

THE SMOKE OF THE BRITISH EMPIRE

This famous old Kentish tavern, the Leather Bottle Inn, will be remembered as the retreat whither fled the lovelorn Tracy Tupman of Dickens' "Pickwick Papers".

ASSOCIATION...

THE associations surrounding the name WILLS are more than substantiated by the quality, flavour and general excellence of W. D. & H. O. Wills' Gold Flake cigarettes.

Fastidious Canadian smokers find W. D. & H. O. Wills' Gold Flake cool, sweet, mild and fragrant . . . the cream of the crop . . . made in the time-honoured English manner, with their more delicate flavour and finer finish.

The full freshness and flavour are sealed in with cellophane.

THE SPOON IN THE CADDY

One Rakwana enthusiast finds it handy to keep a salt spoon in her tea caddy because it just holds a half teaspoonful—and that's all you need to make a delicious cup of the Golden Orange Pekoe.

The Pilot Doesn't Worry

Fifty below in the Arctic night—and a plane down, with a defective spark plug and an empty tank.

The spark plug can be replaced, but that won't help without gasoline to turn the motor—and the nearest "town" is a few Eskimos and a trading post across the lake at Blackfish Point.

But the pilot doesn't worry. He knows there is a cache of Imperial Gasoline at Blackfish, and someone there to help him.

The great wealth of Canada's north is being found from the air many years before it could be reached afoot, because men are willing to adventure and supplies are there when they are needed.

These supplies come from the Imperial Oil Refineries. By ship up through Hudson Strait into the Bay, by rail beyond the Pas, by paddle wheeler down the Peace and MacKenzie Rivers they go to distributing points. In winter, dog teams and sleds drag them further into the wilderness.

For fifty years Imperial Oil has been meeting the new needs of transportation and industry. Because it has met each need with enterprise and energy, Imperial has become a great company—serving every corner of Canada—its ships on the Atlantic and Pacific—its pipe-lines in the tropics.

Fifty years of constant enterprise are in the products Imperial Oil sells to-day.

Imperial Three Star and Imperial Ethyl are its best gasolines.

Which means that nothing finer can be put in your car.

LIFE'S ESSENTIAL

Sugar is human energy in its purest form—a single pound contains 1800 energy calories, and if these could be transmuted into mechanical energy, a pound of sugar could lift itself a thousand miles in the air—it could raise a one ton steel girder half a mile straight up—it could keep a 110 watt electric lamp burning continuously for almost twenty hours.
