Christmas bells are ringing Through the frosty air, Tinsel stars are twingling Snow sparkling everywhere.

Carolers are singing
The timeless soft refrain
Floating on the midnight—
Christmas once again.

Christmas trees with silver hung Coloured lights that gleam Holly sprays and mistletoe Yuletide red and green.

Candles in the window
Winking to the sky
Two thousand years are passing
As the night goes by.

"Oh Come All ye Faithful"
Sing the holy bells
Child-taught the Christmas spirit
With the voices swells.

A Christmas Message

On behalf of the Council of Students, I would like to extend to the Student Body, the Faculty, the University staff, and to all those connected with, or in any way interested in Dalhousie, the wish for a Very Merry Christmas and a Happy and Prosperous New Year.

Let us hope that the coming year will be for our University

one of advancement, that the aims and ideals of her leaders may be realized, and that in the Student Body we shall achieve harmony and success in all our undertakings.

Let us hope further that the vanishing year may carry with it the black and uncertain period through which we are now passing, and the New Year may witness the rapid victory of the forces of the United Nations, moreover that mankind may be reminded of the wisdom of "Peace on earth, good will toward men".

Classes to End

For all you people that do not know it, classes end officially Dec. 18. At this time you are expected to go home and enjoy yourself, if you can.

If you live in or around Halifax and you miss the old place, give some student who has not gone home due to distance or some other factor a call, he may be missing you.

Classes to Begin

For those of you who do not care, and there are many, classes begin Jan. 3 at 9 a.m.

If Santa leaves you things you are not particularly keen on, do not bring them back to throw at your friends or auction off, after all we do wish you a Happy New Year

Are We Next?

Once again a catastrophe has awakened Halifax. First the explosion of 1917, which brought about some reform in medical treatment, then the Queen Hotel fire, which brought about some publicity, then the explosion of 1945, which The Editor, proved that people can live in tents on the Common, and now the fire at Kays Limited, which will result-

There is a general code of regulations governing building construction in Halifax. It is very unlikely that the Condition of the building in which the recent tragedy occurred was not covered by these regulations and certified unfit. If they were not forbidden, the fault must lie with the legislative authorities, whose duty it is to see that the public is adequately protected. In this case it would seem that resignations are in order.

If there were regulations covering the situation which apparently caused the loss of life, the administrative agency is at fault. There is a definite duty incumbent upon the administrative agency to enforce these regulations. The agency is set up for the protection of the public, not for the convenience of those who own buildings, and it is its duty to enforce the regulations to their fullest extent for the protection of employees and customers in the various buildings.

Whether there were such regulations in existence and ment. whether or not they were enforced will be brought out at the public enquiry to be held this week.

We understand from his argument that he believes the Sabbath day to be a day set apart for reaxation. The Lord, never having skated, neglected to classify skating as work or play. Some people find relaxation from the cares and trials of the week in skating. For these people then, skating cannot be classified as work.
