

NOVA SCOTIA

CANADA'S EASTERN GATEWAY

NOVA SCOTIA is the nearest Canadian Province to Great Britain. As the oldest established Province of the Dominion, it has more to offer the newcomer from the standpoint of social conditions, than the newer Provinces of the west. There are other important reasons, however, why British people should settle in Nova Scotia.

NOVA SCOTIA has the most basic resources for industrial development of any portion of the American Continent. While her industries are expanding rapidly, agriculture still remains of prime importance and last year the Province was favored with crops to the estimated value of over \$35,000,000.

ANNUAL WEALTH

Returns for 1922

Coal	\$30,180,000
Coke and By Products	2,600,000
Gold and other Minerals	214,000
Gypsum, Limestone, etc.	2,850,000
Building Materials and Clay Products	1,730,000
Iron and Steel Products	11,000,000
Fisheries	12,720,000
Manufactures, Ships and Freights	55,360,000
Products of the Farm	34,318,500
Products of the Forest	11,180,000
Game and Furs	890,000
Grand Total	\$163,042,500

NOVA SCOTIA has land suitable for Mixed Farming, Market Gardening, Dairying, Sheep Raising and Fruit Growing. Her apples are among the finest flavored in the world. Trees bear from five to ten years after planting and yield profitably for from sixty to one hundred years. Nearly a million acres of land not yet planted are suitable for orcharding.

NOVA SCOTIA has strong local markets and unexcelled opportunities for exporting. Her ports, a number of which rank among the most accessible and safest harbors in the World, are near to the great international trade routes.

NOVA SCOTIA, unlike the great prairie Provinces of Canada, the development of which depend very largely upon one or two resources, presents the greatest variety of agricultural industrial and Commercial opportunities of any part of the Dominion of Canada.

There is much personal satisfaction to be found in saving money—one dollar grows to two—in a short time it is five—then ten and so on—but if you are saving for a definite object, you should open a bank account. The Telephone Links the Student With His Home

To the Freshman of the older generation life was a harsher affair than it is to his successors.

Of course he had his work, and he had his fun, just as they have.

But in his more introspective moods, when the feeling of loneliness seized him, when he realized the significance of his outgoing from his home, and faced the fact of his utter inexperience—that was a time that tried him!

And he had just to stand it.

He hadn't the chance of running to a Telephone and putting in a call for some loved one at home and, in a few moments, of unbosoming himself of his misgivings, and receiving in exchange, in kind, familiar tones, words of sympathy, good cheer and encouragement.

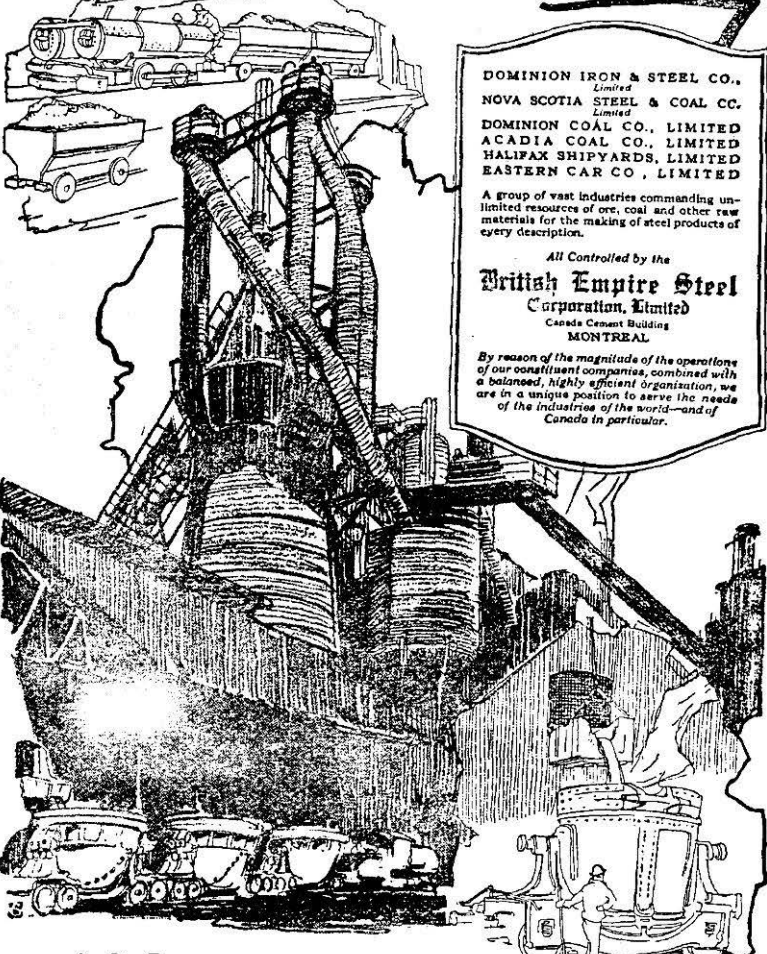

That is an opportunity the Freshman of to-day possesses and, be it said, takes full advantage of.

Among the notable properties of the Telephone, none is perhaps more serviceable to social life than its power of fostering affectionate intercourse between separated members of a family.

It tends to make life a sweeter and a happier thing.

Surface Protection

IT is interesting to note the excellent preservation of some old family residences. Except for their architecture, one might almost imagine them to be products of the present age, yet in reality, they stand as silent tributes to wise precautions against decay and deterioration on the part of former generations.

Any house worth building is also worthy of preservation by means of paint. The maximum of protection is found in

B-H "ENGLISH" PAINT 70% Pure White Lead
(Brandram's Genuine B. B.)
30% Pure White Zinc
100% Pure Paint

The above formula produces a paint with a fine, smooth surface, which does not crack, chip or peel and a surface protection film that will defy the elements.

Investigate B-H "English" Paint. You will find most Canadians use it, because of its economy and lasting qualities. Even if B-H "English" Paint were more expensive than it is, it would still be the most economical, for the shorter life of cheaper brands makes them more expensive in the end.

The Course of Empire

Very often has been shaped over the brimming coffee cup. Imagine the fiery minstrel De Lisle standing on the table, coffee cup aloft, in the immortal Marseillaise, inspiring a nation to overthrow its tyrants.

The old time coffee house may have outlived its usefulness, but coffee, Ah! It has gone on to perfection in RED ROSE COFFEE.

Always the freshest, the beans by special process crushed into small even grains, during which every particle of chaff or dust is removed, thus it needs no egg to settle it, a stir or two and it comes clear as a bell, fragrant and flavory beyond description.

To use it once is to do so always, afterwards.

And in tea the palm for supreme flavour and fragrance must always go to RED ROSE ORANGE PEKOE TEA.

On Interior Decoration

There is a science to the beautifying of a home or even a room. The placing of furniture, the choice of wall papers and draperies, the harmony of rugs and lamps, the leaving of open spaces to balance the ensemble, all subscribe to definite principles of decorative treatment.

The Contract and Interior Decorating Department of the Simpson Company handles all such problems with authority. Simpson decorative work is marked by dignity and good taste as countless homes, churches and theatre interiors throughout Canada will bear witness. Write for free advice and suggestions.
