Introduction.

King's College was founded A. D. 1789, by an act of the Provincial Legislature, chiefly through the exertions of the Right Reverend Charles Inglis, D. D., first Bishop of Nova Scotia. For this foundation funds were granted by the Provincial Legislature, and subsequently by the British Government.

By the Royal Charter granted in 1802, all the privileges of a University were conferred on King's College, which thus became the first University of British origin established in Canada.

A Provincial Act Incorporating the Governors of King's College, and annulling the Act of 1789, was passed April 4th, 1853. It provides that the Royal Charter of Incorporation shall not be affected by it further than is necessary to give effect to its own enactments.

The Patron of the University is the Archbishop of Canterbury, to whose approval all "Statutes, Rules and Ordinances" of the Board of Governors are subject by resolution of the Board of Governors recorded in the Statutes of the University.

King's College is open to students of all denominations, and imposes no religious test either on entrance or on graduation in any faculty, excepting that of Divinity.

The University confers degrees in Arts, Divinity, Law, Engineering, Science and Literature. The School of Law, situated in St. John, N. B., was established in 1892.

Candidates for Matriculation may now be examined at distant centres, under special regulations, which will be found in the Calendar.

The aggregate outlay necessary for the three years' residence and study qualifying for a degree will of course depend much upon the tastes and economy of the student, but may be estimated at about \$200 per year. The mere money payment demanded need never, however,

exclude a candidate really prepared to benefit by the course of instruction offered, inasmuch as many benefactors of the University possess the right of nomination. Each nominee is exempt from the payment of certain yearly fees, (See Stat. Cap. III, Sec. 2,) besides the fee for a B. A. degree. There being some forty certificates conferring this privilege, it is easy for students to obtain it. If a scholarship is held besides, nearly the whole cost of education will be covered. The Calendar supplies all necessary information with regard to these nominations.

A general statement of the financial condition of the University is appended.

The examiners for the past Academical year, outside the Faculty, were as follows: *Classics*, Rev. Canon Partridge, D. D. *Hebrew*, the Venerable Archdeacon Smith, D. D. *Engineering*, M. Murphy, Esq., D. Sc., and C. E. W. Dodwell, Esq., B. A.

Course of Study.

The object aimed at in the Arts Course is to impart a good general education, while every facility is afforded for the prosecution of special studies. Accordingly, every matriculated student, except under peculiar circumstances to be approved of by the College Board, is required to attend the Lectures of all the Professors until he has passed his Responsions. After this he is at liberty to select three or more of the subjects lectured on to form the subject of his B. A. Examination. If the student be desirous of taking Honours at his B. A. Examination, he can do so in any one or more of the subjects lectured on after passing the ordinary Examination. The precise regulations will be found under the heading of Examinations.

There are at present in the University six Schools open to matriculated students :—

- I. The School of Arts.
- II. “ “ Divinity.
- III. “ “ Engineering.
- IV. “ “ Science.
- V. “ “ Law.
- VI. “ “ Literature.

Students who do not intend proceeding to a degree may attend the Lectures of any of the Professors, subject to the usual regulations, and can obtain from the Registrar certificates of examinations passed.

The course of Engineering is framed with a view of giving the student a sound and thorough training in Mathematics, pure and applied ; a comprehensive knowledge of Engineering and applied Science, together with such practical experience in work connected with the profession of a Civil Engineer as it is within the scope of the University to afford.

The course for B. Sc. has been established for carrying on advanced study in Mining and Chemistry.

Every student will be required to undergo an examination at the end of each term in all the subjects in which he has attended lectures. Any Professor may, at his discretion, dispense with examination in optional subjects.

Every undergraduate, previous to presenting himself for any Terminal Examination, will have to obtain from each Professor whose lectures he has attended during the term, a certificate of attendance and good conduct.

No Professor will grant such certificate if more than two absences without leave, during the course of the term, are recorded against the applicant, or if his conduct shall have been in any way reprehensible.

Such certificates will then be handed in by the Senior of each class to the President, who shall post in the Commons' Hall a list of eligible candidates, previous to the beginning of the examination, and no undergraduate shall be allowed to present himself at any Terminal Examination unless he shall have complied with these regulations.

The list of candidates who shall have passed the Terminal Examination shall be published in the hall after the final meeting of the College Board for that term. (Date.)

(C. D.)

In case of a joint certificate, the above form must be complied with, and the same must be signed by all the holders.

Each nominee is exempt from the payment of certain yearly fees, besides the fee for a B. A. Degree. If a scholarship is held besides, nearly the whole cost of the education will be covered.

Conditions Attached to the Nomination Certificates.

1. That on death or transfer the certificate is to be delivered up, and a new certificate obtained. Fee \$2.
2. That the right of nomination belongs to the executors, administrators, or assigns of the original holder, and not to the heirs.
3. No nomination will be accepted which is not signed by the person or persons in whose name or names the certificate is registered.

The University Library.

The foundation of the Library is due to the efforts of the first Bishop of Nova Scotia, and may be placed in the year 1790. Several contributions in money had previously been received, but it was not till that year that efforts were made to obtain books.

The original fund at the disposal of the Governors was not more than £250 sterling, and was intrusted to Mr. Inglis (afterwards Bishop), son of the Bishop, and a graduate of the University, who repaired to England in 1800 for the purpose of purchasing books. The names of Dr. Moore, Archbishop of Canterbury; Dr. Porteous, Bishop of Rochester; William Wilberforce, Sir S. Bernard Morland, John Eardly Wilmot, M. P., and others, thus became connected with the early history of the Library.

Munificent gifts from the University of Oxford continued to increase the value of the collection, which was further enriched by gifts from various English gentlemen, and from others settled in Nova Scotia.

The room in the College building set apart for many years for a Library Hall, was completed in 1810 at the expense of Sir Thomas Strange and the Archbishop of Canterbury.

Among later benefactors may be mentioned The Smithsonian Institute; the British and Foreign Bible Society; T. B. Akins, Esq., D. C. L.; The Society of Incorporated Alumni of King's College; E. Binney, Esq.; C. Cogswell, Esq., M. D.; the Dominion Government; The Institution of Civil Engineers; American Institute of Mining Engineers; The Royal Society; The Religious Tract Society; The Rev. George McCawley, D. D.; The late Rev. Canon Hensley, D. D.; General Sir F. W. Williams, K. C. B.; The late Bishop of Nova Scotia; The Rev. George Morris; The late Rev. G. W. Hodgson, M. A., and Her Majesty the Queen.

This large collection of books, now numbering over 12,000 volumes,

was in 1870 removed to the new Hall specially built for the purpose and presented to the University by the Incorporated Alumni.

In spite of many blanks, the Library is one of the largest in the Province, and contains all the elements requisite for making it a well appointed and efficient Reference Library.

An excellent Catalogue, prepared in 1893 by Mr. Harry Piers, at the direction of the Board of Governors, in accordance with the will of the late Charles Cogswell, Esq., M. D., contains much valuable historical information, and shows both the wealth and the deficiencies of the Library.

There is no special Library Fund except the fee from students, and the collection can only be increased by grants of money from the Governors, the occasional lapsing of prize money and the benefactions of friends of the University.

The Museum.

NATURAL HISTORY.

Geology and Mineralogy.

The Geological Specimens, many of which are very fine, illustrate the most prominent features of general Geology, but the majority have been collected in Nova Scotia, and are especially adapted to show the character of the Fossil Flora and Fauna of the Province. There are several collections, which may be discriminated as follows:—

1. The W. B. Almon Collection, presented over forty years ago by Mrs. W. B. Almon, of Halifax, contains, with many minerals and a few shells, a considerable number of rock specimens and a few fossils, chiefly from Scotland, collected by the late W. B. Almon, M. D.

2. The Governors' Collection consists of coal fossils obtained in 1860, at the expense of the Governors of the College; these were collected by Prof. How, with the valuable assistance of a party headed by Richard Brown, Sr., Esq., then agent at the Sydney Mines, who, from long study, was familiar with the district. Many of the specimens are exceedingly fine, and some are of large size.

3. The Alumni Collection consists of Silurian and Devonian Fossils, chiefly from Arisaig, N. S., collected, named and arranged stratigraphically by Dr. Honeyman; purchased and presented in 1861 by the Alumni of King's College.

4. The Australian Collection consists of specimens obtained through Colonel Nelson, in 1863, from Sir William Dennison, then Governor of New South Wales, in exchange for Nova Scotian specimens from the College Cabinet, sent by Professor How. It contains some beautiful fossils, and is arranged stratigraphically; its value is increased by an accompanying large detailed colored section made by the Government Examiner of Coal Fields, under the instructions of Sir W. Dennison.

5. A collection of British Fossils, chiefly Silurian and Devonian, obtained through Dr. McCawley in exchange for Nova Scotian specimens sent by Professor How from the College Cabinet, in 1860, to Captain, now Sir James Anderson.

6. A collection from Europe, illustrating chiefly the nature of crystalline and sedimentary rocks, purchased by the Governors.

7. Several collections, some of which are unnamed, and single specimens, given and obtained by exchange at various times; of these it will suffice to name: Reptilian Tracks of great geological interest presented by the widow of their discoverer, the late Dr. Harding; valuable Fossils, chiefly carboniferous, presented by H. Poole, Esq.; Silurian Fossils from Arisaig, presented by H. Hill, Esq., Sheriff of Antigonish; Coal Plants from Cumberland County, presented by Rev. Mr. Townshend, Rector of Amherst; Cretaceous Fossils from England, presented by C. B. Bowman, Esq., and Dr. Honeyman; Silurian and Carboniferous Fossils of Nova Scotia, from Professor How; Rocks and Minerals from the Dominion Government; Devonian Corals of Ontario, and Canadian Rocks from Professor Spencer.

The Mineralogical specimens represent the most important species of Minerals,—some of them are of great beauty. They consist of those in the collection of Zeolites collected at the expense of the Governors and of various others obtained by gifts and exchange, as mentioned with regard to the geological department. Sir Rupert George; Rev. Dr. Robertson, Rector of Wilnot; H. Brown, Esq., Director of the Geological Survey of Victoria, formerly a distinguished student in Science at this College; Rev. J. Ambrose; Rev. J. C. Cochran; C. B. Bowman, Esq.; J. Bowman, Esq.; Rev. D. W. Pickett; Hon. W. Odell and Professor How, have presented interesting specimens.

Zoology.

The Willis Collection consists of specimens fully illustrating Nova Scotia Mollusca, named, arranged and presented by J. R. Willis, Esq.; a collection from the U. S. Government.

The department is further illustrated by a collection of foreign shells, some interesting skulls and skins, and a limited number of preserved animals.

Botany.

The Cogswell Herbarium, bound in five imperial folio volumes, contains a fine, systematically arranged collection of Phænogamus and Cryptogamus Plants of Great Britain, presented by Dr. Cogswell.

The Gossip Herbarium consists of a small number of Scottish Plants, presented by Dr. Gossip.

The Willis Herbarium consists of Nova Scotia Algæ and Terrestrial Plants, presented by J. R. Willis, Esq.

The Strange Herbarium consists of a considerable number of East India Plants, presented in 1805 by Sir T. Strange.

The Ball Herbarium of Nova Scotia consists of about 250 species, presented by Rev. E. H. Ball.

There are also a few woods, barks, leaves and fruits—from various sources—presented by C. B. Bowman, Esq., Hon. W. J. Almon, M. D., and other benefactors.

The General Collection.

The General Collection consists of various curiosities from different parts of the world, and a small but choice cabinet of coins. Other interesting curiosities are the beautiful Indian Pipe from Queen Charlotte's Island, the models of the Leaning Tower and the Baptistry at Pisa, and the memorials of Generals Williams and Inglis, which include the sword won by the former throughout the siege of Kars, and that used by the latter during the defence of Lucknow. There is also a model of the Cawnpore Memorial Cross, formed of wood from the house in the courtyard of which the women and children were massacred.

The College possesses also a number of autographs of royal and distinguished personages; one of Thomas Moore, the poet, inscribed in a copy of Lucian, presented by him on the occasion of his visit.

The Coins illustrate the Numismatics of Rome, and most of the countries of the modern world.

The different departments of the Museum are arranged in twenty-four flat cases, supported by the balustrade surrounding the gallery, and five large table cases all glazed, and provided with lock and key. The large specimens which could not be conveniently placed in cases are arranged on shelves or distributed in different parts of the hall.

The friends of Science in Nova Scotia and elsewhere are respectfully requested to contribute specimens to the Museum of King's College. The steps which have been taken by the Governors to provide suitable cases for the arrangement and display of the contents of the Museum in the fine Hall erected at the expense of the Alumni, offer a guarantee that the liberality of donors will be carefully recognized and fully recorded.

A superb collection of Loyalist China, over three hundred pieces, arranged in three cases, was presented by Judge and Mrs. Weldon, on the 79th anniversary of the landing of the Loyalists in New Brunswick.

In the Library, in addition to a number of Photographs, there are several large Oil Paintings—including those of the late Drs. McCawley and Cochran, Rev. Charles Porter, A. M., the late Dr. J. T. Twining, and of Paul Mascarene. There are also marble busts of General Williams and of Cicero and Demosthenes.

It is particularly requested that donors will send their contributions of Books, Coins and Curiosities, addressed to the *Librarian*, and of Natural History Specimens to the *Natural History Curator*, King's College Museum, Windsor, N. S., in order that the receipt may be duly acknowledged, and the donations recorded in the yearly Calendars as heretofore.

Prayers by the Bishop.

The minutes of last annual meeting, 20th June, 1894, were read and approved.

The following were laid upon the table:—The minute book of the Board of Governors; statements of the College finances.

Proxies were handed in, examined, and found correct.

The following were duly proposed and elected members of the Association:—

The following graduates paid their fees and became, *ipso facto*, members of the Association, under the rules:—Rev. W. H. E. Bullock, M. A.; A. B. de Mille, B. A.; Rev. H. H. Pittman, M. A.; F. W. Borden, B. A.; F. G. Forbes, B. A.; W. D. Sutherland, B. A.

The chairman reported that, under No. 9 of "Rules passed at different times," the Executive Committee had, at its meetings during the year, elected the following as members of the Association:—Rev. L. Amor, Rev. W. B. Bellis, Rev. E. P. Crawford, Rev. W. Hayes, Rev. R. A. Heath, Rev. J. Lockward, Rev. C. P. Mellor, Rev. T. C. Mellor, Rev. N. I. Perry, Rev. E. Underwood, Rev. J. Warner, Rev. C. White, Rev. A. R. P. Williams, Rev. J. M. Withycombe, Rev. J. M. Davenport, Rev. P. Owen Jones, Rev. W. E. Brine, J. E. Dimock, George I. Foster, Andrew Morash, Andrew Mackinlay, John W. Power, J. J.

Anslow, G. D. Campbell, J. C. Davis, F. Ledden, F. Story, G. A. Schofield, Allen O. Earle, John Taylor, James Stevens, H. H. Pickett, Allen B. Wilmot, Fred. Perrin, G. M. Acklom, L. F. M. Gent, Dr. H. W. Gregory, J. A. Humble, H. D. Holloway.

The Report of the Executive Committee (including the Treasurer's account) was submitted, considered clause by clause, amended, and adopted, as follows:—

Report of the Executive Committee.

A year ago the Executive Committee directed attention to the financial condition of the College, and urged the necessity of adopting some measure of relief. We have again to express our regret that the Committee appointed to collect funds to pay off the indebtedness, which was incurred chiefly in effecting repairs and improvements in the College building and in the buildings and grounds of the Collegiate School, are still unable to make any satisfactory report.

A large saving was however effected in the expenditure of the year by the adoption of the scheme passed at the last annual meeting of the Alumni and printed on p. 107 of the Calendar for 1884-95; and we understand that the Governors have succeeded in funding the debt at 5%, thus making a saving in interest of more than \$400.00 per annum.

We are gratified to know that the College has received a donation of \$1,000.00 from Rev. E. A. Hoffman, D. D., Dean of the General Theological Seminary, New York, and will also, in a short time, receive a bequest of about \$2,400.00 under the will of the late Rev. A. H. Weeks.

THE COLLEGE.

It is satisfactory to note that notwithstanding the disquieting rumors affecting the College last year, the number of students in attendance during the year has been above the average.

THE COLLEGIATE SCHOOL.

The Collegiate School has been under the patronage of the Alumni ever since the Society was incorporated, and fitly so, as the School exists for the College, and its success or retrogression must of necessity affect the College. While the number of pupils in attendance was not quite up to that of the preceding year, the committee trust that this was merely a temporary depression, and that the prospects for the future warrant the hope that the continued growth of the School under the new regime will be realized, especially in view of the fact that there has been an expenditure of \$9,000 on the property, the interest on which must be a first charge on the income of the School.

Three boys from the School entered the College during the year.

THE CHURCH SCHOOL FOR GIRLS.

This Institution sustains well the good reputation which it has already made

for itself, and continues to make satisfactory progress. During the year just closed, 79 boarders have been, for a longer or shorter period, in residence, (as against 80 last year, and 70 the year before), the *average* attendance being 66 $\frac{2}{3}$ for 1895, and 64 for 1894. Two girls from the School passed well in the matriculation examination in June last, but, we regret to say, did not enter College.

THE NEW ACT.

We feel it our duty to call special attention to the important legislation concerning the College which has been effected during the year.

A Scheme providing for the enlargement of the Board of Governors by the election of a member from each Rural Deanery in Nova Scotia and New Brunswick, and three from P. E. Island, and for the appointment of a "College Council" and a "Finance Committee," was discussed and adopted at the last annual meeting of the Alumni. The different parts of this Scheme were to be embodied in a Bill (*vide* Calendar, 1894-95, p. 106) by a committee to whom the arrangement of the necessary details was entrusted, with instructions "to safeguard the interests of the Alumni in every particular."

"An Act respecting the Governors of King's College, Windsor," passed at the last session of the Legislature, (see p. 122, this Calendar), deals only with the enlargement of the Board—passing over and making no provision for safeguarding the interests of the Alumni, nor for a "College Council" and a "Finance Committee," which were essential conditions in the acceptance of the Scheme by the Alumni, and were by resolution required to be incorporated in the Bill. They are not mere matters of detail which may safely be left in the hands of the Board of Governors, for there is no security that the Board, of which less than one-third of the members are now elected by the Alumni, may not either repudiate any obligation to carry out the aforementioned provisions, or, in carrying them out, fail to give due prominence to the interests of the Associated Alumni. As regards the appointment of the Finance Committee especially, this oversight in the Bill is a matter of grave importance to the Alumni. The obligations and responsibilities of this Society with regard to funds raised in their name for the endowment of the College, was set forth in the Report of the Executive Committee last year, (*vide* Calendar, 1894-95, pp. 98, 99, 102). Notwithstanding these responsibilities, the Alumni are now required to hand over, without condition or restriction, the entire management of the trust funds of the College to a body over which they have neither directly nor indirectly any control.

Again, whereas the Act of 1883, providing for the election of Governors by the Diocesan Synods, made the distinct condition that "if at any time the approval and support of the Diocesan Synod of Fredericton should be withdrawn from King's College, or the Divinity Students of that Diocese should cease to attend said College, the persons so elected by the Synod of that Diocese, and also the Bishop of Fredericton shall thereupon cease to be Governors of King's College," the new Act, omitting any such condition, orders absolutely the election "of one Governor for each of the several deaneries now established in Nova Scotia and New Brunswick," and further orders that "in the event of the es-

"establishment of any additional deanery in either of the said Provinces, then a Governor shall be elected for every such additional deanery." The possible inconvenience at some future time of such an unconditional law is obvious.

Again, the Alumni, in adopting the Scheme which provided for the enlargement of the Board by the election of a Governor "from each Rural Deanery," required that such Governors should be "resident Churchmen of the sphere from which they were elected," (Calendar, 1894-95, p. 106). We do not find any such condition embodied in this Act, which only directs the election of "one Governor for [not "from"] each of the several deaneries." Thus the expressed object of "the widening of the representation of Church people on the Board" is not so fully carried out in the new Act as was intended.

The principle upon which the Act makes the electors of the several deaneries to consist of "the rectors and clergymen in charge of parishes resident in the deanery or archdeaconry . . . and the lay delegates to the Diocesan, Provincial and General Synods of the Church of England in Canada respectively, "resident within any of the parishes of the said deanery or archdeaconry," is not very clear. Of the clergy it disfranchises the Dean and one of the Canons of the Cathedral, and several others holding prominent positions in the Diocese, while it gives a vote to any *locum tenens* or curate who may have temporary charge of a parish in the absence of the rector. As to lay electors, if the object was to distribute the interest throughout the provinces, this could have been attained by giving the franchise to the Churchwardens of the several parishes; but, as many of the delegates to the Synod are not resident in the parishes which they represent, some parishes are deprived of the privilege of the lay vote altogether, and others, notably those in the Deanery of Halifax, are accorded an accumulation of lay votes such as certainly was not intended by the Alumni when the principle of Deanery representation was agreed to. Furthermore, the giving of votes to the lay delegates to the Provincial and General Synods, if it means anything, seeing such delegates are already delegates to the Diocesan Synods, means only increasing the powers of the Diocesan Synods; for the delegates to the higher Synods are chosen by the Diocesan Synods, and the parishes have no voice in their election.

It is to be noted that the Act fixes no date for the first meeting of the new Board, and gives no *interim* authority to the old Board to transact the necessary business of the College, and it makes no arrangement for any meetings of the Board, ordinary or otherwise.

Much more might be said regarding the unsatisfactory character of this Act; but we have dealt with it only so far as it affects the interests of the Alumni. In conclusion, we would point out that the aforementioned Act completely changes the status of the Alumni in relation to the College. This Society, as was set forth in the Report of the Executive Committee last year, to which we have before referred, has been instrumental in raising the major part of the Endowment of the College; it has materially assisted by its annual grants in maintaining the efficiency of the College; it was incorporated, and continues to exist,

for the express purpose of promoting the welfare of the College; and for thirty years it was entrusted with the sole power of electing Governors for the College; but now, by this recent legislation, it is so shorn of its privileges and prerogatives that it can appoint but 12 members out of a Board of 37, which Board has the full management of trust funds and of all matters connected with the College, and is in no way controlled or restricted by this Society.

DATE OF ANNUAL MEETING.

The necessary amendment of the Act of Incorporation to allow the Annual Meeting to be held on the day preceding the Encænna, was obtained at the last session of the Legislature. (See p. 124, this Calendar.)

SUSTENTATION FUND.

The last annual meeting overlooked the special vote of the previous two years of \$500.00 (in addition to the usual vote of \$350.00) towards the salary of the Professor of Modern Languages. The Governors called the attention of the committee to the fact, and asked if the omission could in any way be repaired. There being in hand a sum of \$420, collected on this account, for 1893-4, the committee paid the Treasurer of the Governors \$400.

The Chairman of the Sustentation Fund sub-committee submits a statement of collections during the past year.

TREASURER'S ACCOUNTS.

The Treasurer's Account, duly audited, and showing balance in hand on current account of \$46.33, and Investments amounting to \$5,896.33, is submitted herewith.

VACANCIES BY ROTATION.

Under Sec. 3, Cap. 66, Acts of 1853, the Rev. Dr. Bowman and Mr. C. S. Wilcox retire from the Board of Governors, and it devolves on this meeting to fill the vacancies.

The President of the Alumni, accompanied by Rev. F. J. H. Axford, Rev. F. W. Vroom and Mr. W. L. Payzant, of the Executive Committee, go out of office under By-law IV. These vacancies are now to be filled.

The Bishop presented to the Association, on behalf of the *Society of Colonial Wars*, a medal, recently struck in commemoration of the 150th anniversary of the capture of Louisburg, (June 17, 1745,) from the metal of an old brass cannon found upon a French frigate blown up in the harbor during the siege, to be known as the "Louisburg medal." In further commemoration of the anniversary, a monument, erected on the site of the old fortifications at Louisburg, was unveiled by a deputation from the Society of Colonial Wars on Monday, 17th instant.

On motion of his lordship the medal was accepted with cordial thanks to the Society.

The resolution is as follows:—

"That the Chancellor of this University be requested to communicate with the authorities of all the Church of England Universities in the Dominion of Canada, with the view of providing a Board of Examiners appointed by the several Universities, on whose certificate alone, each University will agree to confer its degrees in Arts, the value and standing of which will thus be established and recognized, not only in Canada, but abroad, and the Universities of the Church of England be drawn closer to each other in mutual help and coöperation, and enabled more efficiently to promote the interests of the Church whose handmaids they are."

After discussion it was Resolved:—

"That this Association is in accord with the Lennoxville suggestion regarding degrees in Arts and Science, and appoints the Bishop and the President of the College a committee to correspond on the subject."

Re precautionary notice recently given to the President and Professors of the College, the following resolution was adopted:—

"*Whereas*,—The Board of Governors have again given notice to the President and Professors that their services will not be required after 30th instant, and

"*Whereas*,—The financial statement laid upon the table at this meeting shows that the sum of \$2,500 has been paid off during the current year of the \$10,000 borrowed from the Visitor's Fund, and that there is a balance still remaining to the credit of the College in the hands of the Treasurer, therefore

"*Resolved*,—That the Board of Governors be requested to renew the engagement of the said President and Professors upon such terms as they may think right in the conjoint interest of the College and of the said President and Professors, with the exception of Professor Roberts, who has signified his desire that he be not reappointed."

A cordial vote of thanks was accorded to the President for his able conduct in the chair.

An Act to Amend the Act to Incorporate the Governors of King's College, Windsor, and to Repeal the Act for Founding, Establishing and Maintaining a College in this Province.

(Passed the 7th day of May, A. D., 1866.)

Be it enacted by the Governor, Council, and Assembly as follows :

1. Sections 2 and 3 of the above named Act are hereby amendd by adding to the third section the following words :—

But if at any time thereafter the approval and support of the Diocesan Synod of Fredericton should be withdrawn from King's College, or the Divinity students of that Diocese should cease to attend said College, the persons so elected by the Synod of that Diocese, and also the Bishop of Fredericton, shall thereupon cease to be Governors of King's College, Windsor, and the number of said Governors shall be reduced to that extent, which reduction shall be effected by a resolution of the Governors of King's College, Windsor, passed at a meeting called for that purpose.

The School has been entirely reorganized and the accommodation greatly improved. The main building has been heated throughout with hot water, and the dormitories refurnished; the baths and lavatories, and the whole system of sanitation and drainage have been renewed, and everything possible has been done to render the School healthy and comfortable.

Attention has also been given to the appliances for exercise and recreation; the Instructor is in attendance daily for gymnastics and drill, and a recent extension to the gymnasium provides ample music-rooms, play-room and workshop. The cricket field has been levelled and drained, and an open-air skating rink formed.

The boys have also a good library and reading-room, with indoor games for the winter.

Pupils at the Collegiate School are prepared for matriculation at King's and other colleges for the R. M. C., Kingston, and other public examinations, or for commercial life.

The ordinary fee for boarders is \$200 per annum, and several valuable scholarships and prizes are given annually.

The boys attend services at the College Chapel on Sundays, and have daily religious instruction and prayers in the house.

Full details as to the reorganization of the School, course, fees, etc., will be found in the Calendar for 1895-6, which can be obtained from the Head-Master.
