Introduction.

KING'S COLLEGE was founded A. D. 1789, by an Act of the Provincial Legislature, chiefly through the exertions of the Right Reverend Charles Inglis, D. D., first Bishop of Nova Scotia. For this foundation funds were granted by the Provincial Legislature, and subsequently by the British Government.

By the Royal Charter granted in 1802, all the privileges of a University were conferred on King's College, which thus became the first University of British origin established in Canada.

A Provincial Act incorporating the Governors of King's College, and annulling the Act of 1789, was passed April 4th, 1853. It provides that the Royal Charter of Incorporation shall not be affected by it further than is necessary to give effect to its own enactments.

The Patron of the University is the Archbishop of Canterbury, to whose approval all "Statutes, Rules and Ordinances" of the Board of Governors are subject by resolution of the Board of Governors recorded in the Statutes of the University.

King's College is open to students of all denominations, and imposes no religious test either on entrance or on graduation in any faculty, excepting that of Divinity.

The University confers degrees in Arts, Divinity, Law, Engineering, Science, Literature, and Medicine. The School of Law, situated in St. John, N. B., was established in 1892.

Candidates for Matriculation may now be examined at distant centres under special regulations, which will be found in the Calendar.

The aggregate outlay necessary for the three years' residence and study qualifying for a degree will, of course, depend much upon the tastes and economy of the student, but may be estimated at about \$250 per year. The mere money payment demanded need never, however, exclude a candidate really prepared to benefit by the course of instruction offered, inasmuch as many benefactors of the University possess the right of nomination. Each nominee is exempt from the payment of certain yearly fees, (See Stat. Cap. III, Sec. 2.) besides the fee for a B. A. degree. There being some forty certificates conferring this privilege, it is easy for students to obtain it. If a Divinity scholarship is held besides, nearly the whole cost of education will be covered. The unabridged Calendar supplies all necessary information with regard to these nominations.

Non-resident Undergraduates are admitted to the College Course and Graduation, under regulations which will be found in the Calendar.

The lists of members of the University, winners of Prizes, holders of Nominations, and much other matter are omitted from this Calendar, but will be published again in the full Calendar in 1902.

A general statement of the financial condition of the University is appended.

The examiners for the past Academical year, outside the Faculty, were as follows: *Classics*, the Very Rev. Dean Partridge, D. D.; *Hebrew*, the Venerable Archdeacon Smith, D. D.; *German*, Rev. H. A. Harley, M. A.; *Engineering*, Prof. W. R. Butler, M. Eng.

UNIVERSITY OF KING'S COLLEGE, WINDSOR, NOVA SCOTIA.

An Act of Parliament was passed in 1789 for the establishment of "King's College of Nova Scotia," in accordance with the recommendation of a Committee of the House of Assembly, November, 1787. The College was opened in 1790, and a Royal Charter was granted by His Majesty King George III. in 1802.

The object aimed at in the Arts Course is to impart a good general education, while every facility is afforded for the prosecution of special studies. Accordingly, every Resident matriculated student, except under peculiar circumstances, to be approved of by the College Board, is required to attend the Lectures of all the Professors until he has passed his Responsions. After this he is at liberty to select three or more of the subjects lectured on to form the subject of his B. A. Examination. If the student be desirous of taking Honours at his B. A. Examination, he can do so in any one or more of the subjects lectured on after passing the ordinary Examinations. The precise regulations will be found under the heading of Examinations.

There are at present in the University six schools open to matriculated students:—

| VI. | “ Medicine. |

Examinations and Graduation.

TERMINAL EXAMINATIONS.

Every student is required to undergo an examination at the end of Michaelmas and Easter Terms in all the subjects in which he has attended lectures. Any Professor may, at his discretion, dispense with examination in optional subjects.

Every undergraduate, previous to presenting himself for any Terminal Examination, must obtain from each Professor whose lectures he has attended during the term, a certificate of attendance and good conduct.

No Professor will grant such certificate if more than two absences without leave, during the course of the term, are recorded against the applicant, or if his conduct has been in any way reprehensible.

Epitome of Proceedings of the Annual Meetings of the Alumni,

Held in the College Hall, Windsor, on Wednesday, June 21st, 1899, at 10.30 a. m.

Dr. Trenaman, President, in the chair.

Prayers by the Bishop.

The minutes of last annual meeting, 22nd June, 1898, were read and approved.

The minute book of the Board of Governors and statements of the college finances were laid on the table.

Proxies were handed in, examined, and found correct.

The following were duly proposed and elected members of the Association:—

Hon. Mr. Justice Fitzgerald, Charlottetown, P. E. I.

Horace Longley, Halifax, N. S.

J. L. S. Foster, Mahone Bay, N. S.

Rev. J. W. Godfrey, Georgetown, P. E. I.

Rev. Sidney H. Morgan, Musquodoboit Harbor, was enrolled a member of the Association, under No. 15 of "Rules passed at different times."

The Report of the Executive Committee, was read, and received and adopted as follows:—

REPORT OF THE EXECUTIVE COMMITTEE.**COLLEGE STUDENTS AND THEIR EXPENSES; FOUR YEARS COURSE.**

1. The number of students during the past year has been, owing to sickness and other causes, slightly below that of the preceding year, but in other respects satisfactory progress has been made.

There can be no doubt that the small attendance is largely due to the fact, to which we have before called attention, that the charges for board, &c., are higher than at other Colleges; but under existing circumstances it is impossible to make them lower. One method only of effecting a reduction has been suggested, and because it is a means to so desirable an end, if for no other reason, it calls for careful attention.

The Governors have now under consideration the alteration of the course for B. A. to four years instead of three—a change which has long since been adopted by all the other Colleges about us. Such

alteration would involve a shortening of the College year, and would make it possible to reduce the general charges from \$200 to \$150 per annum. It may be added that the College Board, after weighing the matter in all its bearings, are unanimously in favor of the change.

COLLEGE LIBRARY.

2. Through the energy of the Rev. W. R. Cochran, D. D., a case of some 700 volumes of valuable books, collected by him in England, has been added to the College Library.

The complete re-arrangement and classification of the books in Library—a work which had come to be much needed—has been going on during the past year, being voluntarily undertaken by the students, with the approval of the College Board, and under the superintendence of the Librarian.

A cabinet catalogue with movable cards has been purchased and will be filled in as soon as possible, thus greatly facilitating the use of the Library for reference.

COLLEGIATE SCHOOL.

3. The hopes expressed last year of a substantial increase in the number of boys at the Collegiate School have been fully realized, and under Mr. Handsombody's management the school is steadily growing in efficiency and in public favor. The health of the boys has been excellent and their conduct beyond reproach.

CHURCH SCHOOL FOR GIRLS.

4. The Church School for Girls has had a larger attendance during the year just closed than during any previous year of its history. The determination of the Lady Principal to preserve a good tone in the school, and to maintain proper discipline at any cost has done much to increase the confidence of parents in the school.

The scheme for local examinations in connection with the College, to which we alluded a year ago, has come into practical working, and this year eleven girls presented themselves for the junior examination, and seven for the senior, with excellent results.

LAW SCHOOL AND CONTRIBUTIONS FROM DIOCESE OF FREDERICTON.

5. Steps have been taken, we understand, to carry into effect our suggestion of last year, that New Brunswick should relieve the College of the burden of the Law School by contributing to the College at least as much as is annually given to the Law School. We are unable to say yet how far the efforts made have been successful; but we hope next year to report a substantial measure of relief.

In the meantime we again call attention to the utterly inadequate remuneration given to the Professor of English Literature for the energy and efficiency with which he discharges his duties.

KING'S COLLEGE MEDICAL FACULTY.

6. The committee are pleased to learn that two candidates have presented themselves for the primary M. D., C. M. examination of this University, in connection with the Faculty of Medicine and Surgery recently organized.

SUSTENTATION FUND.

7. The Sustentation Fund Committee has paid in the following contributions collected since 1896:

Rev. G. O. Troop.....	\$10 00
Dr. H. P. Jones.....	10 00
Dr. J. C. Moody.....	10 00
W. C. Ambrose.....	9 00
R. J. Wilson.....	10 00
Rev. E. D. P. Parry.....	4 00
	—————\$53 00
Less Bank charges.....	1 50
	—————\$51 50

This amount has been paid to the Treasurer of the College.

TREASURER'S ACCOUNT.

8. The Treasurer's account, duly audited, and showing a balance in hand on current account of \$73.72, and investments amounting to \$5921.33, is submitted herewith.
