## THE DALHOUSIE REVIEW

Invites contributions in prose or in verse from both new and established writers. Manuscripts should not exceed 5,000 words in prose, 300 in verse. They should be typewritten on standard-size paper and double-spaced except for quoted matter, and footnotes should be numbered consecutively and typed together at the end of the article. All manuscripts should be accompanied by an addressed envelope and return postage in Canadian stamps or International Reply Coupons. Editorial correspondence should be addressed to The Editors, *The Dalhousie Review*, Dalhousie University, Halifax, Canada. Correspondence regarding advertising and subscriptions should be addressed to the Business Manager, *The Dalhousie Review*, at the same address.

The contents of *The Dalhousie Review* are listed in the *Canadian Index*, Canadian Library Association, Ottawa. *The Dalhousie Review* is authorized as second class mail by the Post Office Department, Ottawa, and for payment of postage in cash.

“I saved enough  
with my  
termPlan loan  
to buy  
the model  
I wanted”

Yes—many car buyers find their financing costs less when they *finance in advance* at the Royal, so that they have more money to spend on the car itself.

A Royal Bank termPlan loan puts *buying power, bargaining power* in your pocket—lets you shop around for the best deal. Use your credit this businesslike way. To finance a car or any other big purchase, the first thing to do is see Royal Bank about a life-insured termPlan loan.

Typical low-cost termPlan loans

<i>You receive</i>	<i>You repay over</i>	<i>Monthly payment</i>
\$ 500	12 months	\$ 43.93
\$2,000	30 months	\$ 75.44
\$3,600	36 months	\$115.73

*Finance in advance at*

Meeting your needs through engineered quality

## This mathematical model in plastic is opening the door to discovery

Actually, it's a mathematical formula in three dimensions. It was built by Canadian General Electric engineers. Adjustable to various patterns, it enables our research team to visualize electronic signals under various processing conditions. This unique model is one of many scientific devices to be used in a

\$2,700,000 research program in defence electronics. Applications would be in the communications, radar, missile, and space satellite fields. Searching for tomorrow's values through research is another example of what we call "engineered quality." And it places the *accent on value* whenever, wherever, you buy CGE.

**CANADIAN GENERAL ELECTRIC**
