KING'S COLLEGE,

WINDSOR, N. S.

THE friends of King's College will be glad to perceive by the various documents contained in the Appendix, that notwithstanding the vigorous competition of the various Educational Institutions in this and the adjoining Provinces, the oldest of them all, now in the 81st year of its age, has maintained its creditable standing during the Academical year just closed, and is still ready to impart to the youth of our Country such an education as will qualify them to meet the requirements of the progressive and stirring times in which we live.

The Governors have to regret the loss of the services of the accomplished Professor, who has filled the Mathematical chair for the last two years and a half. MR. McLEOD has received a more lucrative appointment in the wider sphere of his parent University of Glasgow, and the Governors are now on the look out for some well qualified successor to fill his place, and they fully expect to find one before the commencement of the next term.

It may be well to remind the public, that for the last fifteen years the College has been open to any Student in any one or more of the various branches of Education taught within its walls, and for such periods as may suit the circumstances of the individual, instead of his being obliged, as formerly, to pass three years in studies, having little bearing on his future avocations in life.

The Scholarships founded by the liberality of GEN. WILLIAMS, continue to impart a wholesome stimulus to the study of the practical sciences, while the thorough instruction given by DR. STIEFFELHAGEN in Modern Languages, secures to the attentive Student all the advantages in that indispensable branch of finished education, which he can possibly require. It is hoped that it may be very long before the College is deprived of the valued services of this

excellent Instructor. The judicious foundation by T. B. AKINS, D. C. L., of a Prize for the best Essay on County History, calls forth every year many competitors. That for 1868, on the noble County of Kings, by MR. HAMILTON, has elicited the special commendation of the Examiners, who have made the good suggestion that the successful essays should be rendered more available by their publication, so as in time to form a valuable contribution to our Provincial History.

As will be seen by the Appendix, DR. AKINS has, in addition to the prize for Annapolis County, offered a second prize for 1870:—Subject, “The History of Queens County.”

Bishop KELLY has also offered a Prize for excellence in the Greek Testament, to be competed for at the next Encænna.

The Encænna, with which the Academical year terminated, was unusually brilliant, and was honored by the presence of Admiral Sir RODNEY MUNDY, and of the Right. Rev. Bishop KELLY of Newfoundland, upon each of whom the Honorary Degree of D.C.L. was conferred amid the loud acclamations of the delighted assembly.

The Collegiate School under the care of Rev. MR. DODWELL, has considerably increased since last year, and it is hoped that henceforth its progress will be certain. Nothing seems to be wanting on the part of the Reverend Principal, and his efficient and kind hearted lady, to make the Establishment all that the most anxious parent can desire.

It should be remembered that although both the College and the School are under Church of England management, they are entirely unrestricted and open to persons of all denominations. It may also be observed that the services of the Professor of Modern Languages are secured to the inmates of both Institutions. The Clergy, and especially the Alumni of the University, may do good service by recommending all under their influence to send their sons, first to the auxiliary Academy, and then to the College, in both of which seats of learning they will find as great advantages, to say the least, as are offered anywhere else in the Lower Provinces.

J. C. COCHRAN, M. A.,

HALIFAX, July, 1869. *Secretary.*

APPENDIX.

UNIVERSITY, King's College, Windsor, N. S.

THIS University was originated and recommended by a Committee of the House of Assembly, November, 1787. It was founded by Act of Parliament in 1788, under the title of “King's College, of Nova Scotia.” And a Royal Charter was granted by King George III. in 1802.

Scholarships.

THE WILLIAM COGSWELL SCHOLARSHIP.

£30 per annum, open to Candidates for Holy Orders. Under the direction of the Trustees.

Scholar—to be elected in September.

DIVINITY SCHOLARSHIPS.

Paid by the Society for the Propagation of the Gospel in Foreign Parts: open to Students for Holy Orders, actually requiring assistance; and subject to the control of the Bishop of the Diocese.

Ten in number—£30 currency, per annum, each.

THE DR. BINNEY EXHIBITION.

£30 per annum. Open to Students in indigent circumstances, and of exemplary conduct.

In the year 1858, Miss Binney, sister of the present Visitor, and daughter of the late Rev. Dr. Hibbert Binney, in the name and on the behalf of her father's executors, handed over to the Governors certain stock, amounting to \$1000, to found an Exhibition at King's College, to be called the "Dr. Binney Exhibition," in memory of her said father.

The design of this Scholarship is to assist poor students who may require assistance, and who shall have commended themselves by their exemplary conduct, although their abilities and requirements may not qualify them to be successful competitors for an open scholarship.

THE AKINS HISTORICAL PRIZE.

T. B. AKINS, Esq., D. C. L., Barrister at Law and Commissioner of Public Records, has vested in the Governors, as Trustees, a sum of money sufficient to found a Prize of Thirty Dollars, annually, for the best Paper or Essay on the County History of Nova Scotia, embracing matter derived from local records, and traditions relating to the early and progressive history of each County. The prize to be open for competition to the whole Province. The Essays must be given in to the Secretary of the Governors on or before the 1st June 1870. The decision on the merits of the Essays to rest with the Governors, or such persons as they may appoint, and to be announced at the Encœnia in June.

Each Essay is to be distinguished by a motto, and to be accompanied by a *sealed* paper, bearing the same motto on the outside and containing the name of the writer. The subject for 1870 is *Annapolis County*.

The Essays when given are the property of the College.

THE GENERAL WILLIAMS PRIZES.

Three of \$60 each, annually, during His Excellency's life, for the best scholar in—

1. Mining and the Science of Mineralogy as it bears practically on these operations.
2. Mechanics and Civil Engineering as they bear on all matters relating to railroads, motive power for them, and all other modern aids to the human hand.
3. Languages of Modern Europe—German, but more especially French, as the almost universal medium of communication in Europe.

His Excellency has decreed that should no candidate be found duly qualified, the amount in that case, in any year, shall be applied to the purchase of books in that department for the College library.

Nominations.

THE following is the form of nomination of a Student to pass through the University, free of fees, and must be addressed to the Secretary of the Board of Governors :

To.....

Secretary of the Governors of King's College, Windsor.

I do hereby nominate (A. B.) to pass through the University, free of fees, by virtue of certificate No....., held by me.

(Date.)

(C. D.)

In case of a joint certificate, the above form must be complied with, and the same must be signed by all the holders.

Each nominee is exempt from the payment of yearly fees, amounting to more than £53 for the three years' course, including the fee for a B. A. degree. There being some eighty certificates conferring this privilege, it is easy for Students to obtain it. If a scholarship is held besides, nearly the whole yearly cost of education will be covered.

☞ No person is entitled to nominate a Student unless he has paid up his subscription to the Endowment Fund. The Governors publish below the names of all who possess the right of nomination.

NOTE—All nominated Students must, on taking up their residence in College, file their nominations according to the above form, with the Secretary of the Governors at Halifax. Otherwise, they will be charged with the full amount of fees.

The following persons possess, individually, a right of nomination in virtue of the contribution of £100 each to the Endowment Fund :

The Lord Bishop of Nova Scotia,
Heirs of H. King, Esq.
Heirs of Hon. H. H. Cogswell.
Rev. R. Uniacke.
Heirs of Sir Brenton Haliburton.
Heirs of Rev. T. Crisp.

Extracts from the Statutes.

No Undergraduate shall resort to any inn, tavern, or public house, except for some special cause, to be approved by the President, or shall spend his time in the streets of the town.

All bills of the Undergraduates are to be sent by the tradesmen with whom the debts are incurred, to the Bursar, at the end of every term; and parents are particularly requested to refuse payment of any bills not thus sent in.

THE INTRODUCTION OF SPIRITUOUS LIQUORS INTO THE COLLEGE IS ABSOLUTELY PROHIBITED.

Collegiate School at Windsor.

UNDER THE CONTROL OF THE GOVERNORS OF KING'S COLLEGE.

The Collegiate School was re-opened in Octr., 1867, under the Rev. G. B. Dodwell, M. A., Cantab., and is again in full operation. This School, in which there are now some remaining vacancies, is intended to furnish an education of the highest order, so as to prepare pupils for the University or for general or professional life. The Head Master is ably assisted in the different departments as heretofore. The comforts of home are kindly secured to the boys by Mrs. Dodwell, who has had much successful experience in this respect. Applications may be addressed to Rev. Mr. Dodwell, who will furnish a prospectus with every requisite information as to terms and course of instruction.

HEAD MASTER.

Rev. G. B. DODWELL, M.A.

TERMS.

BOARDERS—£45 per annum, everything included.

DAY SCHOLARS—£8 per annum.

Instruction in one or all of the four Modern Languages by Professor STIEFFELHAGEN, £3 per annum.

VACATIONS.

From July 1 to August 15.

From December 15 to January 15.

There are two exhibitions of £8 and £4 each, to be competed for annually. The first is open to the senior form, and the successful candidate must be qualified, though not required, to enter College. The second is open to the whole school. In both cases competitors must be of one year's standing.

There are, in connection with this school, six exhibitions, each £15 per annum, tenable for three years, to be given to the sons of clergymen, and to those who are designed for the ministry.

The Annual Alumni Prizes of £8 and £4 will be open for competition in June, 1870.

SYNOPSIS.

Matriculation.

No restrictions are imposed with respect to the place of birth or education, or religious profession, of persons desiring admission.

Students are admissible to *elective* or special courses. They are examined in English Grammar and Composition, in the History of England, and in Geography, General and Colonial; in Vulgar and Decimal Fractions, and in an elementary book on Natural Philosophy and Natural History. Candidates for *Matriculation* undergo an examination to ascertain their competency for entering on the full UNIVERSITY Course with advantage. They are examined in

Homer, first book Iliad;
Xenophon's Anabasis, first book;
Cicero pro Archia;
Horace, first and second books;

Grammatical Analysis, Prosody and Latin Composition, Greek and Roman History, and in the English subjects required of *elective* students. In Mathematics they are examined in

Euclid, first two books;
Vulgar and Decimal Fractions and Proportion;
Algebra to Quadratics.

Credit will always be given to such Matriculants as pass well in *Modern Languages*.

Residence.

Students either reside in College, or obtain a dispensation designating the houses in which they are permitted to lodge. The same opportunities of instruction are offered them in both cases.

Arrangement of Studies.

THE daily lectures for the Undergraduate Course commence at 10 A.M., and are continued till 3½ P.M. The course of instruction is so arranged as to embrace the successive study of the best Classical Authors, the Hebrew Language, Logic, Rhetoric and Ethics; the several parts of Mathematics, Natural Philosophy and Astronomy; Chemistry and Natural History. The Modern Languages, comprising German, French, Italian and Spanish Literature and Conversation, are practically taught. All the students are instructed in the Greek Testament, in Bible History and the Evidences; and separate classes are formed for such members of the University as desire instruction in Systematic Divinity and Pastoral Theology, with a view to entering on the ministry of the Church.

Classics.

THE Classical Authors selected for study are, in History, Herodotus, Thucydides and Xenophon, Livy and Tacitus; in Oratory, Demosthenes and Cicero; in Poetry, Homer, Euripides, Sophocles, Æschylus, and occasionally Aristophanes and Pindar, Virgil, Horace, Juvenal and Lucretius. The treatise of Aristotle on Ethics, Rhetoric and Poetics, with those of Cicero de Officiis and de Oratore, de Amicitia and de Senectute, and the Comedies of Terence or Plautus, are sometimes read.

Logic.

THE Logical course comprises Simple and Complex Apprehension, Judgment and Reasoning, expressed by corresponding Terms, Propositions and Syllogisms explained and exemplified. The legitimate construction of Syllogisms is carefully taught. The inductive and demonstrative methods of reasoning are considered, with the several kinds of evidence adapted to the different descriptions of subjects mathematical and moral, or probable. During this course, as in most of the others, the Student is duly informed of the valuable matter to be found in the works of the ancient and modern writers.

Exercises.

VARIOUS subjects for exercises in writing in connection with the several courses of lectures are proposed to the Students; as also a weekly thesis for an Essay to be written in English and Latin alternately. A *term exercise* is also invariably required.

Hebrew.

EVERY Student who desires it, has an opportunity of acquiring a thorough ground work in Hebrew during his undergraduate course; and it may be much extended after passing his degree examination.

Mathematics, Natural Philosophy, and Astronomy.

ALGEBRA is studied from the commencement of the first year, until Quadratic Equations have been passed. Euclid is commenced at the same time, and continued to the end of Book VI., the class reciting a certain number of propositions which they have prepared beforehand, and the Professor supplying such explanation and amplification as are to be found in the best commentaries on Euclid's text. To this is added the solution of geometrical exercises

A knowledge of the principal rules of Arithmetic, including Vulgar and Decimal Fractions and Proportion, is assumed to be possessed by all Students in the first instance; and without it they cannot be expected to attend the mathematical lectures with advantage. A few hours in the early part of the course, which are all that can be spared for this subject, are devoted to an examination of the principles of Arithmetic, and to the working of a few examples. The use of Logarithms is then entered upon, and is illustrated by a variety of applications, with the view of enabling Students to attain ready command of this important instrument of calculation.

Trigonometry is then commenced, the practical part being carried as far as the more complicated problems usually to be met with in works on the subject, while enough of the theory is taught to establish the proofs of all the rules for solution of triangles. The more important problems in Mensuration are also studied both theoretically and practically.

A few lectures on the popular portions of Mechanics and Astronomy are given in the first year. Towards the end of the second year, when the Trigonometrical course has been concluded, the former subject receives a large share of attention; Statics and Dynamics, with the elements of Hydrostatics, occupying two hours a week for two or three terms.

Some of the more advanced Students are exercised in the higher parts of Algebra, and of Analytical Trigonometry. Co-ordinate Geometry (including Conic Sections), and the Differential and Integral Calculus, also occupy a considerable portion of time during the third year.

Chemistry.

THE instruction in Chemical Science consists in:—

1st.—A course of Class Lectures on General Chemistry, Theoretical and Applied; these are to a great extent, Catechetical; experiments are constantly performed before the class, and specimens of chemical preparations are exhibited, illustrating amply the subjects under discussion.

Chemical Physics form a considerable part of this course; and the Chemistry of Mineralogy is illustrated as much as possible by reference to Nova Scotian Minerals, of which specimens are regularly brought forward for examination. The course extends through four terms.

2nd.—A course of Laboratory Instruction in Analysis, Qualitative and Quantitative, and in the preparation of Reagents and other substances. Written exercises are prescribed in Notation, Equations, and Quantitative problems. There is no class; each Student is furnished with a set of analytical apparatus, has the use of the larger apparatus of the laboratory when necessary, and performs his experiments under the superintendence of the Professor.

Natural History.

CATECHETICAL lectures are held in:—

Physiology, chiefly Human, illustrated by Diagrams; Botany, illustrated by Living and Dried Plants; Geology, illustrated by collections of Rocks and Fossils of Nova Scotia and other countries.

Modern Languages.

THE German, French, Spanish, and Italian Languages are carefully taught. Extracts from the literature of the best writers in each are read with grammatical precision, and the conversational and epistolary styles are practically exemplified.

Divinity and Pastoral Theology.

GENERAL lectures are delivered every Sunday evening on the Greek Testament and Scripture History, which are attended by all the Students in their first and second years.

The special course laid down for *Divinity Students* extends over a period of four years at least, and embraces the different branches of Theology, Exegetical, Systematic, Historical and Pastoral, together with Ecclesiastical History and Polity.

During the undergraduate course in the first year the attention of the Students is confined principally to the Greek Testament; the Acts of the Apostles, and one or more of the Gospels, forming the subjects of the lectures.

In the second year some of the Epistles of St. Paul are carefully read in the original; and lectures are delivered on the Evidences of Christianity, the Literary History, Criticism, and Interpretation of the Scriptures, and Biblical Archæology.

The third year is occupied in the study of Ecclesiastical History in general, and that of the Church of England in particular. To this is added a thorough Analysis of the Liturgy of the Church of England, and a review of the changes which it has undergone. The XXXIX Articles are committed to memory in Latin and English, proved from Scripture, and briefly explained.

In the fourth year the study of Systematic Divinity is steadily pursued. Browne's Expositions of the Articles, Pearson on the Creed, Butler's Analogy, and similar works are carefully studied, and form the text-book of lectures. To these are added Hooker's Ecclesiastical Polity, Church History and Christian Antiquities. The Epistles of St. Paul to Timothy and Titus, and other portions of the Greek Testament are read, the best critical apparatus being employed in their elucidation. When time allows, some of the works of the Fathers of the Christian Church, such as the Epistle

of Clement, the Confession of Augustine, Chrysostom on the Priesthood, and the "Cur Deus Homeo" of Anselm, are perused in the original.

Lectures are given in Homeletics, and the students are practised in the preparation of outlines of discourses, as well as in the actual composition of sermons. Practical instruction is regularly given in reading the Service and the Holy Scriptures, the management of Sunday-Schools, and occasionally in the general duties of a Parish. Those who desire it have also an opportunity of attending lectures in Hebrew. Great advantages are afforded by the excellent collection of Theological works contained in the Library, to which all have access. Besides the regular lectures, suitable books are recommended for perusal, and Students are encouraged to remain beyond the four years, a privilege of which they frequently avail themselves.

Church and Chapel.

EVERY Student is required to attend the regular services, morning and afternoon, on Sunday at the Church, on the other days of the week in the College Chapel. To Students who are not members of the Church of England, permission is given to attend their own places of worship on Sunday, and they are required, at the end of each Term to exhibit to the President certificates of regular attendance from their respective Pastors.

The practice of Sacred Music is cultivated regularly in connection with the Chapel Services.

Discipline.

A meeting of the College Board is held regularly at the beginning and end of every term, and at such other times as may be required agreeably to the Statutes.

Library.

THERE are several thousand books on the shelves, but the number by no means gives an adequate idea of their value. Contrary to what is generally the case in such large collections, this Library contains very few volumes which would not be looked upon as valuable, while some of the works are very rare, and to be procured only at large prices. *The Theological Department* comprises fully one-third of it, and contains some of the best standard authorities. The deficiencies in this respect have been in part supplied through the benefactions of T. B. Akins, Esq., and E. Binney, Esq., ample scope being left nevertheless for the liberality of other friends of the University. It would be very desirable to have a choice selection of works bearing on the controversies of the day, as well as a few of the principal periodicals. The Governors have lately authorised the annual purchase of some Scientific Periodicals of the highest standard merit. *The Classical Department*, containing many scarce copies of Latin and Greek authors, might be advantageously augmented by a *uniform edition of the Classics*, and a series of the publications of the best modern critics and annotators. Good *books of reference*, too, are much needed. In *Science* the Library contains several of the most eminent treatises, but it is still deficient in many essential branches. In *History and General Literature* the collection is good, though incomplete; but in *English Poetry*, there are scarcely any of the writers of the present century; a want which, it is hoped, will not be long permitted to exist. In the languages of modern Europe the catalogue is very meagre; the works of Schiller and Goethe in German, and of Lamartine and Voltaire (Historical) in French, being almost the only books in these languages likely to attract the attention of Students. The College must look to the Alumni, and other friends, for a supply of interesting works of standard merit to encourage proficiency in the Modern Languages.

Museum.

THE addition of Minerals, Fossils, and Zoological specimens noted from time to time in the periodical reports, obtained by collections, donations and exchanges, have greatly increased the value of the College Cabinets. It is hoped that when properly displayed and arranged in the new Hall, these illustrations of the Natural History of Nova Scotia, and other parts of the world, will be not only of service to students, but of attractive interest to visitors. Of apparatus used in Physical Science, a tolerable collection has been in the College for many years, and, while the actual state of all experimental science demands the effectual and continued assistance of generous friends of scientific education, the leading principles of the various sections of Physics can still be illustrated. Very desirable additions would be a Ruhmkorff's Induction Coil, a Spectroscope for Spectrum Analyses, some Dialysing Apparatus, and a useful Microscope.

Laboratory.

REPLACEMENT and additions of Apparatus, useful in illustrating the yearly course of Chemical lectures, and in the study of Practical and Analytical Chemistry, have been continually made during the last few years. Numerous preparations of Chemical substances, many of them made in the Laboratory, have been placed upon the shelves. It is under consideration to convert a portion, at least, of the present Library into a Lecture Room and a Laboratory, for the purpose of increasing the facilities in this important department.

Astronomical and other Instruments.

LARGE sums have been expended on this department. There are some fine Astronomical Instruments, including, among several others, Ramsden's Altazimuth, Transit, Sextant and Artificial Horizon, one of Carey's best and largest Telescopes, a Planetarium, Whirling Table, Solar Microscope, and large Globes.

The revolving building erected to answer the purpose of an Observatory is found very serviceable, being well adapted for the instruments in use. The apparatus for Surveying is, however, incomplete. A Levelling Instrument, another good Theodolite, and an Azimuth Compass, are much needed. The Mechanical apparatus is sufficient for exhibiting the principal laws of Statics and Dynamics, comprising sets of pulleys and levers, illustrations of centrifugal force and motion of projectiles. Some additions in this department would be very desirable, none having been made for many years.

The two instruments for observing atmospheric electricity which were furnished, one of them by the liberality of Edward Binney, Esq., and the other by the Royal Society of London, have been in constant use by the Professor.

B. A. Degrees.

EVERY candidate for the degree of B. A. must have passed an examination called Responsions, in or between his fourth and sixth terms; the subjects being intermediate between the Matriculation and Degree examination. There are two classes, *first* and *second*.

Degrees may be taken either with or without honors. There are two classes of honors and two of ordinary degrees. In each department the subjects of examination are regulated by the degree sought.

La plus noble conquête que l'homme ait jamais faite est celle de ce fier et fougueux animal, qui partage avec lui les fatigues de la guerre, et la gloire des combats : aussi intrépide que son maître, le cheval voit le péril et l'affronte ; il se fait au bruit des armes, il l'aime, il le cherche, et s'anime de la même ardeur : il partage aussi ses plaisirs ; à la chasse, aux tournois, à la course, il brille, il étincelle ; mais docile autant que courageux, il ne se laisse point emporter à son feu, il sait réprimer ses mouvements : non-seulement il fléchit sous la main de celui qui le guide, mais il semble consulter ses désirs, et obéissant toujours aux impressions qu'il en reçoit, il se précipite, se modère, ou s'arrête, et n'agit que pour y satisfaire : c'est une créature qui renonce à son être pour n'exister que par la volonté d'un autre, qui sait même la prévenir ; qui, par la promptitude et la précision de ses mouvements, l'exprime et l'exécute ; qui sent autant qu'on le désire, et ne rend qu'autant qu'on veut : qui, se livrant sans réserve, ne se refuse à rien, se sert de toutes ses forces, s'excède, et même meurt pour mieux obéir.—*Buffon*.

B.

Celui qui met un frein à la fureur des flots,
Sait aussi des méchants arrêter les complots.
Soumis avec respect à sa volonté sainte,
Je crains Dieu, cher Abner, et n'ai point d'autre crainte.
Cependant je rends grâce au zèle officieux
Qui sur tous mes périls vous fait ouvrir les yeux.
Je vois que l'injustice en secret vous irrite,
Que vous avez encor le cœur israélite.

Le ciel en soit béni ! Mais ce secret courroux,
Cette oisive vertu, vous en contentez-vous ?
La foi qui n'agit point, est-ce une foi sincère ?
Huit ans déjà passés, une impie étrangère
Du sceptre de David usurpe tous les droits,
Se baigne impunément dans le sang de nos rois,
Des enfants de son fils détestable homicide,
Et même contre Dieu lève son bras perfide :
Et vous, l'un des soutiens de ce tremblant état,
Vous, nourri dans les camps du saint roi Josaphat,
Qui sous son fils Joram commandiez nos armées,
Qui rassurâtes seul nos villes alarmées,
Lorsque d'Ochozias le trépas imprévu
Dispersa tout son camp à l'aspect de Jéhu ;
Je crains Dieu, dites-vous, sa vérité me touche !
Voici comme ce Dieu vous répond par ma bouche :
" Du zèle de ma loi que sert de vous parer ?
" Par de stériles vœux pensez-vous m'honorer ?
" Quel fruit me revient-il de tous vos sacrifices ?
" Ai-je besoin du sang des boucs et des génisses ?
" Le sang de vos rois crie, et n'est point écouté.
" Rompez, rompez tout pacte avec l'impiété ;
" Du milieu de mon peuple, exterminiez les crimes :
" Et vous viendrez alors m'immoler vos victimes."—*Racine*.

QUESTIONS GRAMMATICALES.

- 1.—" La plus noble conquête que l'homme ait jamais faite est celle " (Voyez 1, A). Expliquez pourquoi " faite " est au féminin. Pourquoi " celle " et non pas " celui " ?
- 2.—Ecrivez en entier le présent et l'imparfait du subjonctif des verbes suivants :—voir, affronter, faire, dire, savoir.
- 3.—Comment écririez-vous en français :—" He obeys his master." " We should obey the laws of our country " ?
- 4.—" Et n'agit que pour y satisfaire " (Voyez 1, A). Pourquoi " y " et non pas " lui " ?
- 5.—Quelle règle de la syntaxe latine, la langue française imite-t-elle en exigeant pour " satisfaire " un complément indirect ?

- 6.—“Et même meurt pour mieux obéir” (Voyez 1; A).
Pourquoi “mieux” et non pas “meilleur” ?
- 7.—Citez des cas où la prononciation exige que la consonne soit doublée dans le féminin d'un adjectif.
- 8.—Quels sont les adjectifs en “et” qui ne doublent pas le “t” pour le féminin ?
- 9.—Ecrivez le féminin des adjectifs qui suivent :
Blanc, bénin, beau, épais, malin, discret, inquiet, bref, dissous, ancien, caduc.
- 10.—A quel genre se met l'adjectif qui se rapporte à plusieurs substantifs de différents genres ?
- 11.—Ecrivez le comparatif et le superlatif de “bon” et de “bien” de “petit” et de “peu.”
- 12.—Quelle différence y a-t-il entre “pas” et “point” ? Pourquoi Racine a-t-il dit “et n'ai point d'autre crainte” au lieu de “et n'ai pas d'autre crainte” ?
- 13.—Donnez en anglais les deux sens de la phrase, “Faites lire une page à cet enfant.”
- 14.—De quel auxiliaire vous serviriez-vous pour former les temps composés des verbes pronominaux ?
- 15.—Traduisez en français :—“Louis the Fourteenth.” “Francis the First.” “George the Second.” “The eleventh of January.” “This day fortnight.”
- 16.—Avec quoi s'accorde le participe passé avec l'auxiliaire être ?
- 17.—Ecrivez la seconde personne du singulier et du pluriel de l'impératif négatif de “s'en aller.”
- 18.—Comment traduiriez-vous :—“I wish the rain would cease.” “I am afraid it will rain” ?
- 19.—De quels mots latins les suivants sont-ils dérivés :—
Semaine, tellement, pas, point, rien, jamais, chez, dimanche.
- 20.—Traduisez en français :—
Qualis populeâ mœrens Philomela sub umbrâ
Amisso queritur foetus, quos durus arator
Observans nido implumes detraxit ; at illa
Flet noctem, ramoque sedens miserabile carmen
Integrat, et mœstis latè loca questibus implet.

MY DEAR SIR,—

I thank you very much for the pleasure you have afforded me in permitting me to see the photograph of your amiable friend, who, I doubt not, is infinitely better than you imagine. When we are far away from home, we are always thinking of those we have left behind : and one is inclined to look at the dark side of everything. I am quite sure that you will receive good news by the next packet, at least I hope so. I am afraid that you think too much about the slight indisposition of your friend. I say slight, because I do not believe there is any danger.

I wish I had seen you this afternoon, for I was very anxious to show you the letters which I received by the English Steamer. I thought you intended to call for your friend M. ; but as you did not come, you must have forgotten our agreement. Come and see me this evening if possible ; I shall have nothing to do, and shall be entirely at your disposal.

Yours very truly,

QUESTIONS IN GRAMMAR.

1.—Form the genitive sing. and the nom. plur. of the following nouns:—"Vater, Hausschlüssel, Philosoph, Festtag, Hand, Tochter, Fürstenthum." Mention how the gender of compound substantives is ascertained.

2.—In what case does the adjective remain uninflected? Give an instance. Decline in full, sing. and plur., "der reichste Fürst," "eine edle That," "neues Haus."

3.—Correct and account for the mistakes in the following phrases:—"Aus die Stadt," "Mit einen Stock," "Durch dem Wasser," "An ihm schreiben," "Auf das Land wohnen," "Für mir." State by example the case required by *während* and *wegen*.

4.—Name some preps. which may be contracted with the def. art. and translate accordingly:—"At the window," "Upon the house," (acc.), "In the water," (dat. and acc.), "To the father," "To the mother," "Before the house," (acc.), "Across the sea," (acc.)

5.—"Some" or "any," how are they to be expressed in German? Write: "He has some money," "Give me some books," "Have you any friends?" "Yes, I have." "Will you buy some paper?" "I will buy some."

6.—Mention what you know concerning the formation of the degrees of comparison, and give short examples, naming some exceptions. By what word are two adjs. to be compared with one another? Translate: "Augustus was more successful (glücklich) than brave."

7.—Account for the words "da" and "zu" in the first and last lines of Parag. B.

8.—How is the past participle of verbs affected by the unaccented prefixes: *be*, *emp*, *ent*, *er*, etc. Name some of the verbs which, though

regular in their terminations, change their root vowel in the imperfect and past participle.

9.—*Geben, abschreiben, verlieren; gesprochen, verziehen, ausgetrunken.* Write the third person singular, indic. present and the past participle of the first three verbs; and the infin. of the three last ones.

10.—“*Es gibt gute und schlechte Bücher. Es sind viele Fremde in der Stadt.*” Explain the use of the two impersonal forms: *Es gibt* and *es sind* (sing *es ist*). Write the second sentence in the interrog. form.

QUESTIONS IN SYNTAX.

11.—“*Ich suchte gestern meinen Freund überall.*” “*Mein Lehrer hat mir heute einen guten Rath gegeben.*” “*Sein Vater wird ihn morgen nicht besuchen, er hat soeben Nachricht von ihm erhalten.*” Explain the construction of the foregoing sentences.

12.—What influence have subordinative conjs. such as: *da, weil, als, dass*, etc. on the position of the *verb*, and on that of the subject, in the second clause, conjs. commencing the sentence? Render into English: “When I had written my letter I went to the Post-office.”

13.—What conjs. cause no alteration in the construction? Write: “I must stay (*bleiben*) at home, for I am ill.”

14.—Which is the position of the subject, the adverbial of time commencing the sentence? Translate: “To-morrow I shall write home.”

15.—“*Wenn ich dieses gestern gewusst hätte.*” What form assumes this phrase on omitting the conj. *wenn*?

Translate into German:—

MY DEAR SIR,—

Having an opportunity to leave for Germany next week, in company with a German friend, whose acquaintance I made during my sojourn in this city, I take great pleasure in informing you of my intention. Accept my most sincere thanks for having given me the excellent advice to study the language of Schiller and Göthe, for now I shall doubly enjoy my travelling in the country which has produced two of the greatest poets.

Before leaving I shall write to you a few words more, and remain in the mean time, etc.

MATHEMATICS APPLIED TO ENGINEERING.

Examiners { JOHN BROOKING YOUNG, Esq., Civil Engineer.
CHARLES ODELL, Esq., Civil Engineer.

I.

- 1.—Required, the area of a circle whose radius is 5 feet?
- 2.—The length of a triangular prism is 10 feet, and the three sides of its base 5, 4 and 3 feet; required the solidity?

3.—In chain surveying, how would you measure the distance from A to an inaccessible point B?

- 4.—Given the angle of intersection and the radius, find the tangent?
- 5.—Given the radius, find the deflection angle?
- 6.—How do you set out a circular curve, touching two given straight lines, when the point of intersection of those lines is inaccessible?
- 7.—Express the area of a plane triangle in terms of its sides and angles?
 - Case 1. Given, one side, c and the angles.
 - Case 2. Given, two sides b, c, and the included angle A.
 - Case 3. Given, the three sides.

II.

- 1.—What are contour lines?
- 2.—Describe an optical square and its use?
- 3.—Find the latitude of a place by the mean altitude of a circum-polar star?
- 4.—Describe the method of surveying a large estate?
- 5.—A ladder is required to reach the top of a wall $33\frac{3}{4}$ feet high; the foot of the ladder being 18 feet from the wall; required the length of the ladder?
- 6.—The rise of the circular arch of a bridge is 12 feet, and the diameter of the whole circle is 200 feet; required, the distance from the spring of the arch to the crown?
- 7.—Give an imaginary page out of a level-book of levels taken over irregular ground and with a gradient of 1 in 150 give the depths of cutting or bank at each 100 feet?

8.—Given, two angles of a spherical triangle, and the side between them; find the remaining sides and angle?

Let A, B, be the given angles, and c the given side?

9.—What does wrought iron sustain in compression and in tension per square inch, and give the constants for rectangular tubes to top and bottom?

10.—Let the height of a wall B C = depth of water = 12 feet, and the respective specific gravities of water and the wall be 62.5 lbs., and 120 lbs. per cubic foot; required the thickness of the wall, so that it may have complete stability to sustain the pressure of the water?

Reports of Examiners on the General Williams' Prizes.

KING'S COLLEGE, June 21st, 1869.

Venerable and Dear Sir,—

We have examined the papers prepared by the competitors for the General Williams' Prize in French and German, and beg to report as follows:—

In French, we consider the papers quite equal.

In German, Mr. Shreve's paper has the advantage.

We therefore award the prize to Mr. Shreve.

We have the honor to be,

Yours, &c., &c.,

BENJAMIN CURREN, D.C.L.

JAMES LEICHTI.

The Venerable
The President of King's College.

WINDSOR, 22nd June, 1869.

Rev. and Dear Sir,—

We beg to enclose the results of the examination for the General Williams' Prize.

The following numbers show the standing of the several competitors:

Total number possible.....	1000
Mr. Gilpin.....	575
Mr. Keating.....	485
Mr. Armstrong.....	395

We have much pleasure in expressing our great satisfaction at the general style and scope of the answers of the several competitors. Those of Mr. Keating are highly creditable to that gentleman, and we regret that the omission of answers to several questions, so materially reduced the number of marks he obtained.

We are,

Your obdt. Servants,

JOHN RUTHERFORD,
HENRY Y. HIND.

WINDSOR, 24th June, 1869.

Venerable and Dear Sir,—

I beg to report to you the result of yesterday's examination for the General Williams' Prize in Engineering.

The questions in Part 1st have been very well answered; but only a small proportion of those in Part 2nd have been touched upon.

With the standard of 1000, "W. K." has succeeded in obtaining the greater number of marks for his papers, namely, 538; but "B's" answers are only slightly inferior, he having obtained 482 marks. I therefore recommend the prize be given to "W. K."

I am,

Yours truly,

HARRY E. MILNER.

To the Venerable
The President of King's College.

HALIFAX, June 17, 1869.

The Venerable

The President of King's College, Windsor.

Sir,—Three Essays on the History of King's County having been submitted to us for examination and for our decision as to which of them was entitled to the "Akins Prize for County History," we award the honor to the Essay designated by the motto "Neque nihil, neque omnia," the author being—as we have learned from his sealed envelope—Mr. C. H. Hamilton. It is no disparagement to the other competitors to state that Mr. Hamilton's Essay deserves high encomium; its arrangement, its fulness and its research into those special subjects of interest which the founder of the Prize had in view, render it an interesting and valuable document, and, in the opinion of the Examiners, worthy of publication.

GEORGE W. HILL.
WILLIAM J. ALMON.

Curriculum, or Course of Study, &c.

CLASSICS.

THESE consist of Historians, Orators, Poets, and Philosophers. Portions of the standard Greek and Latin authors, under each of these denominations are studied.

In the First Year.

Homer's Iliad or Odyssey.
Xenophon's Cyropædia or Anabasis.
Demosthenes' Select Orations.
Horace's Satires and Epistles.
Livy, first or third decade.
Cicero de Officiis and Orations.

In Second Year.

Herodotus, Thucydides, Euripides.
Virgil's Georgics, Terence occasionally.
Tacitus: Germania, Agricola.
Juvenal and Persius.

In Third Year.

Sophocles, Æschylus, Longinus.
Aristophanes occasionally.
Tacitus and Juvenal, continued.
Lucretius occasionally.

Variations in the course are sometimes admitted; and other authors, such as portions of Pindar, of Plato, and of Aristotle's Ethics and Poetics, under favorable circumstances, are read; but the degree subjects are usually Euripides, Sophocles, Æschylus, Longinus, Tacitus, and Juvenal.

In *Logic* Mansel's Aldrich, with reference to Prolegomena, &c. In *Rhetoric*, Aristotle, Quintilian, or Cicero de Oratore with reference to Whately and others.

Suitable Exercises, Themes and Essays are required.

HEBREW.

The Grammar is carefully studied, and reference to the best subsidiary aids are constantly made.

Portions of the Old Testament are critically read and carefully compared with the variations in the Septuagint, and examination papers frequently written.

GEORGE McCAWLEY,
President.

HOURS OF PRAYER.....7 A. M., 3.30 P. M.
HOURS OF MEALS Breakfast 8, Dinner 3.50.
MORNING BELL 6.30 A. M.
EVENING BELL..... 10 P. M.

THEOLOGICAL DEPARTMENT.

PROFESSOR HENSLEY, D. D.

DIVINITY STUDENTS.

The course extends over Four Years, and embraces the following subjects :

I. Sacred Languages.

Hebrew : (by the President.)	Greswell's Harmony.
Greek : Septuagint.	Wordsworth's Greek Testament.
Greek Testament.	Bloomfield's do. do.
Winer's Greek Grammar.	Bengel's Gnomon.
Robinson's and Schleusner's Lex.	Trench's Synonyms.
Annotations of Elsley and Slade.	

II. Biblical Literature.

Horne's Introduction.	Marsh's Lectures.
Smith's Dictionary of the Bible.	Angus's Hand-Book.

III. Systematic Divinity.

Paley's Evidences.	Browne on the Articles.
Horæ Paulinæ.	Pearson on the Creed.
Butler's Analogy.	Magee on the Atonement.
Jewel's Apology.	Graves on the Pentateuch.
Hopkins' End of Controversy	Wall on Infant Baptism.
Controverted.	

In Polemical Theology Lectures are given on the controversial questions of the day, with especial reference to the position of the Church in this Diocese

IV. Ecclesiastical History.

Robertson's Ecc. History.	Short's History of the Church of
Mosheim's do. do.	England.
Burton's do. do.	Hardwicke's Reformation.
Adolphus' do. do.	Bingham's Origines Sacrae.
Connections of Prideaux, Shuck- ford and Russell.	Riddle's Christian Antiquities. Josephus.

V. Church Polity and Liturgies.

Hooker's Ecc. Polity.	Wheatley on Common Prayer.
Potter on Church Government.	Blunt do. do.
Onderdonk on Episcopacy.	Palmer's Origines Liturgicae.
Kip's Double Witness.	Adolphus' Compendium.
Palmer on the Church.	Wordsworth's Theoph. Anglic.

VI. Pastoral Theology and Sacred Rhetoric.

Bridges on Christian Ministry.	Claude's Essay.
Burnet's Pastoral Care.	Gresley's Ecclesiastes Anglic.
Blunt's Directorium Pastorale.	Whately's Rhetoric.

The Students are practised in the preparation of outlines of discourses, the composition and delivery of Sermons, the reading of the Liturgy and the Holy Scriptures, and in the management of Sunday Schools.

VII. Patristic Theology.

The Apostolic Fathers.	Justin Martyr's Apologies.
Chrysostom de Sacerdotio.	Augustine's Confessions.
Eusebius Ecc. History.	Anselm's Cur Deus Homo.

During the Undergraduate Course the attention of the Student is principally confined to the Greek Testament, Biblical Literature, Ecclesiastical History, and Liturgies. In the Fourth Year the whole

of the subjects enumerated above are studied, the principal works mentioned being used as Text Books, the others being referred to as occasion demands.

An examination of the Senior Divinity Students in all the subjects of the Course takes place in Easter Term of each year, preparatory to their receiving their Testimonials as Candidates for Holy Orders.

The Sunday Evening Lecture at 7 o'clock is attended by all the Undergraduates.

Subjects: Greek Testament: The Gospels.
Bible History.

MATHEMATICS, NATURAL PHILOSOPHY AND ASTRONOMY.

The subject for any year depends to some extent upon the ability and previous training of the students.

During the first year the first six books of Euclid are studied, and in Algebra in addition to the parts up to and including quadratic equations, a few of the more comprehensive theorems, such as the theories of Indeterminate Coefficients, of Permutations and Combinations, the Binomial, Multinomial and Exponential theorems are discussed.

During the Second Year a complete course of Trigonometry, both Plane and Spherical, is gone over analytically. When some progress has been made in this branch, three or four extra hours per week are devoted to Engineering Geodesy; and in the third year as a continuation of the same subject, the principles are set forth according to which structures are combined into extensive works of Engineering, such as Roads, Railways, &c. Students of the second year likewise study Conic Sections and the earlier parts of the Differential Calculus, including Taylor's theorem. The further study of the calculus gives place in the meantime to the study of the Theory of Equations—a sound knowledge of which greatly facilitates the progress of the student in the higher analysis, and more especially in its application to analytical Geometry in three dimensions.

During the Third Year the first three and ninth and eleventh sections of Newton's Principia are carefully gone over. The Differential and Integral Calculus occupies a portion of the time, but the greater part is taken up with the science of Dynamics.

The principles of each subject are explained by lectures, and their applications illustrated by the solution of examples taken from

the text books and other sources. The lectures are followed by oral examination of the students. Exercises are given out from time to time for home work, and the progress of every student is registered from the result of periodical written examinations.

The Text Books in use are Young's Course of Mathematics, Hall's Trigonometry, the treatise on the Differential and Integral Calculus, by the same author, Hymer's Conic Sections, and Evans's edition of the first three and ninth and eleventh sections of Newton's Principia. The Professor would like to have, but does not insist upon, uniformity in the Euclid, and accordingly several editions of the elements are employed.

Private instruction is given to all students who are anxious to receive it: and so the Professorial and Tutorial systems are combined.

Lectures are also given on Engineering.

 Organic Chemistry.—YOU MAN'S.
 Practical Chemistry.—FRESENIUS.
 Mineralogy, etc.—PHILLIPS' *Metallurgy*.

Books of Reference in the College Library.

LECTURES IN MODERN LANGUAGES.

PROFESSOR STIEFELHAGEN, Ph. D.

FRENCH.

First Year.

Ollendorff's Grammar, combined with a systematic course of the pronunciation, and the regular and irregular verbs. In this year the scholars *read* the reading-pieces in *Pinney's First Book of French* because I find them excellent to practise the pronunciation.

Second Year.

Continuation of *Ollendorff's Grammar*. The scholars begin to *read and learn by heart* the "*Causeries Parisiennes, by Perschier*," a book which I find better adapted for my purpose than any I ever met with. They are supposed to finish *Ollendorff's Grammar* in two years, at latest. If it is finished sooner, I begin my course of *Syntax, &c.*, which is generally reserved for the third year, in the second.

Third Year.

In this year I go through a regular course of *Syntax*, partly as a repetition, and partly to supply the wants of *OLLENDORFF'S* system. The scholars are then supposed to be familiar with all the leading rules of *Syntax* from *OLLENDORFF'S Grammar*, and, in going through them again, I call their attention to the niceties, *dictate rules* on them, and cause the class to practise them, by writing exercises after *my own dictation*, principally consisting of *letters and conversations on topics of general interest, &c.* In this year I have, moreover, constant *verbal* exercises in conversation, and the scholars are obliged to speak French as much as possible. They read *Christomathie Francaise, par Boniface*, an excellent book, containing all the varieties of style to be found in French authors.

GERMAN.

First Year.

OLLENDORFF'S Grammar combined with a regular course of the pronunciation and the regular and irregular verbs. *Adler's Reader*.

Second Year.

Continuation of OLLENDORFF'S Grammar. The scholars continue to read *Adler's Reader*, and begin SCHILLER'S *Lyrical Poems*, and one of his *Comedies* in prose.

Third Year.

In this year I follow the same plan as in French. The scholars read one or more of SCHILLER'S Tragedies, besides one of the *Comedies* in prose, by the same author.

REPORT.

THE Executive Committee of the Associated Alumni of King's College, Windsor, beg to submit for the information of the members, their Twenty-second Annual Report.

The year that has passed, has not been marked by any event of special importance to the College. The Committee have held their meetings as regularly as was possible, and have attended, so far as came within their province, to every material interest of the Institution.

The following notices of resolutions have been for some time upon the minute book, and remain now for the consideration of this meeting:—

At the annual meeting held at Windsor, on Wednesday, the 26th day of June, 1867, the following notices were given of resolutions to be moved at the next annual meeting:

“A. M. Uniacke, D.C.L., in submitting the account of the Treasurer of the Governors for the past year, gave notice of a resolution requesting the Board of Governors to furnish, previous to the annual general meeting of the Associated Alumni, in each year, for their information a copy of the Treasurer's account.”

“Dr. Almon gave notice that he would move that the Governors be requested to furnish the Alumni annually with an account of their income and expenditure, together with a copy of the minutes of the proceedings of the Board for the past year.”

“A. M. Uniacke, D.C.L., gave notice of the following resolution:—
“No individual or Rector of any Church or Parish, shall be entitled to vote under a parochial certificate, or in either his individual or corporate capacity, unless he be authorized by a Parish meeting.”

At the annual meeting held 24th June, 1868, the movers of the

above resolutions not being present, the consideration of them was deferred.

“At the same meeting, the President laid on the table, as a notice of a resolution to be moved at the annual meeting in June, 1869 by Charles Twining, Esq., the following amendments to the Act of Incorporation of King’s College, Windsor, 16 Vict. Cap. 66 :—

“That all persons who are graduates or Alumni of the said College shall be eligible to be Governors without reference to denomination ;

“That in order that the Associated Alumni may be informed as to the state and condition of the College, the Governors of the College, shall, once in each year previous to the Encænia, submit to the Secretary of the Alumni a statement of the funds of the College, and the investment thereof: and also the expenditure on behalf of the College during the past year; and also a report of the state and present condition of the College.”

Rev. Mr. Bowman gave notice that at the same meeting he would move—

“That all Officers of the Associated Alumni shall have been members of the Association for at least one year previous to their appointment.”

Rev. Dr. Blackman also gave notice that he would move at the same meeting—

“That the sum of \$100 be paid to the Head Master of the Collegiate School.”

On each successive Anniversary, your Committee have to record the absence of some Alumnus whose place at our annual gatherings is destined to know him no more.

During the past year, death has removed from among us, Charles Twining, Esq. who matriculated at this University in the year 1816, and took his degree of B. A. in 1820. Mr. Twining served for some years on the Executive Committee, where his sound practical advice was highly valued, and he also filled the position of Vice-President. He ever took a lively interest in the affairs of the Institution, and always evinced a warm and affectionate regard for his Alma Mater. The Committee have also to record the death

of Sir Edward Cunard, Baronet, a life member of the Association, whose sudden demise in the midst of a life of usefulness, we all must deplore.

Your Committee have heard with regret that the College is about to lose the valuable services of Mr. McLeod, Professor of Mathematics, who has given great satisfaction since he assumed the duties of his office, and whose labors in his important department of science, have been of great benefit to the Institution.

The Committee recommend that, in future, for the purpose of saving the expense of printing, the Annual Report of your Committee be published with that of the Governors of the College.

The Treasurer’s account, which according to the Bye-Laws, is made up to the 30th April, shews a balance to the credit of the Institution at that date of \$817.63; which will be reduced by the payment of the salary of the Professor of Mathematics for the past year (\$200), voted at the last annual meeting, and of \$51.87 for printing, &c., so that the available balance at this date, is about \$427.96, to which, however, will be added the annual subscriptions for the current year, which are now about being collected in.

Your Committee beg to recommend to the favourable consideration of this meeting, the suggestions of Dr. Almon, made for the purpose of expediting the business at the annual meetings, viz :

1st.—That a Committee be appointed at the opening of each annual meeting for the purpose of examining and reporting upon the proxies submitted.

2nd.—That at the election of Governors, all nominations shall be made on or before 12 o’clock on the day of election, and that the ballot shall remain open for one hour thereafter.

The immediate business for this meeting is to elect three Governors in the places of Benjamin Curren, D. C. L., and Samuel P. Fairbanks, Esq., who in the order of their election, go out of office, and of Charles Bowman, Esq. who has retired from the Board.

The Committee refer with regret to the retirement of their President (Benj. Curren, D. C. L.,) who has ably filled the chair for four successive years, and who in that capacity, and also previously

as Vice President and member of the Committee, has by his regular attendance at their meetings, and judicious counsel at a critical period in our financial affairs, rendered valuable aid to the Institution. It will be the duty of this meeting also to elect three members of the Executive Committee in the place of Rev. Ferdinand Pryor, Dr. Gossip, and Dr. Almon, who retire by rotation, but all of whom are eligible for re-election.

By order,

FITZGERALD COCHRAN,

Secretary.

AN ACT TO INCORPORATE THE ALUMNI OF KING'S COLLEGE, WINDSOR.

Passed the 30th day of March, 1847.

WHEREAS, a number of persons have associated themselves under the name of the Alumni of King's College, Windsor, for the promotion of Education, and have raised by private contribution sums of money which they are desirous to expend in aid of the funds of the said College, and the Collegiate School, at Windsor, connected therewith, in or towards the maintenance and support of the teachers therein, or in such other way as may best conduce to the end which they have in view, and they are desirous of obtaining assistance from the Legislature, by the passing of an Act of Incorporation for enabling them to hold property, and to manage their affairs with greater ease and convenience.

1. Be it therefore enacted by the Lieutenant-Governor, Council and Assembly: that John T. Twining, James B. Uniacke, Henry Pryor, Hugh Hartshorne, and all and every such other person and persons as now are members of, or in the said society, and their successors, shall be and are hereby appointed a body, politic and corporate, in deed and in name, by the name of "The Alumni of King's College, Windsor," and by that name have succession and a common Seal, and by that name shall sue and be sued, plead and be impleaded, at law and in equity, and in all courts and places, and be able and capable in law to have, hold, purchase, get, receive, take, possess, and enjoy, lands, tenements, hereditaments and rents, in fee simple or otherwise, and also goods and chattles, and all other things real, personal and mixed, and also to give, grant, sell, let, assign or convey the same or any part thereof, and to do and execute all other things in and about the same, as shall or may be thought necessary or proper; and also shall have from time to time and at all times full power, authority, and license to constitute, make and establish such Bye-Laws, Rules and Ordinances, as may be thought necessary for the rule and good management of said society, the establishing of officers proper for the management of its affairs, and declaring the extent, duration, and

authority of the offices and officers of the society, and their mode of appointment, and generally for promoting the objects of the society, provided such Bye-Laws, Rules, and Ordinances be not contrary and repugnant to the Laws and Statutes of this Province, or those in force within the same, or to the Laws and Statutes of King's College, Windsor, respectively, at the time such Bye-Laws, Rules and Ordinances may be constituted and established, or to the provisions of this Act; and provided, also, that the said society shall not hold at any time, lands, tenements, hereditaments, goods, chattles, property or effects, of greater value than ten thousand pounds.

II. And be it enacted, that all persons paying an annual subscription of twenty shillings or upwards, or making at one time a donation of twenty pounds or upwards, shall be entitled to be members of the said society, having been duly admitted, pursuant to the Bye-Laws thereof, provided that such annual subscription or donation be actually paid into the funds of the society, and provided that no person now a member of the said society, or who, hereafter, may become a member of the same, shall, at any time hereafter, continue a member of the same, unless he shall have heretofore paid, or shall hereafter pay at one time into the funds of the said society a donation of at least twenty pounds, or shall hereafter annually, and from year to year, pay into the said funds the sum of twenty shillings or upwards: and if such annual subscription, or payment of any such annual member, shall not be paid on the first day of May in each year, such member shall thereupon cease to be a member of the said society, until such annual subscription or payment shall be actually paid, or until such person shall otherwise become a member of the said society, under some Bye-Law or Rule thereof.

III. And be it enacted that the said society shall be governed, and its affairs managed, by a committee of nine, comprising a President, Vice-President, and seven other members, a Secretary and Treasurer; the said committee to be henceforth called the Executive Committee, and such other officers as the said society, from time to time may think proper.

IV. And provided and be it enacted, that John T. Twining, D.D. now the President of the said society, shall after the passing of this said Act, be the President of the said society; that the Hon. Henry Hezekiah Cogswell, now the Vice-President of the said society, be the Vice-President of the said society, after the passing of this Act: that Samuel L. Shannon, Esquire, now the Secretary

and Treasurer of the said society, be the Secretary and Treasurer thereof, after the passing of this Act; and Samuel P. Fairbanks, Henry Pryor, James B. Uniacke, William J. Almon, Robert Fitzgerald Uniacke, Mather B. Almon, and Charles Twining, now the Managing committee of the said society, shall after the passing of this Act, be the executive committee of the said incorporated society, until an Executive committee be elected under this Act.

V. And be it enacted that all persons, without regard to religious denomination or difference of religious sentiment, may be and at any time hereafter become members, of the said incorporated society, being in all other respects entitled to be and become members of the said society, and now, and at any time hereafter, may hold any of the said appointments, or any other offices and appointments in the said incorporated society, being duly elected and appointed thereto, pursuant to the Bye-Laws thereof, any thing contained herein, or in any Rules, Regulations, or Bye-Laws of the said society, to the contrary notwithstanding.

VI. And be it enacted that the said society, incorporated as aforesaid, shall have power from time to time hereafter, to appoint the President, Vice-President, and executive committee, at some general meeting of the said society, by a majority of the members of the society present, the whole number present being not less than twenty members, according to such regulations concerning such appointments as may hereafter be made by any Bye-Laws of the said society, to be made by virtue hereof.

VII. And be it enacted that the secretary and treasurer of the said society, and such other officers as may hereafter be required for the management of its affairs, shall be appointed in such manner as shall be declared by the Bye-laws and Rules of the said society, to be passed by virtue hereof.

VIII. And be it enacted that all donations to the said incorporated society, to constitute life members or otherwise, of not less than twenty pounds, shall be invested under the direction of the executive committee as a permanent fund for the benefit of the said society, and that the funds of the said incorporated society shall from time to time, be laid out and applied by the executive committee in such way and for such purpose only as any general meeting of the said society may direct or appoint, and that the executive committee shall be bound and are hereby required annually to account to the society for all their acts, receipts, expenditure, and doings whatsoever, in the said office, and to make a report annually

to the said society, at its general meeting, of the progress and state of the said society, and of its affairs generally.

IX. And be it enacted that a general meeting of the said society shall be held once, that is to say, some time within the last ten days of the month of June, in each year, and as much oftener as may be directed by any Rule or Bye-Law of the said society.

X. And be it enacted, that the executive committee of the said society shall meet and assemble as often as there may be occasion, and any three members shall form a quorum.

BYE-LAWS

OF

The Alumni of King's College, Windsor.

PASSED AT A GENERAL MEETING HELD AT HALIFAX HOTEL, JUNE 27, 1848.

I. Besides the Annual General Meeting of the Incorporated Society, it shall be competent for the committee at any time, either of their own accord, or upon a requisition signed by at least ten of the members of the association, upon giving seven days notice in the public papers, to call a special general meeting of the association, specifying the purposes for which it is called, and in which meeting it shall be competent for the association to transact any such business as may be required. Ten members shall be deemed a quorum for the transaction of business.

II. That the books, accounts, and papers of the association shall be open at all times for the inspection of the members, and the secretary shall furnish an account of the affairs of the association whenever required by the committee.

III. That the treasurer and secretary, and such officers as shall be requisite for the incorporated society, shall be annually appointed by the Executive Committee.

IV. That at the annual meeting of the association, the president and vice-president shall alternately go out of office, accompanied by the first three of the committee, and that all or any of them having a majority of votes shall be eligible to be re-elected.

V. That at any meeting, members not present may vote by proxy in writing, to be held by any other member; provided that no member shall be entitled to vote either personally or by proxy, whose dues are not all paid up for the preceding year.

VI. That the funds of the association will be appropriated for the payment of one or more professors or lecturers, and one or more scholarships at the University of King's College, or one or

more teachers or exhibitions in the Collegiate School at Windsor, to be denominated the Alumni professorships and scholarships, respectively.

VII. That the association will scrupulously apply such donations as may be made to them, to such specific objects in aid of King's College, as may be directed by the donors respectively.

VIII. That all meetings of the incorporated society shall be opened with prayer.

IX. (*Passed at general meeting, of June 21st 1849.*) That the elections for members of the incorporation shall be by ballot.

RULES AND RESOLUTIONS

PASSED AT DIFFERENT TIMES, AND NOW ORDERED TO BE PUBLISHED.

THAT no resolution or proceeding inconsistent with or modifying any resolution or proceeding adopted by a general meeting, be entertained by the executive committee in Halifax, except upon a month's notice to the committee being given by the person proposing the same, and that no such resolution or proceeding be carried into effect until the same shall have been confirmed by a general meeting to be summoned for the consideration thereof, if necessary to be arranged before the annual general meeting.

That a corresponding committee of three residents in Windsor or, its neighborhood, the chairman whereof shall be, if possible, a member of the executive committee, be appointed to meet on the second Wednesday in every month, and at such other times as may be expedient, upon summons of the chairman, to confer with the officers of the College or Collegiate School upon any subject to be submitted to them either by such officers, or by the executive committee in Halifax, in reference to the College or School, and to report thereon to the executive committee.

A month's notice shall be given of all resolutions affecting the rights of members, or creating new offices or salaries.

No individual shall be entitled to vote under a parochial certificate unless he be authorized by a parish meeting.

All annual general meetings of this association shall be holden at Windsor.

That the treasurer make up his annual account to the 30th of April in each and every year.

All undergraduates, resident at College, shall be competent to compete for the prize or certificate for modern languages.

At the annual meeting held at Windsor, June 29, 1856, Dr. King moved the resolution, notice of which was given at the last annual meeting by the Rev. Dr. Twining, in reference to the mode of election of Governors, viz.: that the present mode of voting for each individual separately and in alphabetical order be discontinued, and that the usual mode of putting all the names proposed on the same ballot, out of whom those having the highest number shall be declared elected, should be adopted; which motion was seconded by

Dr. Almon. After considerable discussion, Mr. A. M. Cochran moved in amendment that the following proviso be added: "Provided that no person shall be declared elected as Governor unless he have a majority of votes cast." The amendment was seconded by Nepean Clarke, Esq., and carried. The original resolution of Rev. Dr. Twining, as amended by Mr. Cochran's proviso, then passed.

At the general meeting, October, 17th, 1856, it was *resolved*, "That the right of voting by proxy be in no way interfered with."

The following resolution was passed at the general meeting, 24th June, 1857:

Resolved, That the ballot be not sent round for any officer of this association, or of the Board of Governors, whose name has not been previously proposed and seconded by some member of the association; and that the ballot be not taken until all the names of all persons intended to be proposed for any office be given.

At the annual meeting held at Windsor, June 27, 1860, the following resolution was proposed by Dr. Almon, seconded by Rev. Dr. Robertson, and passed:

Resolved, that a prize of £5 be given to the student passing the best examination for matriculation, in June next. The day of examination and other details to be settled by the President of the College.

At the annual meeting held June 25, 1862, this grant was discontinued from the want of funds.

At the same meeting the Rev. G. W. Hill moved the following resolution, which was seconded by Dr. Almon, and passed unanimously:

Resolved, that the Executive Committee of the Associate Alumni be empowered at their monthly meetings, during the interval between one annual general meeting and the next, to elect members of the Incorporation, provided that no black beans be cast against them.

Rev. Professor Hensley moved the following resolution:
Whereas, the funds of this association are pledged, and consequently no funds are left for providing the Alumni scholarship and the usual prizes.

Resolved, that honorary certificates be granted in the several departments instead of the prizes as heretofore. Which passed.

At the annual meeting held at Windsor, on Wednesday, 28th June, 1865, the following resolution was proposed by A. M. Uniacke, Esq., D.C.L., and seconded by Col. Poyntz, and passed:

Resolved, That any member of this society whose annual subscription shall remain and be unpaid for three years, shall cease to be a member of this society, and can only be admitted as a new member by being proposed and seconded and duly elected pursuant to the bye-laws.

At the annual meeting held at Windsor, on Wednesday, 23rd June, 1869, the following resolution was proposed by A. M. Uniacke, D. C. L., seconded by Dr. Almon, and passed:—

“That the Board of Governors be requested to furnish, previous to the annual general meeting of the Associated Alumni in each year, for their information, a copy of the Treasurer’s account.”

At the same meeting, Rev. Charles Bowman moved the following resolution, which was seconded by Frederick Allison, and passed:

“That all officers of the Associated Alumni shall have been members of the Association, for at least one year previous to their appointment.”

Collegiate School, Windsor, N. S.

UNDER THE CONTROL OF THE GOVERNORS OF KING'S COLLEGE.

THIS School is in full operation under the charge of the Rev. G. B. Dodwell, for several years Head Master of Campden Grammar School, Gloucester, England, and late Professor in Lennoxville College, Canada East, who comes with the highest recommendations as a successful and experienced teacher in all the usual branches of a Classical and English Education.

Instruction will also be given in French, Spanish and Italian, with the assistance of Professor Stiefelhagen, Ph. D.

Parents who may send their sons may be assured that, besides due attention to their religious, moral and intellectual training, every care will be taken of their personal comfort in the household department, under the maternal supervision of Mrs. Dodwell, who has had large experience in that respect.

For further information application can be made to the Venerable the President of King's College, at Windsor, or to the Rev. Canon Cochran, M. A., Secretary to the Governors, at Halifax.

Practical Chemistry and Chemical Analysis.

KING'S COLLEGE, WINDSOR.

THE Governors of King's College have to announce that they have imported a collection of apparatus and chemicals, and fitted up a Laboratory, suitable to the prosecution of chemical researches, under the superintendence of the Professor of Chemistry in the University.

Professor How, who has acquired his experience in the first laboratories of England and Scotland, is now prepared to direct the studies of those who may wish to become acquainted with the practical details of a science, the knowledge of which is valuable to all, and necessary to those who follow certain avocations. Students may pursue, independently of others, and at hours convenient to them, a general course of experimental chemistry, and after acquiring a sufficient acquaintance with the modern modes of analysis, direct their attention to any particular branch of study, (as for example, agricultural, metallurgic, mineral or medical chemistry,) in which they may wish to pursue original investigations.

A scale of fees is made out, payable by all who engage in these practical studies, to indemnify the Governors for necessary loss of material involved; the fees are regulated according to the number of hours and days devoted to the subject; apparatus is supplied for students' use, and all breakages to be made good by them at cost price. The Professor is also ready to take all kinds of Analysis, as of Coal, Metallic Minerals, Agricultural Produce, Soils, Manures, Waters, etc., that may be submitted to him, and for professional consultation, verbally or by letter, at the College, on matters of Chemistry.

A scale of fees has been arranged, modelled on those usual in Great Britain and the United States, and, while moderate, adapted, as well as can be foreseen, to the particular cases likely to arise.

For scale of fees and hours, references to be made to the Rev. J. C. COCHRAN, Secretary to the Governors at Halifax; or to the Professor, at King's College.
