Feminine Fury

ALL WEL

To the Editor:

So the feminine 'a trick don't you right, but that's how it is. The result, of course, is the Scat-Study Songs of the Dalhousie Gazette. As we are pleased that the voice has been heard, it is time to reassert the importance of female representation in the university's activities.

The girls never give you a break. There is always something to watch for. Don't you tell me that you have nothing to do. The girls of Dalhousie are not to be messed with. Don't they think it is time to be taken out with such characters as you? Don't they think it is time that they be brought in contact with the world outside of the university?

The chivalry (i.e., the 3rd year) of the world around is even more important than that of the university. The world outside of the university is not a place for girls to be left alone, but it is a place for girls to be brought in contact with the world outside of the university.

This is the only way to get on with the world outside of the university. Don't you think that it is time that you be brought in contact with the world outside of the university?

SOURCE GRAPES

To the Editor:

Considerable interest and indignation has been shown by students, editors, and members of the university body, over the recent efforts of the university to bring about the establishment of a "Fell's Up Lecture". The management of the university has been requested to cease such efforts, as they are not in the best interests of the university.

The committee of the university is not in favor of such efforts. The committee feels that it is not the best interest of the university to bring about the establishment of such a "Fell's Up Lecture". The girls of the world outside of the university are the girls that you are going to be called upon to meet. Don't you think that it is time that you be brought in contact with the world outside of the university?

Looking Ahead

At last we have a deadline for the payment of the university fees. This means that the students of the university are to be paid in full. The nurses of the university are to be paid in full. The students of the university are to be paid in full.

This is the only way to get on with the world outside of the university. Don't you think that it is time that you be brought in contact with the world outside of the university?

A New Word

A new word has been added to our vocabulary, "collected", which means to bring together a group of people and to hold a meeting. This word is used in the university and is used in many other places, but it is used in the university.

This is the only way to get on with the world outside of the university. Don't you think that it is time that you be brought in contact with the world outside of the university?

Gymnasium Thieves

Last Saturday night a theft of unprecedented magnitude occurred at the Gymnasium. This theft is the worst that the university has ever had. The university is not able to afford the loss, and the university is not able to afford the loss.

This is the only way to get on with the world outside of the university. Don't you think that it is time that you be brought in contact with the world outside of the university?
Romance Or What Have You

It seems the big social highlight for the week (or maybe we should say, week) was the coming thing. Social Society Banquet... The boys made a double play of it. Two or three parties... lovely party... A few of the girls were spotted around the differently encumbered French Hall, where the band played and the girls were seen to be in small groups or pairs. The French Hall, it seems, is the latest social centre.

We think that Ted tonight will have profited by his lack of ginger ale. "Hey!" Groove low, gentle reader, and find in the world the closest... for the week (or rather, the term it just highlights) was the Wednesday night (February 19th, 1937). The mood of the students... the Pi... treat... In our opinion is that he is hard pressed to make his mark. But this week we endeavored to do something that phone call... Come, come Ron Hiseler and Thomas Waller... what's the trouble with the local lads? And if you will... What's the trouble with the local lads? If you will... What's the trouble with the local lads? And if you will... What's the trouble with the local lads?

We feel that the ladies have decided to look into the matter more... It is indeed sad to see a list of names and chosen those who would like to make a stamped, self-addressed envelope and get a list of them... to be in the red to the extent of some $22.50... "Yeah, I always get $22.50."

I shall hear from my neighbor... I shall hear from my neighbor... I shall hear from my neighbor... I shall hear from my neighbor... I shall hear from my neighbor... I shall hear from my neighbor... I shall hear from my neighbor... I shall hear from my neighbor...
