TIGERS IN FIRST CONTEST SATURDAY

Killed in Action

P. O. RAND LUGAR

"Killed in air operations while on active service overseas, on September 20."

This is the message that bore to Dalhousie the sad news of the death of Pilot Officer Rand Lugar, R.C. A.F. Only 21, "Randy" left Dal. in the middle of his third year of engineering, and received his "wings" last February at Rivers, Man., along with his commission of Pilot Officer. Only a few months later he navigated a bomber to England for the Ferry Command.

Previous to entering Dal, Pilot Officer Lugar attended Bloomfield High School where he soon earned the regard and respect of teachers and students alike. Always a brilliant student, he soon became a leading figure on Studley campus. Socially popular too, he was also an ardent yachtsman and all-round sportsman.

On February 21, just after receiving his commission "Randy" married Audrey Kathleen, daughter of Mr. and Mrs. C. D. Hoggood, of Halifax, who had been a student at Dal. only the year before.

Rand will be remembered to all who enjoyed the privilege of his friendship, in the words of the highest compliment one student pays to another—"an all-round fine chap." His affability and ever-present good humour; his scholastic ability and his sportsmanship; these and others combined to set him above the crowd. He gave freely and ungrudgingly of all that was his to give, even unto death itself. His place may not soon be filled; herein was found his strength.

Dal Greets Class of '45 Campus Again Verdant

Green bandanas and placards once more meet the eyes of Dalhousians as a new class of Freshmen invades the campus. The class of '45 received its official welcome to the university in a meeting at the Chem Theatre last Friday. With Bob Murphy as chairman, the meeting gave the newcomers the opportunity of seeing and hearing for the first time the various campus leaders. Professor Bennet was, appropriately, the first speaker and explained to the Frosh the meaning of the university and the part which it is intended to play in the life of the student. The next speaker was Major Hogan who explained the Military Training program and its share in campus life.

The student leaders for the forthcoming year were then called upon to say a few words. Inez Smith called for the full cooperation of the Freshmen in backing the Arts and Science Society. She was followed by Web. MacDonald who, in his official capacity as president of the Students' Council, extended a hearty welcome to the incoming class. Mary McKeigan spoke for Delta Gamma and Webster undertook to explain the Sodales Society. In the absence of John Grant, Don Black represented the Gazette. Don Kirkpatrick, in behalf of the Glee Club, urged the Frosh not to hide their dramatic talents. The meeting was concluded with a resume of Freshmen regulations by Bob Murphy.

The Freshmen regalia was issued on Friday night at Shirreff Hall where an informal dance was held. Music for the dance was furnished by a student orchestra. Another dance was held on Saturday afternoon in the Lower Gym with the same student orchestra in attendance.

On Wednesday, the class was conducted on a tour around the Public Archives. A tea is to be held on Sunday at the home of Dr. and Mrs. Stanley to give the Freshmen the opportunity of meeting the University president.

The Freshie-Soph Dance, culmination of the freshman activities, will be held on the night of Oct. 9.

The President's Message

The *Dalhousie Gazette* has a pleasant way, at the opening of the session, of bidding the new students welcome to the University, and in my time they have always welcomed me to associate with them in doing so.

Yours is a great privilege and I feel confident that in these times you appreciate that, and are resolved to make the best of your opportunities. Never has there been such a need of men and women trained as only universities can train them. Never has there been such a clear call to the conscience of those who are training in the universities to see that, so far as in them lies, they secure the best training they can. Surely by this time everyone realizes that the universities, above all other institutions, are what the despots most eagerly destroy. A grave responsibility is laid upon those universities which remain. Even here, the war greatly interferes with the work of the university. Still we can, if we will, greatly improve ourselves. Nothing will improve the universities so much as the resolve on the part of students to dedicate themselves to learning and to duty. It has often been remarked in the past that a single resolute group of students brought in a new era in a university. May your class be such a group!

Carleton Stanley.

President.

Class '42 Denounces Arts & Science Society

At a meeting held yesterday at noon, the class of '42 strongly denounced the Arts & Science Society. Maintaining that the Society as it is now constituted represents little more than the Freshman Class, which was itself more or less coerced into joining, a large majority authorized the class executive to cooperate with the classes of '43 and '44 in making representation to the Council to abolish the Society. The class took the stand that the Arts & Science Society representatives in reality represent no one and asked that individual class representatives should be elected at a by-election.

The meeting was well attended and was firm in its stand in regards the Society which it declared to be absolutely valueless to Dalhousie. At the meeting the class elected Professor Bennet as Honorary President of the Class of '42.

The financial status of the class was also reported upon by the Treasurer and it was decided that the caution deposits of those graduating should be collected to defray the expenses of Convocation Week.

Bye-Election Week From Tuesday

It was decided at the meeting of the Council that two by-elections for vacancies in the Council should be held in the very near future. Monday the thirteenth has been set as the date. All post-grads should be on hand in the D.A.A.C. room in the Gym to exercise their franchise and have a member to represent their interests on the Council. A member from Arts and Science will have to be chosen to fill the position left open by the departure of John Windebank from undergraduate to post-graduate ranks.

President Stanley will address members of the University, Tuesday, Oct. 7th, at 12.00 noon, in the Gymnasium.

Dr. Vinci To Give Lecture Recital

This season an unique opportunity is offered to university students and the public in a series of five lecture recitals to be presented under the auspices of Dalhousie University, by Dr. Ernesto Vinci, head of the Voice Department of the Halifax Conservatory of Music. The opening recital will be given Oct. 7th, in the Physics auditorium at 8.30 p.m. and those following on Oct. 21, Nov. 25, Jan. 13, Jan. 27.

Undertaking the survey of art song, international in character, Dr. Vinci will present on the first evening ENGLISH SONGS with introductory lecture on the nature of art song compared with folk song. Subsequent programs will be devoted to French Songs Schubert, Slavic and Italian compositions.

Associated with Dr. Vinci will be two of his pupils—Miss Portia White, whose beautiful contralto voice needs no introduction and Miss Shirley Blois, soprano who is equally talented. The accompanist on each occasion will be Miss Elaine Burns also well known to Halifax music lovers. Tickets \$2.00 for the series are obtainable at Dalhousie University Halifax Conservatory of Music, Phinney Music Co., and Willis Piano Co. Proceeds will go to war service funds.

MEET ST. MARY'S IN SEASON OPENER ON TO CALEDONIA!

With the slogan "On to Caledonia" ringing in their ears, Coach Ralston's Tigers tackle a strong aggregation from St. Mary's tomorrow on Studley Field for the opening game of the season. St. Mary's, a newcomer to the Senior League, suffered a loss at the hands of the Navy last Saturday, but nevertheless proved herself a team to be reckoned with. The game will afford Dalhousie students the first opportunity of seeing the much vaunted 1941 edition of the Tigers in action. The team has been made Caledonia-conscious and the players believe that they can take over the leadership of the City League and then tackle the Miners for the coveted McTier Trophy.

Coach Ralston, in predicting that the Tigers can take Caledonia "Over the ropes", stated, "We issued a challenge to Caledonia last spring for the McTier Trophy. They beat us two years ago by 3-0 and we tied them last year 3-3. This year we hope to beat them."

Dalhousie has again entered the City Senior Rugby League which this year consists of five teams: Acadia, Dalhousie, Wanderers, Navy and St. Mary's. No definite schedule (Continued on page 4)

That Man's Here Again

MAJOR HOGAN

Warning that an even more intensive military training program than usual awaits returning Dalhousians, Major Hogan bluntly declared, "I don't mind telling you that everyone will have to toe the line this year. Everyone must realize that he has a job which he must do as efficiently and as thoroughly as he can." In a sweeping statement of plans the Major disclosed that he has managed to obtain uniforms for the A.T.C. this year.

Training will begin on Monday, October 6. Because the contingent has lost many of its officers and senior N.C.O.'s to the active services as well as through graduation, there will be a number of openings for those who have hitherto qualified. Experienced and competent cadets will be advanced in rank. It is expected, however, that the unit will contain approximately the same number of cadets as last year.

The Auxiliary Training Corps, established in cooperation with the Department of National Defence, will be continued and will also commence training on October 6. Instructors for the A. T. C. will be drawn from the O.T.C. to supplement the regular instructional staff of the contingent.

The C.O.T.C. itself will become more specialized this year with the experienced and capable men being given advanced instruction while basic training will be given the junior members of the O.T.C. and those in the A.T.C. The syllabus contains plans for 120 hours of training, an advance of ten hours over last year. This will be divided into three two-hour periods per week and will consist of both drill and lectures. Of interest to the O. T. C. is the fact that twenty minutes of P. T. will be given each period.

Coach Ralston, in predicting that the Tigers can take Caledonia "Over the ropes", stated, "We issued a challenge to Caledonia last spring for the McTier Trophy. They beat us two years ago by 3-0 and we tied them last year 3-3. This year we hope to beat them."

Dalhousie has again entered the City Senior Rugby League which this year consists of five teams: Acadia, Dalhousie, Wanderers, Navy and St. Mary's. No definite schedule (Continued on page 4)

Lawyers Caught in Marital Net

Congratulations to Arthur Beake and to Clayton Hutchins on their recent marriages. There's something about a lawyer that always seems to get the fairer sex no doubt about it. Art was married to Miss Jean Gilliat, a former Dalhousie student, at Brockville, Ontario, July while "Hutch" married Miss Jean Edgett, who attended Dalhousie year, at Moncton, on Sept. 27 last. Art and Hutch graduated from Law school with the degree last spring and both are seeking overseas service. Art Beake's wedding was attended by several Dalhousians in summer, training at Brockville and the couple were escorted by a military guard of Honor.

The brides were both well known at Dalhousie, Miss Gilliat having resided at Alexandra Hall in King's College and Miss Edgett at Shirreff Hall. Miss Gilliat received her B.A. in 1939.

On behalf of the students of Dalhousie, the Gazette wishes to extend its hearty congratulations with every wish of good luck and happiness.

Law School Makes Plans

Off to an early start, the Law Society held its first meeting of the year on Monday, Sept. 22, for the purpose of electing a new president, formulating plans for the Law Ball, arranging for sports managers in interfaculty sport and electing Moot Court Officers.

Alexander "Sandy" MacDonald, vice-president, took charge of the meeting and was elected President to replace Pete Nicholson, who intends to enter upon active service in the Navy.

Albert Gaudet was chosen vice-president to fill the vacancy thus created. Managers were appointed for the football, hockey and basketball teams. The Law Ball is to be held in November with Albert Gaudet as chairman, assisted by Web MacDonald and John Vaughan. Bill Ferguson was elected to the chair for the Moot Court.

ONE MOMENT PLEASE

APPLICATIONS

Applications for the position on the Dalhousie Bulletin will be received by the undersigned up to and including Friday, Oct. 10th, 1941.

The position carries with it a salary of \$25.00 a year.

M. M. RANKIN,
Secretary-Treasurer,

Dalhousie Council of the Students,
98½ Edward St., Halifax.

Freshie-Soph Dance

The dance season at Dalhousie opens in the Gymnasium the night of Thursday, October 9th, when the boys and girls gather to be nauseated by Jerry Naugler at the annual Freshie-Soph hop. The Freshie-Soph is unique among college dances in that the oppressed frosh are admitted free. It is also a source of joy to the verdant crew because it marks the end of the more gruelling part of initiation. The affair is one worth attending.

BY ORDER!

On Saturday afternoon at 3 o'clock Dal Tigers bring their big guns to bear on St. Mary's rugby team. In order that the freshmen be imbued with the proper spirit from the very first it is essential that they attend the gym in a body before the game. There roll call will be taken and they will be marched to the bleachers. Attendance at the tea-dance afterwards is compulsory. The Initiation Committee will take appropriate measures to deal with slackers.

A WORD TO THE WISE

The Gazette wishes to extend a hearty welcome to the incoming Class of '45. You are entering upon a new way of life, a life in which work must play the major part. It is up to each of you individually to realize that yours is a favored existence. In a world torn by strife and hate, the university student alone is allowed to continue uninterrupted his course of life. The world expects much from you collectively, in the future. A ravaged earth must be reconstructed, faith in our democratic way of life must be renewed and intensified. Canada, in permitting us the privilege of continuing our university study, is entering upon a new experiment. Upon us rests the burden of proof.

In this life of study to which you must dedicate yourselves, social activities and sport have their place. When you play, play hard. Enter with enthusiasm the program of extra-curricular activities which the University has to offer. Above all retain the individuality of your class for it is upon class spirit that ultimately university spirit is fostered.

MEET THE "GAZETTE"

Last Thursday, while the heads of various campus societies were presenting the claims of their organizations to the time and talents of the new students, the editor of the "Gazette" was adrift in the Gulf of St. Lawrence, tossed on the tail-end of a tropical hurricane. Thanks are in order to the staff member who represented the "Gazette" at that meeting, but it seems only fitting that the editor should introduce his problem child himself.

The "Gazette" attempts to give Dalhousie students at the same time something to read and something to write. Ambitious students must occasionally be disappointed by the rejection of articles or news stories which are of limited interest or are simply not written well enough. At the same time, the literary quality of the paper must sometimes be sacrificed to the necessity for giving a vehicle to students who wish to write. Some students whose composition when they arrive at college shows little sense and no beauty may develop into tolerably good writers. Whether or not they ever become journalists by profession (or even poets), the improvement is ample compensation for any loss of quality in the paper itself. The "Gazette" does not attempt to mould all its articles into newspaper style, but it does stress conciseness in expression and the ability to use good language with meaning.

The "Gazette" hopes to be a vehicle for serious literary expression for the students of Dalhousie. It does not aspire, however, to be serious throughout. A long financial statement has crowded out in this issue the features which usually lighten the third page. The "Pig Sty", "Rufus Rayne", and bring other creations of undergraduate phantasy can be read by no canons of literary style. They are written in a peculiar to college journals and one which is not likely to be copied by the world. This peculiar style (or lack of it) is, however, not regarded apologetically by dotting feature editors, but is rather their peculiar pride and glory; and dull indeed is the student who can read "Rufus Rayne" without being moved to laughter or tears or a disgust which is akin to admiration. If you can write nonsense, write it in the "Gazette".

Also relatively unpretentious in the field of literary merit are the sections devoted to general news and to sports. Undergraduates who can write news reports concisely without making them dull are, unfortunately, rare. Just about anyone, however, can ferret out information about goings-on of interest to Dalhousie students and give his notes to the News Editor. The "Gazette" always needs good reporters.

News of various kinds along with the features makes up the bulk of the average "Gazette"—of the part which is read, at any rate. It has always been the experience of the past, however, that college papers, like others, thrive best on controversy. The editorials are an attempt to express the opinions of one or two people around the campus. They will be much more interesting if someone takes exception to them. Students are urgently requested to write to the "Gazette"—briefly—on any subject which disturbs them, and the Editor for his part promises that he will shrink from no issue which is important, however controversial it may be. The "Gazette", after all, attempts to encourage students to think as well as to write, and this cannot be done if there is nothing to think about. The Students' Council, the military training program, and national and international politics will be considered insofar as they concern the life of the student, subject, of course, to censorship.

Freshmen will be pleased to know that points towards a Gazette "D" are awarded, not for literary style, but for contributing thirty (30) columns of type. Points are also given for editorial work. There is, however, a Literary "D" for which thirty points are also required, but which depends on literary merit. The Editor, in consultation with two members of the English department, allocates the points for this "D", giving a maximum of five points for any one article. Louise Bishop, who has undertaken to edit the literary column this year, asks for the co-operation of the student body. It should always be remembered that, while the "Gazette" is more than a literary expression by students interested in the English language, it ought to have an important place for that.

Contributions are to be given to the appropriate member of the staff or slipped under the door of the "Gazette" office, preferably by Wednesday or earlier.

Macdonald Lays Bare Students' Council Secrets

From time to time over the course of last year, the Students' Council was the object of some criticism as to the methods used in employing the funds at their disposal and their interest, or lack of interest, taken in regard to student activities. This criticism is by no means uncommon, in fact it is rather perennial, and, when constructive, it is welcomed as a healthy indication that the students are alive to their interests and keenly aroused over their own affairs. It needs to be emphasized, however, that the multifarious activities of a great university just cannot go on without the distribution of funds in many directions.

Due to events over which he had no control, last year's president was unable to publish the financial statement, which is a conclusive answer to that penetrating and highly intelligent question, "What do I get for my dollars?" It is therefore with some pleasure that in this first issue of the Gazette the Council can give a detailed account of every cent spent over the course of last year. With minor changes, the same proportionate expenditures will be made again.

At the same time we would like to outline generally the policy to be followed under the new administration. It would be rash indeed to make any unconditional prognostications, for in times as troubled as these no man knows what the morrow will bring. An effort will be made, however, to provide as many facilities for as many students as possible. The greatest happiness of the greatest number will be the guiding principle of your new council. At such a time, it is understood that the O.T.C. is of paramount importance, but after the demands of that body on student time have been met, the opportunities that are normally available to the student body, will be available once more.

Remember that the Students' Council can only function efficiently with a united student body behind it. Make your criticism and suggestions to your representatives and your proposals, if sound, will take concrete form. That the facilities

which your funds make possible will be enjoyed by the many rather than the few is the earnest hope of this year's council. Plans for a rink for the use of all students have already started, and if all goes well, should be ready for the first of the second term. A new scheme for a bigger and better year-book is being given a trial. Plans for making Munro Day and Convocation Week celebrations in which everybody will participate are being considered. Any activity which provides scope for student ability e.g. a student orchestra will receive the hearty endorsement and support of the Council. In brief, the policy of this year's council is to discourage the stagnation of vicarious recreation and to provide opportunities for enjoyment that can be utilized by everyone.

Last year instead of going ahead with the plans for a new Students' Union Building, the council, after some deliberation, invested in a Dominion war bond. That move will be typical of the policy of the council this year as well. That is to say, matters pertaining to the war will receive primary consideration. After that student activities will go on as nearly as possible on a peace-time basis. Make your suggestions to your representatives, we will be glad to hear and to act on them. Remember, too, that at Dalhousie you pay one of the lowest student union fees in any university in Canada. Then take a good look at page three and see where your money goes.

THE MENTOR

Volume One

To this day, the first difficulty the Frosh must overcome in starting his College career is an interpretation of the College Calendar. Realizing, however, that there are still many who have never grasped a thorough understanding of this great literary effort, we offer our Simplified Calendar for beginners, containing NO LATIN, or other pitfalls.

MATRICULATION: One of the essentials of entering College is Matriculation. For various Degrees you have to be Matriculated in various ways, but You Always Must Have Your Languages Complete. But be comforted, you can matriculate in any language you want to, providing you know it. Cape Breton students often choose Gaelic (see English), though exams are often Sanscrit, Welsh, etc. (Pig Latin, Old Norse not accepted as Foreign Language. See Official Calendar). Students wishing to qualify in Strong Language will take an Oral . . .

If you are short certain subjects for Complete Matriculation you will write certain exams, called, rightly enough, Matriculation exams (free). These are only passed after seeing the Registrar, who is planning on letting you in anyway.

CLASSES: Now that you are over the hurdle of Matriculation, you are ready to start picking out your Courses. To do this, you write the names of those which interest you on an old blotter, and place the number 1 after each. If you have Grade 12 Matriculation, substitute 2 for 1 in above, with the exception of Chem. (See Previous U.R.) After you have picked your classes, take these to the Registrar, who will change them all around anyway, so it really doesn't matter what you pick. Frosh are advised to pick inexpensive classes.

FEES: Before we go any further, it must be clearly understood that You Cannot Be Admitted To Any Classes unless you have Paid Your Fees. Everything has to be paid for. This is an Ultimate Conclusion, as well as another Unvarying Rule. This can be accomplished by approaching the young lady, very ungallantly kept in a cage, in the office, who knows the price of everything, down to the last deposit. She will relieve you of all worry (and your available cash).

COURSES: We present here, for your convenience, classes arranged, AND PRICED. Other Calendars are content to let you pick wildly, hoping you will choose expensive ones. This is not only unfair, but confusing. We hope to eliminate this. We also include our Original Recommendations. What other Calendar does this?

ENGLISH

I (Generally 1/2 year course. Not Recommended)	\$25.00
II (Highly Recommended. Prof. Bennet thrown in). All for	\$25.00
III, IV, etc. (Not recommended for Frosh.)	\$25.00
Old Norse. (Very Special. Naughty but Norse.)	\$25.00 incl. Tax

LANGUAGES

Latin I, II, etc. (Painful but necessary)	
French (Free French, naturally)	
Spanish (? Quien Sabe?) All @	\$25.00 ea.

I have examined the books and accounts of the Secretary-Treasurer of the Council of the Students of Dalhousie University for the year ended July 31, 1940, and have received all the information and explanations which I have required.

In my opinion the attached statement of Receipts and Disbursements is true and correct, according to the best of my information, the explanations given to me, and is in agreement with the books and accounts of the Secretary-Treasurer.

HAROLD EGAN,
Chartered Accountant.

Report of Joint Campaign in Aid of the International Student Service and the Red Cross Society.

AMOUNTS RECEIVED

RED CROSS:
From caution deposits \$213.00
From students especially canvassed 32.05 245.05

I. S. S.:
From caution deposits \$186.00
From other contributors 16.00
From students especially canvassed 34.85 236.85

Total \$481.90

AMOUNTS PAID

To Canadian Committee of I. S. S., Toronto \$231.65
To Canadian Red Cross Society, Halifax 239.85
To McCurdy Printing Co. Ltd. (for posters) 5.40
To Miss J. Purves (for typing) 5.00

Total \$481.90
An additional amount of \$9.30 (\$5.40 for Red Cross and \$3.90 for I. S. S.) has just been received and is not included above.

MARY E. DOULL,
(Treasurer of Campaign Committee)

Fine Response to Joint Campaign

Second in Dominion

Under the able leadership of John Windebank as Chairman, and Mary Doull, as Treasurer, the Campaign Committee to raise funds for the International Student Service brought Dalhousie the distinction of having raised a contribution second in amount only to that of Toronto University. Mary Doull reports that, in all, a sum of \$236.85 was turned over to the I.S.S. and, in addition, a total of \$245.05 was raised for the Red Cross Society. The large amount which the Committee was able to give over to these two causes was due in large measure to the hearty response of Dalhousians who cheerfully contributed their caution deposits to the fund. Other smaller sums were raised by the canvassing of students on the campus. The following is from the letter received from the National Committee:

You will find enclosed receipts for the excellent contribution to I.S.S. which you forwarded to us from Dalhousie. It is second in amount only to Toronto, and represents a great advance from the sixty dollars which came from Dalhousie last year.

Now Playing At the New
CASINO
Daily 1,3,5,7,9

"Dal," the Casino Theatre has been transformed! Soft colors, rich drapes and carpets, "floating comfort" seats, magic screen and projection—truly, the new Casino is "A Place For Priceless Hours of Enjoyment."

SPORT Spasms

by AL. MacLEOD

The football bug is in the air again. He is going about biting people, with an entire lack of discrimination. (This is not to suggest that football players are lacking in discrimination). The custodian of football equipment, the genial "Red" Payne, has of late been besieged by a clamouring throng, a mass of perspiring humanity, whose main theme has been: "Gimme them boots an' lemme out there!" (This is not to suggest that football players are lacking in a proper knowledge of how the English language is used in conversation). That is why the casual observer on any weekday about noon will see a horde of figures in variegated attire rushing madly up and down the football field in utter disregard of their constitution. (Not the D.A.A.C. Constitution). And why all this activity? Well, the general idea is that the Dalhousie football fifteen, (not to be confused in any way with the Filthy Fifteen) on Saturday has an engagement with a band of ruggers from St. Mary's College, the initial contest of the Halifax City League.

Of last year's team, which showed a good deal of ability on the field, which it demonstrated in its 3-3 tie with Caledonia in a post-season contest, a number of men have failed to return. The problem was an ever-recurring one to Coach Burnie Ralston, who has always had pre-season worries as to where his teams would come from. But the turn-out this year has been quite good, so that the opener on Saturday will find a team that on paper has great possibilities.

A tentative line-up shows a speedy three-quarter line picked from Feindel, McLean, McNeil, Leighton and McDonald. Marty McDonald was out of action last year with a bad foot, but in practices to date he has shown much of the fire and dash that characterised his work in the session previous to that.

The half-line will probably have "Yank" Forsythe, Jack Kerr and Joe McDougall, while in the forward positions will be Ron Ideson (who was out last year), Ian McGregor, Anderson, "Mike" Smith, and Web McDonald. The remaining spots in the scrum had not, at press time, been selected, but for these positions Ralston had a group of experienced men from which to select two, so there was no indication that he would be shorthanded.

In the first game, at least, "Dooley" McIntosh will be unable to play, as a result of a leg injury received in practice last week. And while we're talking about people who will be missed from the team, we might mention that Charlie Burke will not be out this year. Charlie has decided that enough is enough, and has decided to hang up the cleats "for the duration", so to speak. An old head injury has been bothering him of late, necessitating some hospital attention during the past summer.

The Dalhousie-St. Mary's game begins at three p.m. on Saturday, and will be preceded by an intermediate game between Dalhousie and the New Zealand Air Force, at two p.m.

From Mount Allison comes word that it will not enter a rugby team in any Maritime or provincial league this year. Apparently only two games will be played, and those will be against the University of New Brunswick, under the auspices of the C.O.T.C. This more or less puts Mt. A. out of the picture as far as football honors go, because she has always had difficulty in finding competition close at hand.

And Dalhousie also has its troubles as far as intercollegiate competition is concerned. The City League comprises teams from Dalhousie, Acadia, Wanderers, Navy and St. Mary's, and the problem has been: "How to operate the league without having Dal and Acadia meet each other?" The answer has been found in an interlocking schedule, in which Dal and Acadia do not meet, and in which all teams play 5 games. Dalhousie has two contests with St. Mary's, two with the Wanderers, and two with the Navy, while the Acadia aggregation plays two each with the same teams. However, St. Mary's while having two games each with Dal and Acadia, has only one game each with Navy and Wanderers. Similarly, Wanderers have only one game each with St. Mary's and Navy, and two each with Dal and Acadia, while Navy have two with Dal and Acadia, and one each with Wanderers and St. Mary's. However, let not the gentle reader be confused. All's well that ends well.

What is essential, though, is that the university students should support the team. In spite of the schedule it looks like a good year for the gold and black, so each and every one of you is expected to attend, association ticket in hand, to see a bang-up football game. Or do you call it "rugby"? P'raps you're right. I wouldn't know.

FINE ARTS. (Highly recommended, but not given) Free GRADUATION:

After you have picked your Classes, Courses, etc., you will do this for a number of years. This will depend on your matriculation. (See preceding pp.) You merely change the number of the class you started with, to the next highest number. This is the simplest method. Other more complex arrangements will be proposed by the Registrar, but do not be alarmed.

When the correct number of years have expired, your name will be posted on the notice board. This means you are due to graduate. You will then discover that having paid your way thus far, you are expected to PAY YOUR WAY OUT... By this time, however, having been so successfully fleeced (by Degrees) you are awarded a sheepskin, to remind you continually of this.

Above all, if any doubt still remains, place yourselves unconditionally in the hands of the Registrar. He will see you Thorough to the last, for you are beyond Human Aid.

On to Caleronia—

(Continued from page one)

has as yet been arranged because of the doubt prevailing as to whether or not Dal will be allowed to play Acadia under the intercollegiate ruling. An Intermediate League is to be formed but nothing definite has been decided upon as yet.

Although faced with the loss of twelve men from last year's Senior squad, an even stronger team than last year is expected to take the field tomorrow afternoon against the Santamarians. While the choice of tomorrow's lineup has not yet been disclosed, it is expected that the following team will take the field:

Forwards — Ideson, MacGregor, MyIvor, Anderson, MacDonald, Hennigar, Cantwell. Halves—Leighton, Forsyth, McDougall. Three-quarters—McLean, McNeil, Feindel, McDonald. Fullback—MacKenzie.

The team has experienced a serious setback through the injury of "Dooley" MacIntosh in a practice session last Saturday. "Dooley" injured his knee quite seriously and may be lost to the squad for the remainder of the season.

Beginning Badminton

Badminton will open next week with a match between the alumni and the students, Prof. Mercer has announced. An evening is to be picked which will not conflict with military training, and matches will be played beginning at earlier hours than the last season ones which never got underway until sometime around ten.

Thirty-five matches were played last year, and it is expected that this number will be halved this year. There will be two teams "A" and "B", the former playing with the Y.M.C.A. and Y.W.C.A. and the latter with the Young People's League. No games with out-of-town teams will be played.

Prof. Mercer reports that there are several very promising players turning out.

Will all Faculties interested in entering teams in the inter-faculty football league please notify Red Payne of their intention to compete so that a schedule may be drawn up as soon as possible. All applications must be in writing and must be signed.

Meet Phyl and Burnie

* * *

Freshmen! Meet two of the most popular people on the Dal Campus. "Burnie" needs no introduction to even the most casual follower of Maritime sports. An all-round athlete, Burnie has played basketball, football, baseball and hockey. Not only that, but he has starred in each and every one of these activities. Then add swimming, track and badminton to the list and you fellows will have an idea of the sort of person under whose supervision you will be for the remainder of your college career at Dal.

Dal's Gym instructor was born Burnett Ralston in Shelburne in the year 1912. In 1929 he graduated from St. John High, a four letter man. The next year saw him at Acadia where his basketball ability helped to establish Acadia's hoop reputation. Leaving Acadia with a B.Sc. and his athletic reputation by no means diminished, "Burnie" next appeared at Dalhousie where he remained for one year during which he added new laurels to his lengthy record.

Meanwhile, out of college, he helped St. John achieve prominence in Maritime basketball circles, played short-stop for the Ketepec Aces N. B. softball champions, played baseball with the St. John Baptist Church nine, soccer for St. Andrew's, football for St. John "Dry Docks".

For the last two years "Burnie" has lead the Dal "Tigers" against Caledonia. He believes that this year is going to be Dal's year.

Your Dal freshette will soon become acquainted with Mrs. Barratt, co-ed instructress in sport. She first saw the sun, moon and stars in Lethbridge, Alberta, away out in the west, but as can be readily seen from her history, has taken advantage of the ensuing years to move right out to our Maritime coast. She began her education in St. Hilda's, Calgary, first in Arts, but later changed to Physical Education at Margaret Eaton's School in Toronto. In 1937 Miss Wray came to this city to be Physical Instructress at the Y.W.C.A. It was this fortunate year that Dal got its first introduction to her, and in the fall of her second year, she accepted the post of Instructress.

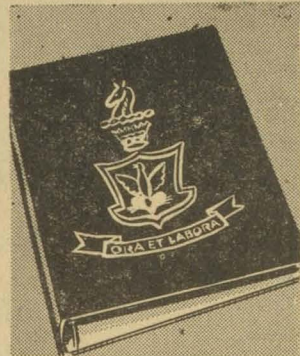

Success of feminine sports has been greatly increased; since Phil

took over. Her gratification for the cooperation of the girls is coincident with their desire to help her in giving Dalhousie a good and successful sports program for the girls.
