# LETTERS IN THE SAND OF TIME

---

Thousands of years ago the Arabs expressed themselves in the written word by scraping upon the sand certain characters and symbols representing words and sounds.

Later, first Papyrus, then Parchment took the place of sand; and in modern times Paper has been universally accepted.

So did the New replace the old.

To-day, no longer is the human voice confined to a radius of a few hundred yards. The telephone has liberated it so that even thousands of miles are bridged.

Speech, the only natural and perfect means of self expression has become all powerful, and writing, with its limitations and imperfections is sinking back to the place it rightfully should hold.

So has the New again replaced the old.

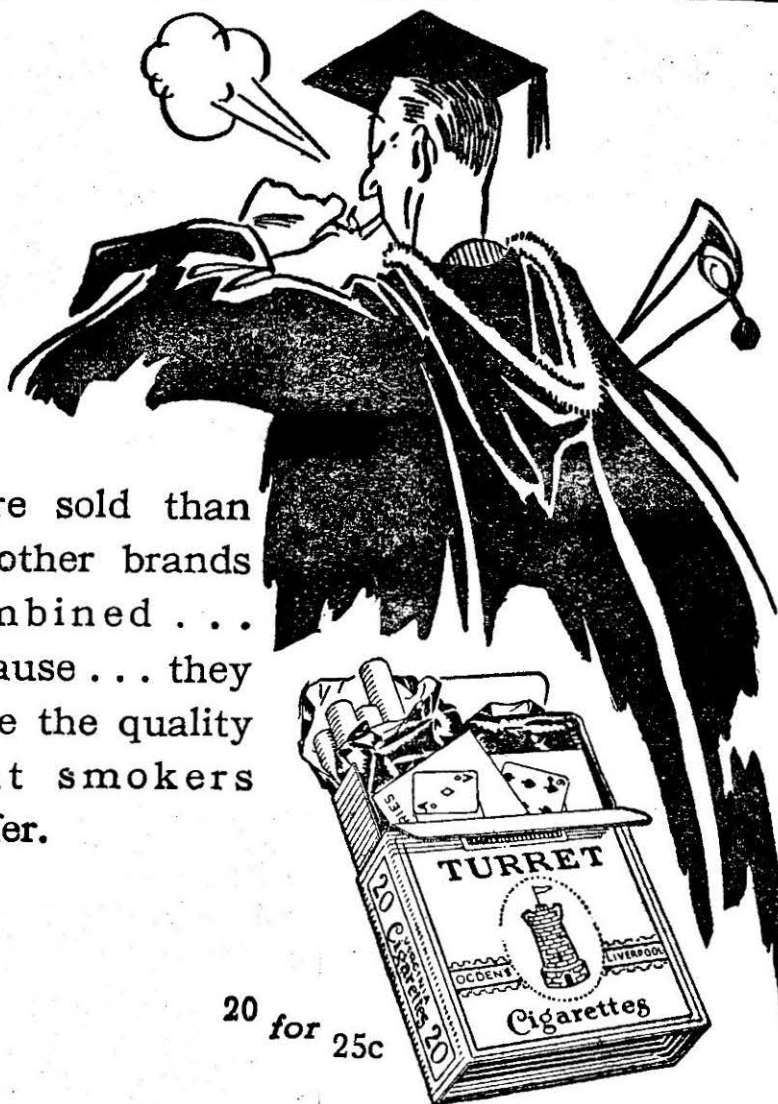

Why, like the ancient people, continue to express yourself in characters and symbols when, even over great distances, you may use the natural facility of speech?

Fall in line with progress and use Long Distance Telephone.

When youth buys diamonds it is mostly for engagement rings. To square their love of display with oft lean purse, the temptation for young folk may be to sacrifice perfection.

Better far 'twould be if youth, with an older knowledge, would come to Birks, for here perfection is assured and the prestige of an honored name secured.

**A Good Living  
A Profitable Future  
A Provision for  
Old Age**

THE Canada Life Assurance Company  
has a District in the Province of Ontario,  
offering these opportunities.

There is a certain man, with no Life  
Insurance experience, with whom we  
desire to get in touch; likely a very promising  
business man between twenty-five and  
forty-five years of age, who realizes the  
limitations across his path of opportunity,  
and whose abilities require greater outlook  
and earning capacity.

Such a man may want to make a move,  
but hesitates to "take a plunge."

There is a better way: The Canada Life  
will undertake to thoroughly educate him  
for the life insurance business, which has  
been growing and will grow as has no other  
business, a business which offers permanent  
success, does not fluctuate, is a professional  
occupation and has been truly named  
"The best paid hard work in the world."

This is done by close contact, a corre-  
spondence course and personal assistance,  
free of charge.

The first two booklets of the course  
will be sent to anyone interested. All  
correspondence strictly confidential.

## The Pilot Doesn't Worry

Fifty below in the Arctic night—and a plane down, with a defective spark plug and an empty tank.

The spark plug can be replaced, but that won't help without gasoline to turn the motor—and the nearest "town" is a few Eskimos and a trading post across the lake at Blackfish Point.

But the pilot doesn't worry. He knows there is a cache of Imperial Gasoline at Blackfish, and someone there to help him.

The great wealth of Canada's north is being found from the air many years before it could be reached afoot, because men are willing to adventure and supplies are there when they are needed.

These supplies come from the Imperial Oil Refineries. By ship up through Hudson Strait into the Bay, by rail beyond the Pas, by paddle wheeler down the Peace and MacKenzie Rivers they go to distributing points. In winter, dog teams and sleds drag them further into the wilderness.

For fifty years Imperial Oil has been meeting the new needs of transportation and industry. Because it has met each need with enterprise and energy, Imperial has become a great company—serving every corner of Canada—its ships on the Atlantic and Pacific—its pipelines in the tropics.

Fifty years of constant enterprise are in the products Imperial Oil sells to-day.

Marvelube is Imperial's finest motor oil.

Imperial Premier and Imperial Ethyl are its best gasolines.

Which means that nothing finer can be put in your car.

## EXTRA YEARS OF INCOME

Just as the thrifty depositor patronizes that savings bank which offers the highest interest rate commensurate with safety and service, so does the foresighted buyer of personal life insurance favor an institution assuring his ultimate beneficiary the most favorable return on policy proceeds left with the Company.

If he reflects that the principal of \$20,000.00 will pay an income of \$100.00 a month for 154 months longer at our rate of interest than at 5%, this differential of practically \$15,400.00 or 12 years additional income seems rather important.

On Dividends and monies left with the Company under the alternative method of settlement The Sun Life is paying 5½% with gradual increases every five years until 6% is reached.

PROGRESS follows the electric car lines. Community growth depends on good transportation facilities.

No matter where you live or what you do, efficient car service vitally concerns you. If your street rail, way is not prospering, if it does not have your support-it will sooner or later hamper this town's progress and your welfare.

The electric cars serve you in many ways. They take you to work quickly and cheaply. They take you to church, to outings in the country, to movies and parties. They are at your service day and night, regardless of the weather.

Use them freely. They are yours.
