## INTRODUCTION.

King's College was founded A.D., 1789, by an act of the Provincial Legislature, chiefly through the exertions of the Right Reverend Charles Inglis, D.D., first Bishop of Nova Scotia. For this foundation funds were granted by the Provincial Legislature, and subsequently by the British Government.

By the Royal Charter granted in 1802, all the privileges of a University were conferred on King's College, which thus became the first University of British origin established in Canada.

A Provincial Act incorporating the Governors of King's College and annulling the Act of 1789, was passed April 4th, 1853. It provides that the Royal Charter of Incorporation shall not be affected by it further than is necessary to give effect to its own enactments.

The Patron of the University is the Archbishop of Canterbury, to whose approval "all Statutes, Rules and Ordinances" of the Board of Governors are subject by resolution of the Board of Governors recorded in the Statutes of the University.

King's College is open to students of all denominations, and imposes no religious test either on entrance or on graduation in any faculty, excepting that of Divinity.

The University confers degrees in Arts, Divinity, Law, Engineering and Science. The School of Engineering was added in 1871.

Candidates for matriculation may now be examined at distant centres, under special regulations, which will be found in the Calendar.

The aggregate outlay necessary for the three years' residence and study qualifying for a degree will of course depend much upon the tastes and economy of the student, but may be estimated at about \$150 to \$200 per year. The mere money payment demanded need never, however, exclude a candidate really prepared to benefit by the course of instruction offered, inasmuch as many benefactors of the University possess the right of nomination. Each nominee is exempt from the payment of

yearly fees, amounting to \$90 for the three years' course, besides the fee for a B. A. degree. There being some forty certificates conferring this privilege, it is easy for students to obtain it. If a scholarship is held besides, nearly the whole cost of education will be covered. The Calendar supplies all necessary information with regard to these nominations.

A general statement of the financial condition of the University is appended.

The Examiners for the past Academical year, outside the Faculty, were as follows: *Classics*, Rev. Canon Partridge, D. D. *Divinity*, Rev. R. D. Bambrick, M. A. *Hebrew*, Rev. Archdeacon Smith, D. D. *Mathematics and Engineering*, Col. O'Brien, R. E., Martin Murphy, Esq., D. Sc. *Science*, H. Y. Hind, Esq., D. C. L.

A teacher of vocal and instrumental music has been recently added to the staff of instructors in the Collegiate School. New maps, charts and apparatus for scientific instruction will be added to the equipment before the opening of the School in September, 1889.

## COURSE OF STUDY.

The object aimed at in the Arts Course is to impart a good general education, while every facility is afforded for the prosecution of special studies. Accordingly every matriculated student, except under peculiar circumstances to be approved of by the College Board, is required to attend the Lectures of all the Professors until he has passed his Responsions. After this he is at liberty to select three or more of the subjects lectured on to form the subject of his B. A. Examination. If the student be desirous of taking Honours at his B. A. Examination he can do so in any one or more of the subjects lectured on after passing the ordinary Examination. The precise regulations will be found under the head of Examinations.

There are at present in the University five Schools open to matriculated students:—

- I. The School of Arts.
- II. “ “ Divinity.
- III. “ “ Engineering.
- IV. “ “ Science.
- V. “ “ Civil Law.

Students who do not intend proceeding to a degree may attend the Lectures of any of the Professors, subject to the usual regulations, and can obtain from the Registrar certificates of examinations passed.

The course of Engineering is framed with a view of giving the student a sound and thorough training in Mathematics, pure and applied; a comprehensive knowledge of Engineering and applied Science, together with such practical experience in work connected with the profession of a Civil Engineer as it is within the scope of the University to afford.

Numerous Scholarships, Prizes, and Honorary Distinctions are open to be competed for by students in the several faculties, the principal of these being the following:—

One Cogswell Scholarship.....	£24 sterling.
Eight Divinity Scholarships ..	£30 sterling each.
One Binney Exhibition.....	\$50.

## EXAMINATIONS AND GRADUATION.

### Terminal Examinations.

Every student will be required to undergo an examination at the end of each term in all the subjects in which he has attended lectures. Any Professor may, at his discretion, dispense with examinations in optional subjects.

Every Undergraduate, previous to presenting himself for any Terminal Examination, will have to obtain from each Professor whose lectures he has attended during the term, a certificate of attendance and good conduct.

No Professor will grant such certificate if more than two absences without leave, during the course of the term, are recorded against the applicant, or if his conduct shall have been in any way reprehensible.

Such certificates will then be handed in by the Senior of each class to the President, who shall post in the Commons' Hall a list of eligible candidates, previous to the beginning of the examination, and no Undergraduate shall be allowed to present himself at any Terminal Examination unless he shall have complied with these regulations.

The list of candidates who shall have passed the Terminal Examination shall be published in the hall after the final meeting of the College Board for that term. Any student whose name does not appear in the list, provided he shall have failed in but one subject, shall be allowed, at the beginning of the following term a supplementary examination in that subject.\* But if he shall have failed in more than one subject, the supplementary examination shall include the entire work of the term in which he shall have failed.

\*Students requiring a supplementary examination must apply to the Board of Discipline, enclosing a fee of five dollars.

## THE UNIVERSITY LIBRARY.

The foundation of the Library is due to the efforts of the first Bishop of Nova Scotia, and may be placed in the year 1790. Several contributions in money had previously been received, but it was not till that year that efforts were made to obtain books.

The original fund at the disposal of the Governors was not more than £250 sterling, and was intrusted to Mr. Inglis (afterwards Bishop,) son of the Bishop, and a graduate of the University, who repaired to England in 1800, for the purpose of purchasing books. The names of Dr. Moore, Archbishop of Canterbury, Dr. Porteous, Bishop of Rochester; William Wilberforce, Sir S. Bernard Morland, John Eardly Wilmot, M. P., and others, thus became connected with the early history of the Library.

Munificent gifts from the University of Oxford continued to increase the value of the collection, which was further enriched by gifts from various English gentlemen, and from others settled in Nova Scotia.

The room in the College building set apart for many years for a Library Hall, was completed in 1810 at the expense of Sir Thomas Strange and the Archbishop of Canterbury.

Subsequently valuable works were presented by Drs. Bayard and McCulloch, and by the Society for Promoting Christian Knowledge.

Among later benefactors may be mentioned Dr. Greswell, of Worcester College, Oxford; The Smithsonian Institute; The British and Foreign Bible Society; The Dean and Chapter of Westminster; T. B. Akins, Esq., D.C.L.; The Society of Incorporated Alumni of King's College; E. Binney, Esq.; C. Cogswell, Esq., M. D.; The Dominion Government; The Radical Bay Club; The Haliburton Club; The Secretary of the Interior, United States; American Institute of Mining Engineers; The Royal Society; The Religious Tract Society; The Rev. George

McCawley, D.D.; The late Rev. Canon Hensley, D.D.; General Sir W. F. Williams, K.C.B.; The late Bishop of Nova Scotia; The Right Rev. Dr. Rigaud, late Bishop of Antigua; The Rev. George Morris; The late Rev. G. W. Hodgson, M.A., and Her Majesty the Queen.

This large collection of books, now numbering about 9000 volumes, contained till the year 1870 in a single room in the College Building, was then removed to the new Hall specially built for the purpose and presented to the University by the Incorporated Alumni. It contains a large number of standard works of reference in Theology, which is by far the richest department in the Library, and a fair selection of the great Greek and Latin Classics.

In modern History and Belles-Lettres it is very poorly supplied.

In Science some recent standard works have from time to time been added, and, next to Theology and Classics, this is the largest department. The languages of Modern Europe are not so well represented.

In spite of many blanks, the Library is one of the largest in the Province, and contains all the elements requisite for making it a thoroughly well appointed and efficient Reference Library.

There is no special Library Fund except the fee from students, and the collection can only be increased by grants of money from the Governors, the occasional lapsing of the Welsford prize money, and the benefactions of friends of the University.

#### GEOLOGY AND MINERLOGY.

The Geological Specimens, many of which are very fine, illustrate the most prominent features of general Geology, but the majority have been collected in Nova Scotia, and are especially adapted to show the character of the Fossil Flora and Fauna of the Province. There are several collections, which may be discriminated as follows:—

1. The W. B. Almon's Collection, presented over forty years ago by Mrs. W. B. Almon, of Halifax, contains, with many minerals and a few shells, a considerable number of rock specimens and a few fossils, chiefly from Scotland, collected by the late W. B. Almon, M. D.

2. The Governors' Collection consists of coal fossils obtained in 1860, at the expense of the Governors of the College; these were collected by Professor How, with the valuable assistance of a party headed by Richard Brown, Sr., Esq., then agent at the Sydney Mines, who from long study was familiar with the district. Many of the specimens are exceedingly fine; and some are of large size.

3. The Alumni Collection consists of Silurian and Devonian, Fossils, chiefly from Arisaig, N. S., collected, named and arranged stratigraphically by Dr. Honeyman; purchased and presented in 1861 by the Alumni of King's College.

4. The Australian Collection consists of specimens obtained through Colonel Nelson, in 1863, from Sir William Dennison, then Governor of New South Wales, in exchange for Nova Scotian specimens from the College Cabinet, sent by Professor How. It contains some beautiful fossils, and is arranged stratigraphically; its value is increased by an accompanying large detailed colored section made by the Government Examiner of Coal Fields under instructions from Sir W. Dennison.

5. A collection of British Fossils, chiefly Silurian and Devonian, obtained through Dr. McCawley in exchange for Nova Scotian specimens sent by Professor How from the College Cabinet, in 1860, to Captain, now Sir James, Anderson.

6. A collection from Europe, illustrating chiefly the nature of crystalline and sedimentary rocks, purchased by the Governors.

7. Several collections, some of which are unnamed, and single specimens, given and obtained by exchange at various times; of these it will suffice to name: Reptilian Tracks of great geological interest presented by the widow of their discoverer, the late Dr. Harding; valuable Fossils, chiefly carboniferous, presented by H. Poole, Esq.; Silurian Fossils from Arisaig, presented by H. Hill, Esq., Sheriff of Antigonish; Coal Plants from Cumberland County, presented by Rev. Mr. Townshend, Rector of Amherst; Cretaceous Fossils from England, presented by C. B. Bowman, Esq., and Dr. Honeyman; Silurian and Carboniferous Fossils of Nova Scotia, from Professor How; Rocks and Minerals from the Dominion Government; Devonian Corals of Ontario and Canadian Rocks from Professor Spencer.

The Mineralogical specimens represent the most important species of Minerals,—some of them are of great beauty. They consist of those in the collection of Zeolites collected at the expense of the Governors, and of various others obtained by gifts and exchange, as mentioned with regard to the geological department. Sir Rupert George; Rev. Dr. Robertson, Rector of Wilmot; H. Brown, Esq., Director of the Geological Survey of Victoria, formerly a distinguished student in Science at this College; Rev. J. Ambrose; Rev. J. C. Cochran; C. B. Bowman, Esq.; J. Bowman, Esq.; Rev. D. W. Pickett; Hon. W. Odell, and Professor How, have presented interesting specimens.

#### ZOOLOGY.

The Willis Collection consists of specimens fully illustrating Nova Scotia Mollusca, named, arranged, and presented by J. R. Willis, Esq.; a collection from the U. S. Government.

The department is further illustrated by a collection of foreign shells, some interesting skulls and skins, and a limited number of preserved animals.

#### BOTANY.

The Cogswell Herbarium, bound in five imperial folio volumes contains a fine systematically arranged collection of Phœnogamous and Cryptogamous Plants of Great Britain, presented by Dr. Cogswell.

The Gossip Herbarium consists of a small number of Scottish Plants presented by Dr. Gossip.

The Willis Herbarium consists of Nova Scotia Algæ and Terrestrial Plants, presented by J. R. Willis, Esq.

The Strange Herbarium consists of a considerable number of East India Plants, presented in 1805, by Sir T. Strange.

The Ball Herbarium of Nova Scotia, consisting of about 250 species, presented by Rev. E. H. Ball.

There are also a few woods, barks, leaves and fruits—from various sources—presented by C. B. Bowman, Esq., Hon. W. J. Almon, M. D., and other benefactors.

#### THE GENERAL COLLECTION.

The General Collection consists of various curiosities from different parts of the world, and a small but choice cabinet of coins. Other interesting curiosities are the beautiful Indian Pipe from Queen Charlotte's Island, the models of the leaning Tower and the Baptistery at Pisa, and the memorials of Gens. Williams and Inglis, which include the sword worn by the former throughout the siege of Kars, and that used by the latter during the defence of Lucknow. There is also a model of the Cawnpore Memorial Cross, formed of wood from the house in the courtyard of which the women and children were massacred.

The College possesses also a number of autographs of royal and distinguished personages; one of Thomas Moore, the poet, inscribed in a copy of Lucian, presented by him on the occasion of his visit.

The Coins illustrate the Numismatic of Rome, and most of the countries of the modern world.

The different departments of the museum are arranged in twenty-four flat cases, supported by the balustrade surrounding

the gallery, and five large table cases all glazed and provided with lock and key. The large specimens which could not be conveniently placed in cases are arranged on shelves or distributed in different parts of the hall.

The friends of Science in Nova Scotia and elsewhere are respectfully requested to contribute specimens to the Museum of King's College. The steps which have been lately taken by the Governors to provide suitable cases for the arrangement and display of the contents of the Museum in the fine Hall erected at the expense of the Alumni, offer a guarantee that the liberality of donors will be carefully recognized and fully recorded.

A superb collection of Loyalist China, over three hundred pieces, arranged in three cases, was presented by Judge and Mrs. Weldon, on the 79th anniversary of the landing of the Loyalists in New Brunswick.

In the library, in addition to a number of Photographs, there are several large Oil Paintings—including those of the late Drs. McCawley and Cochran, Rev. Charles Porter, A.M., and of Paul Mascarene. There are also marble busts of General Williams and of Cicero and Demosthenes.

It is particularly requested that donors will send their contributions of Books, Coins and Curiosities addressed to the *Librarian* and of Natural History specimens to the *Natural History Curator*, King's College Museum, Windsor, N. S., in order that the receipt may be duly acknowledged and the donations recorded in the yearly Calendars as heretofore.

## LATIN PROSE.

The love of a mother is never exhausted; it never changes it never tires. A father may turn his back on his child, brothers and sisters may become inveterate enemies, husbands may desert their wives, wives their husbands, but a mother's love endures through all. In good repute, in bad repute, in the face of the world's condemnation, a mother still loves on, and still hopes that her child may turn from his evil ways and repent. Still she remembers the infant smiles that once filled her bosom with rapture, the merry laugh, the joyful shout of his childhood, the opening promise of his youth, and she can never be brought to think him all unworthy.

I never spoke the word "farewell,"  
But with an utterance faint and broken;  
A heart-sick yearning for the time  
When it should never more be spoken.

## LATIN PROSE.

*Farrar's Life of Christ.*

The effects of the work of Christ are, even to the unbeliever, indisputable and historical. It expelled cruelty; it curbed passion; it branded suicide; it punished and repressed an inexcusable infanticide; it drove the shameless impurities of Heathendom into a congenial darkness. There was hardly a class whose wrongs it did not remedy. It rescued the gladiator; it freed the slave; it protected the captive; it nursed the sick; it sheltered the orphan; it elevated the woman; it shrouded as with a halo the sacred innocence, the tender years of the child. In every region of life its ameliorating influence was felt. It changed pity from a vice into a virtue; it elevated poverty from a curse into a beatitude. It sanctified marriage from little more than a burdensome convention, into little less than a blessed sacrament. The believer finds in that life a perfect example; in that death an infinite redemption.

SECOND SESSION.

I.

- (a) Translate into French:—

*Julius Cæsar*.—The man who broke the military power of Gallia in an eight years' war has written the history of the war himself. He was a soldier in his youth like most Romans of rank, and he had been a governor in Spain shortly before he was consul. But it was not till after he was more than forty years of age that his military career commenced, and he obtained a field wide enough for his daring and capacious genius. It was Cæsar's ambition to conquer the Gauls and it was prudent policy in the Romans, for Italy was never safe so long as the restless and warlike men beyond the Alps were unsubdued. The rapidity of Cæsar's movements, the immense extent of country over which his military operations extended, his battles, his sieges, his defeats, and his victories with their political consequences give to his work an untiring interest if we read it with proper knowledge and in a proper way.

- (b) A Mutual Mistake.—

Two men were travelling in a stage-coach when one of them having missed his pocket-handkerchief rashly accused the other with having stolen it, but soon after finding it had the good manners to beg his fellow-traveller's pardon for the affront saying that it was a mistake; to which the other replied with great readiness and coolness, "Don't be uneasy; it was a mutual mistake you took me for a thief and I had taken you for a gentleman."

- (c) Translate the following Idioms and Proverbs:—

Il tondrait sur un œuf. Ce jeune homme a peu de moyens. Mes élèves ont fait l'école buissonnière. Qui veut la fin veut les moyens. Alumni Professorship :—Read Dr. Partridge's letter of August 8th, 1890, referred to in clause 9 of the Report of the Executive Committee (page 116) as follows :—

HALIFAX, N. S., Aug. 8th, 1890.

Dear Mr. Wilson,—I am desirous of bringing before the Executive Committee of the Alumni of King's College the proposition to establish an Alumni Professorship, in the same way that the alumni of other institutions of learning in the Province support a professor, viz. : by guaranteed subscriptions per year.....

I will head the subscription list with \$25.00.....

It might be a professorship of Constitutional Law and History. This would save our own law students a year of their course if they took these studies as part of the qualification for B. A. ....

Trusting to see the thing accomplished by the next annual meeting of the Alumni.

Yours truly,

F. PARTRIDGE.

Dr. Partridge explained his views, and the subject was very fully discussed, and the following resolution adopted :—

*Resolved*, That this annual meeting of the Associated Alumni do establish and provide for a tutorship, the incumbent of the position to be known as the *Tutor in Science*.

*Resolved*, That the Alumni Association pledges itself to raise the sum of at least \$1000.00 during the current year towards the financial purposes of the University, with a view to its being made a permanent grant; and that a representative committee be now formed to take the necessary steps to procure subscriptions, of whom three shall be a quorum.

The following committee was appointed to act under the foregoing resolution :—

Rev. Canon Partridge,  
Prof. Roberts,  
John B. Forster,

#### REPORT OF THE EXECUTIVE COMMITTEE. (See page 113).

WINDSOR, N. S., 24th June, 1891.

The Executive Committee of the Alumni of King's College, Windsor on their 44th Anniversary, submit the following

#### REPORT,

1. They have the pleasure of announcing that the Ven. Archdeacon Jones, of P. E. I., Rector of Windsor, has kindly consented to deliver the Alumni Oration at the Encænia to-morrow.

2. The Treasurer's accounts for the year ended 30th April, showing a balance in hand of \$444.73, and duly audited, is submitted herewith.

3. Two governors of the college are to be elected in place of Rev. Dr. Willets and Hon. Senator Almon, who go out of office under sec. 3, cap. 66, acts of 1853,

4. Under by-law IV. the president goes out of office, but is eligible for re-election.

5. Under the same by-law Rev. Dr. Bowman, Hon. S. L. Shannon and Mr. W. Ker Dimock, retire from the committee, but are eligible for re-election.

6. The committee beg to congratulate the alumni on the marked success which has attended the effort begun at the last annual meeting of the alumni to establish a girl's school.

Immediately after the meeting communication was opened with the Synods of Nova Scotia and Fredericton, which entered enthusiastically into the scheme. A prospectus was issued—stock subscribed—directors and trustees appointed—the beautiful property of Edgehill in Windsor purchased—the house fitted for temporary use—a staff teachers engaged—and

the school opened on 8th January, with 43 pupils, the full number that could be accommodated.

Applications for admission of pupils far beyond the capacity of the building being received, the Boards of Management felt warranted in commencing the erection of a new building, of imposing appearance, and especially adapted for school purposes, the corner stone of the wing of which was laid yesterday by Sir John C. Allen, Chief Justice of New Brunswick.

The school closed for the term on the same day with appropriate exercises and an exhibition of the work and studies of the pupils, reflecting the greatest credit on Miss Machin, the principal, and her very efficient staff of assistants.

The accomplishment of so much within the short space of one year is very largely due to the indefatigable efforts of Dr. Hind, who from its inception threw himself into the movement with his well known energy and zeal. It has been with him a labor of love, and the warmest thanks of the alumni are due for his unwearied exertions.

The trustees were happy in the selection of the staff, to whom the success of the educational department is due. Miss Machin, the principal, brought with her from Quebec an excellent reputation, and this has been amply sustained since her connection with this institution. The announcement of her name as principal at once gave friends confidence in the internal management of the school. The selection of assistants also, several of whom were with Miss Machin in Quebec, has been singularly fortunate.

7. The committee regret to have to announce the death during the year of Thomas Beamish Akins, D.C.L. hon., 1865, whose reputation as a literary antiquary and student of American history is almost world-wide.

He ever took a warm interest in King's College, and in addition to previous donations bequeathed to the College some 265 volumes of valuable books and 8 paintings.

9. The committee submit a letter, Aug. 8th, 1890, from Rev. Dr. Partridge, relative to the establishment of an alumni professorship.

7. The college, hereby incorporated, shall be taken to be an university, with all usual privileges of such an institution, whether relating to the conferring of degrees and honors, or otherwise.

8. From the time of this act coming into operation until the appointment of a full board of governors, by virtue hereof, the present governors, shall, notwithstanding this act, continue to exercise all the powers which are now vested in them, by the act hereby repealed, and the royal charter which they now hold.

9. All academical honors and degrees, and all rights, powers, privileges, and authorities, now had, held, or exercised by any person, by virtue of the act hereby repealed, or of the charter hereinbefore referred to, except so far as they may be necessarily

taken away, altered, abridged, or affected, by, or in consequence of this act, shall be had, held, and exercised, in relation to the college hereby incorporated, as fully as they are now had, held, or exercised.

10. The royal charter, incorporating "the governors, president, and fellows of King's college, at Windsor, in the province of Nova-Scotia," shall not be in any manner effected by this act except so far as may be necessary to give effect to this act.

STATUTES OF NOVA SCOTIA, 1883, (46 VIC.) p. 157.

CHAPTER 63.

An Act to amend the Act to incorporate the Governors of King's College Windsor.

(Passed the 19th day of April, A.D., 1883.)

Be it enacted by the Governor, Council and Assembly, as follows :

1. The number of the Governors of King's College, Windsor, shall be increased to fifteen, by the addition of two Governors,

who shall hereafter be elected from time to time by the Diocesan Synod of Nova Scotia, and shall be members of that Synod at the time of their election. Such additional Governors so to be elected, shall hold office for four years and shall go out of office alternately, and one of such Governors shall be elected at each regular biennial session of the Diocesan Synod of Nova Scotia. Until such election can take place, J. Norman Ritchie and Charles James Stewart of Halifax, Esquires, who have been nominated by the said Synod for the purpose at its last session, shall be and they are hereby appointed, Governors of King's College, Windsor; the said Charles James Stewart to continue in office until the session of said Synod in 1884, and the said J. Norman Ritchie until the session of said Synod in 1886. In case of the death or resignation of any of said additional Governors, the vacancy shall be filled at the next ensuing session of the Diocesan Synod of Nova Scotia, and the Governor then elected shall hold office for the residue of the term of four years.

[“ In all cases the out-going Governor may be re-elected, if then a member of the Synod.” Journal of the 16th session, 1882, of the Diocesan Synod of N. S., p. 82. See sec. 4 below.]

2. Whenever and so soon as the Diocesan Synod of Fredericton shall by resolution declare King's College at Windsor to be the college approved by said Synod for the education and training of the divinity students of the diocese of Fredericton, the Governors of King's College, Windsor, may by resolution, duly passed at a meeting called for that purpose, still further increase their number by the addition of three more Governors, one to be the Lord Bishop of Fredericton for the time being who shall then be *ex officio* a Governor of King's College, and the remaining two to be elected from time to time by the Diocesan Synod of Fredericton in such way and for such term as the said Diocesan Synod may from time to time limit and appoint, and to be members of that Synod at the time of their election. But if at any time thereafter the approval and support of the Diocesan Synod of Fredericton should be withdrawn from King's College, or the divinity students of that Diocese should cease to attend said college, the persons so elected by the Synod of that Diocese, and also the Bishop of Fredericton, shall thereupon cease to be

Governors of King's College, Windsor, and the number of said Governors shall be reduced to that extent, which reduction shall be effected by a resolution of the Governors of King's College, Windsor, passed at a meeting called for that purpose.

[Governors elected by the Diocesan Synod of Fredericton hold office for one year, and are eligible for re-election if then members of the Synod.]

The canon of the Synod of Fredericton, governing the election is as follows:—

CANON XIV., KING'S COLLEGE, WINDSOR.

1. King's College, Windsor, Nova Scotia, shall be recognized as the Theological Institution of the Diocese of Fredericton.

2. Two members of the Board of the Governors of King's College shall be elected annually by ballot, one from the Clergy and one from the Lay Members of the Synod, and shall hold office until others shall be elected in their places.]

3. Whenever and so soon as the Diocesan Synod of Newfoundland shall by resolution declare King's College at Windsor to be the college approved by the said Synod for the education and training of the divinity students of the Diocese of Newfoundland, the Governors of King's College, Windsor, may by resolution duly passed at a meeting called for that purpose, still further increase their number by the addition of two more Governors to be elected from time to time by the Diocesan Synod of Newfoundland, in such way and for such time as the said Diocesan Synod may from time to time limit and appoint. But if at any time thereafter the approval and support of the Diocesan Synod of Newfoundland should be withdrawn from King's College, or the divinity students of that diocese should cease to attend said college, the person so elected by the Synod of that diocese, shall thereupon cease to be Governors of King's College, Windsor, and the number of said Governors shall be reduced to that extent, which reduction shall be effected by a resolution of the Governors of King's College, Windsor, passed at a meeting called for that purpose.

[The Diocesan Synod of Newfoundland has not yet availed itself of the privileges conferred by this section.]

4. All Governors elected by virtue of this Act, shall as regards their eligibility for re-election be subject to the regulations of the Synod by which they have been elected respectively, notwithstanding the provisions of Chapter 100 of the Acts of the Legislature of Nova Scotia for 1866.

## KING'S COLLEGE SCHOOL, WINDSOR, N. S.

HEAD MASTER: REV. ARNOLDUS MILLER, M. A.

*Of Toronto University, and Victoria University, Coburg.*

This School is in direct connection with King's College, and is carried on under regulations prescribed by the Board of Governors.

The object of the School is to provide a sound religious, classical, mathematical, and general education, in conformity with the principles of the Church of England; but it is open to all denominations without restriction.

Pupils belonging to the Church of England attend the Sunday Services in the College Chapel, but those of other denominations may, if required by their parents, attend the Sunday services of the denomination to which they belong. In the latter case certificates of proper attendance will be required from the minister.

While ample provision is made to prepare boys for the University and high Civil Examinations, the utmost attention is devoted to imparting such a training as may fit them for all pursuits and professions and enable them to take that position in society which is conceded only to men of liberal education and refined habits.

The Collegiate School was never in a more prosperous condition. At present all the available room is occupied, and it will be in all probability necessary to make an addition to the school buildings within a short time.

## COURSE OF INSTRUCTION.

The course of instruction includes all the usual branches of a sound education in Classics, Mathematics, German, French, etc.

## TERMS.

The School Year is divided into three Terms, viz. :

Michaelmas, Lent and Trinity Terms.

Michaelmas Term begins the third Saturday in September.

Lent-Term begins the third Saturday in January.

Trinity Term begins the first Saturday in April.

## FEES.

Boarders.....	\$200 per annum.
Day Scholars.....	40 "

The fees are distributed over the year, as follows :

Boarders—Michaelmas Term.....	\$80
Lent and Trinity Terms.....	60 each.

Modern Languages—Boarders and Day Scholars—Michaelmas Term \$5. Lent and Trinity Terms, \$3.50 each.

A half Term's notice must be given in writing or a half Term's fee paid previous to the removal of a pupil.

There are two exhibitions connected with the School, one of \$40 and the other of \$20, and a prize of \$15 for French.

## Rules Regulating the Collegiate School Prizes or Exhibitions.

"The exhibitions shall be annually contended for, the first prize to be open to the Senior form alone; the second to all the forms of the School except the Senior."

The exhibition of forty dollars shall be awarded to the pupil of the Senior form who shall stand first on the list of Examiners, and the second exhibition of twenty dollars to the pupil of all the other forms who shall stand first on the list of the Examiners.

No pupil shall be entitled to the highest exhibition unless the examination he has passed shall be such as to qualify him to matriculate at King's College, though it is not compulsory for him so to do.

Several years ago a third prize was added to the number, viz. : one of ten dollars for the best Scholar in the French language, open for competition to the whole school.

The Committee in charge of this prize fund offer for the year 1891 a prize of fifteen dollars for the best Scholar in French, open to all the school, and five dollars for the best scholar in German, also open to all the school.
