaw Unopposed for President"

Council last night passed the motion deleting the clause of the new Student Union, which states there must be at least two candidates for the positions of President and Vice-President.

However the Council extended the cut-off date .

for Presidential nominations until Friday night.

A team Friday morning submitted their names
to the Elections Committee. The Presidential nominee
is 4th Year Arts student Jim Lowry, his Vice-Presidential
running mate is Joe Ghiz, third Year Commerce.

Lowry said his team's activities are "typical".

He said "our political bombshell and secret weapon will

hit campus sometime in the middle of the week".

Nominations close tonight. The election is next Friday. There will be a Student Forum next Thursday.

Ghiz told the Gazette he will campaign to ensure at least.

1500 students attend the forum.
