Dear Dimmock

It was agreed on that I should write and let the General know the subjects for next Sunday as early as possible and that he should inform me if they were approved or if any alteration should take place - I did so, on Monday last, and at what I am surprised exceedingly is I have never yet heard a word from him - the particular situation in which I am renders it impossible for me (this week) to call on the General - be so kind as to see him, and write immediately to me - I will mention the subjects, lest the letter may have miscarried -

Mr Dickson

My dear Friend

I have at various times called at your
Lecture Room but without seeing you. I have heard of
your Illness which I hope is perfectly removed & you
must not be surpris'd when I inform you that I am
become a Student under Dr. Addington of Mile End, & am
making rapid progress for the Pulpit, in which I trust
I shall be more successful than I have hitherto been.
I beg you will give me a Call, it is a pleasant business
and enquire for the Green House - I believe I must
introduce a little in Mr. Wildie but let him know
when I am & that I shall be glad to see him.
I am at out on purpose to convey this to you
I hope you will favour me with a sight of you as
soon as you can for I want to consult with you
