Dear Doctor

My friend

Col. Congreve has a com-  
plaint which both myself and  
his Surgeon Mr Home think  
would derive benefit from  
Electricity. It is of a nature which  
requires to be done at home.  
He is therefore desirous of bor-  
rowing a machine for which he  
would give any reasonable re-  
muneration, and insure against  
injury. - I take the liberty of in-  
quiring whether you would  
lend him yours for a fort-  
night. - I return Mr Cartwright's  
book with thanks  
Yours truly  
W. Williams
