MODEL ASSEMBLY OF LEAGUE OF NATIONS TO MEET

Council Elects Bob Donahoe to Post of Property Mgr. of Glee Club

Sunday afternoon at the Munro Room, the Students' Council held their regular meeting to consider budgets not yet passed. The whole council were present with the exception of Miss Kay Densmore.

Having read and adopted the minutes of the last meeting, the President Mr. W. C. MacKenzie expressed his gratification that the Commerce and Engineering Societies had seen fit to combine their dances; and also expressed regret that Law and Medicine were unable, owing to previous arrangements, to come together.

Fifteen applications were considered for the post of Property Manager of the Glee Club, and after due consideration Robert Donahoe was elected on a majority vote of the Council. A detailed budget for basketball was presented by Mr. Ralph Ellis, who explained the various items. The question of hours for practicing for the first team was brought up, and George Thompson was appointed as a council representative to accompany Mr. Ellis to Mr. Stirling in an effort to arrange more suitable hours. The budget, with the exception of an item for sneakers, was passed with some lively discussion.

The hockey budget was reserved until a final decision is made as to whether Dalhousie will enter a team in the Inter-collegiate League. Mr. Connor and Mr. Christie were appointed a committee to confer with the executive of the D. A. A. C. in regard to this question. The meeting adjourned at 5.30 p. m.

FORREST MUSGRAVE

Dalhousie Grad Wins Scholarship

Forrest Musgrave is the winner of the Christ Church Scholarship for this year. Dalhousie is proud of the honor conferred on one of its graduates, and congratulates Mr. Musgrave on the success he had attained in his research work.

Forrest entered Dalhousie in 1929, and during his four years at Dalhousie achieved an outstanding scholastic record. He graduated in 1930 with honors in Chemistry. Since then he has been doing research work at Oxford, being the Nova Scotia Rhodes Scholar for that year. Mr. Musgrave will graduate from Oxford next Spring.

Recently Mr. Musgrave has had two papers on Chemistry published by the Royal Society, which shows the excellence of his work.

Dalhousie congratulates Forrest on the Scholarship and excellent research work.

Mr. Charles Anderson, President of the D. A. A. C. who will preside at a meeting of that body to discuss the advisability of dropping Hockey from the curriculum of Dalhousie's major sports.

President D. A. A. C. Comments on the Hockey Situation

Mr. Anderson, when interviewed by a member of the Gazette refused to comment on the situation other than stating that a full investigation would be made into the hockey situation at the University. "It seems a shame," he said, "that hockey should have to be dropped from our sports, but the situation remains that not enough interest has been taken for many years, and to continue spending so much money we must be assured of some tangible results. A meeting of the D. A. A. C. will be held in the very near future to make a decision."

C. O. T. C. Notes

"A" Company held the best parade of the year last Wednesday night—let's try to double the attendance tonight. The O. C., Capt. Griffin was unavoidably absent, and Mr. Higgins took charge in a very able manner. Mr. Hodgson, of the R. C. R. gave very interesting lectures to both "A" and "B" certificate men.

Everything points to a very successful year for the C.O.T.C., but any organization, to be really great, must have the active co-operation of every member. Let us hope that each man who turned out last Wednesday will bring another with him tonight. Our objective is ninety men in "A" Company—surely that is not too high!

The rifle team will be chosen shortly. Watch the notice board for further announcements, you may be one of the lucky ones. Who can say but that we may have a future Bisley man among us. "Don't blush unseen;" if you think that you are a good shot speak to Mr. Cahan about it, he will give you a try.

Remember to watch the notice board too, for announcements regarding tactical schemes. You can't afford to miss any.

There will be a Student's Hour of Song under the auspices of the S. C. M., Sunday evening, Nov. 27, at 8.30 p. m., in the First Baptist Church Hall. All students are cordially welcome.

MacDONALD MEMORIAL LIBRARY.

The MacDonald Memorial Library will be open from 2.30 to 5.30 on Saturday afternoon until the end of term. The Library will be open until 11 P. M. from Monday next until the last evening before the close of examinations.

During the vacation the Library will not be open in the evening or on Saturday of Sunday afternoons.

I.S.S. Appeals For Student Support

As we pointed out in these columns about a month ago, there are many ways in which students can help to relieve the present dreadful conditions among the unemployed and their families. It is essential that students take an active part in the social service work that is being carried on in this city. It is useless to say, as many have said during the last few weeks, "I haven't time." You must make time, even if in so doing you neglect some student activities. There is not one student in Dalhousie University or in the University of King's College who could not give at least two hours a week to social service work! A prominent business man of this city, a Dalhousie graduate, said to a student the other day: "Your B. A. degree will be worse than useless, unless you help to remedy the present situation." There is far more truth than fiction in that statement.

I. S. S., in the name of the students of Dalhousie, has been carrying on social service work in this city for almost a year without any support from the student body as a whole. Now we ask for your assistance. Surely you will not hesitate to give it!

We want half a dozen students, men and women, to help with underprivileged boys' work at the Y. M. C. A. Students who are adept at some form of handicraft, e. g. carving, drawing, etc., are specially urged to help in this work. Minimum time required: one hour per week.

We want a dozen male students to help to supervise a reading room and recreation hall for the unemployed. Minimum time required: two hours per week.

After Christmas, we will want a dozen women students to take

SHORT STORY CONTEST

The Dalhousie Gazette is sponsoring a Short Story Contest to encourage students to develop their literary talent.

A prize of \$5.00 will be awarded to the best short story submitted. The rules are:

1. Not over 500 words.
2. Closing date is Nov. 26th, 1932.
3. Open to all students attending the University.
4. Three best stories will be printed.
5. Non partisan judges will select the winning story.

Fifth Annual Convention To Assemble at Mt. A; Dr. R. A. MacKay to Lead Dal Delegates

The Model League of Nations, an assembly of students from the five leading Universities of the Maritime Provinces, is to meet in Sackville this week to discuss the current questions before the League at Geneva.

This model league meets every year with representatives from Acadia, U. N. B., Mt. A., Kings and Dalhousie. This year Mt. A. has been selected as the meeting place and many interesting questions are to be brought up for discussion; among them a Resolution for an International Finance Scheme and the report of the Disarmament Committee.

DR. R. A. MacKAY

D. A. A. C. Meets

Three interfaculty managers and one assistant Basketball manager were appointed at the Friday meeting of the management committee of the D.A.A.C. Interfaculty Softball—Conn. Sutherland.

Interfaculty Basketball—Borden Stoddard.

Interfaculty Hockey—Douglas Bent.

Assistant Manager of Senior Basketball—Don Stewart.

The members present were: President D. A. A. C.—Charles Anderson.

Secretary—Walter MacKenzie, Lou Christie, Whit Cameron, Bob MacKintosh, John Fisher, Professors Bell and Smith.

Thanks to an extra grant from the Council of Students, Dalhousie can this year send nine representatives, who are:—

Don Archibald, William Davis and Margaret Montgomery, representing China; E. B. Rogers, E. A. Payzant and Miss Eirene Walker representing France. The member supposedly from Sweden is to be J. F. Cahan and from New Zealand, Nathan Green, while Edward B. Higgins is to represent Australia with Miss Mary Simmonds.

Much credit is due to the efforts of Dr. McKay who is in charge of the Dalhousie Delegation. It is through his efforts that the Model League has reached this advanced stage; his many hours of work deserves much credit as does the work of Mr. J. B. McAvoy, who is secretary for Dalhousie.

These two have given unlimited time and energy in an effort to encourage student interest in world affairs and the success of the league is certainly due in large part to their unstinted efforts.

NOTICE.

The delegates to the Model Assembly of the League of Nations will meet in Room 21, on Thursday, Nov. 24th, at 12 o'clock SHARP. Final instructions will be given. If unable to be present communicate with Dr. R. A. MacKay.

A Male Student Speaks

on COMPULSORY PHYSICAL TRAINING AT DALHOUSIE.

There can be no doubt that a healthy body is essential to a healthy mind. There have been cases of geniuses achieving success in spite of very unhealthy bodies, but they had to overcome very heavy handicaps in order to do so. Had their bodies been sound, their task would have been easier, and their success probably greater.

The function of the body, broadly stated, is to provide a place of residence and a source of energy for the mind. This function can only be thoroughly performed when the body is well-developed and healthy. In order to keep it healthy we need systematic exercise. That is where physical training comes in.

Of course there are some who will say that this is entirely a personal matter and should not come under the authority of the University. They will claim that the Dalhousie authorities would be interfering with personal liberties if it makes physical training compulsory.

Let us examine this objection carefully. As it is understood, the ultimate object of a University is to produce graduates who are fitted to become the intellectual leaders of their community. Anything, then, that is of primary importance in attaining mental fitness must come within the province of the University. The University has made certain classes in mental training compulsory so why should it hesitate to make physical training compulsory when physical training has so great a bearing on mental health?

For those who already take systematic exercise this new ruling would make provision so that it will not prove a hardship, to the others it will prove a great benefit.

The proposed plan calls for compulsory attendance during a student's first two years at college; it is hoped that by the end of that period that the student will have realized the necessity of such exercise and will continue of his own accord.

This matter is of great importance and it is hoped that the University authorities will put such a plan into effect immediately after the Christmas vacation. We cannot start too soon.

A Co-Ed Speaks

on COMPULSORY PHYSICAL TRAINING AT DALHOUSIE.

There is no compulsory physical education at Dalhousie. Would this system if introduced rouse more interest among the girls as regards the possibilities of the new gymnasium and sports as a whole?

Regarding the past two or three years one might truthfully say that girls sports were little in evidence. This is either due to lack of information, lack of organization or pure laziness. But the abnormal factors contributing to the past condition must not be disregarded. The facilities in the old gymnasium as regards locker rooms, equipment, were inadequate and last year there was no gymnasium that was convenient to everyone.

Every year managers are elected among the girls to take charge of different divisions of sport. These heads have carried out their duties excellently, but it is impossible for one individual to go about exhorting everyone in person to support her special line of sport, with much success. This organization if reimbursed by an organized system of compulsory education in physical training would adequately meet the needs of the girls. There would at least be some unity and co-operation if each new class of freshmen were initiated into sports through compulsory physical education; corrective features might even be advanced by the medical examiners in the Fall, and physical benefit as a result would be gained through this quarter.

If such a system were even tried out, preferably in the freshman and sophomore years, girls who would otherwise not come near the gymnasium would be brought into play. One difficulty might be found in trying to find hours in the gymnasium for such a procedure. However, if this was overcome I think it would be worth the effort.

SPORT BRIEFS

Those students present at the senior practice on Friday are requested to watch the notice boards for practice hours.

When a man enters college isn't he supposed to support his Faculty team? With one of the finest baseball leagues in college history just started, why not come out and support your team as well as see good ball.

Because of the Truro-Professors Badminton match the scheduled match between the Students and Faculty has been postponed until the 25th.

The American influence is everywhere and on Saturday the Freshmen and the Scientists succumbed to it, and the result was a football game played under American rules. Judging from the comments and enjoyment of the spectators this game should be played here instead of English rugby.

With all four teams in the House League playing excellent Basketball, the league is fast drawing to a close with the Quakers and Rovers in the lead.

With Engineers winning their section with four victories and no defeats it is now up to Law and Medicine to decide the winner of their section so as to complete the league. A little action, gentlemen, please.

Competition Keen in Matches

Hymie Magnoet, Glace Bay, and John Proctor, Halifax, Winners.

Hymie Magonet, of Glace Bay and John Proctor, of Halifax, were the winners in the Dalhousie University pre-Christmas wrestling championships held in the lower gymnasium at Studley, Thursday night. Magonet won after 8 minutes over Bob Weitz, New York, when he pinned the latter's shoulders to the mat with an "elbow roll." The fight was even all the way through.

Proctor won over Murray Lloy in the 160-pound class when he secured the necessary fall after 9 minutes and 15 seconds with a half-nelson and a body bar. The bout was exciting while it lasted, both men absorbing plenty of punishment.

John Fisher, Sackville, and Francis Mackasey, Halifax, in the 145-pound class battled to a draw, neither wrestler being able to get a fall within the time limit. It was the best match of the night.

I. S. S. Appeals - -

(Continued from page 1, col. 4).

charge of a reading room for unemployed women.

Any donations of magazines or books will be gratefully accepted.

Those who are willing to help in this very necessary work will please communicate immediately with one of the following: Miss Doris French, Shirreff Hall B9745.

Flint Cahlan, 34 Larch Street, B0057.

Softball League Opens Games

Arts and Science, Medicine and Theology Emerge Victorious in Contests.

Opening games in the Dalhousie Interfaculty Softball League played at the gym Thursday night resulted in wins for Arts and Science, Medicine and Theology.

Arts and Science triumphed over Engineers by a 13 to 11 score in the opening game of the A section of the league. Christie and Purtill was the battery for the Engineers, while Ferguson, Gaum and Ferguson led the Arts and Science men.

Best Game of Night.

Medicine won from Law by a 7 to 2 score in the best game of the evening. The Lawyers got their two runs in the opening inning and then Davidson, who pitched a fine game for the winners, held them scoreless for the next six cantos.

Theologians Victors.

Theology won from Commerce in a one-sided game by a score of 35 to 9. Commerce held their own in the opening, scoring four runs while they held their opponents to two counts. After that the game was all Theologs. Commerce displayed weak work in the field, almost all of the players committing at least one error.

The batteries were Bruce and Braine for Theology; Crease, Murray and Candow for Commerce.

Arts Team Bow to Squad of Frosh

Exhibition Game of American Football Staged at Studley—Score Stood at 20-0.

Freshmen defeated Arts and Science in an exhibition game of American football at the Studley campus yesterday noon to the score of 20-0. The game was a pleasant diversion both for players and spectators from the standard English rugby, which is played here always. Scott, Wallace and Duffus scored for Freshmen, with two of the kicks for goal being successful. Dr. W. G. Colwell refereed the game.

Lineups—
Freshmen—Scott, Lemoine, Stanfield, Thurlow, Partington, Duffus, Nicholson, Murphy, Lipton, Wallace.

Arts and Science—Cameron, McGlashen, Byrne, Claener, Gaum, Fuerstein, Berenger, Stoddard, Mackasey, Arab, Goldberg.

Girls Basketball

The girls' basketball practices have been in progress for two weeks. The hours for practice are Tuesday P. M., 7.00-8.00. Wednesday, 3.30-4.30 and Saturday, 12.00-1.00. There has been great enthusiasm shown thus far and it is hoped that there will be more. Miss Harris has stated that she has some very promising material and expects to turn out a team superior to that of the last few years.

Egbert's Corner

Ruth says it's too bad this depression had to come along, when times were so bad.

Murray Ryan: "My motto is, 'Think before you speak'."
Bob McLellan: "You must find it hard to carry on a conversation."

Frank Zinck: "Those chicken sandwiches of Atwood's give me a headache."
Mickey McGlashen: "Don't be so foulminded."

George at the Law dance: "How do you like dancing with me?"
Fran Huntley: "Fine. Let me know when you begin."

Fat: "What are you writing?"
Doug: "A joke."
Fat: "Send her my love."

Sargent: "How was the Geology lecture?"
Shatford: "Fine, I was rocked to sleep."

Egbert: "Nowadays a date cost you twice as much as it used to."
Dream Girl: "Yes, but its worth it."

Davis: "Are you a criminal lawyer?"
Art: "Yes, who do you want shot?"

Sullivan: "Do you realize we are facing the exams?"
Baldy: "I don't mind facing them its writing them that has me worried."

Customer: "I don't like the flies in here."
Polar Pie: "Sorry. There'll be some new ones in tomorrow."

Bob Covert: "What's the difference between having a date with a Hall girl and a town girl?"
Hal Connors: "About ten dollars."

When a coed presents a college man with a box of cigars, he had better be careful she may be trying to rope him in. So long Folks.

P. S.—SCHULTZ IS DEAD!!!

With love
EGBERT.

The Second Book Of Bunc

Chapter 5.

1. On a certain day the chronicler Bunc hid himself unto the town and mingled with the busy throngs on the street and in the shoppes.

2. And he beheld one citizen of Halif who had formerly lived with the men of Dal selling shoes unto the populace, and lo, this one did his work well, yea verily, for was he not able to write Beeaye after his name?

3. And another he saw too in the shoppes of the town and this one sold the luscious drink unto the thirsty throng, and him too the Chronicler knew for he had left Dal with a Beeeyess attached to him.

4. Then did the man Bunc go to his tent; but on the path

he beheld a wanderer who carried a sack under his arm.

5. Lo, on the sack were written the words Fooler Bruz; and the chronicler was sore amazed, for in truth, this one had formerly sat with him in the learned halls of the domain of Weelson Smeet, yea verily, the domain of Edukat and both had received a Teaching Ly-sense, yea of the First Ranke.

6. But there came another hard on the heels of him of Fooler Bruz and forsooth, this one was the Mayellman. And the chronicler looked upon his countenance, and lo, it was of him who in past years had sat proudly in the confines of Poly-sie, where he harangued concerning nations and principalities; and for his mighty deeds he had been crowned with a Hon-yer Certific in Hist and Gover, yea even so.

The Med Dance

The Med Dance, the last big social event before Christmas, was held in the Nova Scotian on Friday, November 18. The Medical Society always put on a very successful party and this year was no exception. Due to the fact that the usual two weeks had not passed since the Law Dance the crowd was a bit smaller than usual, but the medical students all supported their faculty and many others were present.

The chaperones for the occasion were Dr. and Mrs. H. G. Grant, Dr. and Mrs. W. Allan Curry, and Dr. and Mrs. J. J. Mader. The ladies received the guests.

And we must not close without congratulating the dance committee; Messrs. J. S. Robertson, C. G. Harris and Yale Brody, who deserve all the credit for a great party.

Sodales Debate to be Held Nov. 25

The Public Speaking and Parliamentary Procedure Club held its meeting yesterday. The meeting was called for the purpose of introducing a constitution for the Club.

All Dalhousians interested in public speaking have a treat in store for them next Friday, when a debate will be held in the Munro Room at the Forrest Building. The subject is, "Resolved that this house approves of the policies of the Bennett Government." Upholding the affirmative will be Art Patillo and John Fisher, while the negative will be ably supported by T. D. MacDonald and J. Redmond.
