In Memoriam — Dr. Luís Torgo

It is with profound sadness that we announce the passing of Dr. Luís Torgo on April 11th, 2023, following an illness. Our hearts go out to his wife and two sons: Catarina, Hugo and Pedro during this difficult time.

Dr. Torgo was a brilliant mind and a respected leader in the field of Spatiotemporal Ocean Data Analytics. As a Tier 1 Canada Research Chair and Professor at the Faculty of Computer Science, he made a lasting impact on the academic community. He also held esteemed positions at the University of Porto in Portugal and the Stern Business School of New York University, USA.

At Dalhousie University, Dr. Torgo served as the Deputy Director of the Institute for Big Data Analytics and Head of the Research Cluster on Big Data Analytics, AI, and Machine Learning. He was a senior researcher at LIAAD/INESC Tec in Porto, Portugal, and an associate member of the Artificial Intelligence Institute of the University of Waikato in New Zealand. Dr. Torgo was widely known for his kindness, professionalism, and unwavering commitment to his research, which earned him international recognition.

We at the Faculty of Computer Science feel the loss of Dr. Torgo deeply. He was a valued colleague and friend, always ready with a smile and a helping hand. His contributions to the academic community and his dedication to his field will be sorely missed.

We invite you to visit [Dr. Torgo's memorial page](#) to share your memories and condolences.

During this difficult time, we also want to remind everyone that EFAP is here to support you. If you need to talk to someone, please reach out to them at 1-800-387-4765 or visit workhealthlife.com.
