

1. In a metaphysical point
of view what is the difference
between the mind's perceiving what
is to come and remembering it
in fact? —

2. In going up a Steer when we
attempt to make a step more
than enough, we feel a disagree-
able shock, give the cause —

4. Whence arises the sensation
of rolling and moving which
we experience after landing
and which continues for some
days? Can this wear off in
a long voyage? —

Now

5. What is the cause of what Sea-
men call *laid* and *half laid*? —

5. It is alledged by some that we cannot both see and hear at the same time - also that we cannot hear with both ears, or see with both eyes at the same instant of time -

6. Most of the errors of and inconsistencies of Metaphysics and wisdom arise from an abuse of terms - Names - Berkeley &c

7. An old man remembers much better what he did in his youth than at a middle age, given the cause -
- What connections have impressions on matters with those on mind? -

8. There can be no language formed for the mind - Inclination - affection
