Calcutta

Land Log - book

1806

Friday 10th April

M - +

It appears from this
day's paper that our loss
at taking the Cape was
only between 80 and 90 men

— Mr. Gattuspi called with
a letter from Mr. Rolton
+ whether in Lat. 25° North
the sun can, at any time
on any day of the year, shine
through a window facing the
north. —

+ 9.30. AM Showy East - Shower
but little rain lasted $\frac{3}{4}$ hour

1006
Saturday 19th April.

M - 6 - 4

7 a m. Thel. Well 02.5

Windy 06.5

A little cloudy - wind to
back breeze - in p.m. or quite

Sunday 20th April

M - ⁰ - ⁰
Weather the same for the
then in four weeks past
+ Messrs. Han Bailey, Stanley
with us.

Monday 21st
M

Paid rent for last month
Off. F. G. & Co 12.5
Dinner -

My step cleaned the shells
this morning - many
lost - rather stolen. The servants
of this country all thieves -
They think it no crime to
steal from a Balatte (white
man).

Thunder also distant on the
 N. West part of the horizon —

— 20th cont^d —
4 $\frac{1}{2}$ began to rain thunder
increased —

5 p.m. very heavy rain
and very loud thunder
wind N. W. pretty strong

6 - During last hour it
has thundered and rained
without intermission
I do not remember ever
to have heard so many
and so loud claps of
thunder. — The sky was
one incessant blaze. It
was covered with smoke
coloured clouds. —

7. Lightⁿ just now began
to abate a little. Tho'
for the greatest part of the
hour it continued as during
the last —

8. Still thunder but at
great intervals — rain
over — There has been
this evening more lightⁿ
thunder I ever saw in the
same space of time
— It was a regular N.W.
cloud for and advanced
towards the S.E. where
the wind continued to

blow from the opposite
direction - The thunder
commenced in the N. W
cloud long before the wind
shifted, and therefore, as
usual when it comes to
blow from the N. W.
it did not commence so
suddenly, nor during
the whole N. West but
it blows so strongly as
on other occasions. -

9. A little thunder
but at a distance
no rain -
