That Meets Every Modern Demand

Compare the perfect speed and harmony in the execution of affairs of life to-day with the painstaking, often ineffectual management of similar matters of only a hundred or so years ago.

The extent of the change is manifest in the higher and more prosperous standard of living conditions, but the individual factors that contributed to bring it about are perhaps not so obvious.

Truth it is, however, that many factors—and particularly those which offered facilities for greater speed and dependability in the transaction of business—played a vital part.

Of these, none was of greater value than the Telephone.

From the smallest beginning, Telephone Service grew rapidly. And in direct relation to the extent of its magnitude came the value of its service.

To-day, Telephone Service is universal, not only with regard to its international links, but on account of its extensive use in every leading nation of the world.

Every commercial nation must rely upon its Telephone Service if it is to hold its place in the modern world of competition. And the Telephone, realizing the vital part it is playing, will continue to supply an unfailing service and endeavour to meet every demand that the world shall make upon it.

**A Good Living
A Profitable Future
A Provision for
Old Age**

THE Canada Life Assurance Company has a District in the Province of Ontario, offering these opportunities.

There is a certain man, with no Life Insurance experience, with whom we desire to get in touch; likely a very promising business man between twenty-five and forty-five years of age, who realizes the limitations across his path of opportunity, and whose abilities require greater outlook and earning capacity.

Such a man may want to make a move, but hesitates to "take a plunge."

There is a better way: The Canada Life will undertake to thoroughly educate him for the life insurance business, which has been growing and will grow as has no other business, a business which offers permanent success, does not fluctuate, is a professional occupation and has been truly named "The best paid hard work in the world."

This is done by close contact, a correspondence course and personal assistance, free of charge.

The first two booklets of the course will be sent to anyone interested. All correspondence strictly confidential.

Seven Merchants of Halifax

FOUNDED in 1869 by seven merchants of Halifax, who realized the urgent need of increased trading facilities for the community, The Royal Bank of Canada has now reached its Diamond Jubilee.

To promote and foster the best interests of Canada was the aim of the pioneers who founded this institution, and that spirit, maintained throughout sixty years of growth from a local institution to a great international bank, still guides our work to-day.

The Pilot Doesn't Worry

FFIFTY below in the Arctic night—
and a plane down, with a defective
spark plug and an empty tank.

The spark plug can be replaced, but
that won't help without gasoline to
turn the motor—and the nearest
"town" is a few Eskimos and a trading
post across the lake at Blackfish Point.

But the pilot doesn't worry. He
knows there is a cache of Imperial
Gasoline at Blackfish, and someone
there to help him.

The great wealth of Canada's north
is being found from the air many years
before it could be reached afoot,
because men are willing to adventure
and supplies are there when they are
needed.

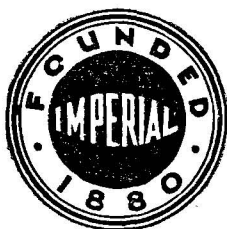

These supplies come from the
Imperial Oil Refineries. By ship up
through Hudson Strait into the Bay,
by rail beyond the Pas, by paddle
wheeler down the Peace and Mac-
Kenzie Rivers they go to distributing
points. In winter, dog teams and sleds
drag them further into the wilderness.

For fifty years Imperial Oil has been
meeting the new needs of trans-
portation and industry. Because it
has met each need with enterprise and
energy, Imperial has become a great
company—serving every corner of
Canada—its ships on the Atlantic and
Pacific—its pipe-lines in the tropics.

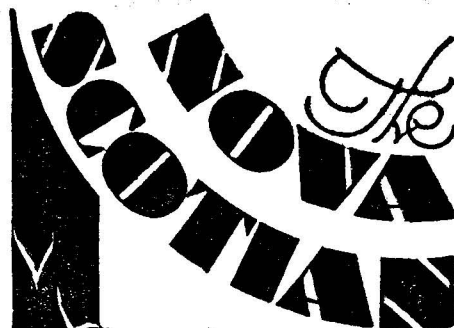

Fifty years of constant enterprise are
in the products Imperial Oil sells
to-day.

Imperial Premier and Imperial
Ethyl are its best gasolines.

Which means that nothing finer can
be put in your car.

EXTRA YEARS OF INCOME

Just as the thrifty depositor patronizes that savings bank which offers the highest interest rate commensurate with safety and service, so does the foresighted buyer of personal life insurance favor an institution assuring his ultimate beneficiary the most favorable return on policy proceeds left with the Company.

If he reflects that the principal of \$20,000.00 will pay an income of \$100.00 a month for 154 months longer at our rate of interest than at 5%, this differential of practically \$15,400.00 or 12 years additional income seems rather important.

On Dividends and monies left with the Company under the alternative method of settlement The Sun Life is paying 5½% with gradual increases every five years until 6% is reached.
