INTRODUCTION.

King's College was foundered A. D. 1788 by the first Bishop of Nova Scotia, the Rt. Rev. Charles Inglis, D. D. For this foundation funds were granted by the British Government.

By the Royal Charter granted in 1802, all the privileges of a University were conferred on King's College, which thus became the first University of British origin established in Canada.

A Provincial Act incorporating the Governors of King's College received the royal sanction in 1853. It provides that the Royal Charter of Incorporation shall not be affected by it further than is necessary to give effect to its own enactments.

The Patron of the University is the Archbishop of Canterbury, to whose approval "all Statutes, Rules and Ordinances" of the Board of Governors are subject.

King's College is open to students of all denominations, and imposes no religious test either on entrance or on graduation in any Faculty, excepting that of Divinity.

The University confers degrees in Arts, Divinity, Law, and Engineering. The School of Engineering was added in 1871.

Candidates for matriculation may now be examined at distant centres, under special regulations, which will be found in the Calendar.

The aggregate outlay necessary for the three years' residence and study qualifying for a degree will of course depend much upon the tastes and economy of the student, but may be estimated at about \$300 to \$350 per year. The mere money payment demanded need never, however, exclude a candidate really prepared to benefit by the course of instruction offered, inasmuch as many benefactors of the University possess the right of nomination. Each nominee is exempt from the payment of yearly fees, amounting to \$90 for the three years' course, besides the fee for a B A. degree. There being some forty certificates conferring this privilege, it is easy for students to obtain it. If a scholarship is held besides, nearly the whole cost of the education will be covered. The Calendar supplies all necessary information with regard to these nominations.

5

A general statement of the financial condition of the University is appended.

The Examiners for the past Academical Year outside the Faculty were as follows : The Rev. F. Partridge, D.D., and the Rev. C. E. Willets, D.C.L.

The Collegiate School has been well attended during the past year. The number of pupils has averaged fifty-three each term; forty-three being boarders and ten day scholars. The health of the boys has been remarkably good, and their general conduct most satisfactory.

The object aimed at in the Arts Course is to impart a good general education, while every facility is afforded for the prosecution of special studies. Accordingly every matriculated student, except under peculiar circumstances to be approved of by the College board, is required to attend the Lectures of all the Professors until he has passed his Responsions. After this he is at liberty to select three or more of the subjects lectured on to form the subjects of his B. A. Examination. If the student be desirous of taking Honours at his B. A. Examination he can do so in any one or more of the subjects lectured on after passing the ordinary Examination. The precise regulations will be found under the head of Examinations.

There are at present in the University three Schools open to matriculated students :---

I.	The Scl	nool of	f Arts.
II.	66	"	Divinity.
III.	.66	66	Engineering.

Students who do not intend proceeding to a degree may attend the Lectures of any of the Professors, subject to the usual regulations and can obtain from the Registrar certificates of examinations passed.

The course in Engineering is framed with a view of giving the student a sound and thorough training in Mathematics, pure and applied; a comprehensive knowledge of Engineering and applied Science, together with such practical experience in work connected with the profession of a Civil Engineer as it is within the scope of the University to afford.

Numerous Scholarships, Prizes, and Honorary Distinctions are open to be competed for by students in the several faculties, the principal of these being the following :---

*The words "except Library Fees," may be omitted, at the option of the Nominator.

The University Library.

The foundation of the Library is due to the efforts of the first Bishop of Nova Scotia, and may be placed in the year 1790. Several contributions in money had previously been received, but it was not till that year that efforts were made to obtain books.

The original fund at that disposal of the Governors was not more than £250 sterling, and was intrusted to Mr. Inglis (afterwards Bishop), son of the Bishop, and a graduate of the University, who repaired to England in 1800, for the purpose of purchasing books. The names of Dr. Moore, Archbishop of Canterbury, Dr. Porteous, Bishop of Rochester ; William Wilberforce, Sir S. Bernard Morland, John Eardly Wilmot, M. P., and others, thus became connected with the early history of the Library.

Munificent gifts from the University of Oxford continued to increase the value of the collection, which was further enriched by gifts from various English gentlemen, and from others settled in Nova Scotia.

The room in the College building set apart for many years for a Library Hall, was completed in 1810 at the expense of Sir Thomas Strange and the Archbishop of Canterbury.

Subsequently valuable works were presented by Drs. Bayard and McCulloch, and by the Society for Promoting Christian Knowledge

Among later benefactors may be mentioned Dr. Greswell, of Worcester College, Oxford; The Smithsonian Institute; The British and Foregin Bible Society; The Dean and Chapter of Westminster; T. B. Akins, Esq., D. C. L.; The Society of Incorporated Alumni of King's College; E. Binney, Esq.; C. Cogswell, Esq., M.D.; The Dominion Government; The Radical Bay Club; The Halliburton Club; The Secretary of the Interior United States; The Institution of Civil Engineers; The Society of Engineers; American Institute of Mining Engineers; The Royal Society; The Religious Tract Society; The Rev. George McCawley, D.D.; The late Rev. Canon Hensley, D.D.; General Sir W. F. Williams, K.C.B.; The late Bishop of Nova Scotia; The Right Rev. Dr. Rigand, late Bishop of Antigua; The Rev. George Morris; The late Rev. G. W. Hodgson, M.A., and Her Majesty the Queen.

This large collection of books, now numbering about 8000 volumes, contained till the year 1870 in a single room in the College Building, was then removed to the new Hall specially built for the purpose and presented to the University by the Incorported Alumni. It contains a large number of standard works of reference in Theology, which is by far the richest department in the Library, and a fair selection of the great Greek and Latin classics.

In modern History and Belles-Letters it is very poorly supplied.

In Science some recent standard works have from time to time been added, and, next to Theology and Classics this is the largest department. The languages of Modern Europe are not so well represented.

In spite of many banks, the Library is one of the largest in the Province, and contains all the elements requisite for making it a thoroughly well appointed and efficient Reference Library.

There is no special Library fund except the fee from students, and the collection can only be increased by grants of money from the Governors, the occasional lapsing of the Welsford prize money and the benefactions of friends of the University.

Westerer College, Oxford; The Smithsoman Institute, The Dritish and Foregin Bible Society; The Dean and Chapter of Westminster; T. B. Altins, Esq. D. C. L.; The Society of Locorporated Alamai of King's College; E. Finney, Esq.; C.

GEOLOGY AND MINERALOGY.

The Geological Specimens, many of which are very fine, illustrate the most prominent features of general Geology but the majority have been collected in Nova Scotia and are especially adapted to show the character of the Fossil Flora and Fauna of the province. There are several collections, which may be discriminated as follows:—

1. The W. B. Almon Collection, presented over forty years ago by Mrs. W. B. Almon, of Halifax, contains, with many minerals and a few shells, a considerable number of rock specimens and a few fossils, chiefly from Scotland, collected by the late W. B. Almon, M. D.

2. The Governors' Collection consists of coal fossils obtained in 1860, at the expense of the Governors of the College; these were collected by Professor How with the valuable assistance of a party headed by Richard Brown, Sr., Esq., then agent at the Sydney Mines, who from long study was familiar with the district. Many of the specimens are exceedingly fine, and some are of large size.

3. The Alumni Collection consists of Silurian and Devonian Fossils, chiefly from Arisaig, N. S., collected, named and arranged stratigraphically by Dr. Honeyman; purchased and presented in 1861 by the Alumni of King's College.

4. The Australian Collection consists of specimens obtained through Col. Nelson, in 1863, from Sir William Dennison, then Governor of New South Wales, in exchange for Nova Scotian specimens from the College Cabinet, sent by Professor How. It contains some beautiful fossils, and is arranged statigraphically; its value is increased by an accompanying large detailed colored section made by the Government Examiner of Coal Fields under instructions from Sir W. Dennison.

5. A collection of British Fossils, chiefly Silurian and Devonian, obtained through Dr. McCawley in exchange for Nova Scotian specimens sent by Professor How from the College Cabinet, in 1860, to Captain, now Sir James, Anderson.

6. A collection from Europe, illustrating chiefly the nature of crystaline and sedimentary rocks, purchased by the Governors.

7. Several collections, some of which are unnamed, and single specimens, given and obtained by exchange at various times; of these it will suffice to name: Reptilian Tracks of great geological interest presented by the widow of their discoverer, the late Dr. Harding; valuable Fossils, chiefly carboniferous, presented by H. Poole, Esq.; Silurian Fossils from Arisaig, presented by H. Hill, Esq., Sheriff of Antigonish; Coal Plants from Cumberland County, presented by Rev. Mr. Townshend, Rector of Amherst; Cretaceous Fossils from England, presented by C. B. Bowman, Esq., and Dr. Honeyman; Silurian and Carboniferous Fossils of Nova Scotia from Professor How; Rocks and Minerals from the Dominion Government; Devonian Corals of Ontario and Canadian Rocks from Professor Spencer.

The mineralogical specimens represent the most important species of minerals,—some of them are of great beauty. They consist of those in the collection, of Zeolites collected at the expense of the Governors, and of various others obtained by gifts and exchange, as mentioned with regard to the geological department. Sir Rupert George; Rev. Dr. Robertson, Rector of Wilmot; H. Brown, Esq., Director of the Geological Survey of Victoria, formerly a distinguished student in science at this College; Rev. J. Ambrose; Rev. J. C. Cochran; C. B. Bowman, Esq.; J. Bowman, Esq.; Rev. D. W. Picket; Hon. W. Odell, and Professor How, have presented interesting specimens.

ZOOLOGY.

The Willis Collection consists of specimens fully illustrating Nova Scotia Mollusca, named, arranged, and presented by J. R. Willis, Esq.; A collection from the U. S. Government.

The department is further illustrated by a collection of foreign shells, some interesting skulls and skins, and a limited number of preserved animals.

BOTANY.

The Cogswell Herbarium, bound in five Imperial folio volumes contains a fine systematically arranged collection of Phœnogamous and Crytogamous Plants of Great Britain, presented by Dr. Cogswell.

The Gossip Herbarium consists of a small number of Scottish Plants presented by Dr. Gossip.

The Willis Herbarium consists of Nova Scotia Algæ and Terrestial Plants, presented by J. R. Willis, Esq.

The Strange Herbarium consists of a considerable number of. East India Plants, presented in 1805, by Sir T. Strange.

The Ball Herbarium of Nova Scotia, consisting of about 250 species, presented by Rev. E. H. Ball.

There are also a few woods, barks, leaves, and fruits—from various sources—presented by C. B. Bowman, Esq., Hon. W. J Almon, M.D., and other benefactors.

THE GENERAL COLLECTION.

The General Collection consists of various curiosities from different parts of the world, and a small but choice cabinet of coins. Other interesting curiosities are the beautiful Indian Pipe from Queen Charlotte's Island, the models of the leaning Tower and the Baptistry at Pisa, and the memorials of Gens. Williams and Inglis, which include the sword worn by the former throughout the siege of Kars, and that used by the latter during the defence of Lucknow. There is also a model of the Cawnpore Memorial Cross, formed of wood from the house in the courtyard of which the women and children were massacred.

.

The College possesses also a number of autographs of royal and distinguished personages; one of Thomas Moore, the poet, inscribed in a copy of Lucian, presented by him on the occasion of his visit.

The Coins illustrate the Numismatics of Rome, and most of the countries of the modern world.

The different departments of the museum are arranged in twenty-four flat cases, supported by the balustrade surrounding the gallery, and five large table cases all glazed and provided with lock and key. The large specimens which could not be conveniently placed in cases are arranged on shelves or distributed in different parts of the hall.

The friends of Science in Nova Scotia and elsewhere are respectfully requested to contribute specimens to the Museum of King's College. The steps which have been lately taken by the Governors to provide suitable cases for the arrangement and display of the contents of the Museum in the fine Hall erected at the expense of the Alumni, offer a guarantee that the liberality of donors will be carefully recognized and fully recorded.

A superb collection of Loyalist China, over three hundred pieces; arranged in three cases, was presented by Judge and Mrs. Weldon, on the 79th anniversary of the landing of the Loyalists in New Brunswick.

In the library, in addition to a number of Photographs, there are several large Oilpaintings—including those of the late Drs. McCawley and Cochran, and the Rev. Chas. Porter, A.M. There are also marble busts of General Williams, and of Cicero and Demosthenes.

It is particularly requested that donors will send their contributions of Books, Coins and Curiosities, addressed to the *Librarian* and of Natural History specimens to the *Natural History Curator*, King's College Museum, Windsor, N. S. in order that the receipt may be duly acknowledged, and the donations acknowleged in the yearly Calendars as heretofore.

ANNUAL MEETING,

HELD IN THE COLLEGE HALL, WINDSOR, ON WEDNESDAY, JUNE 29, 1887, 11 A. M.

The Annual Report and the Treasurer's Account were read and adopted as follows :---

REPORT

The Executive Committee of the Associated Alumni of King's College, Windsor, on their Fortieth Anniversary, submit the following Report, in which they first call your attention to the Resolution passed at the last Annual Meeting with reference to the celebration of the Centennial of the University, and the Committee appointed to carry out that Resolution; but they have to regret exceedingly that he who is first named on that Committee is no longer with them to aid them with his council, and to direct their efforts for the advancement of the welfare of the University. Seated at our Council Board, we ever found the late Bishop one on whom we could rely for advice, for, during the whole of his ministry in the Church over which he had been placed, he took the deepest interest in the College, and the affairs of this Association, and we sincerely trust that, in his place and stead, a worthy successor may be appointed at the ensuing meeting of the Synod, for the continuance of the work which he so well carried on in every thing tending to the welfare of the Diocese and this University.

This year, together with all our fellow subjects of the British empire throughout the world, we are called upon to celebrate the jubilee of our beloved Queen, and to offer our most hearty thanks to the Giver of all good, that He has cast our lot at a time of unexampled prosperity in the affairs of the mother country, which is chiefly due to the good influences exercised under the present reign. 84

The Treasurer's account for the past year is herewith submitted, shewing a balance of \$381.07.

We are glad to learn that the prospects of the University during the past year have continued to improve.

This year we are called upon to elect three members to the Board of Governors in the place of the Rev. Canon Brigstocke, M. A., and the Rev. George W. Hill, D. C. L., whose term has expired, and the Rev. Henry How, B.A., resigned. The President of the Association and three members of the Executive Committee, Mr. Fraser, Rev. Dr. Partridge and Hon. Mr. Shannon, whose term has also expired, but who may be re-elected.

By order,

CHARLES H. CARMAN,

Secretary.

HALIFAX, N. S., 11th June, 1887.

(For Treasurer's account see page 87.)

The following were proposed and elected as members, Rev. John Partridge, Rev. Andrew Gray, Rev. T. R. Gwillim, Messrs. F. W. Simonds, Chas. W. Knowles, John A. McCallum, Richard Prat, Thos. H. White, Jr., and Wm. B. Shaw.

Thos. Trenaman, Esq., M. D., was re-elected President.

Messrs. D. Prescott Allison, N. W. White, and Wm. C. Silver, were elected Governors of the College in place of Rev. H. How, resigned, and Rev. Canon Brigstocke and Rev. Dr. Hill, (term expired under clause 3 of Act to Incorporate the Governors.)

Hon. S. L. Shannon, was re-elected, and Messrs. Clarence H. Dimock and Robert J. Wilson were elected members of the Executive Committee in place of Mr. C. F. Fraser, Rev. Dr. Partridge, and Hon. Mr. Shannon, (term expired under bylaw IV.)

The usual grant of \$250 towards the salary of the Professor of Modern Languages was agreed to, with an additional sum of \$100 for the present year.

The usual allowance to the Secretary, \$60, was voted.

Hon. Dr. Almon's notice of motion relative to proposed preliminary yearly meeting of Alumni in Halifax, given at the Annual meeting on 25th June, 1884, and deferred in 1885, and in 1886, (p. 96 last calendar), was moved, discussed and lost.

Mr. W. C. Silver's notice of motion to amend sec. 2 of the Act to Incorporate the Governors of King's College, by inserting, immediately after the words "members of the Church of England," the words, "or any Alumnus of said College," given at the Annual Meeting on 23rd June, 1886, (page 96 last calendar,) was not pressed.

Rev. Dr. Bowman's notice of motion, given at the same time, "That the President of King's College be *ex officio* a member of the Governing Board" was moved, but subsequently withdrawn, as it would necessitate a change in the Act of Incorporation.

Notice of motion, given to the Executive Committee by Mr. C. E. A. Simonds, was discussed, and the motion was adopted as follows:—

I. (1) Resolved, That a Committee of — members be appointed to codify the various acts of the Provincial Legislature relating to King's College, and to consider any amendments or additions that may be proposed in writing before the 31st of December, 1887, by any member of this Society, the Committee to report fully at the next Annual Meeting.

(2) And Resolved, That the blank in the above resolution be filled by the number 5.

(3) And Resolved, That the Society do now proceed to the election of the said Committee.

II. (1) Resolved, That a Committee of — members be appointed to codify the By-Laws and Rules of this Society and to suggest emendations and additions if any seem desirable, the Committee to report at the next Annual Meeting.

(2) And Resolved, That the blank in the above resolution be filled by the number 3.

(3) And Resolved, That the said Committee be now elected.

The following were then elected a committee to consider and report :---

Messrs. C. E. A. Simonds, H. Percy Scott, C. Edgar DeWolf, Rev. F. W. Vroom, Mr. Robert Clinch.

Rev. Dr. Partridge, Dr. Maynard, and Rural Dean Moore were appointed a committee to prepare a resolution of condolence and sympathy to be forwarded to the family of the late Bishop of Nova Scotia.

RESOLUTION.

The Associated Alumni of King's College, Windsor, in Annual Meeting assembled, desire to place on record their deep sense of the very great loss they have sustained by the death of the reverend and lamented Prelate who has for more than thirty-six years taken such active and helpful part in the work of their Association.

As Visitor of the College and ex officio Governor, Bishop Binney had great power, a power ever used with the greatest zeal and heartiness for the good of the University. The loss of all this, the Alumni cannot but deeply feel and regret.

To the Bishop's widow and children, the Association desire to present their most unfeigned Sympathy in their great bereavement.

THOMAS TRENAMAN, President. CHARLES H. CARMAN, Sec'y.

WINDSOR, 29th June, 1887.

My dear Sir:

66 HOLLIS STREET, July 20th.

Will you kindly convey to the Associated Alumni of King's College our very grateful thanks for the most kind resolution they have sent us through you. We can well understand that the late Bishop's long experience and unwavering affection for the College creates a void in the ranks of the Alumni, which must be much felt.

REPLY.

I need scarcely assure you that we greatly value such kind words from such a body.

Yours faithfully, W. H. BINNEY.
