

## CONTENTS

Culture and pyrenoid structure of a symbiotic <i>Chlorella</i> species isolated from <i>Paramecium bursaria</i> by M. Nakahara, S. Handa, T. Nakano, and H. Deguchi (Hiroshima, Japan) .....	203
The oldest fossil endophytic alga and its unusual habitat by A. Grewing, M. Krings, J. Galtier, H. Kerp, S.D. Klavins, and T.N. Taylor (Münster and München, Germany, Montpellier, France, and Lawrence, KS, USA) .....	215
Symbiosis in the Dryophthoridae weevils (Coleoptera, Curculionioidea): Morphological variability of symbiotic intracellular bacteria by P. Nardon, H. Charles, B. Delobel, C. Lefèvre, and A. Heddi (Villeurbanne, France) .....	231
Dual inoculation increases plant growth with <i>Frankia</i> on red alder ( <i>Alnus rubra</i> Bong.) in fumigated nursery beds by K.J. Martin, Y. Tanaka, and D.D. Myrold (Corvallis, OR and Centralia, WA, USA) .....	253
<i>In situ</i> localization and PGPR-effect of <i>Azospirillum brasilense</i> strains colonizing roots of different wheat varieties by M. Rothballer, M. Schmid, and A. Hartmann (Neuherberg, Germany) .....	261
Influence of invertebrate feeding on the lichen <i>Cladonia pocillum</i> by M. Backor, K. Dvorsky, and D. Fahselt (London, Ont., Canada and Kosice, Slovak Republic) .....	281
Induced activity of pathogenesis related (PR) proteins in aphid galls by M. Inbar, R.T. Mayer, and H. Doostdar (Tivon, Israel, Laramie, WY, and Ft. Pierce, FL, USA) .....	293
Review article. Tempo and mode of genomic evolution in endo- symbiotic bacteria of insects: The case of <i>Buchnera aphidicola</i> by A. Latorre, R. Gil, F.J. Silva, D. Martínez-Torres, and A. Moya (València, Spain) .....	301
Erratum (Vol. 34, 2003, pp. 153–154) .....	317
Author Index Vol. 34 .....	319
List of Referees for Vols. 34 and 35 .....	320
Forthcoming Events .....	321
Announcements .....	322
