## CHAMPION TIGERS CLASH WITH ACADIA AXEMEN

### Sodales Announce Ambitious Programme For Coming Year

Sodales Debating Society this year embarks upon the most extensive program ever attempted in the history of the society. Bearing in mind the impressive record of previous years, the executive has striven to find for Dalhousie's orators opposition worthy of their talents, and has already opened negotiations for no less than nine regular intercollegiate debates of honour standing. These debates will give an unusual opportunity to those who wish to immortalize themselves as warriors who have upheld the glorious traditions of Adversaries against the most skilful Dalhousies obtainable.

In addition to this ambitious program of intercollegiate debates, it is the purpose of Sodales to inaugurate inter-faculty debates in which the men of the different faculties will meet in an elimination series the winners of which will be declared the champions of the campus. There will also be 30 debates, alumni debates, and preliminary intra-mural debates, all of which will provide invaluable training for all student speakers.

After Christmas Sodales will again enter teams in the Canadian Broadcasting Corporation's Dominion-wide elimination contest. Dal teams have always been feared in these debates. We must add to the enviable record of former years and cannot be content until the shield emblematic of the national championship adorns the walls of the Studley library.

The Model Assembly of the League of Nations will be held again in the spring. Last year's sessions held in Halifax were a great success, and because of the significant developments in Europe and the Far East the 1938 meetings should provide even more lively discussion.

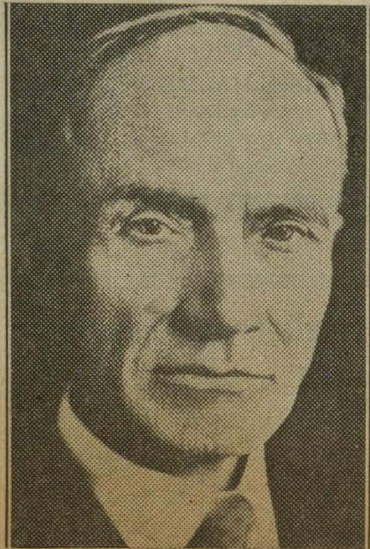

Surely, this will be a big year for Sodales. There are opportunities for us all to profit from active membership in the society. We have lost most of our old first line debaters and new men must be found to carry on the torch. Remember, Dalhousie, your university, benefits only as you, her students, succeed. So let everyone turn out to help carve upon the deathless bronze of history another epic Sodales chapter. The executive extends to members of the Freshman class and all other new students a special invitation to attend the meetings and join in the discussions. Those interested in debate and public speaking will receive full information concerning Sodales and will confer a favour upon the executive by consulting Douglas MacKeen at Studley, or Babbitt Parlee at the Forrest Building.

Everyone out for Sodales!

### President to Speak

President Stanley will make a brief address to the members of the University at 12 noon, on Thursday, October 7, in the Gymnasium. His address will be more especially to students—those in the Professional Schools as well as those in the Arts and Science Faculty.

### Great Loss

HECTOR McINNES, K. C.

Chairman of the Board of Governors at the time of his death, the University and the Canadian professional and business worlds in general suffered a severe loss in the passing of Mr. McInnes.

### Welcome Frosh To University

To the Class of 1941—

To you has fallen a heritage, and by your presence at Dalhousie, you acknowledge acceptance of it. This heritage is no vague and intangible thing. It is the product of one hundred years of effort in the field of scholarship and the building of men who are worth while. We welcome you—the Class of '41—who are to succeed to the best Dalhousie has to offer.

You will be called upon to accept many responsibilities as you take over the guardianship of the several branches of our student democracy. The vast multitude of students who have preceded you have set the standard, and have built high and well around it. Your duty to those who have gone before, and to those who are yet to come—is to maintain this standard or rise above it.

These standards are not in scholarship alone. A full and adequate college life will carry you beyond the classroom. There are many organizations and activities that merit your full cooperation. These are your organizations, for your education, for your health, for your entertainment and relaxation. Take advantage of them.

This is your Dalhousie. She will always be yours, work hard for her, be loyal to her, cherish her traditions and ideals, uphold her honour. Criticize her when she is wrong and spend energies for right.

We are glad you have come to our college, and wish you a happy and successful career.

The Council of Students of Dalhousie University again extends its sincere welcome to you.

G. FRED DAY,  
President.

### President Bids Students Welcome

The Editors of *The Gazette* have asked me to say a word of welcome to the incoming new students in Dalhousie. To their request I gladly accede.

The hospitable spirit of *The Gazette* represents the attitude of the whole University. We are not only interested in you newcomers, we know that on you—your capacities, your outlook, your loyalty to high ideals,—the future welfare of this University largely rests. In this knowledge, we bid you welcome, heartily and sincerely.

There are several things in the University which are entirely in the students' hands. I mention *The Gazette* itself as one example. These have a high tradition: it is for you to maintain the tradition, and to better it if you can.

Personally I wish you every success.

CARLETON STANLEY,  
President.

### Physical Director Announces Plans

Sven Korning, Dal's new physical instructor, outlined a wide and interesting programme to *The Gazette* representative yesterday. Stating that he has been favourably impressed with the interest shown by the student body in various forms of physical activity hopes for general participation in the different activities in his programme.

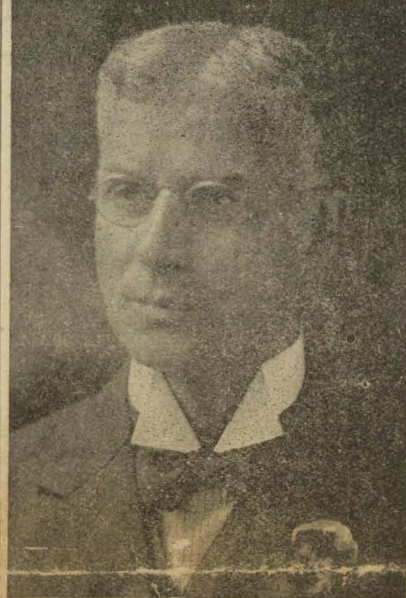

Mr. Korning will give regular classes in Danish Gymnastics, a specially developed system of calisthenics, fencing, boxing, and tumbling and vaulting. He will also introduce European Handball, a game somewhat similar to basketball, which he is sure will be popular. He proposes to take complete charge of track and field activities and hopes that interest may once again be built up in this branch of sport.

Freshmen and Freshie-Sophs, re-

(Continued on Page 4)

### Dalhousie Students Will Give Team Enthusiastic Support

#### Is Mourned

DOUGALD MACGILLIVRAY,  
LL. D.

Among prominent men associated with Dalhousie to die during the summer was Dr. Macgillivray. Member of the Board of Governors and public benefactor, his memory will remain long in the minds of Dalhousians.

### Glee Club Asks Student Support

The Dalhousie Glee and Dramatic Society takes great pleasure in extending a hearty welcome to the class of '41. May your sojourn at the College by the Sea be a pleasant as well as profitable one and that it cannot be unless you are willing to give your whole-hearted support and co-operation to the various student organizations. Our Glee Club was organized to provide an opportunity for participation in dramatics, choral activities, dancing, etc. to the mutual enjoyment of the student body as a whole and has become an integral factor in our campus life. Several three-act and many one-act plays are produced at intervals throughout the year followed by dancing in the gymnasium, to the leading orchestra of the city. In fact, the Glee Club is one of your biggest campus societies concerned with practically the entire student body. In order for such a society to function efficiently, it must receive the hearty support of its members and one of the major productions of the year is the Freshman Show later on in October, put on entirely by the freshman class under capable direction. We look to the class of '41 for an adequate turn-out of talent to produce this when called for and in the meantime you will have an opportunity to see a few old-timers in action on the night of Wed., Oct. 6th at the first show of the year for the entertainment especially of the newcomers to Dalhousie. Once again, welcome to the College by the Sea and the more you put into the Glee and Dramatic Society, the more you will get out of college life.

Tomorrow the Tigers play the first game in defence of their title. EVERYBODY OUT FOR THE GAME.

A new edition of the fighting Tigers will take the field tomorrow afternoon and face Fred Kelly's Axemen from Wolfville. After two weeks of intensive training the Gold and Black ruggers feel perfectly confident that they can take the measure of their collegian foes by a wide margin. Decked out in their new uniforms they should cut brilliant figures as they drop the dazzled Acadians in their tracks.

Coaches Rankine and Fletcher speak highly of their charges and trainer Payne was heard to say, "Don't worry, the boys will be in great shape!"

Last year the Tigers brought home to Studley the City League Trophy, emblematic of the Senior Championship. They fell to Caledonia in their search for provincial honors, but even so one of the most successful seasons in college history had passed. Acadia was conquered in two stirring games, the first at Studley by a score of 14-3, while in the second Dal was held down to a 6-3 win.

Their series with a rugged Wanderers squad amounted almost to the sensational. Pushed into the mud in their first encounter to the tune of 21-0 the Tigers displayed great recuperative powers to come back strong and blank the Redmen 3-0. Then occurred the notorious "protest" game which Dal lost 9-6 at Redland. The final game of this series was tied at 3-all and the League moguls declared that a playoff would have to be arranged, the winner to take the title and meet Caledonia. The Gold and Black surged to victory by a sensational last minute score after spotting the Wanderers a five point lead. This, one of the best games seen in Halifax in many years, can be taken as a striking example of the College spirit that is so necessary to complete success. It was obtained in the most part by the spectators who cheered themselves hoarse in driving on the team.

They will be out there fighting, but the scrappy spirit that carried them to the City League championship in last year's campaign will not be enough to enable them to rise to similar heights. A full turn-out of the student body and their enthusiastic backing will supply the necessary drive. The fact that they are City League Champions cannot pull a victory out of the fire but with all Dalhousians cheering them on and the now famous Band playing lustily, there is little doubt but that they will come through with a win.

A Tea Dance after the game will aid in the general success, so let's see everybody out and make it Dalhousie's Day.

### Positions On The Staff

Editorial and other appointments to *The Gazette* have not yet been completed.

Applications from those who have a leaning towards conducting columns, humorous, or otherwise—in fact anyone with ideas which will better *The Gazette* is requested to see the Editors as soon as possible. Come early and avoid the rush.

### The Lineup For Tomorrow's Game

A probable line-up announced by team officials last night for the Dalhousie-Acadia game to-morrow is as follows:

Fullback

Haines

Three-quarters

Smith, Armstrong, Leith, Ross

Halves

Pauker, Kerr, Egan

Forwards

Darrah, C. Smith, Cook, Mushkat, Phillips, Ideson, Storey

### REQUIESCANT IN PACE

Hector McInnes, K. C. died in Halifax, June 19, 1937 at the age of 77 years. Native of Nova Scotia. Graduated from Dalhousie Law School in 1888. Member of the Board of Directors of the Bank of Nova Scotia since the turn of the century, among other executive positions. Was Chairman of the Board of Governors of this University at his demise.

Sir Robert Laird Borden, LL. D. (Dal.) Canada's war-time Prime Minister died at his home in Ottawa, June 10, 1937. Born at Grand Pre, N. S. in 1854. In 1918 was appointed Chancellor of McGill and held that office until 1924 when he became Chancellor of Queen's.

Honourable Humphrey Mellish, retired Justice of the Supreme Court of Nova Scotia died at his Halifax home June 19, 1937 in his 76th year. Native of Prince Edward Island. Graduated from Dalhousie Law School in 1890. While at the University took a keen interest in student activities.

Dougald Macgillivray, LL. D. (Dal.) died at Halifax August 9, 1937. Was born in Ontario 75 years ago. The bust of the University's founder, the Earl of Dalhousie, is the gift of Dr. Macgillivray and in MacDonald library are hundreds of volumes presented by him and made invaluable by the signatures of the authors. Was a member of the Board of Governors at his death.

Harry E. Mahon, B. A., LL. B. died April 16, 1937 at his home in Halifax. Born in Halifax in 1875. Was Manager here of the Montreal Trust Company. At time of his death was a member of the Board of Governors.

## ANOTHER YEAR

In this, the first issue of the year, The Dalhousie Gazette takes the opportunity of greeting all students who are entering the University for the first time.

Another college year is commencing which, in our sight, holds as much promise of success as any in the past. The Freshmen appear to have equal qualifications to the incoming classes of preceding years and it is to them we dedicate this issue of The Gazette in the sincere hope that they will measure up to the highest standards of Dalhousie.

The majority of you arrive inexperienced and uninitiated in the ways of a university life and it is for you that we offer the truism that you can get as much out of a college career as you put into it. Throw yourselves wholeheartedly into all activities and gain a much fuller development both physically and mentally. Do not devote all your energies to any one phase, but rather endeavour to gain a wider conception by taking part in as many extra-curricular activities as possible, but not to the exclusion of normal work and study. Your chief aim in entering college is to acquire a complete education but do not lose sight of the fact that the educated man is the fully developed man.

Dalhousie is fully equipped for all tastes—its libraries are sufficiently stocked to satisfy any desire—its gymnasium is considered the finest in Eastern Canada—its very location is unrivalled for all visitors comment favourably on it and are loud in their praise of the campus and its surroundings. The correct use of these and other advantages cannot fail to give a young person the knowledge and experience to carry them through an entire lifetime. Above all do not hesitate to consult the professors who are placed in a university for purposes of advice as well as instruction. They will be only too glad to help you out in any way possible if you are in a quandary.

In conclusion support all student activities to the best of your ability—The Glee Club, Sodales and the Gazette; turn out for the teams and attend social functions. In this way you can acquire the complete and substantial education for which you came to college.

## DEATHS OF PROMINENT MEN

The beginning of a new college year turns the minds of students and graduates alike to the many changes which time brings in the ranks of those associated with the University.

During the last few months these alterations have been many and sad. Death has claimed men who had given years of service to Dalhousie and who had carried her name to lofty eminences in the public and professional life of Canada. To name only a few of these, the better known, is to make an impressive list of personages whose places will be most difficult to fill. Sir Robert Laird Borden, LL. D., one-time Prime Minister of Canada; the Honourable Humphrey Mellish, retired Justice of the Supreme Court of Nova Scotia; Hector McInnes, K. C., Chairman of the Board of Governors, and distinguished figure at the Bar of Nova Scotia; Dougald Macgillivray, LL. D., and Harry E. Mahon, B. A., LL. B., outstanding business men and friends and Governors of the University.

The work these men have done for Dalhousie will live after them, perpetuated in the buildings erected during their period of service, but more than that stamped upon the characters of the students who have passed through the halls in that time.

After all, the worth of any institution of learning can be measured solely by the stature achieved by those who hold its degrees. If we who complete our courses in future years but carry with us a sense of public duty such as has animated our predecessors, then, indeed, Dalhousie's purpose will have been achieved.

## THE GAZETTE

The Editorship of The Gazette this year has fallen into new hands and to-day's issue is the first to be published under the new management.

During the past several years the paper has been steadily mounting in excellence as a student publication and the 1936-37 Gazette was no exception to the rule.

And so it is that this sheet has a high standard to maintain, a standard set by "The oldest college paper in America" during its sixty-six years of publication.

The Gazette is the official student organ on this campus and its chief duty and aim is to reflect student opinion. Together with this it was first organized as a medium through which students could express themselves and at the same time endeavour to perfect their literary efforts. With this in mind it is seen that it depends on the students themselves to maintain for their publication the quality of other years. And, therefore, we ask you, especially you who are entering this university for the first time, to support your College and to contribute to The Gazette.

Though the responsibility of The Gazette officially rests with the editors as invested in them by the Council of Students, it also rests to a large degree with every man and woman enrolled in the undergraduate and professional schools of Dalhousie. It is your Paper and your University and the latter is often judged by the former.

Every university student must needs have some degree of literary effort, however small. So send in your contributions and endeavour to have this year's Gazette at the peak of the ascending graph.

## Fantasy - - Fancy and Fact

With war raging in Spain and China fears are rampant that one of these conflicts might spread itself into world-wide scope. The mighty region of North China is a huge field for any journalist to cover. Shanghai with colourful copy of the International Settlement besides its convivial bars and comfortable quarters has been the subject of three-quarters of the stories of the Oriental struggle. However at the real seat of war Japan is consolidating tremendous gains.

In this struggle incidents have developed with fearful rapidity. Injury and death of foreign nationals reached a climax with the Sarajevo-like wounding of England's foreign ambassador to China, Sir Hughe Montgomery Knatchbull-Hugessen.

Likewise in Spain Italy, Germany, and Russia have made scant secret of their assistance to the warring factions. What the nationality of the so-called pirate submarine of last week's notoriety was the writer can but hazard a guess drawn from the current periodicals. It is not going too far, however to surmise that England and the Continental powers with their highly developed secret agents and many sources of information do know. It is highly probable they do.

**Deduction.**—If the powers concerned have not seen fit to declare war yet, with such a multitude of opportunities, the world seems safe till the present phase, at least, is over.

A situation which would have made the team of Gilbert and Sullivan smile in delight has arisen recently in Alberta. The province, as the rest of the provincial powers, has no jurisdiction in banking fields of law. Alberta however, recently passed legislation in violation of that law. After some delay, prompted by strategical purposes, the federal government issued an order that the law was ultra vires that is, the law is void because the body that made the law had not the necessary status to consider such a regulation.

Developments grew apace. Finally, Premier Aberhart cried, in effect, "We will not recognize the fact that you will not recognize our legislation." Such an outlook, of course, strikes against the primary roots of Confederation itself.

The writer has visualized the following, as happening somewhere in Alberta:

### Dramatis Personae

The Hero..... Premier Aberhart  
 The Villain.. Prime Minister MacKenzie King  
 The Villain's Cohort....  
 Finance Minister Dunning  
 Chorus..... The Alberta Cabinet

### Scene

A wheatfield in Alberta.

### Time.

The Fall of 1937.

Prime Minister King and Finance Minister Dunning are holding a consultation with the Alberta Government. The Cabinet are joyous and noisy. Accosting the visitors, Premier Aberhart speaks!

Prem. Aberhart.—

"We always listened  
 With obedient attention  
 To your Statutes and Strictures  
 Your Laws and your Dictums  
 But we'll no further bother  
 With your Regulations  
 We'll make our Enactments at home."

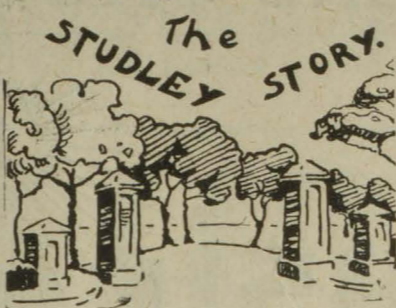

Dunning (Leering)—

"You'll soon come a-crying  
 For our bounties be begging  
 Our policing be pleading  
 Our subsidies be seeking."

Chorus (with riotous laughter, ignoring him, chant in high glee)—

"We'll make our enactments  
 Right here in Alberta.  
 St. James Street with pain  
 And Sir Henry with shame  
 Can think in reflection  
 May rue their suggestion  
 Of the nineteen and twenties  
 That even Alberta,  
 Our lovely Alberta,  
 That far-flung Alberta,  
 Should have expensive big railways  
 Have costly big trains."

(Continued on page 3)

## COMMENTS ON COMMERCE

Many students, past and present, are disturbed by the rumours prevalent as to the fate of the Department of Commerce. Our beloved "Big Jim" follows former Dean Syd Smith to new fields in the West—our best wishes go with him. But no one seems to know who, if anybody, will succeed him. No one seems to know, indeed, whether or not there will be any Department of Commerce at Dalhousie.

The University authorities' reply to all queries—"We do not know"—is fully as unsatisfactory as Rockefeller's famous answer to the Senate Committee inquiring into his trusts—"I do not remember". On present knowledge, it would not seem unreasonable to say that students and alumni deserve the truth. A modern university is not a fascist state—administrative officers are to guide and lead, not to dictate. Students and alumni are in the final analysis the integral part of the University. May we, then, without being charged with impudence, ask the Board of Governors that the final decision be announced as soon as possible?

If the Board allows Commerce to lapse what reasons can they assign for the move? As far as we can see the only possible reasons must be one of, or a combination of, the following: (1) Financial; (2) Inability to find a qualified professor; or (3) The conclusion that Commerce should not be taught in a college like Dalhousie. The first, on present information, we may lightly discard—last year there was a relatively large enrolment; higher fees than in Arts were charged; a large endowment exists earmarked for Commerce. If cost were the sole objection, a campaign for funds would be a solution more logical than the abolition of the Department. The second possible reason is on its face absurd.

In dealing with the third possible reason for abolition we are on disputed ground. Suppose we attack the problem by presuming that the departments of the social sciences and our new Institute of Public Affairs are of value. Then let us remember that a Commerce student takes virtually the same course in the first two years as any Arts student and that in his last two years he only takes six Commerce courses, most of which are really Economics courses. Considering these facts, how can we possibly conclude that there is no place for a Department of Commerce in a modern university which tries to prepare students for modern life? If the Commerce course in the past was not all that it might be (and this is a debatable point), renovation of the curriculum and not abolition is the remedy—never throw out the baby with the bath-water!

Whatever decision the Board of Governors reaches we may be sure that it will not be reached without careful deliberation and will be well-founded. What we do ask, however, is that a decision be announced soon, together with the reasons behind it if any change be made.

Dalhousie Band

The Dal band enters another year of active life this week. The organization worked up last year has many of its old members back, but wants every interested student who plays an instrument to turn out. This is necessary in order that the work done last year can go on.

The first practice of the year is to be held on Wednesday, Sept. 29. Another on Friday, Oct. 1, in the Gym at 7.30 p. m., and another on Saturday at 1.00 o'clock before the game.

The band will, as last year, play at football, hockey, and basketball games, and there will be rehearsals every week.

With the passing of the band constitution by the Students' Council last year, it is now possible to win a "D" for band work.

If you play an instrument, get in touch with any of the members of the band committee—C. J. Egan, B. 3551, Cameron Annear, B. 4279, or Jack Dacey, B. 3738, saying what instrument you play, and whether or not you have it with you, or else come down to the Gym to a practise as soon as you can.

Dalhousie A. A. C.

The D. A. A. C. intends to carry on the work of furthering athletics at the University. This year it is hoped that trips may be arranged for nearly every sport under the control of this body and in this way both the athletics and the University will benefit. Much of the success of the D. A. A. C. in carrying out its sporting programme depends on the cooperation of the student body as a whole; that is the students not participating in sports must turn out and support their teams. It is a recognized fact that a large group of loyal supporters is a big factor in overcoming stiff opposition. If the athletes are willing to put their time and energy into playing the sport itself, the remainder of the student body should be more than willing to do its bit and appear on the sidelines and encourage them. In the past few years Dalhousians have not supported their teams to the fullest extent and the D. A. A. C. asks that every non-playing student turn out and do their bit of shouting. Dalhousie has a fine reputation on the playing field and every effort must be made to keep it up.

(Continued on Page 4)

Changes in Faculty

Since the last issue of the Gazette there have been numerous changes in the Academic Staff of the University. The Medical School, more than any other Department of the University, has benefitted by these changes.

In Anatomy, Dr. Richard L. deC. H. Saunders has been appointed Assistant Professor. Dr. Saunders comes of a family of teachers and doctors. He graduated from the Medical School of the University of Edinburgh and has since been lecturing there.

Dr. R. D. H. Heard has been appointed Assistant Professor in Biochemistry. He obtained his Bachelor and Master degrees at Toronto. Later he obtained his Doctor's degree at the University of Manchester working under the well known Biochemist, Prof. H. S. Raper. He has since worked at the University of Oxford and at Toronto where he had obtained a grant from the Banting Research Foundation. Dr. Heard comes to Dalhousie highly recommended.

In the Department of Physiology, Dr. Rhoda Grant has been appointed as Assistant. At McGill, Dr. Grant obtained her B. A., majoring in Chemistry and Biology, and later her M. A., in Biochemistry. Her doctor's degree also came from McGill, this time obtained in Experimental Medicine. Dr. Grant has also worked in the laboratories of the Universities of Columbia, Graz, and London. She has lately been assistant and demonstrator in the Departments of Physiology at Toronto and McGill Universities.

Dr. C. W. Taylor has been appointed Assistant Professor in Pathology for the present year. Dr. Taylor has had a distinguished career in the laboratories, hospitals and medical school of Birmingham. He is highly spoken of by the Pathology Department of the University of Birmingham.

Mr. William G. Dore comes to Dalhousie to fulfill duties as lecturer in the Botany Department. Mr. Dore has received his education at Queen's University taking honours in Chemistry and biology, and later at MacDonal College and McGill. He has since worked at the Central Experimental Farm, Ottawa.

Mr. Sven Korning of Copenhagen, Denmark has been appointed gymnastic instructor. He passed through the Danish Gymnastic Institute, with high honours. He then took a further course at Niels Bukh High School of Gymnastics. He has since acted as instructor at the University of Copenhagen and in London. Mr. Korning replaces Mr. W. E. Stirling who tendered his resignation during the summer months.

Professor R. A. MacKay, Eric Dennis Memorial Professor of Government and Political Science, will be absent on leave from Dalhousie University this year in order to attend to his duties on the Royal Commission on Dominion and Provincial Affairs. His place will be taken by Escott Meredith Reid. Mr. Reid graduated with first class honours in Political Science from Toronto University, winning many scholarships. Rhodes Scholar from Ontario, 1927, he won further scholarships in Oxford, and graduated there, 1929. From 1930 to 1932 he held a Rockefeller Foundation Fellowship. Secretary of the Canadian Institute of International Affairs, he has written many articles on politics and international affairs in Canadian, American and British reviews.

Delta Gamma

With another term here the first thing to think of is new material, new ideas, new faces; and as the Delta Gamma meets the Freshettes on Friday their officers will be introduced to them. This, of course, includes the officers of the D. G. A. C. Any girl interested in a particular sport will then know who to see.

Both the tennis and ground hockey teams need new members, so let's see all Freshettes out in good style. The tennis team is to meet ACADIA Saturday at Halifax, Oct. 7, and later Mount Allison at Sackville on Thanksgiving weekend. The girls are daily practising on the Carleton Tennis Courts. Irene Pentz will be manager.

The ground hockey team, if there are a favourable number of girls turning out will play the usual games with the Halifax Ladies College and Edgchill. Both these schools have had about two weeks practise and so are bound to be in better shape but we can give them a great battle. Allison Conrad will probably coach the team.

The Delta Gamma will hold its first formal meeting at Shirreff Hall the first of the month. The Freshettes will be initiated and a committee for the annual tea dance will be arranged. This tea dance, which is held at the Hall, is put on by the girls for charity. In the past it has been a very successful event, and there is no reason why it should not be so again.

Fantasy Fancy and Fact

(Continued from Page 2)

MacK. King (walking forward, the Cabinet regarding him warily)—

"The Radio Corporation with greatest indifference

Will omit atmospheric pressure of prairie significance

In awful aloofness, my planes passing by

In Alberta regions will their noses stick high.

(The Cabinet have fallen into a nervous silence)

Only empty desolation

Will give implication

On the maps where Alberta

Should rightly be stationed!

Prem. Aberhart (stepping forth boldly, with arms upraised in defiance) shouts—

"Our wants and our wishes we'll well satisfy

Your threats and your warnings we hereby defy.

Chorus (as the curtain falls, in a mocking crescendo of voices)—

"For Federal follies, injunctions, enactments

We'll not give a fraction of eighty-cent wheat.

So leave our Alberta, our lovely Alberta

And take from Alberta your Federal seat!

Freshmen Programme

Members of the Freshmen Class are in for a merry week of it. The Sophomore Initiation committee in its effort to give the Frosh a real welcome to the College by the Sea has arranged a week of bang-up entertainment.

This evening the Frosh will attack Shirreff Hall for the first time. The Frosh can take Kevin Meagher's word for it, "It'll be a lovely party."

Saturday afternoon every last Freshman will be in the Studley stands cheering Dal on to victory. Those Axemen will be out-hollered on Saturday afternoon—or else.

After the game the D. A. A. C. is conducting a tea dance. Nice start, boys.

An unusual and very commendable feature of the initiation program will take place on Sunday evening when the Frosh will assemble at the Dalhousie Library and go to a religious service to be held in the King's College chapel.

President Walker of King's will conduct the service.

On Monday evening the Frosh will be the guests of the Casino Theatre while the Capitol management have offered to do the honours for Tuesday evening.

Wednesday evening has been set for the first Glee Club show—an event staged in honour of this year's Frosh.

Thursday evening the Student's Council will throw their monster dance in the Gymnasium. Every student in this university has an invitation.

On Saturday afternoon Dalhousie will have another football battle on her hands. Once again the Frosh will predominate.

And the big show will wind up on Wednesday, October 13th, when the Sophomores entertain with the Freshie-Soph dance. And if present plans are effected it will be some party!

Freshmen Regulations

Freshmen shall, during the period of initiation speak to every upperclassmate he or she meets on the Campus. The said Freshman or Freshette will address the upperclassmate with the familiar "Hello"

Freshmen shall during the period of initiation spend at least five minutes daily in the Dalhousie University Store; 15 minutes in the MacDonal Library and half an hour in the Gymnasium. This regulation has been made to acquaint you with the three major points of interest at Dalhousie.

Freshmen are obliged to supply all upperclassmen with a match upon request.

Freshmen will be compelled to attend all meetings held for them. Attendance will be taken and whether it be a business meeting, theatre party or dance, the absentee will be severely dealt with.

Freshmen shall wear the regalia provided for them by the Sophomore committee everywhere within the borders of the Campus.

Freshmen shall link themselves with at least one of the following Dalhousie student organization— Dalhousie Gazette. Dalhousie Glee Club. Dalhousie Band. Sodales Debating Society.

Freshmen shall make an effort to contact some official of the organization in which he or she is interested and offer his or her services.

Failure to comply with the above set of regulations will involve the offender in a set of very unpleasant consequences. Alibis and excuses will avail you little. Your punishment lies in the hands of the Sophomore Initiation Committee.

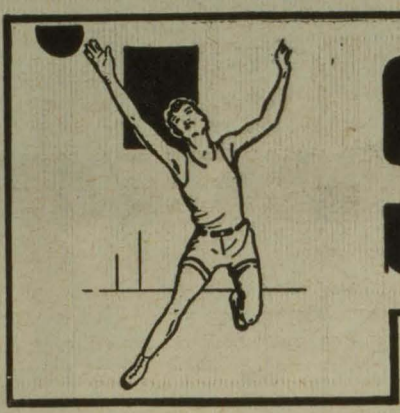

Signed,

THE SOPHOMORE INITIATION COMMITTEE.

The Sophomore Initiation Committee would appreciate the co-operation of the student body in carrying out the list of regulations. The idea of having the freshmen speak to the upperclassmen has been made to establish a quick acquaintance between both groups. Let's have your co-operation.

## FRESHMEN EDITION

### Stellar Players Strengthen Team

With the opening matches of the Maritime Intercollegiate Tennis Championships now only about three weeks away, Dalhousie's prospects for the successful defence of her title seem very bright even though about half the team has not returned to college. Of last year's men four are back again, Bliss Murphy, Harry Grant, Babe Stewart, and Karl Garten, with Eddie Cohn and Ed Stewart lost through graduation. However, newcomers in the persons of Hugh Little, present provincial junior titleholder, Gordon Hennigar, Lee Hutton, and Bob Dimock will amply fill their places.

The girl's team has been hit much harder. Only two, Irene Pentz and Zylpha Linkletter have returned with Vivian Douglas graduating, Jamesie Crease deserts Dal for Acadia, and Mickey Garten taking up nursing. For their places no prospects have as yet shown themselves, although Manager Henry Reardon expects that with the beginning of regular practices he will be able to find enough good material among the new students to fill out a strong team. Prof. C. H. Mercer will, as in former years, again assume coaching duties.

### Hockey Outlook For Coming Year

After last year's successful campaigns in the Halifax City Senior League and the Inter-Collegiate League Dalhousie's hockey teams are looking forward to even better things during the coming winter.

Both the Senior and Inter-Collegiate squads have suffered heavy losses in personnel since the close of play last season. Such stars as John Carroll, Don MacGregor, Eddie Cohn, "Pooh" DeWolfe, Jack Buckley, Bill Napier, John Dickey and "Tiger" Veniot will not carry the Gold and Black into the hockey wars this year—all of these were important factors in last year's successes and will be sorely missed when the season gets underway.

The members of last year's squad who will answer the call again this year however, form a nucleus around which can be built two very strong teams. "Corky" Koretsky, Ken Beer, Jimmy Graham, Jim Mont, Harvey Conn, John Mullane, Bob Corston and Bob Marshall are players of ability and experience proved to Dalhousie fans in past seasons.

Among this year's new arrivals at Dalhousie are three forwards who will add plenty of punch to Dal's attack. They are Jack Kerr who comes from Mount Allison with a fine hockey record, Hugh Little, last year a star on Upper Canada College's junior team, and Doug MacDonald, former St. Francis Xavier inter-collegiate star.

All the indications point to another successful season for Dal's hockey teams if proper coaching can be obtained.

### Veterans Return To Mt. A. Squad

Mount Allison University Rugby squad coached by "Bob" Brodie, has been turning out regularly for the past week. A survey of the team shows nine members of last year's squad are back on the campus. They are Rus Johnston, Lennoxville Que., Captain of this year's squad, Bill Cummings, New Glasgow; John Bigelow, Sackville; Ken Somer, Yarmouth; Ralph O'Brien, Beaver Harbor, N. B.; Ray Cunningham, Springhill; Henry Blanchard, Truro; Bob Copp, Port Elgin, N. B.; and Archie Cameron, Stellarton.

### Sport Sagas

by  
ROLAND HURST

Well here we are right back at the old stand and open for business. Yes, I know, you were hopin'.

To come to football. And by the way don't forget the big game on Saturday when the City League champs of Dalhousie University line up against those vicious Axemen from Acadia.

The mewling Tiger will come out of his den attractively decked out in new stripes. As Bernie would say the new uniforms are "the mosta of the besta."

And there'll be some new faces shining when the Tigers take the field too. Coach Johnny Rankine has gotta get someone to fill the blanks left vacant by old Man Graduation's withdrawal of Hal Connor, Doug Crease, Jack Buckley, Pat Gunter and Ike Mercer. Squank Dougan will be among the missin' as will also Pooh DeWolfe.

"Fighting Pooh" won't answer the call when the whistle blows this year. The fighting forward who made himself so popular with football experts, will stick to law this year. Well, maybe, but here's hopin' he'll change his mind.

It's practically sure that Prof. Fletcher will call Gordon Darrach out of retirement for the big opener. Darrach who has already two degrees to his credit, so we're informed is in the Med School and it's a break for the Tigers.

Just who else will get the call is a big question mark. Dr. Johnny Rankine, the man whose driving' the Tigers through their paces won't talk.

A welcome to Sven Korning. This columnist wishes you all the luck in the world.

Prospects for a championship team of racqueteers for Dalhousie have been considerably brightened with the registration of Hugh "Spark Plug" Little and Gordon "Goe" Bauld. Already we've dubbed Little "Spark Plug" and when the hockey season rolls around you'll see the reason why.

And here's some dope. The Yanks have the World Series in the bag right now. Yes, sir, since Gomez started on the road back the boys have been packing for the big trip back to the bushes. The Giants will line up against the Yanks to make it a battle of New York once more. Of course the Cubs have an outside chance, but that chance is like the most of Bob Feller's hooks, it's too far outside.

### Physical Instructor Announces Plans

(Continued from Page 1)

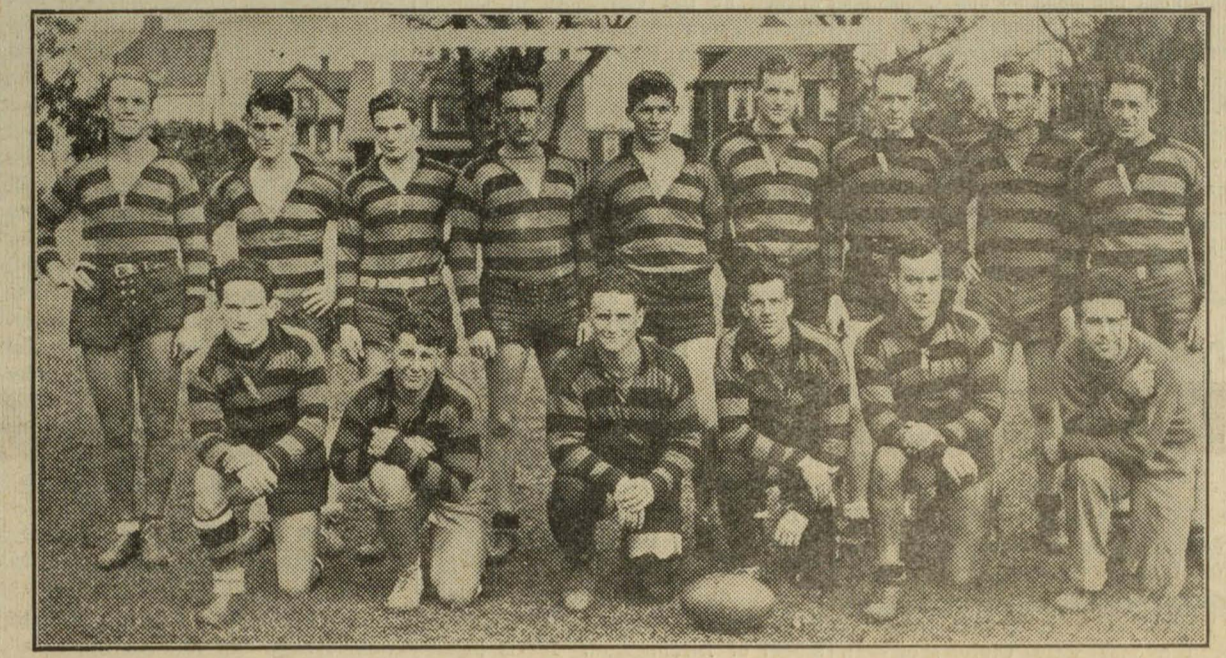

quired by a University regulation to take physical training, will find a systematic and interesting programme of exercise and sport mapped out for them.

Asked as to what particular co-operation he expected from the student body, Mr. Korning stated that first of all he would require strict observance of the gymnasium regulations. Secondly he hoped that all students would participate regularly in some form of physical activity and thirdly he hoped to see a large number take up up Danish Gymnastics as they are a particularly good form of training for all sports.

### FRESHMEN ON PARADE

A group of Dalhousie freshmen and freshettes got "under the skin" of tram car operators and motorists last night. They paraded down Oxford Street, blocking the traffic from Spring Garden Road to Quinpool Road for almost a half hour.

### Tigers Seek Victory Over Acadia Axemen

Although this is not a picture of the new Dalhousie Rugby Team, some of the faces shown above will be out on the field tomorrow. They will be Bill Cook, Henry Ross, Bus Phillips, Rod Ideson and Don Storey. Others who performed for last year's edition of the Tigers and are not shown, but who will be playing tomorrow are Bob Armstrong and Syd Pauker. Last but not least are coaches Fletcher and Rankine, who are labouring to produce a championship outfit.

### Guidance For Freshman Class

Is it really that college spirit at Dalhousie is deplorable, or is it that the students are too lazy? We are inclined to think it is the latter. Is it that they just can't be bothered to turn out to support their classes, their societies and their teams or are they really not interested?

After the first year how many attend class meetings, class games or even class parties and pay their dues? It is said that classes are run by cliques, but if these same few people did not turn out where would the class be, as the rest of the members seem to take no interest whatsoever.

The societies lack enthusiastic and wholehearted support. A few, and it must be noted the same few, take an active part. Most people come to college with the idea of joining many of the clubs, but after a few weeks of college life those ideas seem to be relegated to the scrap heap of other such ideas and students care nothing except for dances, sleep and the odd bit of work now and then.

In athletics the same lack of zeal is noted, that is, all except football. How many turn out to watch hockey games unless there is a compensation of an hour's free skating afterwards. The number of spectators at a basketball game is pitiful. How can the students expect their teams to do their best when they receive so little support.

If we want Dalhousie to take her place with the colleges of today, to be active, alive and to show a keen interest in everything, then, we, the students, must show more college spirit as the life of a college rests with us.

### DALHOUSIE VS. ACADIA

The Acadia Senior football team will clash with Dalhousie tomorrow afternoon at Studley. Last year the Tigers swept the series, and again they are confident that victory will reward their efforts. The boys have been practising faithfully and the teams that line up tomorrow will be worthy of all the support our student body can give. There will be a Tea Dance after the game in the Gymnasium. Your Council ticket will get you a seat in the bleachers so let's see everyone out to aid in a Dalhousie victory.

### Did You Hear?

(A two line poem)  
Nice and tall  
Black hair and all.

Extra... Extra... There's a new romance on the Campus. Last year it blossomed. This year its out in full bloom. For particulars inquire from Peggy Merkel or Gordon Thompson.

Seen Tuesday evening... Kevin Meagher and he was singing, "Every time it rains it rains, pennies from Heaven." "I hope, I hope, I hope!"

"S. W." Ross has been very quiet all summer.  
"Be careful girls."

Camp for sale: Apply E. B. Barnhill, alias the Dictator. The Dictator in stating his opinion of the camp says from experience it's suitable for 'almost' anything.

Flash Murray Gould versus Verna Moore. The affair took place at Surveying Camp. Gould goes to Truro twice weekly now.

Reports have it that the boys did quite a bit of 'gallivantin' up at the Surveying Camp. Particulars to follow.

Nasty! Nasty!!! Two co-ed's were all set up in an apartment for the year. Somebody camped down. Now all the boys are sorry.

Romance. Sparrow Payne has been seen walking home from the Campus with a "petite fille" for the past few days. We'll bring out an extra when it happens.

Pooh DeWolfe is not turning out for football, so they say. That's all right Pooh, we still have FAITH in you.

### D. A. A. C.

(Continued from Page 3).

The major and minor sports of the University are in good order and the future looks bright. One of the main difficulties, however, is that the D. A. A. C. has to provide its own coaches for the University teams. This is a major problem and considerable difficulty is encountered in securing coaches in some of the main sports. The coaching problem has always been prominent at Dalhousie, while our sister maritime universities are more fortunate.

The D. A. A. C. wishes to take this opportunity to extend a warm and sincere welcome to all newcomers to the University and invites them to take an active part in any branch of athletics in which they are interested.

### Huskies Tryout For Studley Squad

The Studley Football field has been the scene of great activity for the last two weeks. The boys have been practising daily for the coming season, and under the keen eyes of Prof. Fletcher and Dr. John Rankine, they are rapidly rounding into shape for the opening game against the Acadia Axemen on Oct. 2nd. When the whistle opens the season at Studley on Sat. Manager Bud MacKenzie expects to trot out a bunch of huskies well qualified to wear the Gold and Black.

Although graduation robbed the team of such stars as Gunter, Buckley, Connor and others, their places are being ably filled by men from last year's intermediate team and several new-comers, from whom excellent results are expected. Don MacGregor is not returning to college this fall, and George Corston and Jim Mont are both undecided about playing owing to injuries received last season which have not completely come back to normal.

The following boys have reported for practise all ready and others are expected from Arts and Science: Irwin, Pauker, Cook, Phillips, Hennigar, Laidlaw, Ross, Armstrong, Cameron, Kitz, Stech, Murray, MacDonald, Koretsky, Ranking, MacGregor, MacDougal, Ideson, Mushkat, Storey, Kerr, Mitchell, Smith, Hendry, Chernin, Leith, Purves, MacIntosh, Egan, Miller, Haynes, Mercer, and Housser. Kerr previously played for Mt. A., Egan for St. F. X. Housser hails from British Columbia and Smith from New York.

Last year the students supported the team in fine style and the team did not let them down. This year we expect a strong team and once again we ask the students to show some of that Old Dalhousie Spirit which was evident last season.
