REFERENCES

References should be listed alphabetically at the end of the manuscript in the following style:

ELECTRONIC TRANSMISSION

It is possible to submit manuscripts on computer tapes, floppy discs or preferably by electronic transmission by BITNET, ARPANET (code WGNUTYP1GWEIZMANN). This shortens the time of processing and production. This should be done in addition to (not instead of) sending the manuscript in the traditional manner.

The journal is computer-composed which further shortens the time of publication.

REFEREES

All manuscripts will be judged by independent referees. Authors may submit a list of names of potential referees or, in case of possible controversy, to suggest who should not referee their paper. It should be understood that editors are not bound by these suggestions.

COVER PHOTOGRAPHS

Cover photographs will be selected from the current issue. However, the editor would be pleased to receive additional photographs of special interest to symbiotic associations. Photographs in duplicate and with a suitable brief caption and acknowledgement should be submitted to the editor.

PROOFS

Authors will receive proofs, which they are requested to correct and return as soon as possible. Authors should keep a copy of their manuscript, as proofs will be sent to them without manuscript. Authors making major revisions in proof will be required to bear the cost thereof.

REPRINTS

Twenty-five reprints will be supplied free of charge to the author(s). Additional reprints can be ordered at prices shown on the reprint order form which will accompany the proofs.
